

Declaration Of Independence From Unconstitutional Government

I took an oath to the Republic specified in our great Constitution of the United States of America. But, I refuse to support any part of the Faux Government/Swamp, not authorized by our Constitution. I acknowledge the real dangers that all patriots face, caused by our words of loyalty to the Constitution, and our opposition to the ongoing Marxist Revolution by Pagans, AKA Communists, Democrats and many Republicans. Pagan is the word used for thousands of years to describe those who hate the major established religions because they might restrict evil anti social behavior by Pagans. But, our Founders knew that those without principles, religious or otherwise, would have a negative effect on society and the Republic.

Our Communist controlled government has allowed thousands of innocent citizens to be killed, raped, robbed, molested and tortured by illegal Barbarians brought into our country for cheap labor and votes.. Many more Americans have been gunned down, framed and jailed by Pagan Traitors in the FBI, DOJ, IRS, Courts, et al. I am concerned for my life and freedom, as are all patriots, in the absence of the Rule of Law and a Constitutional government. It is clear to Patriots that our Constitution and God Given Rights have been subverted by the Treason of Communism (modern word for Paganism), love of Money and Power. These corrupt bastards should cease their destruction of the Rule of Law, if for no other reason than to save their own miserable lives from the guaranteed retribution of "We The People".

Anyone reading our Constitution, can understand the unconstitutional and criminal actions of our Pagan officials

and judges. Our Constitution encourages and justifies retribution.

People in the Western States, like the Bundy Family, et al., have called out the government bureaucrats for the unconstitutional use of government power, and have been put down with every possible corrupt tool of power, including death. I commend these patriots for not firing "The Second Shot Heard Around the World". President Trump must stop this by terminating the DOJ, the FBI and firing all employees. Judges at all levels who refuse to obey constitution should also be fired.

Also, we must not forget the danger and evil of Islam. Sidney Secular wrote on April 12, 2018 in NWV. That: "Islam is not a religion nor is it a cult. It is a complete system of self-contained society. Islam has religious, legal, political, economic and military components." Like Communism/Paganism in our cities, Islam cannot peacefully co-exist with our Constitution, and has made war on Americans since our founding.

It was Barbarians, felicitated by Pagans, who destroyed Rome, and are now trying to destroy America. Barbarians who unlawfully enter our country are stealing our heritage and killing our people. We also have native born Pagans, who denigrate church going people because of their family life styles and mutual benefits. Pagans promote one night stands, orgies, prostitution, deviant life styles, drugs, and STDs, resulting in a shorter life. Men have a God given attraction to women for mutual benefit. Pagan whores in Hollywood and Media offer sex to weak men for advantage over decent women. The whores will then come back in 10 to 20 years for additional compensation when the bloom is off their rose.. The result is that many men now accept the fact that they can't tell the difference between decent women and whores resulting in less legitimate interaction.

Our major problem really starts with cowardly teachers who refuse to defend themselves and actively promote Communism/Paganism, Islam and deviant life styles to their students. After students are taught the lies of Communism in schools, at all levels, the Fake News Media reinforces it every day. Teachers and members of the fake Media who promote Communism every day are native born Pagans, and do more harm than those who kill us..

Teachers who refuse to protect themselves with firearms are cowardly and ignorant communists and should be fired. Only a moron believes that gun free zones can exist without becoming killing fields.

When I served my country, I took an oath "To Support and Defend the Constitution of the United States against all Enemies, both foreign and domestic". The only reason that the left leaning politicians, faux elites, and Communists/Pagans want to take away our God given Constitutional right to keep and bear arms is because they are afraid we will shoot them in self defense.

Everyone in the three branches of federal government, except for President Trump and his staff, most of the Military, First responders and a few others are criminal elites and outright traitors to our Constitution. These Traitors function as a faux government and are responsible for the deaths and impoverishment of millions of citizens. Criminal elites are mostly Communists/Pagans immune from prosecution and protected by the DOJ, FBI, IRS, Courts and others. The faux government does not honor the Rule of Law or Constitutional authority. The faux Government operates for the exclusive benefit of Super Rich Families, the Democrat/Republican Establishment, Business Round Table, K-Street Lobbyists, Chamber of Commerce, and Multi National Corporations et al. Faux government employees and leaders are bribed and protected from prosecution.

People taking serious exception to unconstitutional actions by Communists/Pagans in government can expect to be framed, jailed, or shot dead. For details read my last two papers for Newswithviews.com

None of what traitors do would be possible without support of Fake Media and Teachers at all levels who do their best to denigrate our Constitution and promote Communism/Paganism. Members of the fake media are propagandists and a dedicated hate America group. Communism is a deadly lie promoted by teachers who are not our brightest. In 1968, I asked my Mother why teachers were so deficient. She replied, " you could not expect more, when she knew from observation that for 50 years only the least capable students went into *education*". *Many also went into teaching to dodge the draft. Based upon real experience and simple math, this means that many of our teachers have been anti-American and inadequate pansies for at least 100 years. So it should be no surprise when Florida teachers refused to be trained to use a gun to defend students and their own lives in schools, which by law are killing fields. There is little money to pay for police guards. These teachers are mostly just stupid inadequate cowardly communists who don't give a damn, but are otherwise nice people. We can do without nice teachers unless they are also patriots willing to shoot invaders and teach the truth. Too many graduates turn out to be wimpy anti-American Communists/Pagans just like many of their teachers.*

Being long in the tooth has given me the time to learn from a modicum of education, modified by more important life experiences such as service in the military and state police, flying as a commercial pilot, College teaching of Economics/Marketing, and operating a business. I never was a hero, or did great things, but I did confront unjust organizational power directly with truth in the real world, and was smacked down hard most every time by the Pagans. I mention some life experiences so that you can see how

ridiculous it is for recent high school students to give me, or any other experienced adult, advise on most anything. Make no mistake, criminal traitors in the DOJ and FBI, et al, will kill or frame anyone who endangers their attempted Communist takeover of our Constitutional Republic.

Even though I have done it in the ignorance of my youth, it is still difficult for me to understand the willingness of today's military and first responders to protect those parasitic cowards who refuse to even defend themselves, but expect others to defend them.

