

9/11: Quest For The Truth Continues – What You Don't Know

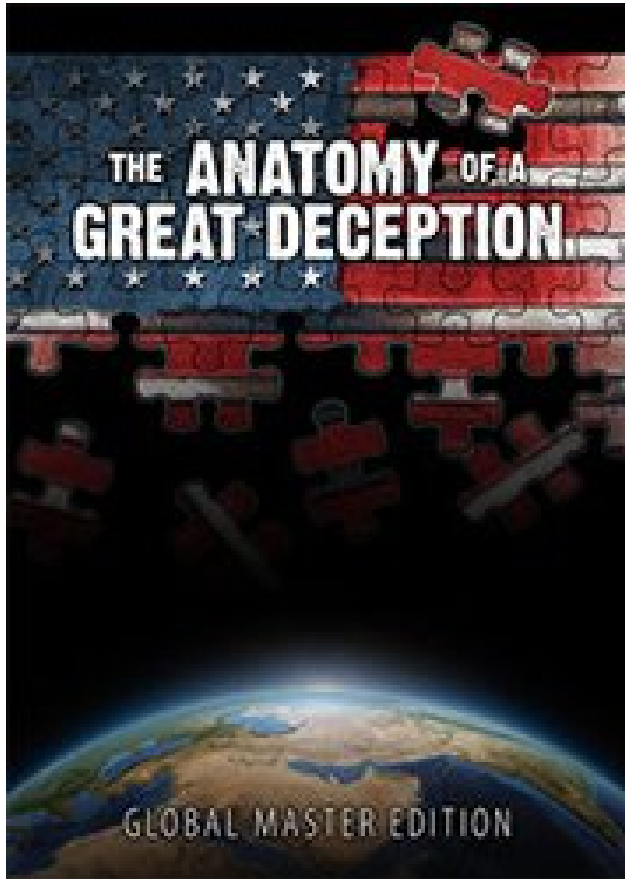

Like so many, many others, yours truly has been called every conspiracy name in the book just because 18 months after 9/11, I could no longer ignore what was right in front of my face.

America has been torn apart by Trump's election. Years, not months, of dirty, rotten treasonous activities by higher ups in the FBI, DOJ and who knows who else.

Our whole nation is being ripped by special interest groups for one cause or another while a massive human invasion continues on our Southern border. Drugs, Muslim terrorists and leeches flood across the border while the scum in Congress spend their time on whizzing contests to see who can out-subpoena the other.

[FBI Breaks Up Homegrown Islamic Terror Camp in Alabama Owned by Terrorist Siraj Wahhaj and his Supporters](#), May 11, 2019

Muslims who by their belief in a phony religion they call Islam which is NOT a religion, continue to get elected to public offices all across this country. Gullible, tolerant fools in this country continue to defend Muslims so as not to be slapped with some offensive label. *We as a nation are going to pay for such stupidity in the not too distant future.*

This September 11th will mark year 18 since that day most of us will never, ever forget.

Eighteen long years families have been fighting for the truth. Not the lies and cover-up by agencies of our government, but the truth about what really happened that day.

You know, kids today weren't even born when our country was shaken to the core. Millennials on the lower end of the birthday scale were toddlers. They have grown up in a world of electronic gadgets, iPhones, smart phones, iPads, social media. They haven't a clue about 9/11 which given their ages is understandable.

What is not understandable to me is why adult aged Americans by the tens and tens of millions simply refuse to consider anything other than the official story about 9/11. Oh, yeah, it's painful. I will NEVER forget that morning and well into the days afterwards while glued to the TV.

Americans knew the enemy on Pearl Harbor Day, no question about that. Congress declared an act of war and the rest is history. At the time Americans had no idea their socialist

president, FDR was the one responsible for that attack. **He allowed it to happen:** [FDR and the Pearl Harbor attack](#) my column on WND:

"When Franklin Roosevelt died during the closing days of World War II, it fell to Truman to end the war and formulate policies for a new world order." –The Smithsonian Treasury: The Presidents, 1991

"One shouldn't believe everything they read in a book, but in the case of "Day of Deceit: The Truth about FDR and Pearl Harbor" by Robert B. Stinnett, there can be no denying the awful truth that FDR not only knew the Japanese were going to attack, but official documents prove FDR *wanted* them to strike America first.

"Stinnett spent 16 years doing his research and fighting in the courts to obtain a plethora of shocking documents under the Freedom of Information Act – their authenticity cannot be denied. [This link to a .pdf file](#) provides a few of the official documents, i.e., "It (official document) directs the Hawaiian U.S. Army commander, Lt. Gen. Walter Short, to follow an official U.S. government desire: 'The United States desires that Japan commit the first overt act.'"

"Pearl Harbor was no surprise. "Day of infamy," indeed." And, yes, on a beautiful Sunday morning FDR got his wish.

Sixteen years to get the documents. We are into almost 18 years since 9/11. Due to the dedication of thousands of Americans, the truth about 9/11 IS going to come out – no thanks to the rotten media cabal and even the majority of alternative media on the Internet. The real truth about 9/11 is just too horrible to even approach.

