

America's Democrats Bow to Chinese and Soviet Marxism

Kelleigh Nelson

We are indebted to Marx, Engels, Lenin and Stalin for giving us a weapon. The weapon is not a machine-gun, but Marxism-Leninism. –Mao Zedong

The goal of socialism is communism. –Vladimir Lenin

A revolution is not a dinner party, or writing an essay, or painting a picture, or doing embroidery; it cannot be so refined, so leisurely and gentle, so temperate, kind, courteous, restrained and magnanimous. A revolution is an insurrection, an act of violence by which one class overthrows another. –Mao Zedong

Give me four years to teach the children and the seed I have sown will never be uprooted. –Vladimir Lenin

Voltaire, who died in 1778 in France said, "To learn who rules over you, simply find out who you are not allowed to criticize." And just who rules over us? Despite our populist President and Republican Senate majority, it appears as though the Democratic Socialists are running the country and have been for nearly a century.

demonstrate to the world where many corporations' true values lie, especially when they kowtow to Communist China's big stick. Even the NBA has shown its colors in bowing to the Reds. Daryl Morey, the general manager of the Houston Rockets, sparked backlash in China after tweeting support for the protests in Hong Kong. He was immediately [excoriated by LeBron James](#) and others who knelt to Communist China over American freedoms, all for the love of money.

While Hong Kong fights for freedom from mainland China, America's youth rally behind the communist Democratic candidates believing that utopia exists for everyone with socialism.

Comments from my [previous article](#) regarding the 1941 Lend Lease Act attest that some older Americans understand the extent of Soviet/Marxist espionage within our country. A Vietnam veteran wrote this:

Reading your article infuriates me no end when I consider that I served six years in the USMC during the Vietnam era and recalled the mantra and government propaganda of how good people died in the swamps and jungles on the pretense of defeating communism while communism grew fat and sassy on American soil. As I told people many times, 'Kill a commie in Vietnam you get a medal; come home and kill one on American soil and you get life in prison.'

The fact that they exist in our government, much less are

allowed to exist, is an insult to every person who died or was injured in Vietnam.

I was saddened, and infuriated when I read Trevor Loudon's [latest article](#) stating that Russia had to be saved from Hitler's destruction.

Another comment was from Mary who is 80 years young:

I was just a child, but I remember my father talking about the Lend Lease Act as he read the editorial page at the breakfast table. Every time the Act was mentioned, it was preceded by the word, 'damned.' Even though many years have passed, when I started reading your article, I knew full well what the Act entailed. My father despised all those people surrounding Roosevelt and he would often allude to the fact that none of our allies ever paid back the money the U.S. lent them during WWI. Thank goodness President Trump understands the complexities of our entangling alliances. I pray he is re-elected.

Bowing to Beijing

Brett Decker's book, [Bowing to Beijing](#), gives a clear picture of what Communist China is truly like.

China is "stealing technology, ripping off patents and trademarks, manipulating and even counterfeiting U.S. currency, breaking trade laws, misrepresenting military spending, selling toxic toys to American children, dispatching armies of foreign agents to influence U.S. politicians, testing U.S. resolve on sensitive diplomatic issues, purchasing stakes in our banks and buying up our land, [taking control of Hollywood](#), nurturing U.S. commercial dependency on Chinese business, building a blue-water navy, expanding its nuclear arsenal, and hacking our computer networks." (Page 6, *Bowing to Beijing*)

More than one million Turkic Muslims, the Uighurs (pronounced wee-grrs) have been put in detention camps in China's western region of Xinjiang to "[re-educate](#)" them into communist converts. The [cruelty by the guards](#) is rarely told, including gang rapes and medical experiments.

China's government is more authoritarian than ever despite increased trade with America. It is not becoming more free and capitalistic as some experts believe. As we make China richer, and their military stronger, it is becoming correspondingly less free.

- The Reds arrest and torture any with faith that is antithetical to Marxist atheism.
- Reporters' freedom is nearly non-existent...there is violent fear of reprisal.
- Freedom of speech is non-existent, those who speak out disappear.
- Freedom of assembly is verboten. Farmers, factory workers, white-collar professionals are mowed down if they dare to join in any mass movement. Remember Tiananmen Square.
- No one thrives without approval and active backing of their communist overlords.
- Life is not respected, although the one-child plan has recently been [removed](#). The organs of executed inmates (dissidents) are harvested for transplants in the global market. They refuse to recognize life and trample the rest of basic rights.
- Criticism in any form is rejected and can end anyone who complains in prison.

Decker tells that the Penal Meat Market is very real. A shot to the back of the head keeps organs intact. The body parts of prisoners bring a tidy profit, and, "If you want a heart,

kidneys, unlined skin, they'll shoot a prisoner to order," said two Chinese organ traders.

