

America Will Not Come Back

Time is like a river. You cannot touch the water twice, because the flow that has passed will never pass again. Franklin Graham was speaking at the First Baptist Church in Jacksonville, Florida, when he said America will not come back. He wrote:

“The American dream ended on November 6th, 2012. The second term of Barack Obama has been the final nail in the coffin for the legacy of the white Christian males who discovered, explored, pioneered, settled and developed the greatest republic in the history of mankind.

FELLOW TRAVELERS

A coalition of blacks, Latinos, feminists, gays, government workers, union members, environmental extremists, the media, Hollywood, uninformed young people, the “forever needy,” the chronically unemployed, illegal aliens and other “fellow travelers” have ended Norman Rockwell’s America.

You will never again out-vote- these people. It will take individual acts of defiance and massive displays of civil disobedience to get back the rights we have allowed them to take away. It will take zealots, not moderates and shy, not reach-across-the-aisle RINOS to right this ship and restore our beloved country to its former status.

People like me are completely politically irrelevant, and I will probably never again be able to legally comment on or

concern myself with the aforementioned coalition which has surrendered our culture, our heritage and our traditions without a shot being fired.

The Cocker spaniel is off the front porch, the pit bull is in the back yard. The American Constitution has been replaced with Saul Alinsky's "Rules for Radicals" and the likes of Chicago shyster David Axelrod along with international socialist George Soros have been pulling the strings on their beige puppet and have brought us ACT 2 of the New World Order.

The curtain will come down but the damage has been done, the story has been told.

Those who come after us will once again have to risk their lives, their fortunes and their sacred honor to bring back the Republic that this generation has timidly frittered away due to white guilt and political correctness." [\[Link\]](#)

A relative sent the speech and said if I had the guts, I should pass it on. First of all, I'm not 100% certain Franklin said it and secondly, before going further, it should be noted that we must place the blame where it belongs but I did thank her for giving me a new title for an article.

The Christian Church is the largest organization in America and they helped vote our [illegitimate communist President Barack Obama not once into office](#) but a second time, so how dare we point fingers at others when it is we, and especially the pulpit, that are responsible.

ONE WORLD RELIGION

While many Christian organizations do good works around the world, Franklin Graham does his through the very lucrative and influential Billy Graham Evangelistic Ministries. Texe Marrs at the Power of Prophecy said Secret Societies and the Christian establishment – Henry Luce, Illuminist and Order of the Skull & Bones initiate, supervised and helped fund one of

Billy Graham's first crusades in New York City. The Illuminati have long worked behind the scenes to influence and control the Christian establishment and I've seen a picture of Billy Graham, sharing a secret Masonic handshake with fellow 33rd degree Mason, former President Harry Truman. And when NBC's Tom Brokaw asked Franklin about his ministries, he said, "It's very important that all the faiths, all the denominations are coming together, cooperating together, working together; it is a wonderful testimony to the spirit of America, and the dedication of the American people – The Unholy Alliance – Christianity and the NOW. [[Link](#)]

One of the many spiritually deadly legacies of Evangelist Billy Graham is the embracing of ecumenism, the idea that the Christian church can freely mix and mingle itself with various assortments of differing world religions and work together. It cannot, and remain true to it's calling to preach the gospel of grace of God that Paul tells us about. The Bible teaches that Jesus is the ONLY WAY to the absolute exclusion of all other forms of faith and practices. The ecumenical movement comes from Rome, who the Bible says will create the One World Religion during the time of Jacob's trouble.

Hundreds of Jewish, Muslim and Christian faith leaders from the United States and abroad descended on Washington for a conference on religious tolerance the week of March 28th. Attendees were quick to note an unexpectedly large delegation from one particular religious group: Evangelical Christians. So when Franklin says America will not come back, who is to blame?

THE JOHNSON AMENDMENT CAUSES A VACUUM

A vacuum developed which started after the turn of the 20th century with the creation of the Sixteenth Amendment and the Internal Revenue Service in 1913. Most pastors and church planters fell into the trap of incorporating their churches

which invited the government into the Board room of American churches. The nefarious actions of then-Senator Lyndon Johnson gave them tax-free status known as a 501©3 and the church was silent as Madeleine O'Hair expunged prayer and Bible reading from our schools back in 1962-63. [\[Link\]](#)

This Johnson Amendment has done more to silence the mouth of God than anything the Devil could have ever done. In between their joint vacations to visit Israel, meet, greet and eat and door prizes at the luncheons, I haven't observed any church organizations forming to have it banned. One minute I heard President Trump was going to do away with it and then on 3/23/2018 RadioTalk Show host Laura Ingraham said he changed his mind. Getting rid of it would be a scary thing for the pulpit. They might have to begin speaking out against Roe -vs- Wade, same sex marriage, teaching homosexuality in the public schools and all the other evils in our world. They may have to grow spines and start marching or carrying gun. The church is at a cross road between the ministry of the Spirit and the ministry of the flesh. Flesh we know profiteth nothing. The realm of the flesh is the realm of carnality. The realm of carnality is the wrong place to be. [\[Link\]](#)

OUR PROBLEMS DIDN'T START WITH OBAMA'S SECOND TERM

Our problems didn't start with Obama's second term as Franklin Graham has said because pastors have been muzzled by the Johnson Amendment so they relinquish their First Amendment rights in order to protect the church treasury. There was much information on the Internet prior to President Obama's first election and when I would try to explain to some Christian friends the dangers of electing this community organizer (communism), one said we should give him a chance perhaps to prove we weren't racist. We don't' exchange Christmas cards any more. [\[Link\]](#)

Rob Pue, Wisconsin Christian News.com said in the "old days" pastors and preachers served as a restraining force against

evil. Yes, alcoholism was a problem back then and sin doth abound but do you think marijuana would have been legalized? Sure the oils from marijuana are being used for medical purposes which was simply the open door for recreational usage but when I was growing up, the worse vice we could see was the town drunk embarrassing his wife and children. Christian standards pretty much prevailed. Now days all we have to do is visit the "sanctuary cities" and the heroin addicted living in tents and sleeping bags on the streets surrounded by needles. You may contact Rob@WisconsinChristianNews.com for a complimentary copy.

