

# America dodged a fatal bullet because of President Trump

As I sit here and write this missive today there are 70 rallies going on, all of which are anti-Trump and carrying the same type of message: "Do this

Trump or else!" I am so tired of listening to such rubbish; "Do this or else!"

What do those leftists believe they're going to do when they say: "Or else!?"

All they can do is "whine" us all to death. They have no idea of the dire fate America was spiraling towards were it not for Donald Trump's resounding victory. Allow me spell it out so simply and clearly that even the "hard-core left" can understand it.

Former President Obama was a community organizer, then he became a junior Senator while being an ardent follower of Saul Alinsky, and later on followed the philosophies of Frank Marshall Davis, and wrote about Alinsky in his book.

Hillary Clinton wrote her thesis on Saul Alinsky and his teachings. Had she become the President the final destruction of America would've shortly been forthcoming because of her belief in Alinsky's teachings.

Again, let's keep this simple for our leftist friends out there. Who was Saul Alinsky that both Obama and Clinton admired so? He was a community organizer just like Obama. His teachings can best be found in his 1971 book "Rules for Radicals: A Pragmatic Primer for Realistic Radicals."

What were the teachings which Obama and Clinton so admired as written by Alinsky? He wrote that there are eight steps of control which need to be achieved if you want to create a social state. Here are those 8 steps as penned by Alinsky:

"The first is the most important.

1- Healthcare – Control healthcare and you control the people

2- Poverty – Increase the Poverty level as high as possible, poor people are easier to control and will not fight back if you are providing everything for them to live.

3- Debt – Increase the debt to an unsustainable level. That way you are able to increase taxes, and this will produce more poverty.

4- Gun Control – Remove the ability to defend themselves from the Government. That way you are able to create a police state.

5- Welfare – Take control of every aspect of their lives (Food, Housing, and Income).

6- Education – Take control of what people read and listen to – take control of what children learn in school.

7- Religion – Remove the belief in the God from the Government and schools.

8- Class Warfare – Divide the people into the wealthy and the poor. This will cause more discontent and it will be easier to take (Tax) the wealthy with the support of the poor."

I'm sure these eight steps must sound familiar now by those with an operative cerebral cortex on the left however, let's see if any/all of them were being attempted or accomplished by Obama and what would've most certainly have been continued by Hillary.

1) Control Healthcare: Can anyone say Obamacare??? What shocks me beyond comparison is when Nancy Pelosi had told members of Congress: "If you want to see what's in this bill you'll have to vote for it first." Wait a second! Since when are we supposed to vote on anything before we see it? And, yet,

that's exactly what had happened. Still, the leftist which I have been seeing on various news stations in the past few days have been chiming, "But Obama got 20,000,000 Americans on Health Care." Oh, really?! And at what cost? Most of those who got Obamacare had their premiums skyrocket through the roof so much so that most of them have dropped their coverage or lowered their individual level of coverage to where they can afford something. While at the same time those who couldn't afford Obamacare still remain uninsured to this very day. And that is supposed to be a story of success? Remember, Salinsky said: "Control healthcare and you control the people."

2) Control Poverty: Under the Obama Administration the poverty level has risen to unheard of numbers. More than 6,000,000 people (that's a 19% increase or almost 1 in 5 of every adult Americans) have been added to the poverty level under Barack Obama, and the numbers are still climbing. Remember, Salinsky said: "...poor people are easier to control..."

3) Control Debt: Thanks to Obama the National Debt of all previous Presidents has been doubled. The National Debt will hit \$20,000,000,000,000 shortly after Donald Trump takes office. Remember, Salinky said: "Increase the debt to an unsustainable level."

4) Gun Control: In all of American history there has not been a President more determined to take away our 2nd. Amendment Rights than Barack Obama. I don't even remember all of the new rules and regulations he enforced by bypassing Congress. Remember, Salinky said: "Remove the ability to defend themselves from the government."

5) Control Welfare: Under Obama's Administration, the Welfare State has grown by nearly 19% and now costs us taxpayers almost \$1,000,000,000,000 extra per year. These are National figures and are factual, yet the other day when I listened to Obama's Farewell Address to the Nation, he claimed he brought poverty levels down. Well, the facts and figures prove otherwise. Of Welfare, Salinky did say: "Take control of every

aspect of their lives (food, housing, and income).

