

As Our World Falls Apart, The Wolves Give Rise

“For we are opposed around the world by a monolithic and ruthless conspiracy that relies primarily on covert means for expanding its sphere of influence—on infiltration instead of invasion, on subversion instead of elections, on intimidation instead of free choice, on guerrillas by night instead of armies by day. It is a system which has conscripted vast human and material resources into the building of a tightly knit, highly efficient machine that combines military, diplomatic, intelligence, economic, scientific and political operations.

Its preparations are concealed, not published. Its mistakes are buried not headlined. Its dissenters are silenced, not praised. No expenditure is questioned, no rumor is printed, no secret is revealed.” -John F. Kennedy, Waldorf-Astoria Hotel on April 27, 1961

I have listened to this speech so many times I should have it memorized. It is the greatest warning a President could have ever given the people of this country and most never heard it or ignored it – not understanding the meaning of the words being expressed.

As I listen to the Senate – Democrats and Republicans – bantering over who thinks they are smarter and how many changes they can make to the rules to get their own way, I am appalled. It doesn't matter which party it is, they aren't playing this game for the good of the country, but to show who has the most power.

If they were in one of the schools they are always working at destroying, they would have been sent to the principal's office and suspended.

It's too bad Kennedy didn't feel comfortable enough to go even

further and expose by name not only those he was speaking about from “around the world”, but the ones working within our own country to bring it down.

Greedy men and women whose purpose in life is not only the control of the money, but every living, breathing thing on earth. Those “egos of men” that George Washington spoke of in his Farewell address, are becoming more and more apparent day by day.

Those who believe they are the powerful and mighty, set up the League of Nations for the very purpose to do what the United Nations has been doing since its inception. Take our money and NOT use it as they told us they were going to, but to manipulate through global meetings the wishes and directions of the rich and powerful.

Don't misunderstand me – I don't care if someone is rich, but when you use your money and so called status to ruin the lives and welfare of whole countries, that is evil. The League of Nations failed where the United Nations has succeeded.

Succeeded not in its original stated intention or purposes of preventing war and bringing the countries in poverty to a better way of life, but by the influence and money of the “control masters” having set the world on a path of destruction through social justice, giving the control of our land AWAY, invoking the 45 directives of the Communist Manifesto and last but not least, by almost completely removing our “Representative Government” through our children and their education.

Most of the ruination of this country has been done through the banks and the main culprits are the **Federal Reserve, World Bank, International Bank of Reconstruction and Development,** and the **International Monetary Fund.**

You want to know why Congress no longer works for “we the people”? Because they incorporated the country, the states,

the counties, the cities and the villages. Haven't you ever asked yourself why your government files a "corporation report" every year. You thought that was only for businesses – well they made our government a business.

The Comptroller General of the U.S. is the director of the Government Accountability Office (GAO-formerly known as the General Accounting Office), a legislative branch agency founded by Congress in 1921 to ensure the fiscal and management accountability of the federal government. The Honorable David M. Walker being interviewed in this video, was the United States Comptroller General from 1998 to 2008, and CEO of the Comeback America Initiative (CAI) from 2008 to its sudden closure in 2013. They claimed their goal was to get "America's fiscal house in order" and to do that they intended to get rid of the Affordable Care Act, block grant Medicaid, raise taxes on the poor and to scare seniors into believing they were stealing the financial futures of their grandchildren. The whole thing was a fear-mongering tactic – not to say we weren't in a financial flurry, but it was intended to make Americans believe the governments financial woes were theirs.

Truth be known, the only time MOST of the 535 men and women in Congress and those in your state government give one flip about you and your family is at election time for your support, money and votes.

David M. Walker and his very good friend [Peter G. Peterson](#) (owner of Blackstone and former Chairman of the CFR) worked together on the CAI. Walker is also President, of the Peter G. Peterson Foundation, Chairman of the UNITED NATIONS Audit Advisory Committee and a member of the Trilateral Commission. The Peterson Foundations is a large supporter of Agenda 21 and all its trimmings.

Why doesn't it bother Americans, R or D, that most members of Congress now and in the past, are members of the CFR, most bank presidents, the heads of the World Bank, Federal Reserve, International Bank of Reconstruction and Development, and International Monetary Fund plus Presidents and VP's, CIA, FBI, Joint Chiefs of Staff and many, many more?

"The US Government Incorporated as a for-profit commercial enterprise in the legislative act of February 21st of 1871; 41st Congress Session 3, Chapter 62 page 419 and chartered a federal company entitled 'United States, i.e. United States AKA US Incorporated, a commercial agency originally designated as Washington D.C.; in accordance with the so-called 14th Amendment, which the records indicate was never ratified. The iron-fist government is a foreign corporation with respect to the state. Nineteen Corpus Juris Secundum 541 located of United States: The United States is in the District of Columbia. We are their chattel. We are their inventory, they money they make off us and you don't even know how deep it goes. In 1871 when the United States became incorporated they attached our birth certificates to a ~ number on the stock exchange which

equals slave trade-and it's done every time a baby is born. There is a bond trust account set up; and they trade us on the stock market-and this is all documented.