The odds are that many don't know the facts of our nation's founding, nor the difference between Capitalism and Communism. Most don't know the absurdity of putting people in gun free zones that are really killing fields. Most don't know that Communism has killed millions and always fails. Many don't know that our founders gave us guns to protect us from a rogue government like this one. Without common sense, if you attended most any high school or college and got your news from the fake media, then you are what Lenin called a Useful Idiot and my comments apply to you. I just heard that one school put a bucket of rocks in every room so students could throw rocks at killers with guns. The only reasonable alternative is to arm teachers and hire professional guards. But, maybe public schools should be terminated and replaced with public money for other forms of education that support our Republic..

The hard reality for those who oppose President Donald J. Trump is that President Trump is the only one among his supporters who does not want the opposition in jail, or gone. In the very near future those who oppose President Trump's program for " Making America Great Again" will either change sides, leave the country, or engage in open bloody revolt against the people, and die.

Our Federal Government and Courts are over run with

Communists/Pagans attempting to overthrow a duly elected President. The DOJ and FBI are so corrupt that all employees must be fired and the department terminated. The FBI attained its present status with media promotion and blackmail under Hoover. The FBI should be replaced with the Militia of the Several States as specified in the Constitution. The IRS and Private Federal Reserve Bank are also beyond redemption and should be terminated. Income tax should be replaced with Tariffs that worked so well until 1913. Replace currency with gold and silver as specified in Constitution. The use of digital money in any form should be outlawed. The federal government controls 24% of all land contrary to the Constitution. Judges who make decisions on what they want the law to be rather than what the constitution says it is, should be terminated at once. No legal document, much less the Constitution changes over time

Those in Congress are mostly corrupt Communist/Pagans who should pass no law without attaching a statement of authorization from the Constitution.

There are 15 unconstitutional departments. Failure to terminate the Departments of Commerce, Transportation, Interior, Education, Agriculture, Energy, Health and Human Services, Housing and Urban Development, and Labor are acts of Treason to modify our Constitution

The Treasonous SOBs in Congress gave all departments the faux legal power of all three branches of government (so much for separation of powers). This means that unelected Bureaucrats can (1) make a rule, (2) charge you with violating the rule, (3) find you guilty, and (4) determine your penalty. This unconstitutional procedure is called "The Administrative State"..

Except for President Trump, there is very little Constitutional Government.

There are no innocent employees of the DOJ and FBI, except for those few with the courage to loudly insist on enforcing the Rule of Law with zero tolerance. The DOJ and FBI, and all their employees must be terminated.

President Donald J. Trump is no saint, but he is a really smart warrior and the only man who can save our Constitutional Republic. "We The People" have his back against all enemies both foreign and domestic.

We The People will support President Trump's efforts to reinstate our Constitutional Republic with Rule of Law, and remember: "We have the Guns."

Military Must Disarm And Disband FBI For High Treason

It is now common knowledge, that if President Trump should fail to disarm and disband the 35,000 FBI employees, using the military, you must prepare for civil war and a complete breakdown of government services. The FBI, members of DOJ, working with high ranking members of both parties, media and the communists have done everything possible to deny an elected president his office. The FBI refuses to comply with constitutional oversight by congress and has long maintained its independence from any constitutional government control. There is only one solution, the FBI must be terminated, it can't be fixed. Please read my article "God gave us a Warrior, not a Saint to fight Treason". August 22, 2017, Newswithviews.

Com. Use first link below. This article will give you countless reasons and details for why the FBI must go.

President Ronald Reagan had a similar problem in 1981 with the 11,345 member Air Traffic Controllers Union who went on strike grounding 7,000 planes. He fired all of them, with proviso that they could never work for the government again. I was a pilot at the time and it made things more difficult, but it was workable.

In America today, we have no functioning constitutional government, or Rule of Law. Except for President Donald J. Trump, we are being ruled by traitors who are just as fake as our news media and communist schools.

That said, I will make no attempt in this paper to list, or describe the millions of needless criminal and unconstitutional actions allowed or taken by government that has impoverished and enraged the people. Rather, I will predict, not advocate a few major actions that if taken quickly, could prevent much of the treason that is provoking a civil war and destroying our armed forces.

Our Constitution does not permit forcing working people to support the lazy useless idiots produced in our communist cities by schools which indoctrinate with media support. Half of the pilgrims died in 1620 when they tried Communism. In the hundreds of years since 1620, all that the fairy tale of communism has done, is kill millions of people, and enrich dictators.

People in high tax states with Communist (Democrat) cities pay reduced federal taxes, these reductions are then paid for them by citizens in other states. Why should other states subsidize their communism?

If we returned to tariffs, which were used so effectively until 1913, no one would pay income taxes, there would be no need. The Communists could continue to pay high state and

local taxes for communist services without our help, while they continue a rush into bankruptcy, anarchy, and civil war.

Immigration, both legal and illegal, in all its forms, is imposing a terrible cost on citizens, and must be terminated for at least 25 years, as it was in the past. Make no mistake, every citizen of the United States, regardless of background is furious that the wall has not been constructed, and every illegal deported, and that includes the Deferred Action for Childhood Arrivals (DACA) who we've paid for in billions, and are now in their 20s and 30s.

There is no legitimate and effective law enforcement agency in the federal government. The FBI is mostly a criminal enterprise that has grown based upon its blackmail potential and propaganda. The FBI, and all its parts must be terminated, and replaced with the Militia of the Several States as dictated in the Constitution. State crimes are in no way a federal concern, and all federal law enforcement should be terminated in the states. Without honest and effective enforcement of the Rule of Law we will continue to progress rapidly into civil war.

Except for hand out takers, and brain washed pansies, the people are enraged. We have also been cursed with a loud stupid communist minority who believe that gun free zones are possible, and are not killing fields. In truth, all three branches of government, excepting President Donald J. Trump and his team, are mostly imposters and constitutional traitors, willing or not.

