

ANTIFA Documents Reveal Their Plan For America: Dr. Lyle Rapacki

By NWV Senior Political News Writer, Jim Kouri

“For we are not fighting against flesh-and-blood enemies, but against evil rulers and authorities of the unseen world, against mighty powers in this dark world, and against evil spirits in the heavenly places.” – The Bible (Ephesians 6:10 TLB)

Although the documents reproduced below by intelligence analyst and instructor Dr. Lyle Rapacki detail events surrounding the Baltimore riots back in 2015, they still contain valuable intelligence describing organizational, training, and operational methods for a number of George Soros organizations under the umbrella of the ANTIFA movement (Anti-Fascism Group).

The revelation of these documents and content demonstrate that training and monies were very much a part of the riots as earlier Intel reports revealed they most likely would be, according to Dr. Rapacki in his latest law enforcement and security

briefing.

The documents – provided to the editor of Conservative Base by Rapacki – reveal a high level of organizational structure, with strong financial backing, and well-planned and practiced tactics. “It is highly anticipated that future confrontations

will be better prepared, equipped, organized and financed,” said Rapacki, who owns and operates the private security firm Sentinel Intelligence Services, LLC.

Confidential documents appearing to belong to Friends of Democracy – an activist group run by George Soros’ son Jonathan Soros – describe an acceleration of civil unrest to justify the rollout of martial law nationwide. According to intelligence experts, the goal of such action is to throw the nation into a state of chaos with citizens battling the proponents of the Deep State ‘puppetmasters.’

According to the documents (reprinted below), the group sought to use the protests over the death of **Freddie Gray – who died while in police custody** – as a *detonator* for larger violent demonstrations in the Baltimore area. “Do not worry about violent action, we have secured limited protections from friendly BWI officials and LE to permit some aggressive activity,” one ANTIFA memo states.

On the Left, the 1932 flag of the paramilitary wing of the Communist Party of Germany. On the Right, the 2017 flag of the paramilitary wing of the Democratic Party of America.

Dates mentioned in the documents, Saturday April 18, 2015 and Saturday April 25, 2015, coincide with the actual [Baltimore riot dates](#).

The organization also points out an “ideal post-action objective” would be “civil unrest that leads to deployment of martial law-like policies for BWI, creating a feedback loop.” In other words, a domino effect that would spread nationwide.

FINAL OPERATION ORDER SUMMARY

The Action Oversight Executive Committee (AOEC) has determined that Saturday April 18, 2015 is when operators will implement Action BWI0418'15. This swift transition from AOEC planning to implementation by friendly operators in BWI is in part to seize as much momentum as possible from current civil unrest in the BWI area.

Friendly officials in various administrative agencies for BWI have told us to expect a large law enforcement (LE) response to our operations. Please refer to Action BWI0418'15 documentation on recommended practices when encountering LE and hostile forces.

LEGAL

Resources from AOEC will be available during the action and at debrief. Any legal concerns **must** be reported immediately to the closest PIC. Agitorgs will coordinate with AOEC, who will in turn collaborate with friendly BWI officials and LE to handle legal issues.

We are expecting possible injuries. If not from today's action, then very likely during Action BWI0425'15 (unless amended by AOEC). Agitorgs have designated operators to serve as ad hoc medics when necessary. Consult page 14 for medical regroup points (MRPs) on where to migrate in case of injury.

Do not worry about violent action, we have secured limited protections from friendly BWI officials and LE to permit some aggressive activity. Consult page 13 for a list of approved maneuvers, techniques, and props. Agitorgs will receive confirmation from AOEC representatives in the area when it is appropriate to elevate ops and auxops aggressiveness.

**** OPERATORS MUST ACKNOWLEDGE ****
