

America's Growing Nightmare: Changing America for the Worst Possible Future

By Frosty Wooldridge

September 5, 2024

Coming in Part 2: The Great Plains, the Heartland, Chicago, Illinois, Detroit, Michigan, onslaught into a degraded and declining America. We may not be able to pull ourselves out of this mess...much like India or any other third world country. When is enough immigration and growth, enough?

To give you a clue as to what's coming: try this FACT on for size. Notice you will NEVER see any mainstream media reporting on this harsh reality facing every American. I don't know how many people read my columns, but every American needs to read this series. You need to forward it to your mayors, city councils, governors, House member, U.S. senators and friends. There is no way we're going to maintain our civil society if we continue on this course.

Before Covid, and before Biden-Harris, the mainstream media reported 12,000,000 (million) illegal aliens living within America. They created the largest underground economy in the world. They used our money to educate their children. They sent/keep sending \$120,000,000,000.00 (billion) to their home countries annually. That's money paid under the table, non-taxed, and illegal.

Since Harris became the border czar to stop illegal

immigration three and a half years ago, another 12 to 15 million illegals crossed over our borders in violations of our laws, but with the certain mandate of Joe Biden and/or his handlers.

In 2024, we now pay more than \$150 billion annually for feeding, housing and transporting those 24 million illegal aliens. But here's the taser-gun to your guts. Another 55,000,000 (million) foreign born legal immigrants inhabit our country since 1965. If you take 55 million plus another 24 million (at the very least), that's 79 million people displacing white, black and brown "born here" Americans. And, as you know, millions of them from the Middle East known as Muslims, are rioting in Minneapolis, Chicago, New York's universities, and desecrating our founding fathers and mothers. They chant, "Death to America" with brazen hostility. You've already got Sharia Law being practiced in Detroit, Minneapolis, NYC, Miami, Denver and any city with a huge pocket of Muslims. Everything within Sharia Law stands against our Constitution. Muslims do not subscribe to freedom of speech, freedom of religious choice, freedom of dress, freedom of spouse choice, women's rights, animal rights or human rights. The Qur'an commands, "Convert or kill all non-believers."

So, What Is All of This Immigration Doing To Us?

As we drove east off the West coast across the Great Plains, we witnessed tens of thousands of white wind turbines swirling across the landscape. Those electricity-generating machines chop up annually 538,000 eagles, hawks, Canada geese, white winged pelicans, whooping cranes, and every bird migrating or trying to live its life. That's just in America. Worldwide, those turbines chop up millions of birds while they tear a whole through the Natural World.

Can you imagine with another 100 million people added to America? You can witness a bird-graveyard beneath each one of

those savage wind turbines that kill without mercy 24/7.

Think about the enormous loss of birds just to provide electricity to our mega-population in 2050.

Have you heard of the Cloward-Piven Plan? The Cloward–Piven strategy is a political strategy outlined in 1966 by political activists Columbia professors Richard Cloward and Frances Piven. The strategy aims to utilize “militant anti-poverty groups” to facilitate a “political crisis” by overloading the welfare system via an increase in welfare claims, forcing the creation of a system of “redistributing income through the federal government.”

We already pay for 30,000,000 (million) Americans and immigrants subsisting on food stamps...now known as Electronic Benefits Transfers. Three years ago, note that the 125,000 Somalian immigrants in Minneapolis scammed the EBT cards to the tune of \$200,000,000.00 under Governor Tim Walz. He didn't act to prosecute them because he didn't want to appear “racist.” Not one of the ring leaders ever saw a day in jail. But your tax dollars made a lot of them rich.

Did you notice Chicago over the 4th of July weekend? Police reported 117 shootings of Black Americans shooting Black Americans. Nineteen died. Can you imagine the costs to patch them up at the local hospitals? Can you imagine the crime, rapes and chaos in Chicago's south side? Third world doesn't even begin to describe Chicago's ongoing and unsolvable nightmare. Since they voted to become a “Sanctuary City”, they feature somewhere north of 50,000 illegal aliens soaking up billions of dollars to feed and house them. Those illegal migrants are shoplifting and stealing Chicago natives to death. There is no way Chicago's leaders can solve the crime, roads and drugs in that insanity hellhole. The current mayor proves more incompetent than the last one, and just about as stupid.

What else can we cover? How about the fact that another 100 million people added via immigration to America will DOUBLE the size of our 35 largest cities. I've asked this question many times in my columns over the years: how do you water, feed, educate, work, medically care for and even begin to maintain a civil society with THAT many people. Do you notice NO ONE in the mainstream media approaches these topics.

What about the roads across America? We drove over, dodged and about busted our suspension on the horrible highways in California, Arizona, Colorado, Illinois, Michigan, Ohio, New York, Pennsylvania, South Carolina and Georgia. You put your life in the hands of drunks, stoned and just plain texting morons driving cars in our major cities. Mothers Against Drunk Drivers found that 14 million Americans drive drunk 24/7 on America's highways. Can you imagine your odds of death when another 100 million "stoned, texting or drunk" kids or immigrants drive America's roads? We already see 20,000 traffic deaths annually from texting, drunk and stoned drivers, annually.

What about the 250,000 drug overdose deaths of American kids in the past three and a half years of Biden-Harris? If Harris wins the White House, she remains staunchly pro-open borders. She stands in direct violation of our United States Constitution, yet she will invite millions of tons of drugs to cross over our borders to be distributed by MS-13 gangs now well-established all over our country. Our kids don't stand a chance.

How Bad Will It Become for All Americans?

All Americans, black, white, brown, red and yellow need to ask themselves what kind of a civilization are they (we) galloping at full speed toward? Will it be a manageable society? Will it be a happy society? Will it be a civilization that's in tune with the Natural World? Will it be a civilization that solved catastrophic climate destabilization? Will each person enjoy

quality of life? Will it be a society where opportunity and resources will sustain all of us?

Answer: the nightmare will become unmanageable and horrifically nasty with violence, poverty, misery and disintegration of America. What do you think?
