

156 Eyewitness Accounts Were Omitted From The Mainstream Media's Narrative Concerning September 11, 2001

South Tower: "I guess about three minutes later you just heard explosions coming from building two, the south tower. It seemed like it took forever, but there were about ten explosions. At the time I didn't realize what it was. We realized later after talking and finding out that it was the floors collapsing to where the plane had hit. We then realized the building started to come down." -Carlsen, Craig (9110505)

Just today, while taking my son to the dentist, I scrolled through my media feed and I started to notice post after post with first responders and firefighters telling us of their accounts as to what was happening inside of the Twin Towers on the lower floors after explosions took place on the upper floors.

Here are firefighters countering mainstream media's narrative (Vulgar Language).

I also noticed that there was post after post of the American people questioning the mainstream media's narrative, and rightly so (Isaiah 5:20).

Learning from history, as well as to how the American mainstream media's sick and evil game is played out today, let us remember that history is repeating itself in the present (Jeremiah 11:9).

Does this look and sound familiar?

Propaganda Minister under Adolph Hitler Joseph Goebbels said,

"If you tell a lie big enough and keep repeating it, people will eventually come to believe it. The lie can be maintained only for such time as the State can shield the people from the political, economic and/or military consequences of the lie. It thus becomes vitally important for the State to use all of its powers to repress dissent, for the truth is the mortal enemy of the lie, and thus by extension, the truth is the greatest enemy of the State."