There are 15 cabinet level executive departments and many of them are what I call Unconstitutional Communist Departments, and must be terminated. Failure to terminate the Departments of Commerce, Transportation, Interior, Education, Agriculture, Energy, Health and Human Services, Housing and Urban Development, and Labor are acts of Treason. I refer to these departments as the unconstitutional Communist Departments

because they are an unlawful attempt to modify our Constitution by usurping the rights of citizens and states for the benefit of Communism and its Criminal Minions of the Establishment. These are my words, but I derived many details from "The Constitution versus the Executive Branch Departments, July 12, 2012, by Lawrence M. Vance". Another mentor has been Constitutional Scholar, Publius Hulda, "The Regulation Freedom Amendment and Danial Webster" December 17, 2017, Publius Hulda's Blog..

The private Federal Reserve Bank must be terminated as unconstitutional, while we replace the income tax with tariffs and return to a constitutional currency that is neither fiat, nor digital. By the way, the Great Depression was caused by the private Federal Reserve Bank, and not by tariffs.

Our Constitution is ignored by many people due to poor education, media propaganda, or criminal purposes. But many people do read the Constitution and are furious at those who do not comply with it. Judges ignore our Constitution all the time resulting in hatred by the people. States have not been given control of 24% of their land as stipulated in the Constitution resulting in ongoing armed resistance and death. Read my last two articles at Newswithviews.com for details. Link Link

Anyone who takes an oath to serve and protect our Constitution, and then proceeds to support the unconstitutional communist departments, in an attempt to usurp our Constitution are nothing but criminal traitors. Democrat leaders are communists, and by definition are traitors. Islam/Cair is not a religion of peace and by definition can't support our Constitution. The establishment families and their minions: (government officials, judges, media, bankers, large corporations, educational institutions, et al.) are anti-Constitution.

Not only did Congress and our former presidents establish and

fund unconstitutional communist departments with our money, they gave all departments the legal power of all three branches of government (so much for separation of powers). This means that unelected bureaucrats can (1) make a rule, (2) charge you with violating the rule, (3) find you guilty, and (4) determine your penalty. Of course all of this is contrary to our Constitution, they call this unlawful and treasonous procedure: The Administrative State.

Having served in the United States Military, I have great respect for the troops, but I detest the pentagon brass who refuse to protect them. I will never forget the military judges who freed a combat deserter, but refused a trial with due process for an innocent officer and put him in prison. There are admirals who accepted whores and all kinds of bribes while their ships and planes were self destructing with many deaths. Then we have the admirals and generals who are willing to subject their young recruits to sick people who infect them with highly contagious terminal diseases which will cost the VA millions. Sending troops to war with inadequate equipment and training while using dangerous rules of engagement may be the least of pentagon sins.

Homosexuality is a disease, that by its self will cause an early death, people born with this affliction have my sympathy, but the predatory ones attack young recruits who will kill them for doing so. For this to happen high ranking military officers must be communists and have the disease.

Our military could stop the dangerous use of women in combat if they would use the draft for required manpower. You can't mix unequal abilities and raging hormones in combat. Military training would be great for more young men, but the military could not tolerate the scrutiny of parents who vote, remember Viet Nam.

President Donald J. Trump is certainly no saint, but he is a genius warrior, who relates to the people, and has built the

most powerful movement in history. President Trump is the only man who can save our Republic by defeating any combination of Communists from both parties in elections, or if the Republic is attacked, in civil war. President Trump is being attacked every day by the forces of evil, who are traitors, who, I predict that he will defeat, or the people will put an end to them in elections or a civil war, especially if President Trump or the Republic is harmed.

Communists in both parties think they are above the law, superior to common people by birth, and they will lie, cheat and smear President Trump to maintain their elite swamp status.

In a few words. Stop the treason. Kick the communists in both parties out of government. Stop all immigration. Deport illegal's. Terminate the FBI. Terminate the unconstitutional Departments of Government. End the private Federal Reserve Bank. Replace income tax with tariffs. End the Administrative State. End the treason by judges. Reform corruption by generals and admirals.

Calls For Gun Control Are Screams Of Terror By Communists

The establishment families controlling our government are traitors who know they are guilty of all manner of crimes

against the people and our Constitution. These elites are well aware that America's founders gave us guns to defend ourselves against them and a rogue government. They are petrified of being shot dead as the people learn of their corruption and treason. I don't advocate violence, but as the Rule of Law no longer exists in Washington DC, and increasing numbers of people learn the truth, history teaches that violence and revolution cannot be far behind.

The corrupt and unconstitutional establishment families control major corporations, banks, educational institutions, tax free foundations, judges, elected democrat and republican officials, appointed bureaucrats and officials, many high ranking military officers, other fellow travelers, et al. Many establishment families with unlimited wealth and power existing today, were the major cause and financial beneficiaries of our Civil War, which except for some propaganda late in the war, had not a damn thing to do with slavery. These establishment families have also initiated and benefited from every other military action by this country. The aristocracy and their fellow travelers swim in the blood and sweat of our people.

Even a cursory examination of our history from before the Civil War to the present will show anyone with an open mind how the American People have lost their lives, freedom, and property to enrich the criminal elite and their fellow travelers in the establishment families.

Just look at one year...1913, when the Private Federal Reserve Bank, income tax, direct election of senators, and tax-free foundations were created. These actions caused the Great Depression, unconstitutional money, and protected the wealthy from paying taxes, or losing control.

This is how a continuing aristocracy was founded, maintained and funded in America. Without these actions, a hard working family here more than 100 years should have been in good

financial shape, but most were robbed of their savings and constitutional rights in a number of ways by the establishment families during the Great Depression, and continuing to this very day.

Every single problem in our country can be eliminated by following the United States Constitution. Continued Failure to obey the Constitution, word for word, as written, will result in civil war, drugs, death, hunger, poverty and much suffering. The only bonus would be the people's reaction, ending the blood sucking establishment traitors and their minions.

A large percentage of Americans are brain washed people in both parties, who have been effectively duped by communists (read democrats) and deadbeat criminals. People who have been indoctrinated by schools and misled by fake news media are useless idiots. Our constitution is not compatible with communism, socialism, or Islam. Our constitution is the greatest document ever written, second only to the Holy Bible.

