

What Happened to the Democrats?

I wrote up a series of interviews with local office-holders, all Republicans, to explore what they believed in and how they differed from the Democrats. I was a registered Democrat at the time, but I tried to keep that out of my reporting. “Let them speak for themselves” was my motto.

Fighting on Two Fronts

I have been drafted into the battle against cancer. That means I have cancer. My doctors say they can cure it, but it'll take a while. Meanwhile, it's off to the hospital every weekday for radiation treatments. The chemotherapy pills I take at home.

In Search of the Righteous Candidate

Some say they won't vote because you can't beat the cheat. Our elections, they say, have been hopelessly corrupted—so why bother? The fix is in. And thus another self-fulfilling prophecy is born. Live and don't learn.

Court Socks It to School Board

It would be good if parents simply abandoned “public education” altogether. That’s the ultimate solution to the problem. Failing that, it should at least be a given, everywhere, for school board members to be subject to recall elections whenever they stepped out of line.

‘I’m Me, He’s Him’

It seems a shame for Kacklin’ Kamala and Tampon Tim to waste their talents on governing this country. I mean, the poor old USA can run off the road and into a ditch without them. It won’t need much of a push.

They’re Still Getting Away With It

We also had to learn reading, arithmetic, general science, basic geography—gee! Not much time left over for Gender Studies, Critical Race Theory, or Marxism Really Does Work (We Should At Least Try It!) studies. “How do you know you really

are a girl? Have you at least thought about your gender?" No, we had no time for anything like that.

"Our Democracy"

The town—any town—has a local school district governed by a local board of education. As the years go by, the townspeople grow more and more discontented with their schools and find that they object to what's being taught, who's teaching it, how much it costs, and the batty "school officials" running the show.

Sinking Into Tyranny

To me it looks like our Western civilization sinking into tyranny. Violence in the streets, as our namby-pamby leadership tries in vain to appease Muslims with a screw loose; the government reveling in unlawful censorship; and a trip to the cop shop for anyone who has a beef with a public employee—is this what passes for the Free World, nowadays?

Get In On the Joy!

And across the water, Britain's new Labour government (that's "Off-the-Wall Far Left Crazy" in American English) has

threatened a government crackdown on “harmful beliefs”. They’ve vowed to go all-out, no quarter asked or given, against “extremism.” If your beliefs ain’t right, the cops will bite.

‘A Campaign of Joy’???

Meanwhile, the Cackle Queen has held no press conferences, sat for no interviews, and labored to give the impression that there’s really nothing that she has to do to win this. Instead, what we get is a ton of media drivel about her “campaign of joy.”

‘Educators’ Ban... the Bible

Local “educators” and the state teachers’ union in Oklahoma have vowed to defy a move by the state superintendent of schools to install Bibles in every classroom, grades 5-12, to help children study “the core values and historical context of our country”.

‘Let ‘Em Eat Bugs!’

Bill Gates and his playmates at the Untied Nations (let the error stand) have recently ramped up their campaign to get The

Common People to eat insects. It'll Save The Planet—see? And it's Sustainable! Science says so! And Science is always right—at least, for as long as scientists can tell which way the wind blows.

Towering Insincerity

I think the thing that turns people off in politics is the towering insincerity of it all. It's always the honeyed tongue with the dagger poised to punctuate the praise with a damned good stabbing.

The Silly Season

We local journalists kind of enjoyed the Silly Season. You could have a lot of fun trying to grind a news story out of those non-events. It was a challenge—and a welcome change from sitting in on rancorous town council meetings that went on till midnight.

Schwab: We Won't Need

Elections Anymore

Let's scoot over to the annual "New Champions" (of what?) conference in China, where Klaus Schwab, head honcho of the World Economic Forum, made some pertinent remarks... about taking over the world, I think it was.

What We Didn't See

In last week's debate the world saw the president of the United States as a doddering, confused old man. What we didn't see was whoever is pulling the old man's strings behind the scenes: invisible, and therefor unaccountable. "Transparency in government" has become LOL material.

One Debate, Three Movies

Tonight's the big "debate," if you want to call it that: President Donald Trump takes on Zombie Joe Biden on the official Trump-bashing nooze network, CNN. Major-league Trump-basher Jake Tapper will (it only hurts when I laugh) "moderate." The other moderator is actually named "Bash." Tonight she'll try to deserve it.