No, I'm not one of those who think George Bush, Jr., had anything to do with the planning or execution. Never have. He's too dumb and unreliable to be included in something so dark, so sinister, so savage. Muslims were involved, no

question about that. Their hatred of these united States of America is sealed in cement.

Ilhan Omar was elected via fraud to the U.S. House last November. I believe at this point there's no doubt she married her brother but then what can one expect? Muslims in-breed and have been doing so for over a thousand years. She is a lying, dangerous America hating piece of scum who should be removed from Congress.

Architects & Engineers for 9/11 Truth have taken brutal beatings over the years because hundreds of them which has become thousands, took a look at what happened to Building 7 on 9/11 and the Twin Towers. Their training and experience (I mean individuals with 30-40 years of demolition expertise) told them something was wrong. **Their eyes told them the truth while the TV and government lied through their teeth.**

Last month Ilhan Omar who makes me sick to my stomach, made a comment that was so sickening you just wanted to hit something: "Some People Did Something on 9/11". The outrage was deafening except to those who tried to prop her up with nonsense like she doesn't have a good understanding of language. Omar is a Somali who should be shipped back on a raft.

A & E for 9/11 Truth posted a video playing off her toxic words that I want you to watch right now. It's about six minutes. Like some original film I have from the OKC bombing, it's these on-site people and media coverage in real time that should have alerted Americans that what they were then sold later on was a lie.

Please. Take the time and then come back here. [Video](#)

See what I mean?

The architects and engineers with that group have traveled to many countries over the years participating in forums,

presentations and doing media in an effort to rally for the truth. Of the nearly 3,000 who died in the World Trade Towers many were not citizens of this country.

I know I ask you to read a lot which is why I say bookmark this column and get to it this weekend. We CANNOT defeat our enemies until we understand them and we cannot expose the truth without becoming educated about an event. This is a read and watch videos contained in article: [AE911Truth Journeys to Switzerland for Gathering of Forward-Thinking Minds](#)

“Gage started off by explaining the continuing importance of understanding the cataclysmic event that rocked the world 17 years ago.

“We’re not just talking about buildings here!” he said. “The events of 9/11 reshaped our foreign policy and resulting debt in the national economy – as well as decimating our civil liberties. We invaded two countries, where we are still engaged in the longest wars in our history. We killed more than two million people.

“We are engaged in a \$5 trillion war on terror. Any of us can be arrested and imprisoned without a right to lawyer, a trial, a jury. We can be tortured and even assassinated. It all started with 9/11! And, most specifically, it started with the catastrophic destruction and loss of life at the World Trade Center. If there is *any* question about what really happened there, then shouldn’t we exhaust all means of finding the truth?”

“Simple, that is, until one actually looks at the evidence and easily determines that: (1) The Twin Towers could not have possibly failed in the manner the government attempted to show they did, and (2) there is ample forensic evidence and eyewitness testimony proving the intentional controlled demolition of not just the Twin Towers but also of Building 7 (which was *not* hit by a plane but which imploded in seven

seconds later that afternoon).

“After Gage finished cataloguing [all the signs](#) pointing to explosives and incendiaries having been planted in all three buildings, the audience seemed stunned by the overwhelming quantity and irrefutable nature of the evidence he laid out. They leveled some thoughtful questions at Gage: “Why would the perpetrators have done this?” and “How could they set up all those explosives?” were among the queries.”

Their work has been attacked, their reputations trashed as well as anyone who has written a credible book seeking the truth about what happened that day. I’ve covered this so many times in columns.

One of the handful of what I consider to be a must watch and most credible as far as explaining and SEEING the deceit and lies is an independent film titled, [Anatomy of a Great Deception](#) viewed free on line more than 3.1 MILLION times. It will change your mind about how you feel about the government’s cover-up. Anatomy of a Great Deception Part 2 is coming out this September.

Massimo Mazzucco produced a five-hour documentary, The New Pearl Harbor. I ask you: What if it was your loved one who died that day? Murdered on those planes that went into the World Trade Towers, Flight 93 and Flight 77 which did not hit the Pentagon.

Oh, Flight 77 didn’t hit the Pentagon? No. Where did it go? I believe I know and someday someone with enough money who wants to find the truth I’d be happy to tell them my theory based on the only option in ditching a commercial jet liner that day. Believe me, if I had Trump’s money, the operation would already be underway.