In March 2016 Georgia Governor Nathan [VETOED the religious exemptions bill](#) legislation allowing clergy to refuse performing gay marriage and protecting people who refuse to attend ceremonies. Republican majorities passed the bill to broadly protect people acting on their religion. It also would have protected clergy who won't perform gay marriages and people who won't attend a wedding for religious reasons.

PROGRESS IN THE FIGHT FOR LIFE

In the meantime Planned Parenthood, the nation's largest abortion provider, organized a comment-writing campaign, explaining on March 27th on Face book that the "Trump-Pence administration is trying to make it easier for a wide range of institutions and entities, including hospitals, pharmacies, doctors, nurses, even receptionists, to deny patients the critical care they need through a new proposed rule." Planned Parenthood further argued that the rule "could lead to widespread discrimination in virtually every part of the health care system," a message echoed by the pro-abortion National Women's Law Center (NWLCC), which claimed in a March 26 tweet, "The rule would allow religion or morality to interfere in the patient-provider relationship. The bottom line is that this rule puts patients dead last," said P.P.

But good news: USA Today on March 3, 2018 said American Vice-

President Mike Pence cast a tie-breaking vote in the U.S. Senate that allows STATES to withhold federal funds from the nation's largest abortion provider, however, in August 1917 Oregon's transgender governor Kate Brown signed HB 3391 solidifying Oregon's status as the most radically pro-abortion state in America. I can see the rush to Oregon for those who want abortions and OREGON churches have Ichabod written over the door because they have failed to stand against the evils taking place in Oregon. We quit attending church in July 2017. Please don't tell us to move. We have grandchildren here. Look what is happening in Hawaii. Maybe Oregon's long awaited earthquake is coming and the November elections.

OREGON CIRCUIT JUDGE PUNISHED FOR REFUSING TO MARRY LESBIANS

We often hear of sitting judges being arrested for various crimes but Oregon Circuit Court Judge Vance Day, a friend and former GOP chairman appointed by a Democrat governor, was suspended without pay for "misconduct" – the longest suspension in history for a judge. His crime was refusing to marry gay couples. The ongoing battle has caused him to lose his home to pay for legal fees and he's living in a trailer now with no income for three years. This case may eventually reach the U.S. Supreme Court but what a miscarriage of justice in the meantime. He was on Hucklebee's program on the Christian station in mid April. Where are the church leaders? Why aren't they standing up to help him? He could use our help. Judge Day Legal Defense Fund, P.O. Box 1962, Merrifield, VA 22116-1962.

And then there is Aaron and Melissa Klein's family bakery, Sweet Cakes by Melissa, which was shut down in 2013 after being fined \$135,000 by another government cronie for declining to make a cake for a same-sex wedding. Well the Klein's may be down, but they're not out. Along with the nonprofit First Liberty Institute, the Kleins are appealing to the Oregon Supreme Court to reverse the decision and uphold their right to free speech, religious freedom and due process.

May the Lord grant Judge Vance Day similar legal representation.

DOSSIERS – DO THEY HAVE ONE ON YOU?

And it's shocking that most Americans don't care and don't protest the amount of spying against them... DOSSIERS. I bet we all have one. Every Phone Call, every email, every purchase all logged. We are already categorized. Even Facebook labels us as liberal or conservative. Our Constitution is suppose to protect us but we've all seen how Mueller's investigation of President Trump is violated in order to find something to prosecute him, and frankly, we're all sick of Mueller's game playing.

Today's surveillance makes the *NINETEEN EIGHTY-FOUR* George Orwell book which tells the story of a dystopian world where the masses are under constant surveillance by the watchful eye of "Big Brother," the news is continually manipulated, history is rewritten, and the three remaining countries are said to be in a perpetual state of war. His novel is a work of fiction, yet the world we live in today is rapidly starting to resemble an Orwellian society and amazingly enough the technological advancements of our time far exceed the imagination of Orwell.

It's amazing how occasionally I'll try to send something I deem important to my e-mail list, and they all come back blocked. I'm one of maybe 10% who knows the name of their Congress person and Senator's voting record and try to keep them informed. Go to NEW AMERICAN FREEDOM INDEX and check their voting record on Constitutional issues. How about our state representatives and senators? Do voters know their names and are they familiar with how they vote? And don't neglect your city council people and/or your county commissioners. Many voters are more familiar with the names of Hollywood stars or athletes and there's our problem in our "democratic socialist" nation where only the government cronies get richer.

THROWING STONES FROM OUR GLASS HOUSE

It's easy and fun to condemn North Korea's government, a regime of concentration camps, starvation, surveillance and propaganda so obvious and totalitarian they seem a farce and unimaginable poverty while ignoring or excusing the same wickedness by our own leaders and let us not forget the WACO Tragedy 25 years ago. The assault on April 19, 1993 by the ATF and FBI using CS gas despite the presence of children inside the compound was unprovoked and 75 Davidians died a horrible death and President Bill Clinton and his Attorney General Janet Reno never were charged for giving the order.
