

AI & the WEF: You Should Be Very Worried

June 3, 2023

AI or Artificial Intelligence has hit the big screen over the past year. Of course, most of us – unless you're in the tech industry – really had no idea of exactly what that meant. As much as I know about what's going on for the past three decades, I knew little about AI other than reading an article here and there, but I soon realized the reader was being brainwashed into believing it's all for the 'common good'. Becoming a cyborg where my brain is integrated with a computer sounded like science fiction until I did more serious reading.

Do a search and you'll get the first ten offerings from only the prostitute media sites (CNN, MSNBC, Reuter's, etc.) promoting it as the newest great wonder of the world. One has to keep going to find web sites that are trying to warn Americans. They also declare anyone opposing AI as conspiracy nuts.

Are there benefits using AI for mankind? Yes, some. **But, like all technology, it can and is being used and abused to destroy us as human beings.**

[Top AI researchers and CEOs warn against 'risk of extinction' in 22-word statement](#), May 30, 2023 – “A group of top AI researchers, engineers, and CEOs have issued a new warning about the existential threat they believe that AI poses to

humanity.

“The [22-word statement](#), trimmed short to make it as broadly acceptable as possible, reads as follows: “Mitigating the risk of extinction from AI should be a global priority alongside other societal-scale risks such as pandemics and nuclear war.”

[AI pioneer quits Google to warn about the technology's 'dangers'](#), May 3, 2023 – “Geoffrey Hinton, who has been called the ‘Godfather of AI,’ confirmed Monday that he left his role at Google last week to speak out about the “dangers” of the technology he helped to develop.

“Hinton’s pioneering work on neural networks shaped artificial intelligence systems powering many of today’s products. He worked part-time at Google for a decade on the tech giant’s AI development efforts, but he has since come to have concerns about the technology and his role in advancing it.”

There is MASSIVE amounts of money involved with the AI industry and it’s already bringing in train loads of money to investors and corporations. Many are pushing for regulation by the federal government but we can all see how successful that was with the FDA (Federal Death Administration) and their authorization giving the green light to those deadly and dangerous COVID-19 experimental bioweapon injections passing them off as a vaccine.

Despite the bottom feeders who call themselves ‘fact checkers’, there is an agenda with this AI that should frighten everyone. **Actually, it should scare the hell out of everyone – except the narcissistic, ego maniacs who intend to destroy the human being as God created.**

As was pointed out a few days ago on the Clay & Buck radio show (Limbaugh’s time slot), reportedly there’s an [audio recording](#) of Trump hanging himself regarding the witch hunt on those classified documents at Mar-A-Lago. AI can produce an audio of Trump, you, your spouse, your boss to get you fired,

that's so real, it can be impossible to tell whether it's real or programmed by AI. Think about that.

There is a new documentary just released last week. I'm giving it 5 stars. One of the most important documentaries everyone must watch. It's an hour long: Final Days

Americans who are following what's going on in this country know who the World Economic Forum (WEF) is and the pure evil they are spreading globally. Headed up by Klaus Schwab, they intend to rule the world in their own words.

Yuval Harari is Schwab's right-hand man. In this documentary you will watch him say the following, paraphrasing: AI will give "us" the ability to be god-like and engineer human beings.

And: God will no longer make any decisions. The Pope will not make any decisions. All important decisions will be made by AI. There will be no more democratic elections nor will individual consumers make their own decisions. **It will all be done by algorithms.**

"So God created man in his *own* image, in the image of God created he him; male and female created he them." Genesis 1:27 (KJV)

We are all to become cyborgs. [What is that?](#) "He's mainly, but not entirely, human."

It IS merging your mind with technology. When asked about the "useless class", there was a bit of squirming by Harari and a strained smile but the answer was very clear if you understand what these world globalists are doing right out in the open. They hate you, me – mankind. Except themselves, of course.

If that sounds fantastical or some hair-brained conspiracy theory, no one will believe that after watching the Final Days documentary. Transhumanism in lock-step with AI has been in

the works for a long time and now the evil doers are making their move at a fast pace.

[Patrick Wood: Technocracy and Transhumanism](#), Feb. 28, 2022
(That is a must read so find time in your schedule.)

I guarantee you this documentary will scare people as it should. And, it should be a huge wake-up call for Americans to open their eyes, get out of denial. The world must reject AI (with a few strictly monitored, ethical medical purposes) and its goal to destroy that which God created. Do you want your child or grand child to be the end product of AI?