It is impossible for our best writers to convince most of their own family members, much less the poor living in our communist cities of the truth. Those who have been indoctrinated as communists by media and schools, are on a path to death and destruction. Communism and socialism have NEVER worked starting with the Mayflower Compact of the pilgrims at Cape Cod in 1620.

Kelleigh Nelson, a noted writer, told me that "A woman's heart should be so hidden in God, that a man has to seek Him just to find her." Communism by its own words, does not, and cannot, tolerate family life based upon loving marriages between men and women as detailed in the Bible and our founding documents. Communist, socialist, and democrat followers of the establishment promote a hedonistic "hook up" culture that results in tax funded chaos contrary to our constitution.

Like most men I was born with a God given attraction to women and an appreciation of beautiful women. But, unlike many in communist cities, I was also taught to respect women.

Greedy females have used their sex appeal for thousands of years to get what they want from men. All of God's and man's laws on common prostitution apply to both participants in the recent sex scandals. It is prostitution, when would be adult actresses and news readers, who are not threatened with force or loss of employment, give sexual favors to powerful men (Johns) in return for the opportunity to earn great wealth.

I find it difficult to accept that many Hollywood and media stars traded sexual favors for unfair advantage over other more principled women. Then, years later they sue the John when their star fades in public. Women who use their bodies to gain advantage over decent women are whores and cowards, certainly not role models for young girls and families.

Decent women, who have been directly denied the opportunity for wealth and fame by the actions of whores and Johns, now have the information to sue both parties. Woman appreciate polite comments from men. They used to respond to unwanted disrespect by slapping the man hard, or giving him a knee to the groin. Contrary to popular opinion, women are competitive, and dress mostly for effect on other women.

Poor people living in our communist cities without the benefit of honest media, church teaching, decent schools, jobs, and families consisting of a husband and wife are doomed. This society is ruled by the dictum, "that if a girl is old enough to bleed, she is old enough to breed." Fifteen-year-old or younger single mothers are little benefit to anyone.

MOST government departments are unconstitutional, and ALL OF THEM function contrary to the constitution using an unconstitutional concept called " THE ADMINISTRATIVE STATE." Elected officials, appointed bureaucrats, and judges who allow

this lawlessness are certainly traitors.

The information that follows is taken from "What is the Administrative State?" by Prof. Paul A. Rahe dated September 9, 2010.

Our Republic is based upon the doctrine of the separation of powers. It is based on a functional division of governmental powers between the legislature which makes laws, the executive, which enforces them and the judiciary, which judges particular cases.

At the heart of the doctrine underpinning our Constitution is the principle that powers cannot be delegated—that the legislature cannot execute the laws or judge particular cases, that the executive cannot make laws or judge particular cases, and the judiciary cannot make or execute laws.

When I suggest that the administrative state be eliminated, I mean that we should return to constitutional government and the separation of powers....

The Rahe article I just quoted above, is only one and one-half pages in length, and I strongly recommend that you read it. I can guarantee that no one can take legitimate exception to a single word written by Dr. Rahe.

Based upon the absolute truth of Dr. Rahe's article alone, it is unquestionable fact that the officials of all three branches of government (except for President Donald J. Trump and his team) are functioning unconstitutionally as traitors, and subverting our constitution for personal wealth and power.

Put another way, everything department officials do is done under the guise of the administrative state which is unconstitutional, making everyone in government a damn traitor. It is no consolation to the American people that they are being screwed unlawfully by officials who are establishment communist traitors and are above the law.

Government must obey every detail of the constitution if we wish to save our country, prosperity, and even our lives. Every single violation of our constitution by the criminal establishment brings us closer to destruction and civil war.

Democrats want illegal's for low class voters, republicans want illegal's for cheap labor resulting in lower wages, murders, drug deaths, and major increases in crime, et al.

Taxing the hell out of those who work to give to those who could work but don't is not proper, nor is it viable long term.

Federal government handouts are so large that most recipients will not accept private employment, which causes real hardship for employers.

Judges who ignore the constitution and think they make the law must be terminated (otherwise they will be taken out by the revolt they helped to cause).

The FBI is corrupt, does not enforce the rule of law, and must be replaced with the militia of the several states as stipulated in our constitution (Failure to terminate the FBI would be the major cause of a revolution).

End the income tax and IRS. Replace the lost revenue with tariffs as used so successfully in the past and by our founders.

Do not allow government to screw the people with digital money, bail-ins, confiscation of 401k's, IRA's, and bank deposits. End unjustified unlawful asset seizures.

Terminate the private Federal Reserve Bank and fiat currency, replace with real money as stipulated in our constitution.

Terminate unconstitutional use of the administrative state governance in all departments of government.

Terminate all unconstitutional departments of the federal government.

Many Muslims are decent people, but they must repudiate the evil parts of the Qur'an that are contrary to our constitution, as well as their call for Sharia Law, death to infidels, et al. Until they join Americans in supporting our constitution, many will not trust them.

End all immigration for 25 years, deport all illegal's, and end all government benefits for illegal's. Our people will no longer tolerate the crimes and hardships caused by these criminals, who benefit both parties of the establishment.

I live my life in accordance with the rule of law, our constitution, and God's laws. I have never advocated the use of force against the government or anyone else. But I do fear for my life if any of the really corrupt members of government perceive my writing to be a threat to their power.

God Gave Us A Warrior, Not A Saint, To Fight Treason

My intent is to shock you with a few facts, that are impossible to dispute, with some predictions. Unlike the Establishment Traitors who control everything, I took an oath to support and defend the United States Constitution in a legal manner, and I intend to do so until I am dead.

First, you must accept the ABSOLUTE FACTS that ESTABLISHMENT

ELITES and their well paid Minions and Fellow Travelers control all branches of Government, Media, Business, Banking, Education, Courts and Entertainment, et al. The ESTABLISHMENT controls Democrats and Republicans, both of these criminal parties profit from Treason and are at WAR with our CONSTITUTION and PEOPLE. Leadership of the Democrat party is also Communist, who by definition and stated objectives can never support our Constitution. It is my firm conviction that if Donald J. Trump had not been elected President. or if he should be taken out, that the people would soon kill the Establishment Elites and their Minions. The election of President Trump has saved the lives of the Establishment's Deep State Traitors for now, and possibly for as long as he is President.

