

America: We're in Serious Trouble

Okay, I talk to a lot of people across this country. Just your basic, decent, good, kind and patriotic Americans! That's you, that's me, that's the bedrock of America. There's a whole bunch of solid, hardworking Americans that feel uneasy as to what's going in America.

The mainstream media twists reality to unreality. "The View" features a bunch of wacko females who hate the majority of Americans. One of them said that the basketball phenomenon Catlin Clark enjoyed "Pretty Privilege...and White Privilege." What a crock of horse-feathers! Clark became the highest scoring basketball player in college history. Yet, she's demeaned by a black woman on The View. No one ever demeans Blackman Stephen Curry for being the greatest three point shooter in NBA history. No one ever demeans Wilt Chamberlain for scoring 100 points in a single game.

Whatever is going on in this country with all this twisting of reality, it's all a crock. The fact is, Joe Biden stands as the most incompetent president of all time. He's invited an invasion of our country over 12,000,000 refugees from 160 other countries. Yet, the Democrats cover for him. The media covers for him. None of them will report on the 100,000 annual American deaths from drugs screaming across our borders. No one will touch the fact that we face another 9/11 from all the Muslims that have skipped into our country

because Joe Biden lets them!

My fellow journalist Mike Adams said, “If you’re wondering what the millions of illegals will do to the American people once they are given orders to commit mass mayhem, infrastructure sabotage and organized murder of the American people, just observe all the killing of Palestinians currently being carried out by #Israel WITH THE SUPPORT of the entire #GOP, the federal government, the US State Department, etc. When the killing starts in America, NOBODY in government will come to your aid because nobody in a position of power wants America to survive.

“That’s why Texas Gov. Abbott will gladly send thousands of law enforcement to brutalize students on campus in Austin, but won’t send anyone to stop the illegal border invasion. Between 250,000 – 300,000 illegals are entering the U.S. PER MONTH, a number that exceeds by a factor of 10 the entire Russian military recruitment monthly pipeline of new soldiers. A foreign army of millions is already staged across America, awaiting final orders. This is all being done with the support of nearly the entire U.S. government and the U.S. Congress.

“The United States of America is being invaded, overrun, and destroyed ON PURPOSE, and if you don’t yet understand that this will end in the attempted mass slaughter of the American people and the taking of their land, homes and resources, then you’re living in total denial of reality. Our “representatives” are traitors, and our own government is actively engineering the complete destruction of our nation and the extermination of the American people. Wake up.”

There are some gutsy journalists out there trying to wake up the American people. It’s a guaranteed fact that Norah O’Donnell, David Muir, Lester Holt, Scott Simon, Terry Gross, 60 Minutes, and the rest of them won’t do anything to educate you about what we all face.

Mike Adams added, “The entire purpose of the mainstream media (corporate media) is to convince you that none of the devastating things taking place right now are happening, so that you take no action until it’s too late. Illegal immigration will destroy America, yet you are being told it’s not real. The COVID jabs are causing global infertility, depopulation, and sudden deaths by the millions, yet you are told none of that is happening.

“The climate cultists are shutting down food producing farms across Europe and (soon) the United States while banning combustion engines. This will lead to engineered global famine, yet you are told that food doesn’t need to come from farms at all. Instead, it will come from cricket protein factories. Think about all the lies the media continues to tell: That J6 was an “insurrection,” that Building 7 should be forgotten, that herbicides are good for your health, that the #dollar will always be strong, that #Ukraine will defeat Russia, that ivermectin is bad for you, etc.

“EACH ONE OF THESE LIES is designed to nullify your critical thinking while you are being meticulously exterminated. This is an attempted global culling of the human race, and the corporate media’s entire job is to keep you in a state of passive acceptance of your own extermination while it’s taking place in real time. If you are reading this, consider yourself among the top 1% of rare, informed individuals who knows what’s happening. The other 99% who read nothing but MSM sources have no clue at all.”

Okay, if you have read my columns for years, I’ve said it over and over again. Now, we’ve got more gutsy journalists to repeat not only what my columns have been saying for years, but my three published books have made it even clearer: **Immigration’s Unarmed Invasion: Deadly Consequences published 2004...America on the Brink published 2009: The Next Added 100 Million Americans ...America’s Overpopulation Predicament: Blindsiding Future Generations published 2021** by Frosty

Wooldridge.

Those books I wrote over the past 20 years spell out the destruction, decay and collapse of America because of mass immigration. Our current president and majority of Congress are out to kill America. Worse, they are succeeding. Our country faces destruction because our country continues on a self-destruct path of apathy, stupidity and outright denial of reality. You can deny reality for quite some time, but reality will finally confront you.