[Forced labor for prisoners is a way of life](#), and they make products for the West. They are padlocked in dormitories and forced to work up to 18 hours a day in subhuman environments. Apple, iPods, Bluetooth accessories, Ikea products and Marks and Spencer clothing are just a few of the items made by [slave prison labor](#).

In China's officially atheist nation, being a Christian or believing in God is considered subversive. There is and continues to be a savage campaign against Christians despite Christianity being the [fastest growing religion in the People's Republic, but militant government atheists are pushing back](#). (Page 16-31, Bowing to Beijing).

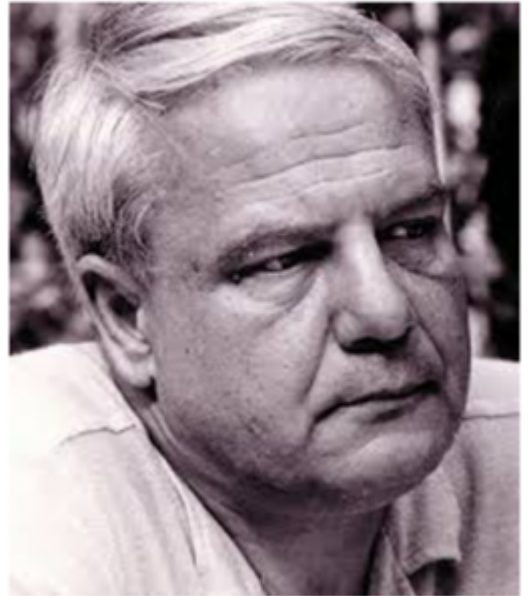

Mao Zedong said, "Communism is not love, Communism is a hammer which we use to crush the enemy." This is what America supports as most-favored-nation (MFN) trade status for China. In 2002, President George W. Bush granted [permanent trade status to Communist Red China](#).

Western Complicity

Glenn Reynolds, Distinguished Professor of Law at the University of Tennessee wrote praise for Vladimir Bukovsky's book, [Judgment in Moscow, Soviet Crimes and Western Complicity](#). Reynolds said, "Russian interference in Western politics has been in the news of late, but Bukovsky's deep dive into Soviet era documents demonstrates that for much of the 20th century, since at least the 1930s, it was not paranoid fantasy, but cold, hard fact."

Soviet dissident Vladimir Bukovsky

spent twelve years in Russian psychiatric hospitals, prisons or labor camps. The Soviet Union expelled him in 1976, but in 1992, he was asked to return to Russia as an expert witness at a trial against Boris Yeltsin. He requested access to the Central Committee archives and copied and smuggled out thousands of pages before being discovered. His findings were

published in Judgment in Moscow in 1995 and translated in French, Russian and other European languages.

Cato Org.

His book documenting Western complicity didn't find a U.S. publisher for almost 25 years. It was finally published in English in May of 2019 by a small California publishing house. Bukovsky passed away in Cambridge, England on October 27th, 2019 at the age of 76. Please read his [bio](#), and [Diana West's eulogy](#) for this great warrior for freedom.

Soviet Russia is no different than China, and Bukovsky proved that time and again. He wrote, "Any sane person knows full well when he has entered into collusion with evil." Bukovsky knew that engagement by the West with despots only leads to corruption, not freedom. He wrote, "The voice of conscience whispers that our fall began from the moment we agreed to 'peaceful coexistence' with evil."

When Putin became president, Bukovsky was quick to realize what this meant for Russia: the KGB was back. Putin spent 16 years in the KGB before entering politics. Judgment in Moscow tells of murder by Putin.

McCarthy was Right

1. Stanton Evans' book, [Stalin's Secret Agents, The Subversion of Roosevelt's Government](#) substantiates the pro-Red influence on American policy during the Cold War, and [Blacklisted by History](#), verifies that the anti-anti-Communists won by destroying Senator Joseph McCarthy.

For recent documentation, one need only read Diana West's book, [The Red Thread](#) which thoroughly connects Obama henchmen Nellie Ohr, James Comey, John Brennan and others to socialist/communist ideology. West's [American Betrayal](#) tells the whole sordid tale of three Soviet agents who influenced President Franklin Delano Roosevelt to pass the Lend Lease Act resulting in massive support of Soviet Russia during WWII over and above Great Britain and even our own country.

American Socialism/Communism

Today's Democratic Party communists are pushing the same party line used by the Russian Bolsheviks and Mao's Single Party State in China. Our history is being destroyed, education in America has become politically correct propaganda from kindergarten through higher education, free speech is censored despite the First Amendment of the Bill of Rights, unborn human babies are murdered daily now reaching over 60 million and states have legalized infanticide, the media constantly lies with impunity, and public decorum, civility and respect for property has disintegrated.