The FBI is the single, most dangerous, ineffective, corrupt, and counterproductive Agency in the Federal Government and should be terminated. The reputed Homosexual J. Edgar Hoover used the FBI's blackmail potential and ability to protect officials from prosecution to remain Director for 48 years. Recent actions by the FBI under former FBI Directors Robert Mueller and James Comey seem to have followed Hoover's lead. There are some dedicated people in the FBI but they are not in management. The Bureau may have killed more people than they protected.

You can start with the 9-11 attack when about 3,000 people were murdered because the FBI ignored leads from their Agents.

At Ruby Ridge in 1992 an FBI sniper killed Randy Weaver's Wife, his son was shot dead in the back and his dog was killed.

Waco came in 1993. when 76 men, women and children were shot and/or burned to death by the FBI because they would not turn over their weapons.

Ruby Ridge and Waco were Timothy McVeigh's stated reason for

the Oklahoma City Bombing that killed 168 people and injured 680 more.

Major FBI failures also include the Boston Marathon bombing where 3 people died and 250 were injured in 2013, the San Bernardino attack in 2015 which killed 13 and injured 22, and the Orlando attack which killed 49 people in 2016, et al.

The FBI has protected many more high level criminals in government than they have ever indicted, such as those involved in Fast & Furious where Border Patrolman Brian Terry was killed, the IRS Scandal which denied rights to Republicans, countless high level officials and all members of congress, for supporting and funding unlawful agencies, and the Unconstitutional Administrative government process.

FBI Executive Robert E Hanssen was an active spy for the Russians for 22 years, responsible for the torture and death of who knows how many agents by the Russians. This man's Treason alone probably offsets any favorable actions of the Bureau.

If you really want to know inside details of just how incompetent and corrupt the FBI organization is you must read "Classified Woman" published in 2012 by Sibel Edmonds who was hired as a translator after 9-11. Ms. Edmonds reported security breaches, cover-ups, and malpractice at many levels. Her book is well documented and has made many Patriots furious at the FBI

No police officer at any level of government has the authority to shoot up a car containing innocent people and a protester, who they shot dead using a long gun when he left the car. The FBI shot up the car and filed a false report. The State Police from Communist Oregon, working with the FBI killed Mr. Finicum. All of this because citizens demonstrated on State land controlled unconstitutionally by the Federal Government. Citizens in the Western States want retribution for the murder

of LaVoy Finicum, and the return of their land. The Federal government controls 24% of all land, but 84% of Nevada and 65% of Utah CONTRARY to US Constitution.

When any organization is so rotten from the top down like the FBI, it is impossible to reform it, you have no choice but to end its existence before it causes a Civil War. Our Constitution stipulates using the "Militia of the Several States" to enforce laws of the Union, but this would reduce the ability of Establishment Elites to steal from the American people and stay out of jail.

It would also be helpful to return to citizens the Constitutional right taken away from the people, to initiate Grand Juries to prosecute Government Criminals, et al.

Most of our problems are because of the Establishment's Treasonous Refusal to comply with the United States Constitution and Declaration of Independence. A few additional examples of Treason follow.

The United States mostly prospered until 1913 using tariffs and excise taxes for income, with gold and silver as money with an intrinsic store of value. But, this did not give the Criminal Establishment sufficient Economic control of the people so they could screw them completely and profit from wars, at will. So they instituted the income tax with tax free foundations to protect the wealthy, and the PRIVATE Federal Reserve Bank owned by PRIVATE banks, to issue a debt currency that is fiat. It is even called a Federal Reserve Note, that has no store of value, but gave them almost complete control. Ben Bernanke, former Chairman of the Federal Reserve confirmed in a Nov. 8, 2002 speech that the Federal Reserve Bank CAUSED the GREAT DEPRESSION which enriched the Establishment, and impoverished the people.

Our Constitution was written so that average working people had equal opportunity to earn and accumulate wealth over the

years using a lawful currency that was a store of value. What you now have is an unlawful debt currency with no intrinsic value, contrary to the Constitution. How could it be much worse? Let me tell you just a few ways. Next, you will get forced use of Digital money as worthless as Federal Reserve Notes, but ending any control you might have. You must return to the barter system if you don't want to pay the bank a fee for using digital money, you know, like credit cards. BAIL INS will soon allow bankers to use depositors money to keep them out of bankruptcy. Banks can now refuse to return your money. Governments can take your money for no legal reason. Pension funds are failing, et al.

The Establishment is attempting to divide our people by promoting false reasons for the Civil War, which was over money and power. The war was never ever about slavery, except for public relations in the North when Lincoln was losing. Lincoln did not give a damn about slaves. Media and Educational Institutions at all levels are teaching lies, if they teach anything about the Founding Principles and the Civil War. Democrat Officials and their Leaders were the KKK, and have been the primary oppressors of Black Americans since the Civil War. The average White man has never had the power or inclination to deny rights for African Americans, they even elected Obama as an American Hating President. **But**, that could change due to Obama and the attacks on American Heritage, by the Communist/Democrat thugs to cover up their own KKK sins. The average Confederate Soldier owned no slaves and did not fight to keep slaves, nor did the Northern Soldiers fight to free slaves. Mayors of most cities of any size are Democrat/Communist, and are doing everything possible to remove Civil War Monuments to cover up the Truth about the real Democrat OPPRESSORS of Americans and especially African Americans.

The trouble in Charlottesville, Virginia is an indication of the average citizen's GROWING anger with the lies about their

Southern Heritage by the Establishment Media and Minions. President Trump very correctly named the well paid hate groups from the left and the few haters from the right who were determined to use violence to deny the honest citizens, with a permit, the right to peacefully protest removal of a statue of Robert E. Lee. Black Hate groups from the Communist left are paid to cause trouble and have been doing so for years..

Do not forget that both state and local Democrat/Communist Officials in Virginia directed police actions in ways that would not contain the riot that killed one, and injured countless others in Charlottesville.