It's Been a Hard Week

They're challenging each other to "name three drag queens" to "prove his/her/whatever's loyalty" to the LGBTQetc cause. So it seems the candidate who knows the most drag queens should run the city. Why didn't we think of that years ago? I mean, it seems so thumping obvious, doesn't it?

They Never Saw It Coming

Nevertheless, three times on the last few weeks, these geniuses have been caught napping by events they should've foreseen a mile off. No one but a "progressive" would have been the least surprised by any of it. But then most of us aren't distracted by any need to build a pedestal and pose on top of it.

Make Way for Utopia

Meanwhile, we have been trying to get the Washington Post to dig up the actual identity of the speaker, supposedly a major figure in the Biden White House (we don't believe his only job is to feed the goldfish). Unfortunately, the WaPo is in a bit of a shambles just now.

Music Transcends Race

We discovered them by accident. My wife got interested in the late Bobby Caldwell, a rhythm and blues star who was rather more heard than seen; and a lot of the people who enjoyed his music—black people—thought he was black, too. There are quite a few videos showing how black fans reacted when they learned that Bobby Caldwell was... white.

Different Strokes, Different Folks

If we don't want the fighting to get out of hand, we have to agree to disagree—and that's harder than it looks. Once upon a time it plunged our country into civil war: individual states vs. federal government, and two vastly different takes on states' rights... and slavery. Try to name a war that didn't start over widely different perceptions of the same damned thing.

It's Getting Too Crazy

Meanwhile, though, the mayor had noticed that the city needed more lifeguards for its swimming pools and beaches. The light bulb goes off overhead. Aha! If only the feds would release the funds for it, he said, the city could hire a lot of the migrants as lifeguards... because "they're excellent swimmers,"

he said.

Two Big Changes in America

The rot spread into the Democrat Party. They threw moderation out the window. Democrat politicians competed with the colleges to see who could go farthest Left in the least amount of time. The sane, decent, normal Democrats, one by one, disappeared from center stage. In their place we've got Soros-funded radicals.

Free Speech in Canada: Bye-Bye

His latest project is the Online Harms Bill C-63 (Canada introduces blood curdling new thought police law that even Stalin would blush). It's a beauty! How would you like to be arrested, tried, and punished for something you said or did that was not against the law...

Saving Kamala

Democrat operatives are growing increasingly frantic about Vice President Kamala Harris' popularity. Polls consistently

show her mired somewhere in the 30s–34 percent here, 35 percent there, etc. They will not admit to any lower numbers.

‘I Identify As...’

Suppose I say, “I identify as President Joe Biden.” Must that be affirmed? Does that mean I get to live in the White House and issue executive orders? (“From now on, all motor vehicles must be powered by wind-up rubber bands!”) And what if I’m not the only one? What if we could fill a whole ballroom with persons claiming to be Joe Biden?

So Much for Our Civilization

How many children can be irreversibly neutered before you crash the population? Why would we want to even risk that? How deranged does our very language have to get, before we lose the ability to communicate? How many preposterous lies do we have to pretend to believe, before we have to find some way to live without truth?

How Crazy Is This Going to

Get?

Meanwhile, Thailand national TV has launched a news program anchored by someone who isn't real: "she" (if we can apply the pronoun to such a travesty) is a phantom generated by "Artificial Intelligence". Soon she will be joined by a "male" phantom, and together they will present the news.

We're Gonna Need a Bigger Hell

The World Economic Forum calls us "useless eaters." They recommend keeping us anesthetized with drugs and video games until they can figure out what to do with us. Meanwhile, keep that border open, keep those puberty blockers flowing. They'll get rid of our nations and set up their cherished world government.

America 2.0

We have a chance, in this election, to put things right. For that to happen, the Democrat Party must suffer a defeat of biblical proportions—and a lot of deep state plotters and schemers will have to be fired, never to return to public office. Naturally, they'll do everything they can to steer the vote their way; and no considerations of right or wrong, lawful or unlawful, will inhibit them.

How Would You Sell the USA?

Political Corruption. As reported by The Federalist, our current administration has been laundering tax dollars, paid by everyone regardless of party, to recruit college students for a massive “get out the vote” project—in reality, a scheme to get out the vote for Democrats, Republicans need not apply.

Have We Dodged a Bullet?

The first thing that happens is that various Blue states hop on board to erase Trump from the ballot. With each state that does so, pressure mounts on other states to do the same. Sooner or later the Red states retaliate by kicking Jobydin off their presidential ballots—say, for refusing to enforce our immigration laws and using his office for his family’s corrupt financial gain.

You Are What You Tweet?

