

Among Pilots, Heart Failure Up 1000%

By Bradlee Dean

December 20, 2023

“For the life of the flesh is in the blood...” -Leviticus 17:11

Last week a friend of mine who just happens to be a pilot for a major airline sent this over to me to share with you.

[Armstrongeconomics.com](https://www.armstrongeconomics.com) reported:

New data from the U.S. Department of Defense (DOD) indicates a significant increase in heart issues among pilots, with heart failure spiking nearly 1,000% in 2022. Lieutenant Ted Macie, an active-duty officer with the U.S. Navy Medical Service Corps, raised concerns about the health risks associated with the COVID-19 shots, including heart-related ailments. The data, obtained from the Pentagon's Defense Medical Epidemiology Database, shows drastic spikes in various diagnoses for serious medical issues, prompting questions about the potential impact of the COVID-19 vaccine on the health of service members.

In addition to serious cardiovascular issues, the Pentagon saw significant spikes in numerous ailments well beyond their five-year averages including hypertension (2,181%), neurological disorders (1,048%), multiple sclerosis (680%), Guillain-Barre syndrome (551%), breast cancer, (487%), female infertility (472%), pulmonary embolism (468%), migraines (452%), ovarian dysfunction (437%), testicular cancer (369%),

and tachycardia (302%). Heart-related ailments have soared over the past 5 years as well including hypertension (36%), ischemic heart disease (69%), pulmonary heart disease (62%), heart failure (973%), cardiomyopathy (152%), and other non-specified heart diseases (63%).

The findings have reignited discussions about the safety and efficacy of the vaccine mandate for military personnel. A 1000% increase in heart failures among pilots in just one year is cause for major concern. Why must we continually force service members to take these vaccines when we know they are likely unsafe?

Regardless of the facts and findings as to who is responsible for these criminal acts being committed against innocent people, Big Pharma, with the help of the corrupt within the halls of government, continues to push forward with its wicked agenda (Jeremiah 11:9). Where is the justice?

Only Americans can bring that, and if they fail to do so, there will be more of this on the horizon, rest assured (Amos 6:3).