President Lincoln wanted to return all slaves to Africa. His circular reasoning was: Slavery was an affront to human liberty, but ending slavery would supposedly be even worse. Read this and much more in "The Real Lincoln" by T. J. Dilorenzo. But, there is also a horrible Treason in Lincoln's actions to start, and conduct a Civil War to benefit the Manufacturing Establishment of the North, and to impoverish the Southern People..Lincoln was a two faced SOB responsible for hundreds of thousands of deaths and almost total destruction of the South. For more details that are not PC, read "The Uncivil War" by L.M.Scruggs. Now you know why people from the north are called Damn Yankees .in polite society and much worse by others.

Many people worship M.L King because they only know the untrue PC version of his actions. King did have some worthwhile things to say. His " I had a dream speech" was written by another. His wife Discovered that much of his dissertation was plagiarized. He was financed by the Communists, attended Communist training, and had Communists on his staff. He did promote violence, constantly. He used funds from his organization for booze and whores.

We must support President Trump as he is OUR ONLY HOPE to take back Constitutional Government from our enemies in the

Establishment without a civil war. You can't believe anything that is said about President Trump by members of the Establishment Media, Educational Establishments, et al..

The average Citizen should keep as little money as possible in Banks and investment accounts, Arm yourself, have a store of emergency food, and buy some gold or silver. Police will not protect you if they take orders from a Democrat/Communist mayor like we have in Tampa and most cities of any size.

We must stop the Establishment's theft of our financial resources by terminating the IRS, Income Tax, and Private Federal Reserve Bank, along with all Unconstitutional departments. We can then end income taxes and return to funding government with tariffs and excise taxes.

Many Judges at all levels say the law is what they want it to be. Nothing could be further from the truth. Democrat leaders are nothing but Communists and most of their actions are contrary to our Constitution. Democrat/Communists do not follow, or believe in our Constitution, it is impossible for a Communist to support the values of God, Family, Justice, Equality, Freedom, et al.

All immigration, legal or not, should be ended for at least 25 years. Birth right citizenship should be ended unless one parent has permanent residence. Chain migration must end. There should be no public benefits for illegals or their children, including education and medical care.

I don't deny rights to Homosexuals of any variety, but allowing these sick, and oftentimes predatory people into the Armed Forces is destroying our Military. From experience I can tell you that most straight males in the Military will attempt to kill a predatory Homosexual who attacks them. As long as Homosexuals are allowed in the Military I will do what I can to talk people out of serving. Any Military Officer who advocates Homosexuals in the Military does not have the best

interests of the troops.

The Military has framed Service People without due process in Military Trials, and sent them to prison for properly questioning Obama's qualifications. How can anyone serve when your superiors don't have your back and there is no justice..

There is nothing that is PC in this article. If your knowledge of the subjects is only based upon what you learned from Media or Educational institutions, you must read more to agree with the truth. You must accept as absolute fact, that no true believer in Democrat/Communism, nor Islam can ever support and defend our Constitution.

Last chance for prosperity, without slavery, or revolution

The title of this article says it all. This is your last chance to keep the freedom, prosperity and life style you now enjoy, if Donald Trump is not elected you will become a slave and lose everything resulting in a revolution with much death and destruction.

I have listened to Donald Trump's speeches very carefully and based upon my study he is 100% correct on his substantive issues, so I will not repeat what he has said. I will only list a few things that I don't think he has said that are very important.

Trump's major issue is his love for our Constitutional Government and Declaration of Independence. Anyone who opposes our Constitutional Government must also oppose Donald Trump and his followers. Leaders of the Liberal Progressive Communist Movement along with their ignorant brainwashed followers are enemies and traitors to this Republic. Most of the departments of the Government we see today are unconstitutional frauds and have been given unconstitutional powers by the traitorous officials in all three branches of the phony government. In 1913 the Progressives (Communists) gave us the Private Federal Reserve Bank, Income Tax, and Tax Free Foundations, among other things. To better perform Treason the "Administrative State" was implemented which allowed them to rule without the Constitution and gave us the Great Depression with another one well on the way today.

Under this Unconstitutional "Administrative Law" each department is run by an unelected bureaucrat with the full powers of an unconstitutional independent government, and the people have no rights under the rule of law or the Constitution. Did you ever try to have a Public Official arrested?

The Rule of law is dead. The elites can do whatever they please. If the people object they are often shot, arrested, and framed with the result that the people are enraged and on the verge of revolt.

The Media, Establishments of both Parties, Academic Elites, Banks, and Large Corporations want to stop Trump and continue to impoverish this Country. These corrupt enemies of the Republic might have a remote chance to stop Trump from saving the people but it would be a Pyrrhic Victory because they could lose everything for their Treason including their lives.

When Donald J. Trump is elected he can do much more than he promised. He can END FEDERAL INCOME TAXES. or any replacements for them. He can replace the tariffs that made us great which

will force return of manufacturing jobs. Most Federal departments are unconstitutional and must be terminated. All federal programs not authorized in the Constitution must be terminated with the exception of SS and Medicare insurance. Block grants of Available funds can be given to states to fund terminated programs.

The men in this country love women except when they act like stupid fools by being so anxious to believe everything they are told by Sec. Clinton and the Media. In fact men should avoid these Ignorant Communist women supporters of Clinton at all costs because they are just too stupid to associate with anyone, if you are really in love with one of them,. It would be better to give her a house and run like hell.

I don't think Donald Trump or any other man is perfect but I am convinced beyond any doubt that he can save this Country, your Family, your life and everything else of value to you. Doing away with the Income Tax alone will do wonders for your life style.

If you elect the witch with a capital B you will suffer and lose everything. The patriots among us have already said they would exercise their Constitutional rights to stop the Treason.

