

# A New Growing Strain Of Anti-Semitism

Ilhan Abdullahi Omar of Minnesota, a Somalian by birth and Rashida Harbi Tlaib of Michigan, of Palestinian descent are the first two Muslim women ever to serve in the US Congress. They have been given carte blanche to do and spew anything they wish without any retribution or repercussions.

These two freshman Jew hating anti-Semites did not waste any time in attacking Israel and the Jewish people the

moment they arrived at Capitol Hill. Like their fellow Muslims, they consider Jews and Israel the sworn enemies of Islam. This hostility dates to the time of Muhammad's own treatment of the Jews in Medina. At first, expediently, Muhammad called the Jews "people of the book," and accorded them a measure of tolerance until he gained enough power to unleash his devastating wrath upon them.

"Israel has hypnotized the world," Omar tweeted in 2012. "May Allah awaken the people and help them see the evil doings of Israel."

Anti-Semitism sentiment has always existed throughout the ages for no valid reason. However, there is new strain of violent anti-Semitism now widespread throughout the left, permeating well into the [Democrat party's](#) lowest and highest echelons of

their left-wing. It is a raw Jew-hatred that covers itself as “anti-Zionism.”

For days, the Democrats struggled with whether or not to discipline lawmaker [Ilhan Omar](#) for her anti-Semitic views, arguing over whether Omar, one of two Muslim women in Congress, should be singled out, what other types of bias should be decried in the text and whether the party would tolerate opposing views on Israel. But they could not come up with a way to condemn her simply because she is a Muslim. Muslims all over the world get a free pass simply because the elected officials are fearful of being labeled racist, even though Islam is not a race.

By granting Omar a free pass, the Democrat Party officially announced that using anti-Semitic diatribes will be tolerated at the highest level of the Democrat Party.

Twenty-two Senate Democrats, including five presidential candidates, voted against legislation aimed at curbing the anti-Semitic boycott movement.

It appears anti-Semitism is being normalized at the top levels of government. Is it shocking that the hatred of Jews has seeped into academe where thousands of professors support the anti-Semitic boycott, divestment and sanctions ([BDS](#)) movement?

Many universities in the U.S. are bastions and incubators of Useful Idiots. Far left professors do more than teach their

specialty subjects. They feel that they have license to pontificate on any and all matters. That is why they are called "professors." These self-appointed prima donnas cover themselves with the shield of academic freedom. Academic freedom is like liberty-it can be abused often and abused greatly. That is the price of freedom. Yet, these abusers of freedom, the far left, will be among the first to be buried under the rubble of a free society's collapse they work so doggedly to bring about.

An example: a university professor refused to write a letter of recommendation for his student, when he discovered she was planning to study in [Israel](#). Then, more than 1,000 of his colleagues signed a petition in his support which stated they would do the same thing. This is an unbelievable response and unconscionable in the extreme to witness such bigoted behavior on display at an American university.

Unfortunately, the social media has become a gutter filled with anti-Semitic websites, posts and comments that reinforce, encourage and publicize Jew-hatred. I personally have been banned by both twitter and Facebook for no reason at all except telling the truth and posting a picture of a Palestinian terrorist. There is no accountability whatsoever as to why Muslim terrorists and their fellow Democrats are free to say and post anything without any repercussions, but a conservative is banned or his account is closed for expressing his factual and accurate opinion.

# Antisemitism, Hate Speech & Social Media

It is long overdue in needing responsible journalists and editors to oversee news and editorials, who will put an end to the anti-

Israel or anti-Jewish, bias much of which has anti-Semitic undertones. We need to present the unfiltered facts.

This does not imply that Israel cannot be criticized, but it does mean that it should be covered with the same level of objectivity as other countries and that its actions be placed in historical and synchronous context.

In short, the Democrat Party has officially joined with anti-Semitic groups all over the world.

The Democrat Party has deliberately put America on a precarious path to lose its religious freedom, American values and so much more. We must reject these actions and be as vocal as possible to declare the current Democrat Party an adversary of the United States and our Constitution. Their racist and tacit actions against the Jewish people must be condemned at all levels. The Democrat Party is no longer the party of JFK or Harry Truman. It has become the greatest threat to our national security and America's survival as a nation.
