

Assassination, an Extreme Form of Censorship

By Kelleigh Nelson

September 24, 2024

Every two years the American politics industry fills the airwaves with the most virulent, scurrilous, wall-to-wall character assassination of nearly every political practitioner in the country – and then declares itself puzzled that America has lost trust in its politicians. Charles Krauthammer

Censorship reflects society's lack of confidence in itself. It is a hallmark of an authoritarian regime. Potter Stewart

Nearly all Americans felt they knew JFK intimately, his charm and wit regularly lighting up the television screen at home. This is why polls showed that millions of Americans took his assassination like a 'death in the family.' Vincent Bugliosi

It's plain as day, the Stalinist Deep State wants Donald J. Trump dead. How can any thinking person deny what we've seen?!

Jonathan T. Gilliam, 20-year US Navy SEAL, former FBI Special Agent, Federal Air Marshal, private security contractor, police officer, public speaker, and expert media commentator, was on Fox's Stuart Varney show recently and was bumped off by Varney for telling the truth about the assassination attempts. Gilliam stated that the Democrat Party wants Trump dead.

Watch the two-minute video:

Gilliam responded on [Facebook](#): “The Marxist game of rhetoric proves the wanting motivation of the democrat party, while the repeating fatal funnels created by the secret service repeatedly leave wide open avenues of approach for assassins. These actions are consistent with willful and intentional negligence for the purpose of creating an opening for attackers.

“Add to this the past actions of the DOJ in falsifying evidence against Trump, using the court system as a weapon against Trump, putting prosecutors and agency directors in place who repeatedly display hate for Trump, all add to the totality of circumstances that lead to the conclusion of my analysis.”

In another post, Gilliam commented, “Palm Beach County Sherrif Ric Bradshaw, a democrat, said today that the Secret Service was “limited” in protection it was able to offer [Donald J. Trump](#) since he is not the sitting president.

“This is a repulsive comment, and an excuse for the Palm Beach Sheriff’s office failure to secure the vulnerable perimeter themselves. The tree line and fence where the shooter was hiding is only about 20 feet from a road that had zero monitoring by law enforcement.”

Vitriolic Hatred of Trump

It’s fine to dislike someone’s policies and argue against them in civil discourse while discussing the merits and consequences of their proposals. But demonizing and diminishing the character of a candidate so that outliers receive the message of vitriolic hatred, intended or not, to physically harm a candidate, is unacceptable and dangerous political rhetoric. The Left is far too adept at this nefarious and vile oratory.

Dan Goldman (D-NY) recently [stated](#), “Trump needs to be eliminated.”

Hillary Clinton has said many times that “Trump is a danger to our country.”

Every Democrat and mainstream media pundit have echoed the statement, “He’s a danger to our democracy.” They all must love democracies, which our founders hated. We are not a democracy, but a Representative Republic. We don’t pledge allegiance to the democracy for which we stand, we pledge allegiance to the Republic.” Their very utterances are lies. Repeat a lie often enough and the people will believe it.

How many Stalinist Democrats have compared him to Nazi dictator Hitler because he wanted our border secured? To compare someone to Hitler or any other despot shows not only a lack of civics education but a total failure to understand the depths of depravity Hitler and his ilk possessed.

Former bartender, Congresswoman Ocasio-Cortez openly stated that Trump had “concentration camps” on the border for illegals, and there was no such thing. Yet, President Obama actually had cages.

Family Research Council [reported](#) that nearly a fifth of Americans wish former President Donald Trump had been slain by an assassin’s bullet. In a Rasmussen poll, 17% of surveyed voters [answered](#) “Yes” when asked if the U.S. would be “better off if Donald Trump had been killed...” Nearly 70% of voters responded “No” and 14% said that they were “not sure.”

[Just the News](#) reported that 28% of Democrats think America would be better off if Trump had been assassinated.

[Demands for violence against Trump](#) by Del. Stacey Plaskett, the Democrat non-voting delegate from the U.S. Virgin Islands, said, “He needs to be shot ... stopped.” You can listen to this moron [here](#).

And if that’s not bad enough, check out this [2.20-minute video](#) of the Left explicitly calling for political violence against

Trump.

Biden has described Trump as the dangerous leader of an extremist movement as well as telling America to “put him in the bullseye” prior to the Crooks’ assassination attempt.

