

1885 Smallpox Vax Was the Blueprint for Today's Covid-19 Vax

By Kelleigh Nelson

February 15, 2022

In a sense, bioterrorism phase one was rolled out. It was really all about keeping the population in fear and in isolation and preparing them to accept the vaccine, which appears to be phase two of a bioterrorism operation. –Dr. Peter A. McCullough

Dr. McCullough gives us a stark and clear summary: “Remdesivir has two problems. First, it doesn’t work. Second, it is toxic and it kills people.” –Robert F. Kennedy, Jr.

One-third of teens and young adults reported worsening mental health during the pandemic. According to an Ohio State University study, suicide rates among children rose 50 percent. A study in August 11, 2021 by Brown University found that infants born during the quarantine were short, on average, 22 IQ points as measured by Baylor scale tests. Some 93,000 Americans died of overdoses in 2020—a 30 percent rise over 2019. –Robert F. Kennedy Jr.

This vaccine is directly killing individuals...It can damage you, no doubt about it. The scoreboard is lit up as bright as it can be: death, hospitalization, cardiac and neurologic injuries, miscarriage, still birth, it can’t get worse. I can’t think of any drug or any injection that is as dangerous

as this group of vaccines, in particular, the Pfizer vaccine.

—Dr. Peter A. McCullough

The killing fields of America are here. We are at a crossroads. Death by government and Big Pharma is staring us in the face. This isn't the Tuskegee Syphilis experiment by our US Health Department, this isn't the cancer-causing polio vaccine injections of the 50s, or the plutonium experiments on babies and military in the 40s, all of which were evil unto themselves and totally unconstitutional. This isn't even the heinous abomination of millions upon millions of European Jews slaughtered in the Holocaust. No, as evil as these past genocides were, COVID hospital protocols and multiple C-19 "vaccines" are a worldwide genocide proliferated by the medical drug cartel and their mafioso friends.

The determination to preserve medical freedom is in our hands...and the war is on against the mandated murderous jabs by government, Big Pharma and their stakeholders. These pharmaceutical companies are bringing in billions with this evil inoculation, and now they're on their 4th booster jab despite thousands of deaths and adverse effects. They're targeting our infants and toddlers but the FDA has refused, for the time being, approval of these jabs for children six months to five years.

Canadian truckers who want the jab mandates stopped have been arrested and their trucks hauled away after the government cut off their food and fuel. Trudeau's totalitarian edicts have destroyed any semblance of freedom in Canada. Without truckers, supplies will be even more limited, but the elitists will never starve.

Forced vaccines are not new.

History Repeats

Mandatory vaccination has happened before...with smallpox 135

years ago. Here's what a Midwest doctor told Steve Kirsch:

What is currently happening with the COVID mandates and protests is nearly identical to what happened 135 years ago with the smallpox vaccine campaigns, where the vaccination made smallpox epidemics worse, the vaccines killed a lot of people, the public refused them and governments responded by harsher and harsher mandatory vaccination laws.

Eventually one of the largest protests of the century broke out in 1885, vaccine mandates were scrapped in one area in favor of alternative management of smallpox, and this is what actually ended smallpox.

My belief is that this is a very important message to get out to the current protest movement and will do a lot of good if it does.

I wrote a 10-page concise but detailed and referenced summary of everything that happened which I want to be made available (but I do not want credit for).

The [entire summary can be found here](#) and I would greatly appreciate it if you could bring awareness to this issue.

The deadly mistakes of 135 years ago are evident today. Interestingly enough, the smallpox vax was forced upon our military after 9/11 and it caused myocarditis.

Vax Injuries

Three respected immunologists, Dr. Luc Montagnier (who won the Nobel Prize in 2008 for his discovery of the HIV virus, and who recently passed away), Dr. Sucharit Bhakdi, the most published immunologist in history, and Dr. Geert Vanden Bossche, a top immunologist in the Netherlands, have all warned that when you mass vaccinate in the middle of an active outbreak, you cause variants to emerge. American dissident physicians have stated the same.

Dr. Bhakdi comments, "There is a good possibility that whoever orchestrated this knows exactly what they're doing, and they are doing it on purpose to maintain the new variants and the consequences, which is essentially a psyop to cause a global psychosis due to fear, lockdowns and face diapers."

In this [17-minute video](#), Dr. Sucharit Bhakdi explains the irrefutable bodily damages from the jab. People who died after having the vaccine, had family-requested autopsies and nothing was found until Dr. Arne Burkhardt performed more thorough autopsies. Burkhardt is one of the most experienced pathologists in Europe.

