

# A Patriot's View of Root Causes of Tyranny and How to Defeat Them

By Andrew Wallace

July 15, 2023

There are only a few root causes for the replacement of our Constitutional Republic by an Unlawful Criminal Enterprise comprising most of the three branches of federal government, which has no legal standing whatsoever.

We only need to expunge these few criminal activities that have no legal standing, in order to regain our rights from God and our Constitution.

Our public-service law firms are quite happy to litigate the results, but never the root causes of tyranny, for it means lifetime employment for them to fight never-ending criminality.

In writing this article, I am cognizant of the fact that Constitutional references are required, but also that too many words reduce readership and comprehension.

First, we must know the Enemy, and it is the Parasitic Super-Rich Ruling Class (PSRRC), wealthy billionaire families and their minions in 'woke' corporations and government.

We must further accept the cold, hard fact that most elected officials and bureaucrats in all three branches of government are bribed by the 'woke' corporations (for the PSRRC) to do

their bidding to the detriment of citizens and the world.

The Enemy's objectives are as simple as they are evil: complete destruction of the Republic, impoverishment and enslavement of the people, depopulation, and total world power.

All of this has been proven by their actions.

Everything that has been done by the PSRRC, in conjunction with their minions in government, was accelerated in 1913, when they replaced tariffs with the income tax and Federal Reserve Bank. It was done to gain power and wealth at the expense of the people.

Evidence is now surfacing that World War Two was caused by the United States and its allies for power and profit.

Since World War Two, we have fought one war after another for the last 77 years, all for profits of the PSRRC, and not one war had anything to do with the national security of the United States! All were "justified" by False Flags.

Our Flag Officers did not win even one of these wars for profit, but they did kill millions of innocent people and destroyed entire countries with our money and in our name..

The Ukraine War is a scam based on False Flags for power and to steal the peoples' wealth just like all of the lost wars in the last 77 years.

The public treasury is not a piggy bank for the PSRRC's Criminal Enterprise!

Article 1, Section 9, Clause 7 of our Constitution states "No money shall be drawn from the Treasury, but in consequence of appropriations made by law."

The non-government organizations (NGO), government officials and employees, etc., who spend government money on illegal

invaders should be aware of the preceding and the following.

Article III, Section 3, Clause 1: "Treason is adhering to their enemies, giving them aid and comfort." Illegal Invaders are enemies of the Republic and its citizens!

These last two quotes from the Constitution indicate that we need to put a lot of people in jail. And hang those responsible for framing those who were prosecuted after January 6.

Our 'courts' may not do their duty, but revolutionary courts would administer justice!

I am well-aware that a Civil War would end the evil of the PSRRC and their minions, but at great cost and bloodshed, like throwing the baby out with the bathwater. I want to do everything I can to prevent a Civil War because it would be like the no-holds-barred "French Reign of Terror" for many of the same reasons.

I think we are on "borrowed time" to prevent a guerrilla war, because it only takes one person out of disaffected millions to attack rulers, and their response would galvanize opposition.

As an Economist, I am convinced that in the near future the government will be unable to support the 50% of the people living off the government, and these dependent people will revolt...just more proof that Communism always fails.

But enough pessimism. Let's look at some positive solutions.

Remember that we need to correct only a few basic problems that are the root causes for most of our problems with the Criminal Enterprise that rules over us, contrary to the Constitution, Organic Law, Supreme Law of the Land.

In simple terms, the majority of our laws and expenditures are unconstitutional because they don't have lawful authority

derived from the "Enumerated Powers" in our Constitution, or are made by unelected bureaucrats of the Administrative state.

Only the legislature can enact laws, even the unconstitutional ones. See Article 1, Section 8, Clause 18 of Constitution "The Congress shall have powers to make all laws". This means also that unelected bureaucrats in the Administrative State can't modify or write enforceable laws, ie. the ATF and IRS.

The Federal Government has no authority in the states, and can't spend money in the states!

So they unlawfully usurped power of the states and enacted unconstitutional federal departments to spend money unlawfully in the states. See Article I, Section 8, Clause 1 of our Constitution: "To pay the debts and provide for the common defense and general welfare of the United States".

Today, this money is mostly used to promote dependency on government, single-mother families, and Communist programs in inner-city plantations.

It has been reported that 50% of babies in inner-city plantations are aborted, and most that survive will be brainwashed criminals with little education or skills and nothing positive to offer society. Because of this the major Democrat cities are dangerous, filthy hell-holes with major out-migration.

Our major goal is to stop enactments of unconstitutional laws and to revoke those already unlawfully enacted! This will at once eliminate these unconstitutional departments and expenditures: Labor, Agriculture, Health and Human Services, Education, Energy, Transportation, and Housing and Urban Development, etc, etc.

We would then be able to shut down the unconstitutional, privately-owned Federal Reserve Bank as the most dangerous part of the criminal establishment of the PSRRC. The FBI is

the most corrupt part of the government, and must be disbanded, with no employee allowed to work for government again. IRS can be severely downsized. A majority of federal courts can be closed. Foreign Aid would be terminated. American military would not remain on foreign soil without a related declaration of war by Congress.

The only primary powers granted to the federal government (by the States) in the Constitution are for Defense, Foreign Relations, Immigration, Commerce, Treasury, Indian affairs, Currency, and misc.

The powers of the states are almost unlimited, while the federal government's powers are severely limited by our Country's creation documents. Think about that.

The present situation could have been prevented if only the courts had not been compromised and refused to hear cases, or by saying "No Standing".

As a current example of a related problem, SCOTUS recently reversed itself on Abortion and Affirmative Action because there was nothing in the Constitution to justify it. Now the ignorant and venal members of Congress are trying to pass a law supporting abortion, with no authority from the Constitution! Another illegal law in the making..

The courts can still redeem themselves by hearing every case presented to them that question the constitutionality of laws. Proper findings would stop the criminal enterprises dead. Is there any easier solution?

If the courts continue to refuse to act, a Constitutional amendment could quickly solve the problem.

Simply by requiring SCOTUS to rule on the constitutionality of all laws, past and present. This would be a good time politically to pass an amendment. I say this based on a report by Michael Snyder in Lew Rockwell's site on July 8, 2023. He

stated that “one party controls entire legislatures in all but two states”.

Article 5 of our Constitution states that 2/3 of state legislators can call for an amendment but 3/4 have to approve it.

I am under no illusions. The Parasitic Super- Rich Ruling Class (PSRRC) and their minions will do everything in their power (threats and bribes) to stop it. Remember what they did and are doing to President Trump because he wanted to use tariffs to protect middle-class workers and replace the income tax. This would dramatically impact profitability of PSRRC overseas plants. I hope that these faux rulers who have no support for their actions in the Constitution realize their vulnerability if they force us into a Civil or Guerrilla War.

I want to leave you with one thought: elections alone will not solve the problem. You know the root causes of our deprivations. Demand lawful obedience to our Constitution!

God Bless You and Our Republic
