

# America Fast Becoming a Demographic Time Bomb

Cautionary Tale: The countries of Europe, including Great Britain, France, Germany, Italy, Spain, Belgium, Finland, Norway, Sweden, Austria, Netherlands, and Portugal—as little as 30 years ago—enjoyed their distinction as successful, Western cultures filled with free speech, distinct languages, and recognizable, successful economic capitalism and modern life. They enjoyed tourists from other successful, modern and bountiful countries like Canada, Australia, New Zealand, Japan and America. Their church cathedrals rang bells on Sundays.

But then, their leaders, supported by the European Union and One World Globalists—opened the doors to millions out of the Third World. Those millions came from the poverty, illiteracy, incompatible cultures, religions, and mayhem of 56 Muslim-dominated countries...along with millions of refugees out of Africa. Today, European countries have lost their cultures, their languages, and their social cohesion.

“Europe has approximately 46-50 million Muslims, with the largest numbers in France (6-7 million), Germany (6 million), and the UK (4-5 million), driven mainly by immigration and higher fertility rates, making France and Germany the EU countries with the highest absolute Muslim populations.”

As a result, Europe now entertains 10,500 mosques. Muslims have not integrated into Western cultures, nor do they speak the languages of the countries they colonized. More than 100 “No Go Zones” dominate such countries as Great Britain, France and Germany. Sharia Law dominates those “No Go Zones.” That means honor killings, female genital mutilations, women in burkas that make them “non-beings” and 1/2 the value of a man. Islam, which means, “Submission”, has migrated Europe to death.

The best book about the invasion, *The Strange Death of Europe* by Douglas Murray, a British writer, details how it happened, what happened and what’s going to happen. Europe faces being forced back into the 6th century where Islam originated by a brutal, illiterate, rapist, madman named Muhammad, who decapitated and de-handed anyone who opposed him. Since that time, that savage religion has expanded to over 1.5 billion people. If you try to leave that religion, the imam’s place a death warrant, called a “fatwa” to have you killed. Women lack any rights whatsoever in that religion.

Today, in all European countries, citizens no longer enjoy free speech without threat of prison. No one can speak against Islam. While European countries suffer endless Muslim rape squads, endless welfare, and endless loss of culture—Islam marches like the Bubonic Plague across once free Europe.

What great historical thinkers said of Islam:

**Winston Churchill**, British Prime Minister and historian, made several strong critiques, including descriptions of “fanatical frenzy” and “fearful fatalistic apathy” associated with the religion. He also commented that Islamic law, where women are considered property, would “delay the final extinction of slavery”. Churchill referred to Islam as a “retrograde force”.

**Voltaire**, the French Enlightenment writer and philosopher,

criticized the method of spreading the religion, with a quote often attributed to Montesquieu stating that the “Mohammedan religion, which speaks only by the sword, acts still upon men with that destructive spirit” with which it was founded.

**Manuel II Palaiologos**, the Byzantine Emperor, stated in 1391 that Muhammad brought “things only evil and inhuman, such as his command to spread by the sword the faith he preached.”

**St. Juan de Ribera**, Archbishop of Valencia, described Islam as an “impious, blasphemous, vicious cult, an invention of the devil.”

**William Muir**, a Scottish historian and British colonial administrator, wrote in 1861 that “The sword of Mahomet, and the Koran, are the most fatal enemies of Civilization, Liberty, and Truth.”

Here in 2025, Islam has arrived in America, over 4 to 6 million strong, with a mandate for conquest, “seeding” and submission of this nation to the Quran and Sharia Law. It all gets down to “numbers.” The greater their numbers, the greater their power for conquest.

America’s Congress and presidents allowed it, supported it, and will most assuredly for all Americans, we will pay a heavy price for it.

Whether you look at Muslim-Communist-Ugandan Zohran Mamdani’s conquest of New York City, you’re seeing Islam fast-track in America’s largest city. Worse, half of the 8.5 million New Yorkers voted him into office. The Jews of New York City are fleeing as the 750,000 Muslims make NYC their own.

In Minneapolis, Minnesota, Somalian Muslims, at 107,000 population, just stole \$1.7 billion in EBT cards and Medicaid from American taxpayers. Additionally, their children have destroyed the schools in that city. No Americans dare go into the “No Go Zone” of “Somaliland” in that city. No Somalians

pledge any affinity to America, and their House Member, Ilhan Omar, is a representative of Somalia only in America's House of Representatives. She is a part of the money-scandal of her people.

In Detroit, Michigan, somewhere around 300,000 Syrian Muslims now command Dearborn and Hamtramck, once All-American cities. Today, the schools teach in Arabic, and the adults chant, "Death to America." Arabic writing dominates every business in Dearborn. Sharia Law is practiced and burka-enshrouded women walk the streets as "Non-Beings."

In Dallas, Texas, Muslims are working to build a 400 acre specifically Islamic city with no one allowed but Muslims. It will feature mosques, Islamic schools, only Islamic dress for women, and total exclusion of Americans. Sharia Law will dominate.

In other words, we've been watching Europe vanish for 30 years, and now, we're watching America allow "incompatible countries to grow within our own country." But Muslim countries defy and stand away from any values, any cultural affinity and any compatibility to freedom of religious choice and the American Way of Life.

As this "Bubonic Plague" of a religion stretches its violent grip across America, we will see growing religious and political conflict across America. For the fact is, Islam is a violent political-ideology that intends to turn America, Canada and Europe into Islam caliphates. No one will be allowed to escape its grasp on our way of life.

Except, in America, we enjoy 2nd Amendment rights, so, as you can imagine, it's going to get down and dirty, really ugly, and, in the end, Civil War II. Islam is a ticking Time Bomb in America. Who do you think will win?
