

America's Dangerous Internal War – Outcome?

In my long life time I have never seen what we're seeing right now after the legitimate election of Donald Trump. It's understandable and normal for any losing candidate to feel disappointment over not winning the grand prize – that includes the candidate's supporters. But, Hildebeast Clinton's mentally unhinged followers are dangerous and becoming more so by the day.

So is the criminal impostor, Barry Soetoro aka Obama, who left the White House in January. Barry never had any intention of leaving politics behind and do what is considered normal for departing presidents: astronomical bucks for speeches, vacations and book deals. Allegedly Barry and that foul piece of baggage he's married to – Mochelle – have been offered a package deal: one book by each of them for a cool \$60 million.

Nice work if you can get it and all you have to be is a die hard Marxist who sold his country down the road. Or, a fake First Lady who swam through train cars of taxpayer dollars for eight years to support her privileged and lavish lifestyle. \$85 million in new debt slapped on our backs.

It was reported last week another communist sympathizer, former WH Senior adviser to the fake president, Valerie Jarrett, has moved into Barry and Mochelle's new mansion in DC. Also reported is the old community organizer, Obama, has been busy organizing large numbers of blind zealots to do his bidding: Destroy President Trump, his cabinet picks and his promise to the voters. I assume that's why the former 'shadow president' (Jarrett) moved into a married couple's mansion so close to the capitol and White House.

Every day of the week it's one accusation after another after another against President Trump or one of his people. Even when there is no proof the accusations – think Russia – the prostitute media, mainstream newspapers, talk radio and cable news networks just continue beating a dead horse with the biggest, flashiest and untrue headlines.

The hot one right now is the Obama (fake) administration spied on President Trump. [Officials Not Denying Trump Wiretapping, Obama Claiming No Involvement](#). We know damn well Obama would never get his hands dirty: "I'd be careful about reporting that Obama said there was no wiretapping. Statement just said that neither he nor the WH ordered it."

Could this be another Watergate? Considering how stupid Hillary and Obama's operatives have been over the years, well, could be. I guess we'll find out more in the coming weeks.

We know that inside some of [the intelligence agencies](#) are Obama hold overs that should be booted as soon as possible. The leaks coming out of foggy bottom are criminal and Attorney General Jeff Sessions should get to it. Unfortunately, James Comey is still the director of the FBI and on March 4, 2017 Comey turned on Trump: [Comey Asks Justice Dept. to Reject Trump's Wiretapping Claim](#) – "Mr. Comey's request is a remarkable rebuke of a sitting president, putting the nation's top law enforcement official in the position of questioning Mr. Trump's truthfulness."

It's enough to gag a maggot and yet millions of Americans

believe all those red herrings tossed around because their blind loyalty is to the Democratic/Communist Party USA, they hate President Trump or they're too lazy to actually try to verify what's shoved down their throats.

Over the course of Obama's illegitimate 'presidency' America has become so racially divided and charged I'm surprised there haven't been even more riots. Obama's support of the foul and toxic fake religion, Islam, has put this country at great risk. Anyone who has done enough research fully understands how Muslims come into a country and work full time to take it over and establish their [totalitarian Sharia Law](#). Obama and his minions worked tirelessly to see it happen.

President Trump on the other hand came charging into town and said, oh, no – the corruption has to stop. Destroying American jobs through 'free' trade treaties has to stop. The massive illegals invasion fully supported by the Democratic/Communist Party USA, the ACLU and numerous pro- illegals groups has to stop. Not only are we taking in millions who sneak into our house, they go right on the gravy train while Americans struggle each day. That has to stop. Allowing terrorists and drug cartels to cross our borders has to stop.

The list of what President Trump is trying to accomplish which will benefit ALL Americans is being rejected by the Trump haters even though each one of them (except the illegals) will benefit. Trump haters are too stupid and too indoctrinated to understand what I just wrote. As a matter of fact, those useful fools are embarking on a [March 15th post card day](#) around the world: Send your hateful post card to President Trump and tell him we do not want him or his plans to save this country:

"On March 15th, each of us will mail Donald Trump a postcard that publicly expresses our opposition to him. And we, in vast numbers, from all corners of the world, will overwhelm the man with his unpopularity and failure. We will show the media and

the politicians what standing with him—and against us—means. And most importantly, we will bury the White House post office in pink slips, all informing Donnie that he's fired!

“No alternative fact or Russian translation will explain away our record-breaking, officially-verifiable, warehouse-filling flood of fury. Hank Aaron currently holds the record for fan mail, having received 900,000 pieces in a year. We're setting a new record: over a million pieces in a day, with not a single nice thing to say.

“So sharpen your wit, unsheathe your writing implements, and see if your sincerest ill-wishes can pierce Donald's famously thin skin. (Dump Despicable Donnie! He's not my President! Impeach Dumpy Donnie! Not smart enough to be my President! Stop walking all over our Constitution! Donnie the dictator belongs in Russia!). “Prepare for March 15th, 2017, a day hereafter to be known as #TheIdesOfTrump”

Yes, there is an internal war going on in this country fed by Soros money and true radicals who hate freedom and liberty. A dangerous internal war deliberately fostered and funded to overthrow a legally elected president less than two months into office.

