

America Crossing A Cultural Rubicon Into Multicultural Conflict

If you look on Facebook, it appears that ANTIFA, La Raza, Moslem Brotherhood, Black Lives Matter, Aztlan, CAIR and other violent multicultural groups operating in America—cannot wait to change the face of the USA into their vision of a perfect society.

On November 4, 2017, ANTIFA plans massive demonstrations and even riots to overthrow the U.S. government. They threaten the White House and other governmental offices.

Tom Stayer, a billionaire, promises \$10 million in an advertising campaign to impeach President Donald Trump. For years, billionaire George Soros spent millions to disrupt the political process in America.

Many minorities in America press for autonomy, and if they don't receive it, they create parallel societies such as Moslems in Detroit, Michigan; Minneapolis, Minnesota, and Miami, Florida. Mexicans, now the

most dominate ethnic group in California, control much of the legislature and many towns.

The U.S. Census bureau says at current rates of immigration, Latino-Mexican-Hispanics will become the new majority in America by 2042–25 years from now. Spanish dominates every business phone answering service by giving you a choice: press “1” for Spanish and “2” for English. In Detroit and Minneapolis, you may press “3” for Arabic.

“Diversity within a nation destroys unity and leads to civil wars,” said social scientist Garret Hardin. “Immigration, a benefit during the youth of a nation, can act as a disease in its mature state. Too much internal diversity in large nations has led to violence and disintegration. We are now in the process of destabilizing our own country. The magic words of destabilizers are ‘diversity’ and ‘multiculturalism’.”

Writer Fritz Garcia said, “Demographically, the USA has crossed the Rubicon towards a Balkanized aggregation of numerous cultures of varying compatibility. Mexico’s Castizo elite benefit by sending the dregs of their population north of the border as a soft form of ethnic cleansing in the Southwest via the Aztlan movement. Canada, which has had a tenuous linguistic arrangement between English and French, is adding a third wheel to the cultural blender with a huge influx of mainland Chinese that it could possibly make Mandarin the third official language.”

After visiting Vancouver, Canada this past summer, I attest that the Chinese virtually own all of Vancouver in signage, language and housing. They’ve bought out or run out most of the Canadians. Vancouver stands as a Chinese beachhead in North America—where millions of Chinese, living in horrifically overpopulated China, can now chain-migrate to Canada, thanks to the stupidities of PM Justin Trudeau.

Garcia continued, “And finally, Muslim “refugees” being brought in by Jewish charities, Catholic charities, Lutheran charities, etc., are the unexpected beneficiaries of the abortion debate in the United States. Since opposition to

abortion is common to the Three Abrahamic Traditions; Muslims exploit this viewpoint by encouraging men to bring their harem along, breed prolifically, and incubate the next generation of jihadists to SUBJUGATE their Western, i.e. European & North American hosts in a battle of numbers... and wombs."

Demographics determine the destiny of any nation. With the United States Congress continuing the immigrant flow of 1.7 million annually (that includes 500,000 illegally), Americans face an added 100,000,000 (million) immigrants by 2045. That includes birthrates of immigrants, chain-migration and diversity visas. (Source: U.S. Census Bureau, "US Population Projects" by Fogel/Martin; PEW Research Center)

Fox News host Tucker Carlson last week asked Dr. Steven Camarota about the numbers. Camarota said, "My research shows that Americans are becoming the new minority in their own country. They will be outnumbered by 2042 as the Spanish become the new majority at 51 percent."

What's most disturbing: Americans, or at least their elected representatives in Congress seem to think we can solve all the world's problems by bringing them all here. Unfortunately, they bring their problems with them. Why Jewish Charities, Lutheran Charities and Catholic Charities think we can absorb an endless line of immigrants beats the daylights out of logic and reasoned thinking. The sociological chaos along with linguistic chaos bode poorly for everyone in America.

For one thing, the third world adds 80,000,000 (million) new babies, net gain, annually. And, one billion more added every 12 years, and another three billion by 2050. They add to the line with no end.

America cannot become the "charity ward" for the world's desperate people. We cannot degrade our citizens for Mexico's poor. We cannot save Africa's refugees when we suffer 13 million American children living in poverty. We cannot pay for

immigrants' food, housing and education when we're \$20 trillion in national debt. By stopping all immigration and deporting all illegal aliens, we can give those jobs to American citizens at a living wage. It's time to change the 'good ole boy' network of corruption in DC by changing to term limits for Congressional critters. Otherwise it will all get worse until we collapse into a multicultural-diversity nightmare of overpopulation and sociological chaos. One look at Europe points to our own future with an added 100 million legal immigrants.

The Rubicon crossing ultimately killed Caesar and Rome; it will ultimately kill our civilization.

If you would like me to speak at/in your city, conference, social group or clubs about the consequences of mass immigration into America, please contact me. My program: "The Perfect Storm Descending Upon America" articulates the consequences of adding 100,000,000 (million) legal immigrants to America within the next 30 years. It spells out what we face as to shortages in water, energy and resources. It spells out the sociological chaos created by mixing 196 (the number of countries exporting their citizens into our country) different cultures, languages, religions and worldviews from those 100 million immigrants. It illustrates our dilemma as environmental and quality of life consequences.

Additionally, if you would like me to speak on your local radio talk show, please give them my name, topic and contact information. Or give me theirs and I will contact them:
