

America's Growing Nightmare: The Future of Our Country Hidden In Plain Sight

Part 5: This is what's coming to America, and it ain't pretty.

"It takes a special kind of stupid to want to repeat the last four yours under Biden-Harris by electing Harris, again," said Bugs Bunny.

Daffy Duck said, "Harris gave us inflation, invasion, and incompetence...now she wants to complete her quest to destabilize, tribalize and dissolve America."

John Wayne said, "Life is tough; it's even tougher if you're stupid."

With a second attempt on President Donald J. Trump's life on Sunday, we're getting a taste of the destabilization of America. Biden-Harris imported over 15 million illegal aliens in the past 3 $\frac{1}{2}$ years. A breakdown on national news showed 200,000 of them from China. Tens of thousands of them from the Middle East.

You cannot help but appreciate that Muslims have been fighting and killing one another since the 6th century. They follow the most violent religion on earth. They carry a "world view" of "Convert or kill all non-believers." The Chinese "world view"

remains one of dictators, emperors and the supremacy of their culture.

So, let's bring them into America! Let's unload/dump all these incompatible cultures, ways of life, and languages onto America. They arrive here from countries where all governance comes from the top/down. America was the first country in the world where the citizens vote leaders into positions from the bottom up. But you better believe that huge money/power interests want to control from the top/down.

The latest book showing their intentions: According To Plan: The Elites' Secret Plan to Sabotage America by Kevin Freeman

Another book shows it already happened to Europe: The Strange Death of Europe by Douglas Murray.

Those are not the only books predicting our future. And yet, half of all eligible Americans are too lazy to vote in the coming presidential election.

We Are Allowing America To Be Destabilized With Mass Immigration

If we allow continued mass legal and illegal immigration, we march along the same path that has befallen Springfield, Ohio, a sleepy town of 58,000 Americans. Today, Biden-Harris dumped 15,000 Haitian illegal aliens onto that town. Its schools are in total meltdown. Its streets are unsafe. One local was killed recently just taking out her trash. Those 15,000 illiterate Haitians lack skills, education, knowledge and any affinity to our way of life. Their culture is one of violence, poverty and illiteracy. If you look at Haiti, you can see that they lack any ability to maintain a civil society. So, let's just ship another 15,000 of them to every small town in America. They would love to live here with free housing, food, transport, schools and medical care.

Or, let's look at 300,000 Syrian "Death to America" Muslim

immigrants in Detroit, Michigan. Over 90 percent remain on welfare after 10 years. Their goal remains the same to install Sharia Law, which, if you didn't know, is violent, obscene, ugly and top/down by its religious leaders. The Qur'an dictates total submission to its savage philosophy. In other words, no freedom of personal choice on any level. Talk about destabilizing America!

Let's look at Minneapolis, Minnesota's 125,000 Somalian immigrants that trashed their schools, live on welfare, lack any academic thrust, adhere to Sharia Law, and lack any affinity to the U.S. Constitution. They used their tribal cunning to scam \$200 million in EBT card money before they were caught.

Out here in Denver, Colorado, we've got Venezuelan gangs distributing drugs, shooting up apartment buildings, openly defying our laws and our police. Denverites flee their apartments with those thugs' growing numbers.

Can you imagine striking up a friendly conversation with any of these incompatible, totally alien immigrants? What would they have in common with you or you have in common with them? Answer: NOTHING!

In that same report, it stated that 4,000,000 Mexican illegals roam our country. (Source: The report was on FoxNews by Brian Kilmeade over the past weekend, September 14, 2024.) They do not adhere to our laws. They commit every kind of crime carried on the books. Our citizens suffer death on the highways, robberies, rapes, drug overdoses, trashed schools and a complete "destabilizing" of our civil society.

With Biden-Harris' open borders, our own leaders violate our laws, blatantly and, with a new "top/down" power that, "We the people and our Constitution" don't matter.

What if you and/or a loved one are affected by the 250,000 drug fentanyl overdose deaths in the past three years? That's

a lot of mothers and fathers who lost their kids via Biden-Harris' open border policy. What if Harris gained the White House and allowed another 250,000 drug overdoses? That's criminal, but Biden-Harris haven't answered for it. How do you like it that Biden-Harris have totally and completely wrecked the U.S. Constitution, and that lady wants to win the White House so she can commit this country to four more years of open borders? Four more years of thousands of young people dying from drug overdoses! We're talking, NUTS! But half of Americans support her and will vote for her. As John Wayne said, "Life is tough; it's even tougher if you're stupid."

At what point do we import millions of more legal and illegal immigrants that cannot and do not subscribe to the U.S. Constitution before we see even more violence in our cities? How many more Hamas terrorists do we want roaming our college campuses in defiance of our laws. At some point, our police will not be able to handle the enormous numbers of immigrants who hate America. Do you want to see Palestinian and/or Hamas flags to continue to dominate the news?

As Kevin Freeman describes in his book, According To Plan, we've got some high-powered elites who hate this country built on, "We the people." They want to be the new "We the controllers."

They support Kamala Harris because she really doesn't know what's she's doing. She possesses NO grasp of economics, or geopolitical intrigues, no understanding of race relations, no comprehension of education...in effect, she's the perfect "affirmative action or D.E.I." candidate. Totally unqualified!

For anyone who reads this commentary and thinks we've got to save the world's poor and homeless, please understand that I have traveled across six continents on a bicycle to "see" what I am talking about. As the third world adds 83 million more desperate people, net gain, annually, we can't save them. But we can, and at this time, we ARE killing our country by

following this insane immigration path. We're already facing a future where we can't sustain the 350 million already here. Just watch when our resources are totally exhausted!

Who in their right mind thinks we're going to survive another 100 million immigrants, and their offspring projected to be added to our country in 25 years, by 2050? How will we solve any of our problems with THAT many people? Answer: we won't!

It's a guaranteed fact that if we don't maintain our civil society, much like Haiti has failed, there's nowhere else in the world for us to flee. Each society must heal and deal with its own people and they must deal with their own society.

We, as a people, need to stop all immigration into America, NOW! There is no Plan B.