Anyway, Mazzucco’s documentary is a must watch. You can do it in sections as [he has made it very simple on his web page](#). There is a 29-minute clip from his documentary on You Tube

dealing with the Muslim “pilots” who as you will come to see couldn’t fly their way out of a paper sack never mind the incredibly difficult time maneuvering the alleged flight path of Flight 77 into the Pentagon. [9/11, The Hijackers](#)

[Hani Hanjour: 9/11 Pilot Extraordinaire – From the ridiculous to the sublime](#)

“[Flight Academy] Staff members characterized Mr. Hanjour as polite, meek and very quiet. But most of all, the former employee said, they considered him a very bad pilot. “I’m still to this day amazed that he could have flown into the Pentagon,” the former employee said. “He could not fly at all.” [[New York Times](#)]

This is also a must watch video (37 minutes): [MASSIVE Breakthrough In 9/11 Investigation!](#) – (with Richard Gage & Barbara Honegger), Dec. 1, 2018

For those unfamiliar with Barbara Honegger, she has been a real dog with a bone; this interview deals with the grand jury. “...Barbara Honegger who famously exposed the truth behind the Iran Contra scandal in the 1980s as a member of the Reagan White House with her book ‘October Surprise’ and now works with the Lawyers Committee For 9/11 Inquiry.”

Besides A & E for 9/11 Truth, another organization that has spent who knows how many thousands of hours on this planned event is [Pilots for 9/11 Truth](#):

“Pilots for 9/11 Truth is an organization of aviation professionals and pilots throughout the globe who have gathered together for one purpose. We are committed to seeking the truth surrounding the events of the 11th of September 2001. Our main focus concentrates on the four flights, maneuvers performed and the reported pilots. We do not offer theory or point blame at this point in time...

“We do not accept the 9/11 Commission Report – a Commission

admittedly “set up to fail” according to the Chairman himself, nor “hypothesis” as a satisfactory explanation for the continued gross violation(s) of the United States Constitution being committed by Government agencies, and the sacrifice every American has made and continue to make – some more than others.

“We stand with the numerous other growing organizations of Firefighters, Medical Professionals, Lawyers, Scholars, Military Officers, Veterans, Religious and Political Leaders, along side Survivors, family members of the victims – family members of soldiers who have made the ultimate sacrifice – including the many Ground Zero workers who are now ill or have passed away, when we ask for a true, new independent investigation into the events of 9/11.”

According to the media – MSM and a whole lot on alternate media sites – the architects and engineers who have sacrificed so much and these pilots with actual flying experience in the same model commercial jet air liners are nothing but conspiracy nuts who don’t know what they’re talking about.

Really? The ALL have nothing better to do than spend years of their lives trying to get the truth to the American people?

This is what is going on right now. I hope you take time to read the links below so you and hopefully millions via social media networking will see what’s going on is deadly serious. If you think the war being waged against Trump by the Unseen Hand (aka Deep State) is something, blowing open 9/11 will be a category ten hurricane.

[9/11 Grand Jury: An Unprecedented Opportunity](#)

“What transpired last month is without question the greatest step forward the 9/11 Truth Movement has ever taken toward bringing about a *real* investigation into the events of September 11, 2001.

“In a letter dated November 7, 2018, the [U.S. Attorney for the Southern District of New York notified the Lawyers’ Committee for 9/11 Inquiry](#) that he would comply with the provisions of 18 U.S.C. § 3332 requiring him to present to a special grand jury the Lawyers’ Committee’s reports filed earlier this year of unprosecuted federal crimes at the World Trade Center.

“This means a 23-member grand jury, vested with subpoena power and the authority to take sworn testimony, will hear the voluminous evidence of the World Trade Center’s demolition and will have the ability to conduct a thorough investigation that results in indictments against suspected individuals – in other words, what the 9/11 Truth Movement has been working toward for 17 years.”

[Lawyers’ Committee ‘Names Names’ in New 9/11 Grand Jury Filing](#), March 12, 2019

“Today, the Lawyers’ Committee for 9/11 Inquiry – with whom AE911Truth has partnered in our ongoing [Grand Jury Investigation Project](#) – announced the filing of a “[petition supplement](#)” naming persons who may have information material to the federal grand jury investigation of the World Trade Center’s explosive demolition on September 11, 2001.

“The 33-page document contains 15 different categories of persons who may have information material to the investigation, including contractors and security companies that had access to the WTC Towers before 9/11, persons and entities who benefited financially from the WTC demolitions, and persons arrested after being observed celebrating the WTC attacks.

“[A names-redacted version](#) of the petition supplement, which was filed with the U.S. Attorney for the Southern District of New York on February 14, 2019, has been made available to the public. The un-redacted version filed with the U.S. Attorney today will remain undisclosed in the interest of maintaining

the secrecy, security, and integrity of the grand jury proceeding.”

There were trucks going into the basement levels of the World Trade Towers in the middle of the night preceding that horrible day. Just like two men were seen rigging wires in the parking/basement area of the Murrah Building a few days before it was blown in OKC. A demolition from the INSIDE, not from a Ryder truck.

Media censorship over this lawsuit: [Courthouse News yanks article for its woefully fair and accurate coverage of 9/11 lawsuit](#), March 28, 2019. I can tell you I hit on Courthouse News here and there and it's not close to fair or balanced anything.

If the masterminds behind 9/11 think they are going to get away with it, well, they might pass away from old age, but one way or the other, just like Pearl Harbor, the truth WILL be exposed to the world.

And if I, like so many others, get attacked and called vicious vile names and labels, so be it. The deaths on 9/11 should never be forgotten and I don't know about you, but my heart bleeds for all the families, both here and in other countries.
