

As the World Awakens: We Will Not Comply

By: Devvy

June 12, 2023

Last week was yet another dirty political circus with Donald Trump indicted by illegitimate US Attorney General Merrick Garland's Department of InJustice. (As I have been calling it for a more than a decade because nothing changed under spinless Jeff Sessions and dirty player, Bill Barr.)

Trump hater, Special Council Jack Smith, thinks he's the best legal mind in this country but in truth, he's more penultimate in the ratings. "GOP lawmakers note that Smith played a role in the IRS' targeting of conservative nonprofits during the Obama era and point to the work and political donations of his spouse." [Fox News](#)

This is an 8:32 minute video well worth watching: [Jesse Watters: Everyone has the law wrong on the Trump indictment](#)

According to the indictment, Trump conspired to keep classified documents he'd taken from the WH and hide them from a grand jury. A sitting president has broad power to classify or declassify documents. Trump's lawyers had been working with the National Archives people starting in 2021 when a lot of paper was transferred to them. When the raid took place, Trump publicly said: "All they had to do was ask". No need to raid his personal residence on **August 8, 2022**, during which federal agents rummaged through Mrs. Trump's underwear drawers.

In **June of 2022**, Trump and FBI agents – on the record – had a civilized, cordial meeting at his home. At that time, they collected some additional documents. After that, no more requests for documents or even subpoenas. Then, call CNN and make sure they were there for the August 8, 2022, very early morning hours raid. After all, optics are everything when dishing out propaganda and tainting a jury pool.

[Pence says he didn't leave office with classified material](#), August 20, 2022. [Classified documents found at Mike Pence's home and turned over to DOJ: Lawyer](#), Jan. 24, 2023 – “The ex-vice president had been “unaware” of them, his representative said.”

VP's have no authority to nick classified documents to begin with, but Mikey is off the hook. My question: In August 2022, Mikey says no classified documents, but FIVE months later, oops, how did Pence suddenly discover he had classified documents? If he was sure in August 2022, he had none, how were documents then found months later?

No doubt in my mind little Napoleon, Merrick Garland, is drowning in joy over this latest persecution of Trump. Garland is a loser. He wanted to be an Associate Supreme Court Justice but was rejected by the Senate; nominated by another illegitimate usurper who brought Hell to this country, Hussein Obama. But now Garland is Chief at the top of the dung heap and he's doing his best to make people believe he's non-partisan and intelligent. A tough sell.

This is blatant election interference. Indictments, court dates, trials – all dragging on through the primaries next year. All to get Donald Trump. Not to mention costing Trump millions to defend himself.

And the globalists are out to get YOU. If you read my June 3, 2023 column, [AI & the WEF: You Should Be Very Worried](#), I focused on AI & the WEF and recommending a new 5-star

documentary, Final Days. You Tube removed it for “violating community standards” which is rubbish. The producers are the same individuals who made Died Suddenly with over 20 million views last I looked. [Final Days](#) is on Rumble which doesn't visibly show the number of views. If you haven't watched it, take the hour to do so and get it out there.

Another 5-star film has also been released: **PLANDEMIC 3: THE GREAT AWAKENING**

[Backstory by Dr. Joseph Mercola:](#) “Mikki Willis’ documentary “Plandemic” was released May 4, 2020, and has since been viewed over 1 billion times, despite being universally censored. “Plandemic Part 2: Indoctrination” has been viewed more than 200 million times.”

How could billions of people world-wide cave all at the same time over an alleged virus hyped to the hilt would kill tens of millions? We have to remember one thing: The CDC (Center for Disease Creation) only ESTIMATES the number of yearly influenza flu cases every year (Flu cases virtually disappeared in 2020. No money, everything became the big cash cow, COVID.) The CDC had no idea the number of COVID cases and neither did anyone else because the gold standard test used worldwide: PCR test which is a manufacturing technique, **not a diagnostic tool**. It can't detect any virus.

The prostitute media through optics cranked things up to the point of hysteria. They cherry-picked hospitals “overflowing”, doctors and nurses dressed as snugly as astronauts. The ridiculous clown show in downtown Denver of doctors and nurses in the street holding up traffic yelling at people to wear your mask, social distance! All of them wearing worthless face masks (99% coming from Communist China) making fools of themselves.

Yes, people died but no one knows how many simply because, again, the CDC only estimates deaths, hospitalizations.

Likely some passed away at home. Sadly, tens of thousands were in the senior category, many with comorbidities who likely would have died anyway. **The bottom line is what we saw building by March 2020 was deliberately engineered mass-hysteria creating fear and panic.** Fighting in grocery stores over toilet paper, Americans yelling at people to wear a mask along with profanity and “you’re selfish”. Of course, we know down the road those masks did NOTHING to stop the spread of COVID and in fact, are dangerous when worn constantly.[1]

During that whole time of hysteria, I refused to wear a mask. The only two exceptions: Feb. 6, 2022, when I was admitted to the hospital for pneumonia. I had to wear one in the waiting area (short time) and that was it. And, when I went to the local hospital late last year for a minor issue. The incredibly rude female doctor demanded I put on a face diaper or leave. Since I had sat in the waiting room for **5 ½ hours** (reading a book), I put it on for about 10 minutes until Miss Snot Nose left the room. Then I left.

That’s the total time of mask wearing for me. Otherwise, I used curbside service, ordered on line, quit being a district wide substitute school teacher. I simply refused to comply with nonsense parroted out of the mouths of the ignorant. Tens of millions here in America had no choice or lose their paycheck. What’s so unbelievable and sad is I still see people here in my small city wearing a mask – even outside.

Plandemic 3: The Great Awakening addresses the tyranny and how most of the world was brought to its knees. G. Edward Griffin is featured in the film. I had the great pleasure of meeting and talking with him back in 2004 at an event in DC. A wonderful man and true gentlemen who was warning about the plans of the destroyers as far back as 1969.

The question now is: Will you comply? Whether it’s the next “virus” or unconstitutional laws and mandates planned by the WEF, the Bilderberg cabal and other destroyers – will you

comply? Sun Tzu said in so many words: Make your enemy do what you want them to do while making it seem like a good idea at the time. In the end, they bring their own death.

Mikki Willis' film is superb. Shine the light on cockroaches and they scramble. I hope you'll watch that film, if you haven't already, and spread the word on every social media platform possible. Try to get your county commissioners, city council, state rep, senator and governor to watch it. They should also watch Final Days.

One must politely but firmly remind elected officials they will not be in office forever. They, their children and grandchildren will be under the iron fist of globalism and a one world government where none of us will have any rights under tyrannical, narcissistic, ego-maniacs in positions of power if they don't do their part in stopping it. Klaus Schwab's right-hand man says in Plandemic 3: "We have the technology to hack human beings." They are insane and drunk with power.

The world is awakening and WE WILL NOT COMPLY. Silence is compliance.

They represent a good bit of time listening and trying to decode the persona and messaging of Dr. Robert Malone, which, for some time, have struck me as off-kilter for a prominent leader of the covid-tyranny opposition...

“It’s also nirvana for the billionaires, Big Pharma, World Economic Forum insiders and groomed proteges, who have gloried, and, yes, obscenely profited in this “covid” era. How jarring it is to find a number of them appearing on the “Interests” section on the LinkedIn account of Robert Malone’s wife and business partner, Jill Glasspool Malone.

“[This video](#) shows that among Mrs. Malone’s seven “influencers”

are Richard Branson, Bill Gates, Melinda French Gates and Justin Trudeau – at least they were until she erased the section from her page.