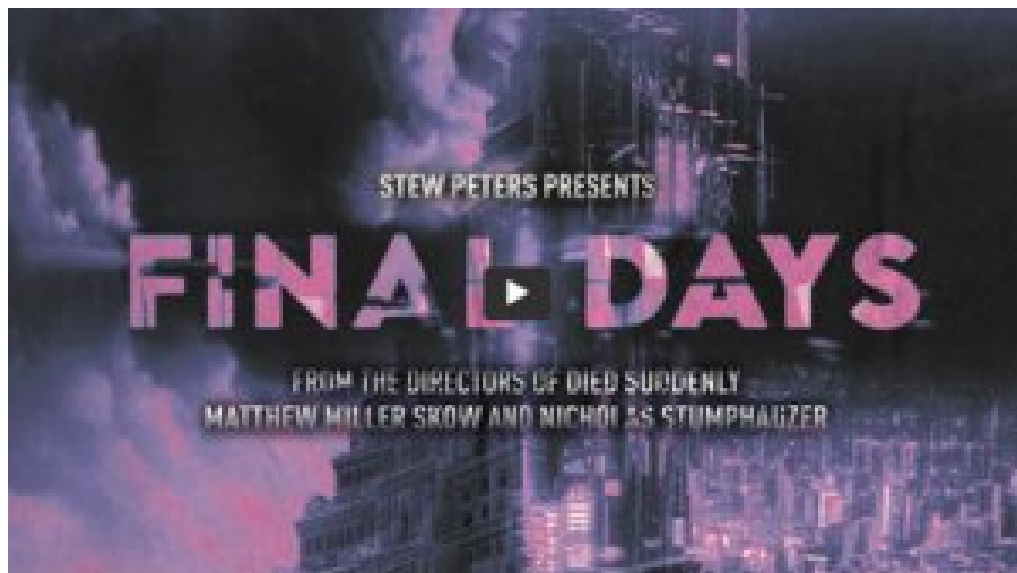

I hope Americans from coast to coast, border to border will share this documentary. Try to get your pastor, minister or reverend to watch it and then have your church hold a special screening so it gets out into the community. ALL elected officials from city councils, county commissioners, state legislatures, governors and members of Congress need to watch this documentary. Unless a priest wants to get in trouble, I doubt you'd be successful there: [Davos: Church already dedicated to themes of Forum](#) – “The Catholic Church is already committed to the various issues considered at the World Economic Forum, in Davos, both globally and locally.”

Groups and organizations should hold a special meeting soon as you can and get your membership to a library or other facilities so dozens (or hundreds) of people can watch Final Days. We must stop the WEF and corporations from taking over academia, governments and every other sector from their evil agenda. Schwab makes no bones that “WE” will be the gods of the world. I say, no, but Hell no.

Died Suddenly had more than 20 million views earlier this year. Don't know the current views, but Final Days needs to

be watched by 50 million Americans and they had better take it seriously.

This isn't Star Trek, eating popcorn. It is evil and they must be stopped.

[FINAL DAYS Worldwide Premiere](#)

For a thorough, comprehensive education on the Fed, the income tax, education, Medicare, SS, the critical, fraudulent ratification of the Seventeenth Amendment and more, be sure to order my book by calling 800-955-0116 or click the link, "[Taking Politics Out of Solutions](#)". 400 pages of facts and solutions. Elon Musk is someone I have never 'trusted'. Musk was a [Young Global Leader](#) created by Klaus Schwab to send brainwashed young people worldwide to push the WEF's agenda. Apparently or so he says, Musk is on the outs with the WEF.

[Musk rips World Economic Forum: 'unelected world government'](#), Jan. 18, 2023, but he got in hot water again: [Some of Elon](#)

[Musk's fans are furious newly appointed Twitter CEO Linda Yaccarino chairs a World Economic Forum committee, May 12, 2023](#)

Donald Trump is listed on the WEF's web site as an Agenda Coordinator. Since he left the Oval Office, I don't believe he has attended any Davos confabs. Why, I don't know. Perhaps because he is no longer president. Video clip: [Donald Trump At The WEF: "Klaus \(Schwab\) Has Done A Fantastic Job..."](#)

Georgia's governor, Brian Kemp is an attendee. Texas governor Greg Abbott is an attendee. John Kerry, Sen. Chris Coons, the list goes on. [The Globalists: Here is the Full Roster of Davos 2022 Attendees](#)

[Here is the full list from the 2023 Davos meet](#)

As for the billionaires, millionaires, corporate CEO's, etc., just put the person's name in a search engine + WEF. Use a search engine, put in the person's name (celebrities, Hollywood trash, community "leaders") + Young Global Leader
