

A World On The Edge, Part 3

This attack we are seeing from the WEF is on all societies not just America but America is the reason why it cannot be implemented yet. There's a saying going around right now that says the reason why they want your guns is because they want to do something that you will want to shoot them for. George Washington stated: ***"When any nation mistrusts its citizens with guns it sends a clear message. It no longer trusts its citizens because such a government has evil plans."*** Seeing what the WEF wants to do, eliminate car ownership, home ownership, freedom to travel, loss of the freedom of speech, destroy industries, and the list goes on, I agree. I will defend my country from enemies foreign and domestic.

Everything that Joe Biden is doing is to the detriment of America and its citizens. The open border is allowing millions of illegals into our country with God only knows what kind of diseases they have. They flood the labor market and take jobs that should go to Americans. They are leeches on our economy, welfare system, healthcare, and housing, and bring their culture of poverty with them. Biden is selling our strategic oil reserves to communist nations, allowing China to buy up America's farmland, and has allowed China to infiltrate our colleges and so-called places of higher education.

The Biden administration has gone way beyond its constitutional powers, as almost every other administration has done, to control what medical services we receive, whether we want them or not, he's taken steps to establish digital

currency that will allow the government to determine what we spend our money on.[1] The government and FBI stepped way over their bounds to censor our free speech on social media.

“THREAD: THE TWITTER FILES: HOW TWITTER RIGGED THE COVID DEBATE – By censoring info that was true but inconvenient to U.S. govt. policy,” David Zweig for Free Press began, “By discrediting doctors and other experts who disagreed – By suppressing ordinary users, including some sharing the CDC’s *own data*”

“So far the Twitter Files have focused on evidence of Twitter’s secret blacklists; how the company functioned as a kind of subsidiary of the FBI; and how execs rewrote the platform’s rules to accommodate their own political desires.”

“What we have yet to cover is Covid. This reporting, for The Free Press, @thefp, is one piece of that important story.”

“The United States government pressured Twitter and other social media platforms to elevate certain content and suppress other content about Covid-19.”

“Internal files at Twitter that I viewed while on assignment for @thefp showed that both the Trump and Biden administrations directly pressed Twitter executives to moderate the platform’s pandemic content according to their wishes.”[2] Government is supposed to protect our rights not violate them.

How about when our Attorney General, Merrick Garland, instructed the DOJ to classify parents who opposed the pornography that was being pushed in our public schools as domestic terrorists? ***Attorney General Merrick Garland called on the FBI to “use its authority” against parents who threaten or use violence against public school officials in a Monday memorandum.***

Garland [said](#) there has been a “disturbing spike in harassment, intimidation, and threats of violence against school

administrators, board members, teachers, and staff.” He said he is directing the FBI to work with each U.S. attorney and leaders “in each federal judicial district” to discuss strategy to address threats within 30 days of his statement.

The Department of Justice’s memorandum did not specify what it classifies as a crime and did not immediately respond to the Daily Caller News Foundation’s request for clarification on the matter.[3] They arrest concerned parents but ignored the hundreds of illegal protestors gathered outside the homes of conservative Supreme Court judges. It is obvious that the Democrats have a double standard. One for Democrats which allows them to do whatever they want and another for the rest of the people.

They spent six years investigating Trump and all they uncovered were the crimes Democrats committed. Insider stock trading by both sides of the aisle, Hillary’s proven involvement with the fake dossier is ignored, Obama’s proven involvement in the spying on Trump’s campaign and the presidency is ignored, Hunter Biden’s proven illegal deals with Ukraine, China, his drug use and probable sexual child abuse. The FBI has had Hunter’s laptop for over two years but not one investigation concerning what is on that computer. There’s even evidence according to very reliable sources that Joe Biden was involved in under-the-table deals with China.

The planedemic we just went through ruined millions of ‘people’s lives and the livelihood of millions more, But it was all bogus. The vaccine was fake, They knew it didn’t work but pushed it anyway. Dr. Birx stated: ***I knew these vaccines were not going to protect against infection. And I think we overplayed [the vaccines](#), and it made people then worry that it’s not going to protect against severe disease and hospitalization. It will. But let’s be very clear: 50% of the people who died from the Omicron surge were older, and vaccinated. So that’s why I’m saying even if you’re vaccinated and boosted, if you’re unvaccinated right now, the key is***

testing and Paxlovid. It's effective. [4] I was one that was in a supposed vulnerable group, Seventy, and had some minor heart issues. Every cold I've ever had in my life was worse than COVID-19. Never got the jab, and never will. Biden is still trying to enforce the jab, wearing the mask and the World Health Organization is getting ready to establish the Vaccine Card requiring all UN member nations to require all citizens to have the card to verify you received the jab.

This is control. This is what the globalists are pushing for. This is what they will do with the Great Reset. I believe that there will be a Great Reset but it's not going to be the WEF's reset. It will be God's reset and His reset will set the WEF back about twenty years if not further. This is God's time, not Klaus Schwab's. This doesn't mean that we just sit back and watch. It is our responsibility to continue to stand against the evil that is out there. Stand even if you have to stand alone.