Bolstered by all the political bickering and lies coming out of Washington, DC and the airwaves, low information party loyalists simply cannot accept reality. All they see is the hatred they spew at President Trump, his family and administration. I've said it so many times before: Donald Trump was somewhat of an American icon before he decided to run. There was never any hint of racism and in fact the opposite is true based on his actions and generosity.

There was no hint of anti-semitism; his daughter, Ivanka, is married to a Jew. There was nothing but we love 'The Donald' on the Apprentice and all his other and various interests and businesses – like world class hotels and golf courses. Now,

he's hated like nothing I've ever seen.

The silent majority came out last November and finally had their voices roar last November. Americans came out by the tens of millions to vote for Trump. Not just Republicans, but independents and Democrats alike. White, black, Latino, Mexican – it didn't matter. What mattered is what Trump promised to do for them.

Due to the massive attacks on Trump and his people every day with sickening casualties like Gen. Mike Flynn, those who voted for President Trump are out in cities across the country holding rallies in support of him and what he's trying to accomplish.

This past Saturday peaceful Americans who gathered to support Trump [were met with violence](#) – just like 'controversial' speakers on college campuses who happen to be conservative. One man at a Trump rally was badly bloodied by fools who shout they're trying to Stop Fascism! when they don't even know what they're talking about.

ACLU, CAIR, Obama, Soros, and Others Sued for Allegedly Inciting Violence Over Trump's Executive Order Over Muslim Immigration

[Complaint Alleges Klayman Was Assaulted By Muslim Woman at LAX Airport](#)

(Los Angeles, Ca., March 2, 2017). "Today, Larry Klayman, the founder of both Judicial Watch and now Freedom Watch and a former federal prosecutor filed a complaint before the U.S. District for the Central District of California (Case No. 2:17-cv-01705), alleging that the ACLU, the Council for American Islamic Relations (CAIR) (which was previously named as an unindicted co-conspirator in a criminal terrorist trial in Texas), Barack Obama, George Soros, and former Attorney General Eric Holder, whose law firm represents the ACLU in various matters, and other named defendants all conspired and

acted to further violent protests over President Trump's initial executive order to implement a 90-day moratorium on immigration for 7 predominantly Muslim Middle Eastern countries.

"As a result of this alleged incitement to violent protests, the complaint alleges that Klayman was assaulted by a Muslim woman in the baggage claim area of Southwest Airlines. Just weeks earlier a terrorist attack had occurred in the baggage claim area at Ft. Lauderdale International Airport, killing and severely wounding several travelers. Klayman, the complaint alleges, thus believed at the time of the assault at LAX that he and others were under terrorist attack and about to be killed or severely harmed physically.

"During the time of the protests of President Trump's initial immigration order, the ACLU, allegedly whipping up violent protest in concert with other defendants, raised reportedly over 24 million USD in just one weekend, profiting from its alleged illegal actions. The complaint thus alleges that this was in effect a racketeering enterprise.

"Klayman had this to say upon filing the complaint: "The ACLU, CAIR, Obama, Soros and Holder and the other defendants must be held to account for their actions, in my opinion designed to destroy the Trump presidency to further their socialist and pro-Muslim agendas. I got caught in their crossfire. I therefore will not stand by and allow the nation to be destroyed by these leftists who have no respect for law and order! My complaint asks for over ten million USD in damages, as well as punitive damages for these malicious acts to prevent this from happening again." For more information or to view the complaint, go to www.freedomwatchusa.org or contact daj142182@gmail.com or (424) 274 2579.

George Soros became an American citizen purely for monetary reasons and to be closer to the ugly violence he supports and promotes. Soros is about as evil an individual as you will

come across. Personally, I think he should be indicted and tried for sedition.

Klayman is also going after other who promote violence and mayhem:

* [Dallas Sergeant Demetrick Pennie and Larry Klayman](#) ask court for emergency hearing over death threats allegedly furthered or made by defendants in lawsuit against Farrakan, Nation of Islam, Sharpton and others to stop violence against police and other law enforcement officers

* [Sergeant Demetrick Pennie of Dallas Police Department becomes plaintiff in class action suit](#) against Black Lives Matter, Farrakhan, Nation of Islam, Sharpton, Eric Holder, Obama, Clinton, Soros and others over allegedly inciting and financing threats and violence against law enforcement!

While the attacks against President Trump, his cabinet and nominations play out in the media, it appears violence is going to be the push back by those who hate him and all he's trying to do for this country. They are being egged on by other departed Obama cabinet members as well as Democrat incumbents in Congress.

[Loretta Lynch: Need more marching, blood, death on streets](#) – Senate Dems post her impassioned plea on Facebook page as 'words of inspiration'

Mousy little 'met with Billy Clinton fame' – has graduated to revolutionary. How quaint. How dangerous.

Will the violence become more violent and widespread by Trump haters and Muslims biding their time? It will unless Democrats in Congress, Democratic 'civil' rights leaders and scum like Jarrett and her old boss come out and take a firm stand and condemn the violence. Otherwise, I believe we will see America again as it was in the 70s over Viet Nam – a burning nation. Too bad not a single state in the Union has reconstituted the

constitutional militia to deal with just such a situation.