Democratic presidential candidates are spewing their proletariat utopia, which has influenced so many Americans who have never been schooled in American history or our Constitution. Shockingly [45 percent of young Americans prefer socialism, and even 26 percent of baby boomers agree.](#)

We've all heard of progressive taxation, punishing the wealthy by taxing them at higher rates, and wealth redistribution via ["earned" Income Tax Credits](#), the only venue program fund to be

considered a high risk for improper payments.

American History

It's been sixty years since American high schools taught our history, our Constitution, the American Revolution for independence and how our founders fought for freedom. Mao Zedong's revolutionary takeover of China in 1949, expelling Chiang Kai-shek's Nationalist Party to Taipei, Taiwan and destroying the history of the Republic of China and the Qing Dynasty is now happening in America.

Protestors on the small island of Taiwan do not want Red Chinese mainland in control. They wave American flags, show pictures of President Trump, and sing our national anthem. Their call is freedom!

Political correctness is blinding the eyes of our young. [Schools have been renamed](#) because they were previously named to honor Civil War generals such as Stonewall Jackson and others.

American statues of southern veterans are destroyed, without even a glance at their true history. Robert E. Lee is vilified despite the fact he gave freedom to inherited slaves ten years before the war, and that his wife taught black folks

to read and write, against the laws of the time.

General Nathan Bedford Forrest rode with Tennessee's sheriffs to disband the KKK and was vilified while on stage, when he kissed a black woman's cheek. Remember too that his black servants, not slaves, chose to go with him to war.

We are not only revising our history, but we are destroying it...just as Communist China has done since 1949, and as Russia did before them after the 1917 Bolshevik Revolution.

American Education

For more than a century, American education has been watered down. Decades ago, phonics was eliminated in the first grade of our government schools, Latin was eliminated in our high schools. Even cursive writing has been eliminated, although a few states have brought it back. Today's education from kindergarten to post graduate degrees is nothing but leftist (communist) propaganda. By the late 1800s, academic basics were being slowly eliminated.

Common Core socialist education is rampant. Children come home telling their parents they've ruined the world, that climate change is real, that socialism is good, that collectivism is wonderful and all people will be equal. Christianity is verboten, but Islam is taught and girls are even dressed in hijabs. Our colleges and universities are loaded with communist professors and the students are radicalized. Individualism is hated. Millions of [Americans are functionally illiterate](#) and 20 percent of high school graduates can't read.

Chinese children are taught to excel in math, science, technology, engineering, etc., but they are fed the Marxist propaganda. Kindergarten students in Communist Red China are [forced to sign away their religious beliefs](#).

American education today is a carbon copy of the propaganda

sold to children in communist countries like Red China and Soviet Russia.

Baby Murder

There's little difference between China and America's love of abortion and infanticide. The "Dying Rooms" of China are similar to the dying rooms of America.

In both countries unborn children are murdered daily by the thousands, but the reality

is that like China, born alive infants of abortion are left alone to die.

When Obama was in the Illinois legislature, he voted against the [Born Alive Infant Protection Act](#) (BAIPA) several times. He preferred they died alone in back rooms after they survived murder by their mothers.

The transcript from the 1995 BBC television [documentary tells the story](#). Chinese infants who were about one year old, or even younger, were tied to beds at night to die. Once, an infant's fingers and hand were eaten by rats. We've moved into that ungodly, evil realm.

Infanticide in America has been greenlighted. Attorneys for [David Daleiden](#) submitted a closing argument brief detailing that live births are occurring [inside the abortion](#)

[facilities and that these newborns are routinely killed and their organs harvested while still alive. Link](#)

California's Governor [Newsom has signed a bill mandating free abortions](#) at colleges and universities.

Marx and Satan

There is no doubt that social media is [censoring everything conservative](#), and everything that pertains to our once proud Judeo-Christian heritage. Christianity was long ago tossed from our government schools; it's not allowed in much of anything anymore. Society is purposefully devoid of God. Marxist doctrine is atheistic and hates the Creator. [Voluntary Christian prayers are not allowed in schools, but mandatory Islamic prayers are okay.](#)

China only allows versions of the Bible sanctioned by the state. Children under 18 cannot enter churches, crosses have been removed, and many churches destroyed. In America leftists and Hollywood depict Christians as fools who believe in fairy tales.

Here is a [partial list of religious removals](#) across America. Atheists are the antagonists, and the Democratic Party has become the communist anti-God movement.

Conclusion

Pastor Wurmbbrand's book, [Marx and Satan](#) tells the story of what it's like to be a Christian prisoner in communist controlled Romania. Wurmbbrand was tortured for 13 years and testified to our Senate what he suffered under Romania's Nicolae Ceaușescu.

This must never happen to America. We must stand for freedom, and [having done all, to stand](#). Ephesians 6:13 KJV
