

# ANTIFA Radicals Support LGBT Exploitation of Kids in Child Drag Show

By NWV Senior Political News Writer, Jim Kouri

Despite the Deep State/Democratic Party's lip service regarding child welfare and protection, they are quick to abandon their rhetoric on protecting children from bodily and mental abuse by members of the Lesbian, Gay, Bisexual, Transsexual and Queer Community

In the city of Denver, Colorado, ANTIFA (Anti-Fascist), an organization opposed to Republican politicians especially President Donald Trump showed up to support a drag show where sexualized children were exploited for the twisted enjoyment of the pro-LGBT attendees.

Mile High Comics in Denver, CO hosted a "Drag For All Ages" show on Sunday, which has become a weekly event. The events have drawn an increasing amount of controversy as word has spread.

ANTIFA showed up to counter the Colorado Proud Boys, who demonstrated outside of the event to show opposition to children being used to push this bizarre sexual agenda. ANTIFA activists maintain that the opposition are the predators for opposing the event.

One regular reader of this website who wish to remain

anonymous asked the following question, “Where is the good Christian community? Where are their pastors? Silence is not golden, it’s cowardly.”

“We’re here because the Proud Boys and Nazis are here,” one member of ANTIFA said. The activist refused to release their identity, claiming that anonymity is “a policy of anarchy.”

“This isn’t good for children,” said a Catholic protester who appeared to pray for the children being victimized inside. “There are men. There are women. To encourage children to dress and pretend to be something they are not doesn’t help children become more fully human.”

ANTIFA has been regularly providing protection for child grooming events promoted by purveyors of the LGBT agenda, such as showings of “drag queen story hour” throughout the country.

The extreme left works in tandem to mainstream pedophilia while committing acts of domestic terrorism on the streets. Western Civilization will not survive unless this agenda is soundly defeated.

Church Militant published a report on how ANTIFA’s domestic terror agenda intersects with the LGBT’s aggressive recruitment agenda:

Antifa has been increasingly supporting drag events. In June, four thugs harassed and attempted to dox several women who were attempting to document a drag event for kids at a public library.

The event offered free flavored condoms, lubrication and explicit how-to guides and a table sponsored by Planned

Parenthood.

The women were most horrified by the raffle for eight chest binders to flatten developing girls, noting there are several negative health effects, including fatal ones, associated with chest binder use.

An Antifa group, ATX Resistance Action, also vowed to protect a drag event at a Texas library in Leander, Texas, in June hosted by the Open Cathedral Church. [warning: explicit]

The event featured Valeri Jinxy, who has performed in a troupe called "Poo Poo Platter" – a group that uses a significant amount of satanic imagery in their shows.
