

# Alleged Roy Moore Loss: Case For Vote Fraud Investigation

Every Republican vote in the Senate is crucial right now and in the next few years – think federal judges and U.S. Supreme Court. Do I believe all the accusations against Moore by females coming out of the woodwork some 40 years down the road? No, I don't. I've been in the trenches now going on 29 years. I know how the shadow government plays their games.

While Roy Moore is quite flamboyant, he is and always has been a staunch defender of the Constitution and that's why the unseen hand could not allow him to win that senate seat in Alabama. It was also to hype the hype Republicans are going to lose the majority in Congress next year!

Back in, I believe it was November of 2003, I attended a speaking engagement outside Annapolis, Maryland. A state representative now out of office, Don Dwyer, was kind enough to get me a seat very close to the stage. It was a 'sold out' event, standing room out the door. Moore gave one of the most amazing presentations on the Constitution I have ever seen next to Dr. Edwin Vieira's powerful presentation. DO take the time to watch this video: [The Power of the Sword and Power of the Purse Edwin Vieira](#)

Remember Moore was elected nine times to various offices. *Where were all those accusers?* He was also, before being run out of there, Chief Justice of the Alabama Supreme Court – twice. Alabama is considered part of the 'Bible Belt'. Moore's opponent and alleged winner, Doug Jones, is a member of the Democratic/Communist Party USA.

Jones is a globalist who believes in the TOXIC job-destroying "free trade" dogma. He believes minors who are here illegally should be allowed to stay instead of deported. Illegal minors

referred to as 'Dreamers' can blame their parents for smuggling them into this country but they need to be deported just like any other illegal. It's their parent's responsibility to find relatives in the country of origin and ship them out of here or the incentive to steal into OUR country means nothing. [Keeping 'Dreamers' would cost taxpayers \\$26B over next 10 years, feds say](#) – Remember: **every penny will be borrowed debt slapped on our backs for people who have no legal right to be on U.S. soil.**

Jones says he 'stands with Planned Parenthood' which means he supports murdering the unborn. A corporation now under investigation for harvesting and selling body parts of an unborn child. [An organization created to support eugenics.](#) Specifically to wipe out the black race.

Jones wants to 'fix' what cannot be fixed: The unconstitutional, disastrous Obamacare. Our good old boy from down in 'Bama supports the Second Amendment because he hunts deer, birds and turkeys. Well, isn't that just grand! Another blithering idiot who wouldn't know the meaning of the Second Amendment if God himself stood in front of Jones and explained it to him in detail.

That's the candidate the people of Alabama allegedly just elected? I don't think so. A bunch of fools pulled a write in candidate option on their ballot. [Nick Saban for Senate? Thousands cast write-in votes in Alabama race](#) (University of Alabama football coach). Absolutely wasted votes.

Americans following that race for a senate seat under a law that doesn't exist saw some of the ugliest most vile political hatchet jobs done on a candidate. There's NO question the Seventeenth Amendment to the U.S. Constitution was NOT ratified by enough states, therefore, the election by the masses for the U.S. Senate is nothing but fraud.

I proved beyond any legal standard that amendment was not

ratified but the Texas Appeals Court shot me down basically saying it didn't matter. *Every one of those judges was too cowardly to take on an amendment to the U.S. Constitution that was NOT legally ratified.*

**Oh, but it matters to those who control our puppet politicians or this would not have happened:**

[Lawsuit Filed: Seventeenth Amendment Not Ratified](#), 10-12-14

"Then, much to my shock right on the heels of finding that case, what else did I discover? Oh, you won't believe this:

"On April 11, 2002, the State of Alabama decided out of the clear blue to ratify the Seventeenth Amendment – **89 years after the alleged ratification**. Back in 1913, not all states were in session; some were out of session four years at a time. Others took no action on the amendment – Georgia specifically based on an investigation ordered by their governor at the time that the Seventeenth Amendment was not legally adopted by Congress before it was even sent to the states.

"On July 1, 2010, **97 years after the alleged ratification of that amendment**, the State of Delaware ratified it. On April 1, 2012, **99 years after the alleged ratification**, the State of Maryland voted to ratify the Seventeenth Amendment.

"How interesting that nearly 100 years after the alleged ratification of the Seventeenth Amendment and after people like me have been pounding on this issue for close to two decades, three states just up and decided to vote on an old constitutional amendment."

"Now you see why *Dillon v Gloss* is so important to my case as is the taxpayer 'standing' exception here in Texas."

I filed my lawsuit September 22, 2014. There is a considerable movement out there to get the Seventeenth Amendment repealed.

How do you repeal a law that doesn't exist?

Long time readers of my columns know I have been on the vote fraud issue since 1993. There are too many columns to list but these contain the most credible facts that vote fraud has been stealing our elections since 1963.

Going back to the Roy Moore special election. It didn't take long for what I see every two years and still the American people put up with being forced to use electronic machines for voting and counting. Slimy Doug Jones was declared the winner in the usual speed of lightening time even though no military votes had been counted.

As was the case with three states voting for the Seventeenth Amendment nearly 100 years after the alleged ratification to the Constitution, rotten, corrupt judges have moved to destroy evidence in Moore's race:

[In final-hour order, court rules that Alabama can destroy digital voting records after all](#)

"Merrill declined to comment directly on the case in a phone interview with AL.com Tuesday morning. "We don't comment on pending litigation," he said. <>But he did state that though the state does not preserve the digital ballot images, it does maintain the original paper ballots. "The records for federal

elections are required by law to be preserved for 22 months after the election occurs,” Merrill said. But Duncan said that “the paper ballots aren’t really what’s counted” unless there is a statewide recount, which would be “cost-prohibitive” if the state were ever to undertake one.