Just last week Google had to “pause” its AI Image Generation program—“pause” means “take it off-line”—while they tried to correct a wee “mistake” in the program. What mistake was that? Oh, nothing major. All they did was erase white people from history and make ‘em all black.

Headed for the Rocks?

We all really do have to work harder if we don't want our country going belly-up. All we have to do to save it is overcome the Democrat Party, the deep state, teachers' unions, Hollywood, The Global Elite, a zillion illegal aliens, a running-dog nooze media that never tells the truth, and the kind of mind-set that gets seduced by Powerball.

Dems to Gullible Citizens: Open your Homes to Illegals

First we have a member of the Boston City Council suggesting that suburban residents "open their homes" to illegal aliens, now called "Migrants". It seems the sanctuary city is running out of sanctuary; so you folks out there—"the wealthy," as she calls you—ought to find it in your hearts to provide it.

The Food Fight Over Richard III

The Globe Theater has announced plans to stage a production of Richard III—with a woman in the title role. The production has

already been hit with a wave of protest by an assortment of “disabled activists” who say you have to “live the experience” before you can play the part: only disabled actors need apply.

Did a Typo Teach Us Wisdom?

When St. Paul wrote this, what could have seemed more foolish, more ridiculous, to the intellectuals of those days than a little fringe group of Jewish fools worshiping a crucified nobody whom they claimed to be the Son of God—and claiming that He had risen from the dead as the Savior of the entire human race?

Things Aren't Working As They Should

I hiked back home. We lit candles. My wife has an oxygen generator; it doesn't work without electricity: something to worry about. She fell asleep on the couch. I thought I'd better stay up, but by 3 a.m. I was nodding over the candles and it struck me as a dangerous position. I had to go to bed.

The Dinosaurs That We Deserve

The Jurassic Park movies, starting in the 1990s, gave us a Tyrannosaurus that really scared us. Balanced fore and aft at the hip, the new T. rex ran like the wind, turned on a dime, and could only be challenged, eventually, by imaginary dinosaurs cooked up in movie studios. But that was not the end of it.

A Scent of Pushback in the Air

They've been sitting on that nice high perch for going on four years—and it's a long way down from there. They might not be able to recover from such a fall. Say goodbye to global government. Give up hope of creating a new electorate who will obey them in return for free stuff.

We Can Beat the Woke!

Pull Our Children Out of Public Schools. That might do it right there. Wokies are so busy aborting their babies, and making their children sterile through “gender reassignment,” that the only hope for them is to use the schools—that we pay for!—to turn children against their families, against their country, and against God.

No Borders? No Country

Italy and the UK are beginning to talk seriously about limiting immigration—especially illegal immigration from Muslim countries—and France and Germany had better follow suit if they know what's good for them. Can't have all these jihad johnnies on the loose.

Teaching Children to Lie

Recently a 10th-grade student in Washington failed a quiz... by telling the truth. It was a “world history” quiz (please feel free to honk if you understand how this has anything to do with world history), true/false, in which the student didn't come up with the answers that the “teacher” wanted.

The Valley of the Dry Bones

How many times has this fallen world tried to wipe out God's people Israel? The Assyrians, Babylonians, and Romans uprooted them from their homeland and scattered them over the world: the image of sowing seeds comes immediately to mind. The Jews returned to their homeland—after yet another attempt to exterminate them, this time by Nazi Germany— and established a new state of Israel in 1947. Today they fight to keep it.

Unembraceable You

New York City has just made it a crime (!) to “discriminate” against anyone too fat, too tall, or too short. This is not surprising. All over the doddering Western world, liberals are embracing corpulence as something to “celebrate.”

Free Speech—Sayonara?

Meanwhile, the governor of New York has announced what amounts to a regular jihad against non-leftist speech. Gov. Kathy Hochul says she wants a Domestic Terrorism Prevention Unit Threat Assessment Management team on every single college campus in New York.

Decent Democrats (Holy Cow!)

This township was famous for its cut-throat politics, mostly within the Democrat Party itself: it had too few Republicans to make any kind of impact. Two Democrat factions slugged it out, day after day. It was great sport. But Hyman had no politics to speak of, and somehow succeeded in remaining aloof from the blood-bath.

Hippos and Trannies

The North American Grappling Assn. created a women's division, and women liked it. But this year there was an invasive species in it: "trans women," aka "men." The matches weren't fair, and women quit the sport in droves.

We Need More Victories

Should the state force a Christian school to embrace and promote heathen garbage in order to receive state funds available to all the other schools? A case like that has come up in Colorado.

