

# America in Chains – Is America Worth Saving?

“Their gonna put y’all back in chains”

Are you aware of the [Communist goals](#) that were read into the Congressional Record as a reminder of the horrors of communism. Obviously our legislators never read them. In 1963, Rep Herlong (D) read the 45 goals of communism into the Congressional Record. He did this to make sure that Congress is on alert and the goals will never be forgotten. Congressional Record–Appendix, pp. A34-A35. [Read the goals...](#)

These goals were read by an ANTI COMMUNIST Democrat. Look how far we have come today as the Democrats are now advocating socialism (the goal of socialism is communism) and anti-semitism. Sadly the Democrat history of racism and bigotry is omitted from K-12. Our children have no idea of the horrors of socialism but it sounds great. Put the kids in debt and tell them the only way our is socialism and they will become socialists. Do they have any idea what socialism means? Or that is is doomed to fail? Do they care?

Or do they just want to get out of debt?

Look how many goals have been accomplished. Read the goals. You will see Communists follow goal# “12. Resist any attempt to outlaw the Communist Party and #15 Capture one or both of the political parties in the United States.” Today they call themselves Globalists, same horse, new name. Once you read the

goals, you will be shocked to see how far they have come. I believe that both parties under the goal of GLOBALISM have an equal hand in destroying America's promise of freedom, liberty and a REPRESENTATIVE REPUBLICAN form of government. By eliminating a REPRESENTATIVE REPUBLICAN and pushing a DEMOCRACY while flooding the K-12 schools with promises of a utopian socialist country, AMERICANS WILL LOSE ALL HOPES OF FREEDOM.

Do these Representatives realize that in a Democracy they will have NO JOB, since a democracy does not require representatives? The public votes for policy by referendum. Do the Representatives know that historically the first group to go to reeducation camps is the bureaucrats and representatives? They know too much.

Remember Marx said: "The goal of socialism (and other isms) is COMMUNISM. OK so what is the big deal, Communism, Socialism, Capitalism who cares they are all the same. NO they are not. Wordsmiths have changed the definitions so they appear the same but are way different. Capitalism / free market system allows for individual ownership of your person, land business and intellectual property. Under Communism **everything** is owned and controlled by the Government.

**Today America is in a battle over MONEY, POWER and CONTROL. Right now the only one fighting the Globalists is President Donald Trump. In order to control humans the globalist club has focused on so called Man Made Climate Change. The Environment has become the religion. You are evil if you don't believe. Our children are taught; you are the devil and can not be trusted. You want to destroy their future if you do not give up your current way of life. You have become the enemy.**

**Globalists lie, American say nothing and allow the lies to remain. The students grow up becoming the fierce advocated of the environmental religion. "No matter if the science of global warming is all phony... climate change provides the greatest opportunity to bring about justice and equality in**

*the world.*" –**Christine Stewart**, former Canadian Minister of the Environment.

Today the document containing all of the phony reasons that you must give up your way of life is called "The Green New Deal".

**For the past 10 years, yes since the Gulf Oil Spill, I have been talking, hosting radio shows, calling into radio shows, writing articles, just to get the word out that America's enemies are here, in America, in our government. I was called every name you can think of and labeled a conspiracy theorist, a liar, scaremonger, extremist, dangerous loony, an Islamaphobe, white elitist and of course a racist. At one time I was public enemy number one at the Southern Poverty Law Center.**

Funny how the things I say are now coming to the forefront as America begins its descent into the socialist abyss by putting these egregious policies in place. Did you ever notice that when policies are put in place implementation is never immediate? It is always down the road. Obamacare implementation was 5 years down the road. Wonder why? Could it be so the current administration can be blamed for the poor policies and their devastating results? The issuing administration never wants to be there for the results.

Immigration is the perfect case in point. Reagan opened the amnesty door without getting security on the border. The Congress lied to him (no surprise here.) Bush 41 signed UN Agenda 21 bringing a "New World Order". Clinton signed NAFTA eliminating borders pushing outsourcing. Bush 43 opened the immigration door with a wide birth and continued the NAFTA policy. After all Bush said, these low income people are just doing jobs Americans won't do. Let them come in while increasing the H2b visa program with little or no oversight. With open borders, millions came illegally. Obama opened the door to unlimited refugees while using tax dollars to

advertise in foreign countries showing people how to game the America system. Trump is living with Obama's poor policies and is constantly blamed for the policies not working.

