

America Has Lost Her Constitution, Part 5

What we have seen in this series is a complete usurpation of our Constitution by both Parties. Democrats seem to have less regard for it than Republicans as the blatant overreach of Democratic administrations have been the most damaging. Woodrow Wilson in establishing the 'Federal Reserve' which is neither Federal nor does it have any reserves. It is run but the Rothchilds and Rockefellers. Wilson stated after the fact: ***"I am a most unhappy man, I have unwittingly ruined my country. A great industrial nation is controlled by its system of Credit. Our system of credit is concentrated. The growth of the nation, therefore, and all of our activities are in the hands of a few men. We have come to be one of the worst ruled, one of the most completely controlled and dominated governments in the civilized world. No longer a government by free opinion, no longer a government by conviction and the vote of the majority, but a government by the opinion and duress of a small group of dominant men.***

The Rockefellers have been working for decades for a New World Order. Keep in mind that for that to happen, the United States as a sovereign nation must be eliminated. Many will say that the Rockefellers would not do that. In David Rockefeller's own words: ***"Some even believe we are part of a secret cabal working against the best interests of the United States, characterizing my family and me as internationalists and of conspiring with others around the world to build a more integrated global political and economic structure – one world, if you will. If that's the charge, I stand guilty, and I am proud of it."*** [1]

As I stated they have been working on this for decades. Working hand in hand with them is the liberal media. They have NOT reported the decades of meetings with the worlds

elite in moving the world in that direction. Again, in his own words: *We are grateful to The Washington Post, The New York Times, Time Magazine and other great publications whose directors have attended our meetings and respected their promises of discretion for almost forty years. It would have been impossible for us to develop our plan for the world if we had been subject to the bright lights of publicity during those years. But, the work is now much more sophisticated and prepared to march towards a world government. The supranational sovereignty of an intellectual elite and world bankers is surely preferable to the national autodetermination practiced in past centuries.*" [2]

Concerning the Trilateral commission, it is again members of the Democrat Party that are involved in helping to bring America. Zbigniew Brzezinski was Jimmy Carter's National Security advisor and a Founding Member of the Trilateral commission. It's mission is to facilitate a one world government: *The Trilateral Commission is a non-governmental, policy-oriented forum that brings together leaders in their individual capacity from the worlds of business, government, academia, press and media, as well as civil society. The Commission offers a global platform for open dialogue, reaching out to those with different views and engaging with decision makers from around the world with the aim of finding solutions to the great geopolitical, economic and social challenges of our time. Its members share a firm belief in the values of rule of law, democratic government, human rights, freedom of speech and free enterprise that underpin human progress. Members are also committed to supporting a rules-based international system, closer cooperation across borders and respect for the diversity of approaches to policy issues.*

The Trilateral Commission was formed in 1973 by private citizens of Japan, Europe (European Union countries), and North America (United States and Canada) to foster closer

cooperation among these core industrialized areas of the world with shared leadership responsibilities in the wider international system. Originally established for three years, our work has been renewed for successive triennia (three-year periods), most recently for a triennium to be completed in 2015. [3]

Other members of the Trilateral Commission are [Paul Volker, Chairman of the Federal Reserve](#) under Presidents Jimmy Carter and Ronald Reagan; Peter Sutherland, UN Special Representative of Secretary General for Migration and Development; former Chairman, Goldman Sachs International; Graham Allison, Director, Belfer Center for Science and International Affairs, and Douglas Dillon Professor of Government, John F. Kennedy School of Government, Harvard University, Cambridge; former Dean, John F. Kennedy School of Government; former Special Advisor to the Secretary of Defense and former Assistant Secretary of Defense: C. Fred Bergsten, Senior Fellow and Director Emeritus, Peterson Institute for International Economics, Washington; former U.S. Assistant Secretary of the Treasury for International Affairs and Assistant for International Economic Affairs, National Security Council: Adm. Dennis B. Blair (ret.), Chairman, Sasakawa Peace Foundation, Washington; former U.S. Director of National Intelligence; former Commander in Chief, U.S. Pacific Command: Michael Bloomberg, Founder and CEO, Bloomberg LP, New York; former Mayor of New York City: Michael Chertoff, Chairman and Co-Founder, The Chertoff Group; former Secretary of Homeland Security; Former Judge, U.S. Circuit Court of Appeals for the Third Circuit; Former Assistant Attorney General, Criminal Division, Department of Justice, Washington. You remember that Chertoff was Secretary of Homeland Security under George W. Bush. Michael Duffy, Executive Editor, TIME Magazine, Washington: Andrea Mitchell, Chief Foreign Affairs Correspondent, NBC News, Washington. [4]

This is just a drop in the bucket of who is involved with this

anti-American organization. These are powerful men and women who, at one time, kept their intentions secret as mentioned in Rockefeller's previous statement but now they operate in the open and most people don't even notice. They are men and women from all over the world and their intent is to bring America into a world alliance that leaves us and all our resources at the mercy of these globalists.

This has happened because we have failed to vet the people we have put in positions of authority. Noah Webster warned us: ***"In selecting men for office, let principle be your guide. Regard not the particular sect or denomination of the candidate – look to his character... When a citizen gives his suffrage to a man of known immorality he abuses his trust; he sacrifices not only his own interest, but that of his neighbor; he betrays the interest of his country."*** Patrick Henry gave us advice that is as good today as it was in his day: ***Bad men cannot make good citizens. It is impossible that a nation of infidels or idolaters should be a nation of freemen. It is when a people forget God that tyrants forge their chains. A vitiated state of morals, a corrupted public conscience, is incompatible with freedom. No free government, or the blessings of liberty, can be preserved to any people but by a firm adherence to justice, moderation, temperance, frugality, and virtue; and by a frequent recurrence to fundamental principles.***[5]

The likelihood of returning America to her greatness is not very good. We can regain some of what we have lost but we will never return to our full glory. Benjamin Franklin stated when asked what type of government the Continental Congress gave us: ***"Well, Doctor, what have we got—a Republic or a Monarchy?" "A Republic, if you can keep it."*** We have failed to keep it.