[Harris tells us](#), “Trump is a danger to our troops, our security, and our democracy. The former president masterminded the worst attack on democracy since the Civil War.”

What an unbelievably stupid statement. Up to 850,000 Americans lost their lives in that war.

Harris screams, “Trump is a threat to our democracy and fundamental freedoms.”

There’s more. The [Daily Signal](#) reported 12 influencers who called for violence against Trump, from Joe Scarborough and Rachel Maddow to Robert DeNiro and Linda Ronstadt. Scarborough said last November that Trump “is running to end American democracy as we know it.” Good! Like our founders, we hate democracies.

Scarborough continued, “He will imprison, he will execute whoever he is allowed to imprison, execute, drive from the country. Just look at his past. It’s not really hard to read.”

Right Joe, this is exactly what the Left, your side Joe, has done to Trump.

Maddow compared Trump to Hitler and Mussolini...

Will Stancil, then a candidate for MN House of Representatives said, “So is there any reason Biden couldn’t just drone strike Trump and end this?” He then deleted this post on social media.

“I’m hoping Trump’s right, that he IS treated worse than Lincoln,” Keith Olbermann said. “As I’ve said for 9 years: THAT HE’S CONVICTED, THEN DIES IN PRISON.”

Convicted of what? Trying to save America from cultural Marxism?

A Democrat caller was cut off on CSPAN after [praising the attempted assassinations](#) of President Trump.

Saul Alinsky's Rules for Radicals wins again. He told his followers, "Accuse your opponent of what you are doing, to create confusion and to inculcate voters against evidence of your own guilt."

The constantly spewed hatred by the Left is called "psychological projection," and it has found its target in the minds of deliberately dumbed down Marxist influenced Americans. All they want is to achieve and maintain power. They seek to gain control over the population, and that starts by controlling the message, the narrative.

Is It Any Wonder Trump is a Target?

Both attempted assassins were **not** in BlackRock commercials, but both [Crooks and Routh made donations to the Leftist organization](#), ActBlue. It is a leftwing dark money fundraising operation. Donations to various front organizations are laundered through ActBlue and forwarded to Democrat candidates and causes, after ActBlue rakes off a nominal fee. It allows far left groups and Democratic politicians to fundraise without setting up an online donation infrastructure themselves.

Another ActBlue donor was arrested for [allegedly threatening](#) to torture and slaughter 6 Supreme Court justices.

The second assassination attempt occurred at Trump's Florida Golf Course on September 15th. The Secret Service admits the golf course [wasn't searched](#) before the attempt. Acting SS head, Ronald Rowe, said the perimeter wasn't searched because the golf outing wasn't on Trump's official calendar.

The DOJ [just released a letter by Routh](#) promising \$150,000 to anyone who succeeds in assassinating President Trump.

Apparently, the SS isn't to be held responsible if the protégé changes plans.

In a startling development, former Navy SEAL and Republican Congressman Eli Crane has [issued a grave warning to former President Donald Trump](#), suggesting the presence of a mole within the Secret Service that could be jeopardizing his safety.

John Solomon of [Just the News](#) reported, "Congressman Matt Gaetz, R-Fla., said Thursday that a senior Homeland Security Department official approached him as a whistleblower shortly before the second assassination attempt on Donald Trump's life and alleged U.S. officials are aware that five different "assassination teams" are pursuing the former president."

Gaetz said he believes three of the teams are foreign inspired and two are domestic based.

Ryan Wesley Routh had set up a sniper nest twelve hours prior to President Trump's arrival. Routh dropped his rifle and took off in his SUV after SS spotted his rifle and took a shot at him. Routh [has a criminal record](#).

"My father hates Trump," [said the son](#) of the would-be assassin, "[like every reasonable person does](#)."

Martin County Sheriff William Snyder [gave a press briefing](#) and asked how Routh knew he'd be at the golf course and did he act alone or is he part of a supportive conspiracy.

CNBC [reported](#) that Routh had stalked Trump for months. Routh also [wrote a chilling letter](#), indicating he [intended to kill Trump](#), months before the assassination attempt. He had [urged Iran to kill Trump](#) as stated in his book, "Ukraine's Unwinnable War."