Government: The Problem, Not the Solution

When the state honors God's laws, it secures—as Thomas Jefferson said—domestic tranquility and the blessings of liberty "to ourselves and our posterity." There are righteous laws that the civil government dare not break. In return, the people give their obedience to the state. It's only when the state succumbs to lust for power that the people lose their liberty; and with it, justice.

Down From the Top, Up From the Bottom

Among Labour's pet projects is a "law" that would make "misgendering" punishable by up to two years in prison. Oh, those Wrong Pronouns! If a deluded man declares himself a woman, and you still refer to him as "he" or "him," it'll be an "aggravated offense" and you'll be packed off to prison.

"Whoa! You Missed a Step!"

The scientific study of our remote past began in Europe and for a long time stayed there. Not surprisingly, European and American artists depicted prehistoric people as having white skins like themselves. Again, there was no evidence for it or against it. To that extent, the illustrations in the books were art, not science.

Science (with Government!) Marches On

You knew it all along, didn't you? What is the answer to every woe that flesh is heir to? Put 'em together, Science and

Government, and what have you got? You've got Policy! Mandates! Rules and regulations, new ones every day. And this is such an easy one—abolish, through cunningly crafted Policy, all forms of Discrimination against excessive corpulence.

Why Are These Kindergarten Children Still in Diapers?

And we have a U.S. Secretary of Education who says—yes, he said this—that he doesn't "respect" parents "thinking they know what's right for kids". Hear that, plebs? You don't know how to raise your own children, and the head honcho of public education admits he doesn't respect you.

Democrats to Abolish Meat, Dairy Products and Private Car Ownership

I know someone who, fearing the onset of old age, sold her house and moved into an assisted living facility. The deal is, they take care of you for the rest of your life; and in return, you give them... everything.

Something Is Wrong With Our Leaders

Let's see how well we understand them. I will provide a sample of three nooze stories—one of which, or maybe two, will be untrue. I have provided no links, so you'll be on your own.

Sing Louder!

Maybe if enough of us sing loud enough, the government might back off—before millions of Christian, Jewish, and Muslim parents get up the courage to pull their children out of there. Far Left teachers' unions can't thrive in empty classrooms.

Is It Still 'Our' Government?

Do you see? They think they can do to us, and to our families, anything they please. They might even try—again—to close the schools and demand that parents pledge themselves not to “interfere” in their children's so-called education. That one didn't fly in 2020, but they have nothing to lose in trying it again.

Who's Afraid of Bloomberg?

Bloomberg had twelve years as mayor of New York City, running as a Republican (LOL) because the Dems didn't want to make room on their slate for an outsider. By comparison with the Democrats who came after him, Bloomberg is the Father of His Country. Standing alone, he's a bully who wants to ban everything.

The New Tower of Babel

And we're paying for it! That's the most unkindest cut of all. A college education, which befuddles those who receive it, costs a fortune. Graduates are saddled with a mountain of debt—and what do they have to show for it? A degree in Multi-intersectional Gender Studies?

Disney's Debacle

What fascinates me the most is the way Disney Corp just keeps churning out box-office bombs, one after another. It's as if they really don't care if they lose money. Counting the latest fiasco, "The Haunted Mansion"—a movie based on a Disney theme park ride, for pete's sake—they've had ten losers in a row, totaling not quite a billion dollars.

Survey Results ‘Shock’ The State Of Oregon

Out of 349 students surveyed, 50 submitted “mocking responses” that astonished the surveyors. Oh, the humanity... Students “identified” as attack helicopters, called the questions “stupid” and “pointless” (which they were), and generally displayed a deplorable lack of reverence toward the idol, LGBTQetc. “Slurs” and “hate speech” galore.

Chicoms to Rewrite the Bible

The Chinese Communist Party has a ten-year-plan to completely rewrite the Bible. We are unable to confirm or refute reports that “devout Catholics” Joe Biden and Nancy Pelosi have already signed up to receive their copies.

Millenials: ‘Misgendering’ Is a Crime

Getting back to the poll, we cannot help but wonder whom they polled, and where. I’m guessing the faculty lounge at Che Guevara Community College. It would be distressing to believe

our education establishment has succeeded so brilliantly in turning half a generation into a pack of Red Guards.

The Silly Season

A group in Oregon wants to set up segregated hiking trails in the state forests so that Cherished Minority hikers won't have to face the risk of running into "prejudiced" people while shambling around in the deep woods.

