

America Growing at Odds with Itself: Something's Not Being Said

By Frosty Wooldridge

September 8, 2025

If you look back on the last four years with President Joe “Alzheimer’s” Biden, you noticed that the mainstream media of NBC, CBS, ABC, NPR, MSNBC, and CNN did not and would not tell you the obvious fact that that Joe Biden suffered from Alzheimer’s Disease. Even when he wandered off into the woods, or tripped multiple times walking up or down steps, or simply lost his way on stage, or the fact that he couldn’t give a speech without a teleprompter, and even then, he read the side notes that said, “Walk to your left off the stage.”

You noticed that Vice President Kamala Harris, picked for her gender and skin color only, would not expose him, but in fact told of us that he was running circles around his staff. When in fact, he avoided his staff. And Karine Jean Pierre, his press secretary, told us lie after lie after lie. After being ousted, she wrote a book about her lies. Maybe 10 people bought the book.

In reality, his staff ran the country. His staff signed Executive Orders, and pardons. Someone on his staff decided to open America’s borders to every illegal alien trespasser from over 160 countries. His staff created the greatest invasion of over 12 to 15 million people that the world has ever seen. All of them desperate. All of them uninvited. All of them

crashed our borders--while Joe Biden sat in the White House in a mental fog, intellectual vacancy, and completely disconnected with reality.

Joe Biden will go down in history as the worst-most inept president ever to serve this country. Fact is, he didn't serve our country, but he served his family with ill-gotten money into the millions. His entire family is corrupt. His wife is corrupt. His son Hunter is a pig of a human being, drug addict, sex addict and liar.

All the while, the mainstream media avoided the facts, the obvious, and continued the BIG lie about Joe Biden.

In this series, this journalist attempts to report to you about the things the mainstream media won't divulge. You won't hear a thing about Europe's immigration nightmare that's tearing its countries, cultures, religions and languages to pieces. Not to mention that all those middle eastern and African immigrants are destroying Western Culture at a terrifying rate of speed. What's worse stems from the fact that their leaders did it to their own countrymen/women. There's no free speech left in the UK, Norway, Sweden, Denmark, Germany, Finland, France, Italy, Belgium and beyond. It's a methodical invasion of a violent religion using Western Laws to advance its 'Prime Directive', to dominate and overtake and change the West into Islam.

You better believe they are driven by their prophet and their Quran. They are driven to exterminate every Jew in the world. They are driven to infiltrate Canada, America, Australia and New Zealand. They are driven to dominate Western Civilization. Watch what Communist-Muslim Mamdani does to New York City.

So, what do I mean when I titled this series, "America Growing at Odds with Itself?"

Each year in America, our Congress continues to add 50,000 people from the poorest countries into America in the Visa

Lottery. They arrive illiterate, incompatible and unable to function or work in America's high-speed, educated society. They fall back into SSI, welfare, and all your tax dollars. Case in point: Minneapolis with 125,000 Somalias, average IQ at 68, most of them still on welfare after 10 years in this country. Schools destroyed because such a low IQ cannot and does not possess any inclination toward educational excellence. They were clever enough to scam over \$200,000,000.00 in EBT card money before being caught.

Each year, millions of legal and illegal migrants suck the U.S. Treasury dry. "In total, non-citizens consumed \$109.4 billion in benefits in 2024. Reported Feb 18, 2025." "Noncitizens were more than twice as likely to be poor as their U.S.-born counterparts."

Annually, hundreds of thousands of legal immigrants "chain-migrate" their families into America.

"While exact annual figures for chain-migration-sponsored immigrants can fluctuate, it represents a significant portion of U.S. legal immigration, with family-based visas (a primary form of chain migration) accounting for roughly two-thirds of the approximately one million legal permanent residents admitted annually in recent years. This translates to approximately 650,000 to 700,000 people per year coming through family reunification channels."

In total, our Congress allows 1,000,000 people into the USA annually, year after year, decade after decade. They overwhelm our welfare systems for our own citizens. They explode our schools into futility with their cultures and languages. They are NOT assimilating into the American way of life...but instead, pushing their own cultures, languages and mores into our country. The worst aspect remains: those same immigrants come from a line that grows by 83,000,000 (million) more people added to the planet, net gain, annually. Thus, we solve nothing by bringing any of them to our country. But we

sure are screwing our future for our children.

What about the babies born to legal and illegal immigrants annually in the USA?

“In 2021, an estimated 225,000 to 250,000 babies were born to undocumented immigrant parents in the U.S., a number that has been increasing in recent years. Separately, about 300,000 babies were born in the U.S. to an unauthorized immigrant in 2023. Overall, nearly 850,000 babies were born to foreign-born mothers in the United States in 2021.”

That 250,000 “anchor babies” grew to 400,000 in 2024 because of Biden’s allowing 15 million illegal aliens into our country. Guess what? You’re paying for the child, its welfare, food, housing, medical and the mother with your tax dollars.

All the while, we’re \$37 trillion in national debt. How about homeless Americans? “In January 2024, there were approximately 771,480 people experiencing homelessness in the United States, a record-high number according to Department of Housing and Urban Development (HUD) data from their annual point-in-time count. This count represents the total number of sheltered and unsheltered individuals on a single night in January 2024.”

In other words, we take care of the world’s illegal migrant entries, but neglect our own citizens.

As you read this series, you’re going to upchuck your breakfast, lunch and dinner. Why? Because the numbers accelerate beyond imagination. Your children will be swimming in a civilization that cannot sustain itself as to water, energy, quality of life, climate change and/or resources. And yet, you won’t hear a peep out of the mainstream media as to what’s coming.

You won’t hear a single report by “60 Minutes” or “NPR” or

“CNN” or any of them. Note that I’ve contacted them dozens of times to interview with my three books on America’s overpopulation predicament. The mainstream media intends to keep you clueless, just like Captain Smith of the H.M.S. Titanic back on April 12, 1912. That was a hell of a nightmare night that never should have happened.

Be assured the mainstream knows what kind of a nightmare approaches as we explode from 340 million people to 380 million by mid-century and 440 million just past 2060. We follow exactly in the footsteps that brought India and China to over 1.4 billion people in each country.

We’re talking exhausted soils trying to nourish 380 million people, poisoned underground water, acid rain, 84,000 chemicals entering our food chain, our air, our water 24/7.

Our resources are being exhausted at breakneck speed. And, exploding climate change from our increased “carbon footprint” raging off the graphs.

We’re talking mental health problems for our citizens who cannot cope with our speed of life. “According to the National Institute of Mental Health, an estimated 51.5 million adults in the United States (20.6%) experienced a mental illness in the past year (2024).”

I gotta’ ask you, do you think America’s problems will be solved and our civilization becomes better with that next 100 million people arriving from all over the globe?

Coming in Part 4: The numbers grow beyond understanding, the consequences grow as large as Mt. Everest. The ending, most assuredly, will rival the H.M.S. Titanic on a much larger scale.