In an interview with Roger Stone, Jack Posobiec points out that the arrested shooter, had spent time in Ukraine as a mercenary and therefore there was a high likelihood that he had ties to the CIA and the national security apparatus. Stone also expressed doubt that the House Republican investigation authorized by Speaker Johnson was sufficiently aggressive or motivated to get at the truth about who tried to kill the former president.

In a 2023 interview, Routh [decried hurdles](#) to get foreign soldiers for Kyiv. In May 2022, Routh [appeared in a propaganda video](#) for Ukraine's violent and notorious extremist-anti-Russian neo-Nazi Azov Battalion, allegedly supported by the CIA. Zelensky put the Azov Battalion into the Ukrainian Army at the beginning of the war. That fact was cut from the first Fox interview with Zelensky.

Mike Crispi [asked on X](#) why members of the Biden-Harris Administration, like Chef Jose Andres, was [posing for photos](#) with the would-be Trump assassin? The chef was tapped by Biden to lead the President's Council on Sports, Fitness and Nutrition. He is also friends with Vladimir Zelensky and has cooked for Harris and Walz.

FBI Investigation

[Jeffrey Veltri](#), special agent in charge, was ordered by superiors to scrub his social media accounts of anti-Trump vitriol before he was promoted last year to head the [Miami field office](#), an [FBI](#) whistleblower reported to [Congress](#).

Mr. [Veltri](#) is now leading the [FBI's](#) investigation into Sunday's second assassination attempt on President [Trump](#) in two months.

In the wake of a [second assassination attempt](#) against former President Donald J. Trump, [U.S. Senator Josh Hawley](#) (R-Mo.) unveiled [a new, 22-page whistleblower report](#) detailing the failures of the United States Secret Service in connection

with the July 13 attempted assassination of the former president.

The House Judiciary Committee, led by Representative Jim Jordan (R-OH), heard from a whistleblower who came forward about the extreme bias that Veltri had toward Trump.

The whistleblower alleged that FBI Director Christopher Wray, Deputy Director Paul Abbate and Executive Assistant Director Jennifer Moore were involved in directing Veltri to clean up his social media prior to his promotion.

American Liberty News [reported](#) that the whistleblower said the bureau leaders weren't concerned about Mr. Veltri's "bias against Trump" but whether "information related to Veltri's political bias can be removed from the public domain."

He added that Mr. Veltri, who served as acting deputy assistant director of the Bureau's Security Division until March, also oversaw efforts to suspend agents' security clearances if they were right-wingers...i.e., they refused the Covid injections or voted for Trump, etc.

"The whistleblower's allegations are serious and deserve further investigation," said Chris Swecker, a lawyer and [law enforcement](#) professional who served as assistant director of the FBI's criminal investigative division during the George W. Bush administration.

The Leftist corruption in the FBI and Secret Service goes right back to President Obama and his minions, Jarrett, Brennan, Clapper and Holder. Over the eight years of Obama's presidency, they weaponized not only the federal intelligence community, but the entire federal government. It was [The Culmination of Marxist Infiltration](#). The full story of this treason can be found in J. Michael Waller's book, [Big Intel: How the CIA and FBI Went from Cold War Heroes to Deep State Villains](#).

Jordan Schachtel [asks seven questions](#) about the second assassination attempt, one of which is, “Why can’t/won’t the federal government protect President Trump?”

The federal government spends trillions of dollars per year, and yet, the Republican candidate for president remains vulnerable.

Deliberate or negligence?

We know the answer.

Conclusion

Mike Waller tells us, “Diagramming today’s American intelligence community without labels might lead an old-school Sovietologist to guess it was an organizational chart of the old KGB, with every imaginable security and intelligence function permeating every corner of society.

“And then came the merger with Big Tech, quantum computing, billions of cameras and microphones, and the overwhelmingly ubiquitous Internet of Things. Warnings of abuses, censorship, and illegal spying brushed off as the apoplectic mania of the hateful and the paranoid, turned out to be true.

“A combination of these transformations, the centralization of safely dispersed agencies, domestic intelligence with police powers, the merger with the world’s most powerful tech and social media conglomerates, and the internal politicization of totalitarian mindsets among all professional personnel—created the most threatening machinery of human control outside Communist China.

“The great institutions designed to protect us against the threat of Soviet Communism, in the end, absorbed and re-weaponized the most subversive Soviet plot ever launched.”