In the organs of 90% these people Dr. Burkhardt found clear evidence of auto-immune attack by killer lymphocytes on the tissues, the main organs being the heart, the lungs and the liver. His article, "[Notes and recommendations for conducting post-mortem examination \(autopsy\) of persons deceased in connection with COVID vaccination](#)," is posted on [Doctors for Covid Ethics](#). The data is so damning and proves these inoculations are killing the young and the old.

It is now known that auto-immune attack reactions, leading to self-destruction, are being triggered by these "vaccines." Dr. Bhakdi states, "What Arne Burkhardt found was that in 90% of the deceased, age 28 to 90, women and men, one to one, who would never have thought they'd die because of these 'vaccines,' the same pathological findings were found in all of them. When Dr. Burkhardt says killer lymphocytes have invaded the hearts and lungs, and sometimes other organs of these people, the question arises, 'Why the hell do killer lymphocytes invade the organs?' The only answer is that these organs are producing the targets that are seen by the killer lymphocytes, and that target is the viral protein."

What is going to happen? Bhakdi says, "Your lymphocytes and the cells responsible for immune control over your body are dying. They are responsible for controlling viruses and every

other disease that attacks the body.

Because of the jabs, the immune system is dying. The result will be high incidences in various countries of tuberculosis where it is now dormant. Tumor cells are no longer under control causing increased numbers of cancers, [as evidenced by pathologist Dr. Ryan Cole of Idaho](#), viruses, herpes, Epstein-Barr, Cytomegalovirus (CMV) which kills babies in the womb, toxoplasmosis, and a horrifying number of other illnesses.

Dr. Bhakdi tells us, “Clearly the ‘vaccines’ are not working – a fantastic business circumstance for Big Pharma to continue generating income with ‘boosters’ – but not so good for humanity.”

Two high school basketball players suddenly [dropped dead on the court](#) last week with heart problems.

Bill Gates, who is the principal investor in many of these COVID jabs, stipulated that their risk is so great that he would not provide them to people unless [every government shielded him from lawsuits](#), just like they shield the pharmaceutical giants who made these mRNA jabs.

Pfizer announced that the COVID-19 “vaccine” it makes with BioNTech registered a staggering \$36.8 billion of sales in 2021.

Meanwhile, Moderna’s CEO dumped his stock and deleted his twitter account. The [Moderna CEO’s strange moves came shortly after a former Blackrock executive began investigating the death statistics](#) from insurance companies and funeral homes.

Deadly Hospital Protocols/Remdesivir

Registered nurse, Nicole Sirotek spoke out at Senator Ron Johnson’s hearing of “dissident” medical professionals who were speaking the truth about the injections and the hospital protocols for treatment of COVID. Watch her [eight-minute](#)

[talk](#).

Ms. Sirotek states that she didn't see a single patient die of COVID, she's seen a substantial number of patients die of negligence and medical malfeasance. She was told by the staff that they were just following orders. She stated that she saw the pharmaceutical companies rolling out remdesivir on the patients, when they had no right to treat them. She said everyone saw that this FDA approved costly drug was killing the patients and they had less than a 25% survival rate if they received more than two doses at an extremely high cost, not to mention the destruction of their kidneys/liver.

So why in the world would the FDA approve a drug that must be monitored for kidney/liver failure? The FDA now approves the drug to treat "non-hospitalized patients." The drug is administered through an IV, and patients must be closely monitored. But non-hospitalized? Doctors have sounded [the alarm](#) for months, but their voices have fallen on deaf ears.

[Remdesivir is first degree murder](#). It is being used to kill us.

The antiviral drug is owned by Gilead Sciences and developed with investment from the federal government, that being NIAID and the CDC at a tune of \$79 million. Bill and Melinda Gates Foundation owns a \$6.5 million stake in Gilead. It had languished for years with no apparent commercial use. But remdesivir was a big win for Gilead when it was given to half the patients hospitalized with COVID. [Link](#) Anthony Fauci knew of remdesivir's toxicity when he orchestrated its approval for COVID patients.