It is the people's choice:

Quick return to rule of law and unlimited prosperity

Most of you do not know, nor want to believe, what I am going to tell you even though most of it is based upon facts gained from more than 80 years of study and experience. What you think you know is mostly wrong because it is the result of Marxist indoctrination in schools and false information reported by the Establishment owned Media and government officials. Because of this propaganda you can be forgiven for being an ignorant Communist supporter of Criminal Traitors to our God Given Constitution provided you will learn the truth and become a patriot. It is an absolute fact that Marxism,(Socialism, Communism, Progressivism, Liberalism) and Crony Capitalism (not to be confused with Capitalism) has failed, and is failing, in the United States and where ever it has been tried resulting in death and poverty for millions.

At my age I would not be surprised to die soon of natural causes. But, I am also under no illusion that writing the truth about Corrupt Establishment minions could also cause my death much quicker. Even the Media had to report recent assassinations of those reputed to have been associated with released emails that had a negative impact on Hillary.

Now is the time for The Donald to play his Trump Card ending all Income Tax payments by the people resulting in unlimited prosperity from the return of most manufacturing jobs by reversing the progressive action on tariffs. When Donald J. Trump also terminates unconstitutional government departments, such as Education, Health, Transportation et.al. and benefit programs there will be additional funding to reduce the debt. Service of the Public Debt will soon consume one third of all government income leaving little or nothing for anything but National Defense, Social Security and Medicare.

It is impossible for poor and working class people to have any degree of security unless they are armed and as one with the police, while their city is being run by Communists aka Democrats..

When Donald J. Trump wins this Presidential Election you can expect a return to full employment, the Rule of Law and a government ruled by the Constitution for the first time in years. President Trump will end Crony Capitalism aka Pay for Play (Theft from the people with support of the government) and perpetual theft from the people by the Establishment and its Minions in both parties for power and profit.

The Establishment, Democrat and Republican Parties, Universities, Elected Officials, Judges, Media, and their employees know that President Trump will deprive them of their unlawful power and ability to rob the people contrary to the Constitution. Based upon experience I expect Democrats to stir up their low information base with half truths, pay for votes, vote the dead and non-citizens many times, and then cheat on the vote counts. Most of the big money donors in the Establishment support Democrats while the few big donors on the Republican side withhold their backing of Donald Trump because they are afraid to lose their power and money if he is elected.

All benefit programs paid by the Federal Government except Social Security and Medicare (when funded by beneficiaries) are unconstitutional and subject to instant termination. Individual states could fund and continue any of these programs they wish.

We can't continue to fund public k-12 Schools and Universities to indoctrinate our children in failed economic concepts such as the many variations of Marxism. Faculties refuse to teach Capitalism and our Constitution much less its benefits over Marxism. About half of our people were taught that they are entitled to live off of other people's money and they plan on

voting for Hillary Clinton the most corrupt person in the history of politics who will destroy our country.

Most of our cities are crumbling examples of a failed Communist experiment run by Democrat Officials, who, by the very definition of Communism, can't support teachings of the Church which are required for Civilization, Families and Constitutional Rule of Law. Very soon the free stuff will end and without Rule of law, the mobs will rape and pillage until the Communist cities are nothing but piles of rubble. Communist Officials want individual attempts at building business to be destroyed by thugs to keep all the people at the same dependant poverty level. For proof see Ferguson, Mo., Baltimore, Md., Milwaukee, WI., et al. In all of these cases the Communist Officials running these cities wrongly threw their police under the bus. There will be no way of ending an uprising once it has started without major loss of life and property.

I blame all of the loss of life and property on the dirty rotten Communists/Democrats who run the cities and the corrupt Federal Justice Department with support of the Establishment and its minions in both parties.

There is only one way to stop these disasters in the near term. You must return to the proven principles of the Constitution, Religion and the Rule of Law. Don't you dare tell me I don't know what I am talking about, I was a Peace Officer in the Fifties and lived it. You must return to the Rule of Law where the lawless are shot dead in the streets when attacking people or property and refusing to obey the law. Long term solutions require a father and mother in the home, decent schools, churchs and employment opportunities.

Police can't protect the people without support of the citizens. Police should arm and train honest residents to help protect themselves and their property from the thugs. From personal experience I can tell you that police officers are

not attacked if thugs know for certain that attacking an Officer has one result, being shot dead. I must admit that citizens I protected, unlike today, were armed to the teeth as per the Constitution, many were poor, but none were Communists.

Police Officers in cities run by Communists must have support of the honest citizens because they are the only groups with anything in common. Police must arm and train honest Citizens so that combined they can defend each other. Recent events in Ferguson, Baltimore and Milwaukee, et al. have reinforced historical facts that public officials who are mostly communist will destroy police and citizens for exercising their Constitutional rights. Our Constitution gives us the right to keep and bear arms as a last ditch protection against a corrupt government, like the one run by the usurpers now in office.

Many will take exception to my comments and some will be Communist indoctrinated Police Officers. But my words come from experience as a Peace Officer in the fifties when I was taught to kill people with kindness or if required to kill them by gunshot, not by fighting, not by beating. I never cursed anyone and the people had my back if required. I am giving you a glance at police work under Common Law and the Constitution. I think you can see the result of today's failure to follow the Rule of Law and our Constitution.

All failures in the Communist cities are due to the guaranteed failures of Communism and can't be corrected by the police while under control of Marxist officials or others with no loyalty to our Constitution. Based upon unlawful orders given to police by superiors in rioting cities it is surprising that police did not arrest their own officials for Treason.

You must accept that, everything is controlled by the ESTABLISHMENT (also known as the Rulers), which is composed of the elite super rich families, and they control BOTH POLITICAL

PARTIES, educational institutions, media, major corporations, elected officials, and judges. With few exceptions they comprise a criminal gang of thugs who control and steal everything for their own benefit while the people live in fear, suffer and die on the leftovers. Dreadful economic moves have been made by the Establishment to further line their pockets which will cause terrible hardship of the people igniting deadly retribution.

Both parties are a criminal part of the Ruling Establishment, but the Democrats are Crony Capitalists, Progressives, Liberals, and Marxists, with most of the money. Republicans are gutless Crony Capitalists with much less money. Anyone who opposes either party will be destroyed or killed, there is no Rule of Law for the Establishment, none, they do as they please.