6) Control Education: As a former high school teacher I can honestly say that "Common Core" is the worst educational system I have even seen. It lacks so many of the fundamental tools for successful education that I could write an entire article on that alone. Yet, it was Obama and U.S. Secretary of Education Anne Duncan who shove Common Core down the throat of the American educational system. And, if you wanted to receive your government benefits you would cooperate. Remember, Salinky did say: "Take control of what people read and listen to – take control of what children learn in school."

7) Control Religion: Can anyone seriously doubt that Obama is a Muslim? His wedding ring has an engraving on the inside which is a Muslim blessing. His preference of observing Muslim holidays over Christian ones (Christianity being the majority in America) has been painstakingly obvious. His condemning of Christianity was made very clear when he stated that "Christianity must not get on its high horse" when he was condemning Christianity for the Crusades. Plus, let's forget another fact in which Obama claimed that "America is no longer a Christian nation." Try telling one Obama to the adherents of the number one religion in America which is still Christianity. Consistently Obama has done so much to remove out national claim to Christianity, and has even had crosses removed from chapels in the military. On military bases you're not allowed to witness of Christ and salvation, and you cannot openly keep a Bible on a desk if you work behind one. And, let's not his preference of Islam over Christianity. Remember, Salinky said: "Remove the belief in the God from the government and schools." And haven't they removed God from the public school as Salinsky wrote of?

8) Control Class Warfare: I have been around since the Eisenhower Administration and in all that time I have never seen one President blame more on the wealthy than Obama. Even Hillary was constantly screaming her disapproval of Donald

Trump for being so wealthy while on the campaign trail. And, yet, her so-called charity has somewhere in-between \$150,000,000 – \$200,000,000 in the bank. And just as bad, if not worse, Obama has been trying to give himself a raise in his retirement funds. This is ludicrous! Former Presidents are making tons of money by appearing at speaking engagements and by writing books. They certainly don't need to bilk taxpayers out of more money. Even Donald Trump has publicly stated he will not take a pay for being the President. But, Obama had and now he wants even more! Remember, Salinsky said: "Divide the people into the wealthy and the poor. This will cause more discontent, and it will be easier to take (tax) the wealthy with the support of the poor." So, according to Obama, Hillary and Salinsky we need to punish the wealthy for being successful. How moronic!

Folks, America has indeed dodged a bullet, a fatal one that could've very well been the death of America. Salinsky's plans would've destroyed America if Hillary became the President because she is an ardent believer in Salinsky's writings. Look at what we've just endured in the last eight years under Obama, another Salinsky follower. In his first year Obama made a "Global Apology Tour" around the world and apologized for America being so great.

Under Obama, by his application of the Salinsky's teachings, America's greatness has become a joke to most nations around the world. Internally America's greatness is but a shadow of its former glory because of the application of Salinsky's teachings. And had Hillary Clinton become the next President, dare I say that, America's greatness would be all but a footnote in the annals of history. However, because of the will of the people, Donald Trump shall be the 45th President of the United States of America. And the one thing he espoused on the campaign trail was to: "Make America Great Again!" And, even though he isn't the President until January 20, 2017 Donald Trump has already kept to his campaign promise of

bringing jobs back to America. He's already done this twice!

To my leftist friends let me ask this: "Do you really want the "GREAT" nation of America to continue along the Salinsky/Obama/Hillary path where we eventually end up as a socialist, and then a fascist State or, shall we once again bring back the "GREATNESS" that had been America? It doesn't matter who's in control of Congress; the Senate and the House of Representatives.

What does matter is that we are governed in such a way that America becomes GREAT again. That can never be achieved by Salinsky's teachings nor by his followers. So before you even begin to condemn him (which many already have), let's give Donald Trump a chance. Let's see what his first 100 days in office will become. Remember, he's not even the President yet but, Donald Trump has already kept to one of his campaign promises and has brought jobs back to America. Surely that's not worthy of condemnation, but it is worthy of praise and most beneficial to Americans who want a job.

Let's be reasonable and give Donald Trump a chance. We did so with Obama. Let's be reasonable and give Donald Trump's plans a chance. Afterall, Hillary had no clear cut strategy for America while she was on the campaign trail. And, let's be reasonable and allow America to be GREAT once again!