“The fact that none of their arguments makes any sense just makes you wonder what’s really at stake here. These machines are hack-able ... That’s what worried us,” she said. “It’s just all about transparency. It’s like saying, ‘well, we don’t need a car because we have a horse and buggy.’”

Exactly the same way career criminal, now retired, Senator Dirty Harry Reid allegedly won his senate seat the first time. Court orders ballots destroyed. [Vote Fraud Underway – What Candidates Must Do](#), 11-4-2012 (Packed with data)

“November 13, 1998: Ensign v Reid (Nevada). Ensign allegedly lost by one tenth of one percent of almost a half million ballots cast. The original count on election day reported Ensign had lost this race for the U.S. Senate by 459 votes but, somehow, somewhere, another 193 votes suddenly showed up in Washoe County which brought the margin down to 401 votes. Additionally, about 3,200 absentee ballots that were mailed out remained unaccounted for yet the election results were certified November 25th by the Nevada Supreme Court, showing Reid winning by just 401 votes out of over 430,000 cast.

“Other bones of contention in Nevada: Failure of Washoe County election officials to verify the accuracy of the optical scanning system which failed at least four post-election tests. In one test, the system counted 304 votes for one of the candidates when only seven ballots had been cast. Failure of the Accuracy Certification Board to oversee the hand-counting of 6,000 ballots, some of which were counted by people pulled randomly off the street who weren’t registered to vote.

"The Conciliation Log indicates 71,734 votes were cast, but the Registrar's Office has also reported a figure of 72,376 and the Secretary of State's office has reported 71, 650. How about 393 "blank" votes in Washoe County that haven't been verified?

"Questions about the printing and counting of the remaining 70,000 ballots cast that remain unresolved. To add injury to insult, according to John Byerly, a member of the Accuracy Certification Board, "...it was impossible to watch and verify the tallying process which took place in a number of rooms over a 28-hour period." And, yet, the Nevada Supreme Court certified an incredible mess like this for a seat in the U.S. Senate."

Now, Moore has not conceded. Good first step. He had a pretty good lead according to polls right up to voting day. [Dem Doug Jones In Shock Senate Upset Over Roy Moore](#) Whether he can get the state to pay for a recount doesn't look good. At this time Moore is trying to raise funds via donations for what he's calling his 'election integrity fund' so he can investigate vote fraud in his election.

Okay, but this isn't just about a recount of the ballots. **There must be a forensic investigation.** Years ago, I wrote about my interview with Richard Hayes Phillips, author of *Witness To A Crime – A Citizens' Audit of an American Election*.

["The 2004 presidential "election" was another farce.](#) An illusion to keep the herds believing their vote actually counted. It only counts when those who count the ballots put it in the desired win column. Phillips' book is an absolute condemnation of vote fraud in the State of Ohio. Phillips and volunteers examined 126,00 ballots, 127 poll books and 141 voter signature books from 18 counties: "Thousands of ballots in heavily Democratic precincts were pre-punched for third-party candidates. Voting machines were rigged, tabulators were

rigged, ballot boxes were stuffed, ballots were altered, ballots were sorted according to candidate, and ballots were destroyed.”

“I read the book. The amount of work put into that investigation is truly staggering. I would never vote for John Kerry, endorsed by the Communist Party USA (just like Barry Soetoro aka Obama), but the factual truth is Bush lost Ohio. Phillips’s book proves it beyond any doubt. This round the shoe is on the other party’s foot because despite the incredible media basis and outright propaganda, Soetoro does not have the support this round as he did in 2008.

“Here’s another thing most people don’t know: Electoral college delegates are based on population. The 2010 census was a fraud. The head of the U.S. Census bureau actively sought out illegal aliens and told them to fill out a census form so they would get their fair share of the pie. Steal from you to give to someone who lies and breaks the law to enter our country. This year, Ohio lost two electoral college votes as a result of redistricting based on the census. Down to 18 from 20. In 2004, Bush received 286 electoral college votes to Kerry’s 251. Take away the 20 from Ohio and Bush did lose the election 271 to 266, as Ohio is a winner take all state. The truth isn’t Democrat or Republican, but party hacks and millions of voters don’t care as long as their candidate gets elected.”

That’s what I mean by a forensic examination/audit. Not just the ballots, but poll books, number of registered voters from both parties, how many actually voted, absentee ballots, military votes and all the other ways to cross check for fraud. If this isn’t done, *a recount will simply be a white wash.*

Example: [Over 1800 Electronic Ballots Lost in Hays County Texas](#), 6-5-2017: “Delozier adds, “Why is the Hays County election office not answering concerned voters’ questions

about how over 1,800 electronic Early Voting ballots went missing and were apparently never tallied in the final 2016 General Election results?" They did not count in the end.

Here's the bottom line: If you live in Alabama you need to act now. [Contact Moore's campaign people and tell him you support an investigation but it can't be just a recount, it has to be a forensic analysis.](#) Send him a short letter and use what you need from this column or just print this out and send it to him: Judge Roy Moore For Senate Committee, P.O. Box 5032, Montgomery, AL 36103. Network and get his attention on this. Maybe you know someone who knows Moore. Like a member of your state legislature or a U.S. House member.

The shadow government made damn sure Moore was allegedly defeated. Now only he can prove otherwise.
