

Assimilation or Disintegration of America: A Sobering Look at Our Country's Uncertain Future

Frosty Wooldridge

Part 1: Overloading America with immigrants from an ever-growing line from around the world.

As I traveled throughout 40 states of America this summer, and over 20 of her major cities, the American people lack any clue as to the rapid transformation of this country into a polyglot of cultures, languages and conflicting religions--brought about by endless immigration of over 1.7 million legal and illegal immigrants, annually.

This summer, as reported by Dr. Wayne Lutton, "Hundreds of protesters gathered at the Immigration and Customs Enforcement (ICE) detention facility in Aurora, Colorado (suburb of Denver). They tore down the U.S. flag flying at this federal agency where illegal aliens are being held, and replaced it with the Mexican flag. "Abolish ICE" was spray painted by other demonstrators.

"As Gloria Precht, one of the many critical commentators posted at Denver CBS Channel 4, wrote, "This is why you need to leave...replacing the U.S. flag with the Mexican flag shows that you are not willing to assimilate into our country and

follow our laws.”

Vincent Ardizzone also commented, “So, let me get this straight. They wave the flag of the country they’re seeking asylum from?”

Colorado’s Democratic Governor Jared Polis loudly protested against plans by the Trump Administration to deport illegals facing deportation orders that had been planned for Denver and nine other cities, starting on July 14, 2019. Governor Jared Polis charged that these efforts to finally enforce the law represented “another failure of leadership”...and was “creating uncertainty and fear.”

One might suggest that criminals should be made to feel “uncertainty and fear” and encouraged to stop their illegal activity. In the case of illegal aliens, this would include leaving this country and going home to their native lands.

Lutton said, “In our Nation’s Capital, a Sanctuary City, the Washington, D.C. Metropolitan Police Department (MPD) issued statements and a video, in eight languages (Arabic, Amharic, Japanese, Korean, Mandarin, Vietnamese, French, and Spanish), reiterating that D.C. Metropolitan Police officers “are prohibited from asking about residency/immigration status. Our immigrant community is a vital part of the fabric of our city...MPD has a long-standing policy that prohibits police officers from asking about citizenship or residency status to determine whether an individual is undocumented.”

In reality, illegal aliens formed the largest drug distribution network in America. They birth children that American taxpayers must pay K-12, breakfasts and lunches, and medical care. Also, illegals displace our poorest workers from housing and jobs. Illegals don’t pay taxes, but do forge ID’s and drive without licenses or insurance. They also send \$120 billion in cash transfers back to their own countries annually, thus bleeding America of needed monetary funds.

“Diversity within a nation destroys unity and leads to civil wars,” said social scientist Garret Hardin. “Immigration, a benefit during the youth of a nation, can act as a disease in its mature state. Too much internal diversity in large nations has led to violence and disintegration. We are now in the process of destabilizing our own country. The magic words of destabilizers are ‘diversity’ and ‘multiculturalism’.”

Writer James Kirkpatrick said, “Yet the real question is whether America is going to be a country at all. If America is to be a country, there need to be incentives in place for people to identify as Americans. These include making English the official language, establishing equal treatment under the law, and imposing an immigration moratorium to facilitate assimilation.”

Without assimilation, America cannot and will not continue as an intact culture or viable society.

“Any culture that will not defend itself against displacement through mass immigration faces extinction. That includes both time-tested and successful cultures. Embracing diversity results in cultural suicide. America’s multicultural path guarantees its destruction via cultural clashes and conflict with Islam, Mexican and African cultures that diametrically oppose American culture. The more diverse a country, the more destructive and broken-down its future. The more people, the more it destroys its quality of life and standard of living. The more it adds immigrants, the more destruction to its environment. The more it imports refugees, the faster America, Canada, Europe and Australia lose their own ability to function and worse, their identities. Exponential growth of any civilization leads to ultimate collapse. You see it in Africa, India and China today. You will see it in Europe, Canada, Australia and America in the coming years, “IF”

Western countries don't stop all forms of immigration."

Anyone with the least bit of curiosity who elected Omar need only watch this video taken at the Mall of America in Bloomington, Minnesota. --> It's a total Muslim take-over:

As an American, how does that statement feel? I talked to one of my neighbors last week, and described how Muslims dominate Minneapolis and Detroit with overwhelming immigrant numbers. Jerry said, "I had no idea." That's correct. My neighbor mirrors most Americans in their total cluelessness of what's happening in our country.

"Immigrants devoted to their own cultures and religions are not influenced by the secular politically correct façade that dominates academia, news-media, entertainment, education, religious and political thinking today," said James Walsh, former Associate General Counsel of the United States Immigration and Naturalization Service. "They claim the right not to assimilate, and the day is coming when the question will be how can the United States regulate the defiantly unassimilated cultures, religions and mores of foreign lands? Such immigrants say their traditions trump the U.S. legal system. Balkanization of the United States has begun."

Do you understand that our U.S. Congress continues to import 1.7 million immigrants annually, and those immigrants and their birthrates will add 140 million more people by 2050—a scant 31 years from now?

What do we need to do as American citizens?

- 1- We need to push our representatives to rescind the 1965 Immigration Reform Act.
- 2- We need to stop all immigration for 20 years and longer. We don't need any more immigrants.
- 3- We need to stop all "anchor baby" birthright citizenship for 300,000 pregnant mothers who violate our borders to

birth a baby on our soil, and we pay for it.

4- We need to stop all “diversity visas” for 50,000 third world people annually, who arrive without education, skills, English or cultural compatibility.

These two videos show you what we face, not “if” but “when.”

If you look at these two videos, you will see exactly what I am speaking about:

“Immigration, Poverty, and Gum Balls”, Roy Beck, director of www.numbersusa.ORG, graphically illustrates the impact of overpopulation. Take five minutes to see for yourself:

This 10-minute demonstration shows Americans the results of unending mass immigration on the quality of life and sustainability for future generations: in a few words, “Mind boggling!” www.NumbersUSA.org