During Clinton, businesses expanded and the middle class grew. Americans were buying homes, autos and expanding their businesses. That meant Americans were accumulating wealth and moving up the success ladder. How great was it to buy new furniture, renovate or buy a new home go on a vacation, send your kids to private school and have money left over.

WOA, that can't happen. The Globalists can not have competition from a class of people who might not agree with the Globalist agenda. NAFTA cured that. As Americans were buying big ticket purchases, leveraging their wealth with their new income, globalists had a plan to steal their wealth. How did that work? As a mortgage broker, I wrote plenty of mortgages for first time home buyers who were so excited to participate in the American dream. The economic outlook of the 90's was great. Then under Bush 43, the NAFTA plan promoting outsourcing was implemented. American companies were offered American tax dollars to open businesses in foreign countries eliminating American jobs. Where were the MSM reports on that devastation?

As we say, the other shoe dropped. Outsourcing insured that your great job got cut, your hours got cut, your second job got cut; one spouse lost a job. You had to train your international H2B visa replacement. Your mortgage that you took pride in paying on time could not be paid. You drained your 401K and retirement account. Your house went into foreclosure, your furniture was picked up; maybe your car or boat was repossessed. You got depressed but tried to make light of it. With a cheerful face you told your family how moving from the home you owned into a small apartment you rented or car you now live in was a good thing. You might have turned to drugs, alcohol, or driven to suicide. You became dependent on the government. The wealth of the middle class

was drained. You were told by Nancy Pelosi that your unemployment check was a good thing and improved the economy. [How can getting a fractional hand out from the government improve anything?](#) The elimination of the middle class began. That was the goal all along.

How can I say that? Easy. Globalists can not allow you to accumulate wealth. You might become a voice for the American dream and that is not allowed. Other countries can not have citizens with ownership or wealth. If you have wealth, you will not need the government to take care of you. Individual wealth must be eliminated. A stimulus must be created to save the economy. BS.

*"The emerging 'environmentalization' of our civilization and the need for vigorous action in the interest of the entire global community will inevitably have multiple political consequences. Perhaps the most important of them will be a gradual change in the status of the United Nations. Inevitably, it must assume some aspects of a world government."* —**Mikhail Gorbachev**, State of the World Forum

The Bush-Obama stimulus eliminated billions of wealth from the middle class. Yet instead of being used to pump up the middle class it was used to destroy the middle class and their neighborhoods. The middle class was then blamed for "buying houses they could not afford". The billions went to the wealthy so they could donate back to the globalist politicians who desired America's demise. Who was president at that time – Oh Obama who said over and over how [America was the cause of all evil](#) and must be cut to size.

Why? *"If we don't overthrow capitalism, we don't have a chance of saving the world ecologically. I think it is possible to have an ecologically sound society under socialism. I don't think it is possible under capitalism"* —**Judi Bari**, principal organiser of Earth First!

And

*"A massive campaign must be launched to de-develop the United States. De-development means bringing our economic system into line with the realities of ecology and the world resource situation."* –**Paul Ehrlich**, Professor of Population Studies

Abandoned neighborhoods were purchased by tax payer funded Hedge Funds who are building sustainable developments complying with the Green New Deal. About 5 years ago while on a speaking tour, many people asked my why HUD was building apartment complexes which were vacant in cities and counties under the name of "[Affirmatively Furthering Fair Housing Act](#)." in cities that didn't need more housing because these complexes remain vacant. I said, this is the beginning of the refugee take over of America. Watch, soon these complexes will be filled with refugees and illegals. Surprise, today many of these complexes are filled with refugees and illegals. The middle class is being replaced. Your children will have no idea that a middle class exists. How can you fight for something that you don't know exists? You won't. Mission accomplished.

*"Isn't the only hope for the planet that the industrialized civilizations collapse? Isn't it our responsibility to bring that about?"* –**Maurice Strong**, founder of the UN Environment Programme

**Is America Worth Saving?** Or do you agree with Maurice?

Will you share this article? contact your legislators, school board, social media?

Will you correct errors, lies and bias? Or will you remain silent?

I will not comply. Will you?