After the first 13 states, all new states that were formed were given the public lands within their borders and if the Federal government wanted any of it they had to pay for it (see Article 1, section 8, clause 17 of Constitution). This would deprive the Establishment of ongoing profits and power of 840 million acres ($\frac{1}{4}$ of land in 12 Western States) so they established unconstitutional government bureaucracies with dictatorial powers to control the State's rights and those of ranchers, miners and lumbermen et. al. to make a living. As justification for Treason, the Self Ruling Bureaucratic Traitors pretend that the States were not Constitutionally given the land within their borders, and that the Supremacy Clause, Property Clause, and Government Authority over Public Lands still applies to lands now within a States boundaries. That is not what the Constitution says, but the corrupt lawyers and judges do not agree with me. Of course they also support their position with a lot of double talk. But, not once do they mention the Equal Footing Doctrine that mandates that all new states be treated the same as the original states. All of this is important because honest hardworking

people (excepting some communist residents in cities) in the Western States are serial victims of framing and murder by the Federal Government. This is critical because people in the Western states hate those who are causing them so much pain.

These traitors have replaced our Constitution with so called Administrative Law based upon unlawful concepts from Progressivism, Liberalism, Marxism and Sharia. A majority of government departments, agencies and programs are unconstitutional, and all of them function contrary to the Constitution.

Elected Officials in Congress must continue to honor and fund constitutionally specified departments such as Departments of Defense, Justice, Treasury and State. But unconstitutional departments and activities without Constitutional authorization must be terminated. The people must be given back their ability to make presentments directly to Grand juries for indictments of criminal officials without intervention by criminal prosecutors or judges.

It has been starkly demonstrated repeatedly, and for years, that there is no way for lawful citizens to obtain justice in this country at the federal level. Donald J. Trump has promised justice for all when he is elected. If he can't keep his promise I would expect the people to exercise their Constitutional rights to obtain justice.

It should now be obvious to everyone that the Establishment, both of its political parties, the media, and everything else it controls is out to stop Donald J. Trump from winning the election at any cost. As an Economist I can tell you that if Trump wins there will be unlimited prosperity and freedom growing to maximum proportions if Congress supports Trump.. If Trump is defeated we will have an Economic decline of major proportions and elected officials will suffer the ire of the people.

There is no Constitutional Rule of Law now in this country. There is no way to convict a member of the establishment, you can't take a case before a Grand Jury or ask for help from the Militia of the Several States. Our Constitution has been replaced with an Unconstitutional Administrative Law Procedure and a majority of Federal Departments are unconstitutional and all of them are functioning in an unlawful manner. How can half or more of the Supreme court function contrary to their oath to the Constitution?

In a few words, the Establishment is using progressive, liberal, Marxist, and Sharia concepts to run our Republic which is nothing less than treason.

I must give you a strong warning. These Establishment members of both parties have everything to lose if you force them to return to the rule of law. There is nothing terrible that they won't do to you to prevent losing trillions of dollars.

If Donald J. Trump is elected President he can return the country to prosperity and full employment with no income tax or Private Federal Reserve Bank within 18 months by using tariffs. Contrary to the Communists, tariffs did not put us into the Great Depression, that was done by the private Federal Reserve Bank (according to the Chairman).

There are many federal benefit programs payable to individuals who did not pay or perform service for the benefits. These programs should be sent to the States for termination or to be continued.

Social Security and Medicare should only be paid to those who paid into the funds.

I proudly served in the Military during the Korean War. The Military was never perfect, but it was honorable and I was proud that other members of my family served. That is not true today, there is no honor in the Officer Corps. You need only look at what the political ass kissers did to those at Centcom

who refused to support the Obama lie about the war. They allow their troops to go to war with improper rules of engagement and poor equipment. Anyone who uses proper procedures to question actions that are not legal will be court martialed in a corrupt military court and put in prison.

Mr. Robert Quinn has reported at length how Army Lt.Colonel Terrence Lakin was put on military trial and was denied due process by not being allowed to introduce evidence that might embarrass Obama. about his qualifications. After 18 years of service Lt. Col. Lakin received a dishonorable discharge and time in prison. This is a Military that does not protect its people.

They allow the politicians to load up the Military with Sodomites who are subject to dangerous costly physical and mental illnesses. Sodomites make up less than 2% of the population but over time they will concentrate in the Military causing a major breakdown in recruiting and morale. Ask the Catholic Church. I woke up to an attack by a predatory Sodomite in the fifties when I was in the service, primal instincts instantly kicked in without any thought, and I tried to kill the SOB. I feel sorry for the Sodomites, I wish them no harm but I want no part of their sickness.

They have put women in combat, whether they want it or not and can survive or not, .most can't, except for a few who can compete with men. Men don't want women in combat and neither do their parents, only the communists and Femi- Nazis want women in combat. If women had the upper body strength of men weighing twice as much they would be on men's sports teams. The military tested women and all but a hand- picked few failed, the military is putting them in combat for political reasons. Most men love women and know these actions by perverts of both genders is wrong and will result in the killing of even more men and women.

It is estimated that approximately thirty million illegals are

in our country raping, killing, robbing, molesting and taking jobs from our own people while we pay for everything they need.. Several Presidents deported them, and so can we. Our corrupt politicians in both parties know the people want the wall built and the illegals deported but they won't do it. The illegals are bringing all kinds of dangerous diseases into the country. There is one simple solution, deport all illegals and allow no further immigration of any kind for 25 years.

They take an estimated \$ 50 Billion out of our economy and send it to their Home Countries. About one third of our prison population is illegal. The Medical and Education costs of illegals is unbearable. Contrary to popular opinion unless one parent is legal the baby is not a citizen. Democrats want the illegals for votes and Republicans want them for cheap labor. Legal minorities want the illegals deported.

Black Lives Matter has replaced the KKK as the strong arm of the Democrat party and after recent meetings with Obama has been given millions of dollars. From past experience you should expect them to use all manner of violence to disrupt the election process with full support of the communists in government.

All citizens must exercise their Constitutional Rights to keep and bear arms in a lawful manner. Do it right now before it is too late. Always let the criminals and traitors shoot first before you shoot them dead in self defense.
