

A World On The Edge, Part 1

We are facing the most critical period in our history as mankind. It isn't just the United States that is being threatened it is every sovereign nation in the world. What amazes me is that the people that are the threat are not elected to any position of power in any of the nations of the world. They have just decided that they need to control everything and most countries are going along with it like it is just what should be done.

Of course, I'm talking about the World Economic Forum. The leader of this corrupt organization is Klaus Schwab. When you look at him you almost think that he is a relative of Darth Vader. His arrogance is through the roof. He's using world events to convince everyone that his ideals are best and must be followed. There have been many through the ages that believe that they are better qualified to control you than you are. You're too stupid. Only the elite of the world can properly govern. Most of them hate the human race even though they are part of it. They all have believed that there are too many people on the planet and that most of them need to be eliminated.

For some reason, these population control enthusiasts don't have a problem with their being here, just everybody else. Late-term abortionist Warren Hern said this about humankind: ***"The human species is an example of a malignant ecotumor, an uncontrolled proliferation of a single species that threatens the existence of other species in their habitats..."*** he wrote in

a paper published in Population and Environment in 1990. He concluded that, "The idea that the human population is a planetary cancer is a profoundly disturbing conclusion, but the observations of the scientific community over the last 20 years have provided massive support this hypothesis and little, if anything, to refute it." Even the beloved Jacques Cousteau believed too many people were allowed to live: *It's a terrible thing to say. In order to stabilize world populations we must eliminate 350,000 people per day. It's a horrible thing to say, but it's just as bad not to say it.*

Everything that the WEF is attempting to force on the world has been in the works for decades. Most of the financial leaders of America have been involved in laying the foundation of this diabolical takeover. In 1991 in an address to the Trilateral Commission, David Rockefeller stated: *"We are grateful to the Washington Post, the New York Times, Time magazine, and other great publications whose directors have attended our meetings and respected the promises of discretion for almost forty years. It would have been impossible for us to develop our plan for the world if we had been subject to the bright lights of publicity during those years. But, the world is now more sophisticated and prepared to march towards a world-government. The supranational sovereignty of an intellectual elite and world bankers is surely preferable to the National autodetermination practiced in past centuries".*

We can go back to the very early part of the last century to see that the government's corruption to undermine America was already at work. Senator George Malone (R) commented in 1957: *"I believe that if the people of this nation fully understood what Congress has done to them over the last 49 years, they would move on Washington; they would not wait for an election...It adds up to a preconceived plan to destroy the economic and social independence of the United States!"* This was apparent to Theodore Roosevelt right at the turn of the century. In a speech given in 1906, he stated: *"Behind the*

ostensible government sits enthroned an invisible government owing no allegiance and acknowledging no responsibility to the people. To destroy this invisible government, to befoul the unholy alliance between corrupt business and corrupt politics is the first task of the statesmanship of the day.” That unholy government has reared it’s ugly head and is in full view in today’s Washington and most democrat-controlled states but is not recognizable to most Americans. Those that have not fallen for the enemy’s tricks to get so involved in everything but government have seen this coming for decades. We have tried to warn the population as virtually all the writers at NewsWithViews do on a daily basis. Many have opened their eyes to see the dangers. Too many look at you like a dog at a new dish and think you’re crazy. I’ve had close friends of mine tell me that early on they thought I was off the wall. A conspiracy theorist’s conspiracy theorist. But now they understand what I have been warning about.

Most involved in this under-the-table takeover of America are very proud that they are involved. David Rockefeller stated in his memoirs, page 405: ***“Some even believe we (the Rockefeller family) are part of a secret cabal working against the best interests of the United States, characterizing my family and me as ‘internationalists’ and of conspiring with others around the world to build a more integrated global political and economic structure – one world, if you will. If that’s the charge, I stand guilty, and I am proud of it.”*** They have kept things under wrap until they think it is too late to stop what they have put into place. Hitler thought the same thing. So did Stalin. They caused some damage but we’re still here and they aren’t.

The WEF has been laying the groundwork for world domination for decades. There are many business leaders that have bought into his idea of world domination. ***Klaus Schwab’s Young Global Leaders class of 2021 include the Lieutenant Governor, State of Michigan, a Senior Vice-President at Uber, racist activist***

Ibram X Kendi and executives at Dow, Pfizer and Merck among many others.

Countries from all over the world are represented in the WEF's latest crop of 112 future globalist leaders. According to their website , the Young Global Leaders consist of "more than 1,400 members and alumni of 120 nationalities". The individuals are trained to be "[A]ligned with the World Economic Forum's mission," to "drive public-private co-operation in the global public interest." The WEF is known for their annual meeting of elitists at Davos, an alpine resort town in Switzerland. Rair Foundation report :

The World Economic Forum is promoting the dangerous shift of government's ongoing merger with massive corporations, described as "public-private co-operation". This "co-operation" is also illustrated in so-called " stakeholder capitalism ," which moves industry from operating on a profit motive. Eventually, such a system would be forced to cave in on itself, but the globalist elitists do not appear too concerned about that.[1]

The WEF's plans for the world will only benefit the elite and the cost of the world's working class's everything. Ronald Reagan warned that our freedoms are fragile and we had to be vigilant in maintaining them. Each generation was responsible for passing the freedoms intact along to the next generation while teaching them that they will have to fight to keep them. ***"Freedom is never more than one generation away from extinction. We didn't pass it to our children in the bloodstream. It must be fought for, protected, and handed on for them to do the same, or one day we will spend our sunset years telling our children and our children's children what it was once like in the United States where men were free."*** I have no intention of having that conversation with my grandchildren.
