

America's Dangerous Future: 20 Million Muslims

Have you noticed all the pro-Hamas marches in America since October 7, 2023? Have you noticed who leads them? Have you noticed their chants of death to all Jews? Have you noticed that they carry Palestinian flags along with Islamic black flags?

Who leads those marches? Some of the 4,000,000 Muslim immigrants allowed into America by some D.C. bureaucrat who never studied the Qur'an! Their politically-based religion is the only religion in America that wants to destroy our U.S. Constitution. They will install Sharia Law as dictated by their Qur'an. Barack Obama, a Muslim, said, "I want to fundamentally change America." What did he mean? He meant he wanted to remake America based on Islam and Sharia Law.

If you look out across the USA's big cities where Muslims dominate, you are already seeing the seeds of our destruction as a Republic. Islam does not tolerate free speech or religious choice. No women's rights, whatsoever!

At some point, with chain migration, we Americans face 20 million Muslims bent on destroying the United States of America. It's almost beyond comprehension that a 6th century barbaric religion could not only grab a foothold into America, but become dominant in states like Michigan, New York or Minnesota.

The Islamic religion-political system: a highly emotionally infectious, contagious, repugnant and debauched ethnic disease masquerading as a religion—added to a diabolical Sharia Law mandate. It warps minds of all adherents and forces them toward brutal, violent, cruel, vicious and insane behavior toward men, women and children. It creates suicidal maniacs and insensate intellectual morons. Humans under its spell lose their sensibilities, rational values, dignity and minds.

They resort to wanton acts of murder, cruelty, perversion and barbarism. Because of mass immigration into first world countries, this insane religious disease floods into every corner of the planet—and with it a complete destruction of women's rights, children's rights, intellectual rights, gay rights, free speech, free choice of religions, dress, free choice of spouse, killing of gays, honor killings of women and a complete loss of humanity by Islam's adherents. If not stopped by the willpower and force of first world countries, it will ravage the free world back into the Dark Ages.

Adunis Asbar, Arabia's most famous Islamic poet said, "Islam cannot be modernized."

He continued, "You cannot reform a religion. If they are reformed, [the original meaning] is separated from it. Therefore, modern Muslims and a modern Islam is already impossible. If there is no separation between religion and state, there will be no democracy especially without equality for women. Islamists have no more creative force. Islam does not contribute to intellectual life; it suggests no discussion. It produces no thinking, no art, no science, no vision that could change the world. This repetition is the sign of its end. The Muslims will continue to exist, but they will not make the world better. Islam is based on a totalitarian system."

And yet, our U.S. Congress continues pumping millions of them into America. Even after they promise to destroy America with their Sharia Law!

As reported by Robert Spencer, August 20, 2018:

Illinois: Muslim Leader: "Everything We Represent Goes In Total Contradiction To What The West Represents"

"My dear brothers and sisters, this idea of fitting in – we need to eliminate this from our vocabulary. Again, we are to stand out. We are a unique nation with a unique set of solutions. We are not to fit in. How dare the truth and the falsehood hold hands? How dare we think that fitting in is the sole purpose of this message?"

Will US authorities heed this and ponder its implications? Of course not. We haven't since 9/11.

Right now, Joe Biden invites Muslim terrorists into America by the thousands over our southern border. With their incredible religious zeal, we face more 9/11 events from the very small ones where a Muslim kills a dozen people at a mall or King Soopers grocery store--or, they plant bombs on trains or fly a bomb-laden plane into an NFL football game. Or, the set fires in the West. Or, they blow up electrical substations that will blacken our big cities. Once that happens, all hell will break loose in Chicago, Detroit, NYC and any city where roving gangs will gut everything in sight. Just remember what Black Lives Matter did to all those cities they stormed.

Does this commentary predict our dangerous future? You bet it does. They aren't kidding and I'm not kidding.

Dayanand Saraswati, Indian sage, said in 1883, "Having thus given a cursory view of the Koran, I lay it before the sensible person with the purpose that they should know what kind of a book the Koran is. I have no hesitation to say that it cannot be the work of either God or of a learned man, nor can it be a book of knowledge. Here its very vital defect has been exposed with the object that people may not waste their life falling into its imposition. The Koran is the result of ignorance, the source of animalization of human beings, a

fruitful cause of destroying peace, an incentive to war, and propagator of hostility among men and a promoter of suffering in society. As to defect of repetition, the Koran is its store."

Dear fellow American, what do you think will happen with another 20,000,000 (million) Muslims in America? Do you think it's going to turn out better than what's happening in the UK, Sweden, Germany, France and the rest of Europe? If you do, you would be a fool.

The Muslim religion stands as the most vicious, evil and pathetic politically driven religion on Earth. It stands against every American value for both men and women.

Dr. Don Boys said, "Practically every media outlet and almost all political leaders declare that "radical" Islam is the enemy; however, that is incorrect. To be sure, radical Islamists are the enemy to all free people, but it is disingenuous, duplicitous, and deadly to make the simplistic statement above. The enemy is Islam, period. Terror is only one of the arrows in their quiver to be used when appropriate. When Islam is a small minority, they will condemn terror but will use it when they are strong enough to strike. This principle is revealed in the Arab homily, "Kiss the hand of your enemy until you can cut it off."

It's a fact that we now tolerate honor killings of women and female genital mutilation of young girls in America in 2023 by our Muslim immigrants.

What can we do? Answer: absolutely not one single more Muslim immigrant allowed into the USA. If Muslims continue to honor-kill their women or destroy their children's genitals, immediate deportation. We need to uproot and destroy all their Islamic Training Areas from Pennsylvania to California. No Islamic schools where they teach only Qur'an mandates. We need to inspect their mosques for bombs, guns and other weapons.

We need to arrest and deport any Imams that preach Jihad. The best thing we could do to save our country is to deport every last Muslim who follows or advocates for the Qur'an and Sharia Law.

Because if we don't, by the time they reach 20,000,000 in numbers, we'll look like Sweden...and we will have lost America.
