

# Attempted Bombing Of Soros' Mailbox

NEW YORK— *Someone just attempted to kill George Soros* by placing a bomb in the mailbox in front of his mansion in Katona, New York, in the Bedford Section.

A security guard who checks the mail, found it, rushed it to a thicket near by and left it there, called authorities who came right away, went to the package and detonated it. Nobody was hurt.

Soros is stirring up more and more resentment due to his meddling in governments, including the U.S.A. with the goal of putting America under Communist rule, which would bring in his New World Order. America is the only country standing in the way. He owns the Democratic Party, make no mistake about it.

*Several countries have an international warrant out for his arrest* including Russia. Why can't our officials notify Russia that they have permission to come in the U.S., seize and arrest this traitor who has caused so much damage, including to his own people who he sold out during World War 2.

Even though we have not had the opportunity to check this out, we were notified that Hillary Clinton lives in a house right next door to Soros. Cozy.

Soros also has a mansion in the Hamptons of Long Island, where Hillary spend a weekend of August 9th—BEFORE the November election. He has an apartment in Manhattan as well as a business office on W. 56th Street.

Soros is involved with CPUSA (Communist Party USA) that sponsored Obama and has furnished the protest signs for all the Antifa demonstrations. This writer took a close look at the signs on a news cast and saw the notice on the bottom of the manufactured signs which identified the sponsor.

Soros has given his hand and paychecks made out to the caravan that is pushing its way from Honduras and Guatemala to the Southern Mexican border where they intend to enter America. That mob now numbers 10,000 by latest estimates, with new caravans joining them as they march through Mexico.

It looks like there will be a huge backlash against George Soros for his exploits like the latest caravan, planning to break into the United States, with us supporting them when they get here, while they intend to remake this country into the countries they left.

The bomb in the mailbox was a demonstration of the last straw for this Hungarian intruder who intends to be the Potentate of the World. It will not be surprising to see more of this agitated chaos.