Dr. Fauci has persistently insisted on double-blind randomized placebo trials for medicines he dislikes (those that compete with his patented remedies) and airily [fixed the NIAID study of remdesivir](#) by changing the endpoints midstream to favor the drug. He has never demanded randomized studies to confirm

safety of the combined 69 vaccine doses currently on the childhood schedule. Every one of these vaccines is regarded as so “unavoidably unsafe” in the words of the 1986 Vaccine Act (NCVIA) and the Supreme Court, that their manufacturers have demanded, and received, immunity from liability. Page 35, [The Real Anthony Fauci](#) by Robert F. Kennedy, Jr.

Nicole Sirotek tells of a 10-year-old she had to have flown out who had received the first jab the previous day and had myocardial infarction. She says, “The doctors won’t believe it and use victim shaming claiming it’s anxiety or stress, but if they put down that it was a vaccine injury, the physician and corporation, the hospital or clinic actually won’t get reimbursed, so it is labeled as anxiety or neuropathy, or Guillain-Barre Syndrome.”

Hospitals receive payments for testing every patient for C-19, every diagnosis and every ‘COVID death,’ as well as any time they use remdesivir and mechanical ventilation. They don’t get a special bonus if you live, so is it any wonder patients still aren’t receiving appropriate care?

WHO has issued a conditional recommendation [against the use of remdesivir](#) in hospitalized patients, regardless of disease severity, as there is currently no evidence that remdesivir improves survival and other outcomes in these patients!

[Dr. Paul Marik](#), chief of pulmonary and critical care medicine at Eastern Virginia Medical School and former director of the ICU at Sentara Norfolk General Hospital, learned about his [14-day suspension](#) when he arrived to work last November and found a letter on his desk. Because he would not treat patients with remdesivir when he was at Sentara, but wanted to save their lives with alternative inexpensive repurposed drugs, he was suspended for two weeks. Dr. Marik has [testified](#) that remdesivir increases the risk of death. Sentara eliminated one of the finest physicians they had, a physician who actually developed a treatment for sepsis that saves 50-80% of

patients. Marik is the co-founder of [Front Line COVID-19 Critical Care Alliance](http://flccc.net), (flccc.net) which offers prevention and treatment protocols for COVID.

Negligence and Medical Malfeasance

Nicole also said that she had worked in other countries on the COVID virus, and she sees America's healthcare as so deteriorated as to be like that of third world countries. She said she was getting reports from the organization she founded, [America's Frontline Nurses](#), saying that patients were not getting food or water. "How come a patient hasn't been fed in nine days who isn't intubated and is telling that they would like to have food?!" She said she's had patients on vents who haven't been bathed, fed, given water or turned to avoid bed sores.

"If you ask me, this isn't a hospital, it's a concentration camp. Nowhere in the United States do we isolate people for hundreds of hours at a time with no human contact. It's not even allowed in the prisons. You cannot isolate prisoners beyond a certain period of time because it's horrible for their mental health and it's considered inhumane. However, in these hospitals now, we're allowed to isolate patients from their families for days, and you have to say goodbye to them over an iPhone."

In this latest [horrific story](#), a father was forced to  leave his teenage Down Syndrome daughter who was sick with C-19, after four days of being by her bedside. The hospital actually threw him out. The guard who walked him to his car told him to seek a higher authority. They sent their other daughter in to be with her, but most shocking was that one of the physicians put a "Do Not Resuscitate" on his daughter's chart and hours before she died, Grace received an assortment of drugs – including three doses of lorazepam and a dose of morphine. The parents watched their daughter die via FaceTime while their other daughter screamed for the nurses. They were

outside the door and would not come into the room to save the teen they had just murdered with drugs that were used for palliative care, not for the Wuhan virus.

How can anyone call this anything but mass murder?!

Critical Against Government? You're a Domestic Terrorist

The Biden administration has designated free speech as a terrorist threat when it criticizes the federal government. The Department of Homeland Security U.S. terrorism threat [summary](#) includes spreading 'disinformation' about not trusting government!

It states, (1) the proliferation of false or misleading narratives, which sow discord or undermine public trust in U.S. government institutions.

This bulletin is in effect until June 7, 2022.

Our dissident physicians, scientists and nurses, along with authors, journalists and American citizens are now considered domestic terrorists for freely speaking/writing our beliefs.

Conclusion

In 1860, Frederick Douglass commented, "Liberty is meaningless where the right to utter one's thoughts and opinions has ceased to exist."

Silence is not golden! The medical drug cartel mafia are determined to quell the truth as well as the dissidents who utter it. It is essential that no voice of truth be stilled!

They must hear the cry of FREEDOM!