If you ever go to court and the judge says: "Do you understand?" **Don't EVER say you do.** Say "No your honor, I do not understand." That simple little word (understand) doesn't mean what you think it does. [If you say it] you have just given him permission, and you have stated that you are going to "stand-under" whatever he wants to lay on top of you. The courts are **Admiralty Courts.**" **The Judges, the Attorneys, all belong to the Bar Association-it's still a little vague as to what that 'BAR' stands for but we do know the first word is for British. ~ They do not work for us, we the people. "We the People" are working for them. We don't need a gold standard; we are the VALUE to the Federal Reserve Note. We can give value to our United States Currency.**

Hence is why the ORIGINAL 13th Amendment was removed from the Constitution – with it in place not one of these lawyers would have ever been able to hold an elected office – then or now.

At the end of the civil war, we had no lawful government. We had a military enforcing its rules, under the [Liber Code](#) instructions and a commercial corporation that is endeavoring to provide the essential government services as a successor to contract.

"Our Federal government exited stage left, incorporated, and started functioning as a commercial corporation in the governmental services business and under the international jurisdiction of the sea as a corporation. That itself is legal to do, but they also acted as successor to contract as the unincorporated, Federal services company. That altered the nature of the services company. It went from being a services company on the land to being a services corporation on the sea." [Link](#)

In 1811, the charter for the Bank of the United States ran out and Congress voted against its renewal thanks to the influence of Thomas Jefferson and Andrew Jackson. Jackson stated, "If Congress has the right under the Constitution to issue paper money, it was given them to use by themselves, not to be delegated to individuals or corporations."

John Adams stated, "Every bank of discount, every bank of which interest is to be paid or profit of any kind made by the lender, is downright corruption. It is taxation for the public for the benefit and profit of individuals."

On July 10, 1832, President Andrew Jackson vetoed the renewal of the charter for the Bank of the United States. In 1835, he declared his disdain for the international bankers: " "You are a den of vipers. I intend to rout you out, and by the Eternal God I will rout you out. If the people only understood the rank injustice of our money and banking system, there would be a revolution before morning."

Following that statement was the unsuccessful attempt on Jackson's life. He stated, "The bank, Mr. Van Buren, is trying to kill me".

The Rothschild interests in financing the Civil war did succeed, through their agent Treasury Secretary Salmon P. Chase, in forcing the bill (the National Banking Act) through Congress creating a federally chartered central bank that had the power to issue U.S. Bank Notes. Afterward, Lincoln warned the American people:

"The money power preys upon the nation in time of peace and conspires against it in times of adversity. It is more despotic than monarchy, more insolent than autocracy, more selfish than bureaucracy. I see in the near future a crisis approaching that unnerves me, and causes me to tremble for the safety of our country. Corporations have been enthroned, an era of corruption will follow, and the money power of the

country will endeavor to prolong its reign by working upon the prejudices of the people, until the wealth is aggregated in a few hands, and the republic is destroyed. “

Lincoln continued his fight against the central bank and many believe this was the reason behind his assassination.

President Garfield openly declared that whoever controls the supply of currency would control the business and activities **of all the people**. After only four months in office, President Garfield was shot at a railroad station on July 2, 1881. Another coincidence?

And now we are back to John F. Kennedy who planned to exterminate the Federal Reserve System. In 1963 he signed Executive Orders E0-11 and E0-110, returning to the government the responsibility to print money, taking that privilege away from the Federal Reserve System.

In the 70's and 80's, Congressman Larry P. McDonald spearheaded efforts to expose the hidden holdings and intentions of the international money interests. His efforts ended on August 31, 1983, when he was killed when Korean Airlines 007 was “accidentally” shot down in Soviet airspace. A strange coincidence, it would seem.

Senator John Heinz and former Senator John Tower had served on powerful Senate banking and finance committees and were outspoken critics of the Federal Reserve and the Eastern Establishment. On April 4, 1991, Senator John Heinz was killed in a plane crash near Philadelphia. On the next day, April 5, 1991, former Senator John Tower was also killed in a plane crash. The coincidences seem to mount.

Dr. James W. Wardner stated, “I am here to tell you that the declining American standard of living has been PLANNED from the beginning at the highest levels of American government – a plan to fail, a plan to create insecurity and uncertainty, a plan to make the American people serfs in the New World

Order!” The [PLANNED DESTRUCTION OF AMERICA](#) explains in detail:
*Who is responsible for our failing economy *The secret plan behind the massive job elimination that America is now experiencing *Why the supposed “free” press hides the truth from the American public *When the control of our money supply was taken away from our government and illegally handed over to an international group of private banking interests *How the great depression of 1929-1931 was planned in secret by the same power structure which is now promoting a “New World Order. *The common thread linking the Kennedy and Lincoln assassinations and the attempted assassinations of two other U.S. Presidents and *the carefully orchestrated effort to lower the moral standards of the American public and how it weakens our resistance to government tyranny.”

In case you are not aware, on September 25, 2015 the United Nations, in all their glory and the countries who have willingly participated in this farce and fraud agreed to institute a new plan (you see we have caught on to Agenda 21 and the big shot admitted it was a ruse to destroy capitalism), “the 2030 Agenda” which is to be a “new universal Agenda” with “we the people” once again being left out of the decisions regarding our futures. It is time to say NO MORE! Get the United States out of the United Nations – no more money – no more participation.

And if you have any doubts, following this wondrous announcement they put on the “Global Citizen Festival” (probably with our money) with featured performers of the highest support for America; Beyoncé, Pearl Jam, Ed Sheeran and Coldplay and none other than Pope Francis giving the kick-off address. Once again I rest my case.