So What's With the Movies?

In our area most of the movie houses are no more. They were palaces, once upon a time. My grandmother took me to the RKO Theater in New Brunswick, and the magnificence of the place just blew my mind.

Fatal Folly

In 1856-57 there arose a prophetess among the Xhosa nation of South Africa. She told them that if they slaughtered all their cattle and burned all their crops, the gods would run the European settlers out of Africa.

How I Became a Nooze Reporter

I don't know what they're teaching in journalism school these days. You see a headline that provokes your curiosity—"Woman Carried Off by Pet Gorilla," say. But when you read the story, you find no abduction and no trace of a gorilla.

World Economic Forum Marxists Want to Rewrite the Bible

Meanwhile, amazon.com completely shut down a customer's "smart home" because a delivery man, while grooving on the tunes with his headphones on, **thought he heard some kind of Racist remark from the automated robot doorbell. He reported it to amazon, and amazon responded by locking the poor sucker out of his home for a week.

D-Day, 1944: Did We Fight and Die For This?

The past cries out: "We fought for this?" Think Hitler would've liked having the power to spy on people in their homes? He lost the war. We're in danger of losing our liberty.

We didn't need the German army to take it from us. Our own government will do the job.

'I Now Pronounce You...' What?

At first I was sure it was another one of those "man bites dog" stories that annually tide the nooze media over the summer. CNN makes a big deal of it, focusing in on four women who have married... themselves. CNN calls it "a symbolic expression of self-love."

'Emergency!' for the Woke

As Bud Lite sales continue to bottom out, thanks to the company's decision to be the transgender beer of choice, you'd think the woke crowd would at least suspect they might have gone a bridge too far. Assorted polls report that most Americans, by a landslide, oppose the woke agenda.

'The Evidence of Things Not Seen'

This being so, what we have is not a debate but a clash of faith. There won't be any adding-up of points to find the

winner. Either God and His enscriptured word are the ultimate authority, or He is not and something else is. “Science.” The majority. The enlightened minority. The Party. Or some guy with a gun.

When the News Is ‘Hate Speech’

Dept. of Homeland Security (we needed a FOIA lawsuit to find out about this) is recruiting people and training them to inform on their neighbors and anyone else whose political opinions might not match Big Brother’s.

Good News—About Science

I was amazed when I read that “a thousand scientists” signed a petition warning the public against the “zealotry” of radical “veganism” and reminding their audience that meat is “crucial to human health”. I mean, gee, scientists? Aren’t they all lined up for a totally plant-based diet—to Save The Planet from Man-Made Climate Change?

Why Do They Want These Things?

Okay—let's bring drag queens into public schools, libraries, YMCAs, and everywhere else we can get into, and have them interact with, oh, five and six-year-old kiddies. We are talking about men who feel compelled to pose as bizarre caricatures of women. And we're holding them up to children as... role models?

Look Who Wants to Run the World

Defund the police and fund the After-school Satan Club. How did we ever wind up here? With the people we were taught to run away from now running the store. It happened right before our eyes and no one stopped it. Now we don't know if it can be stopped.

A Peek Into 2100

But that was before the 21st-century Transgender Mania inspired the global ruling class to "reassign the gender" of children all over the world—largely, I am sorry to say, through the public schools. "Reassignment" drugs and surgery, totally irreversible, rendered an entire generation of

children permanently sterile.

Throwing Away the Steering Wheel

Which brings us to the politically motivated “indictment” of President Donald Trump and the weaponization of the Justice Dept. against conservatives. And if Republicans retaliate in kind, Victor Davis Hansen warns, down the tubes goes our republic. That was the fate of ancient Rome’s republic. That’s how they lost it.

Confessions of a Blindfolded Newsman

These happened right before my eyes; and I am ashamed to tell you that I didn’t see them. They were right out there in front of me, and I might as well have been wearing a blindfold. I can only say I couldn’t see the forest for the trees—lots and lots of trees, and every one of them a distraction that kept me from seeing the big picture.

When ‘Dissent’ Was a Thing

The same people who kept clubbing you over the head with “dissent” in 1967 are now the gatekeepers who won’t let you in or out unless you know the magic words. The same university which used to claim the mission of expanding your mind... now seeks to shrink it. They seem to be doing a very good job of that.

Far Left Monument: ‘Mount Blushmore’

Hi-Times Amusements Inc. has landed a \$300 billion contract to create a “Mount Rushmore-type” monument to America’s progressive movement. Disgruntled plebs are already calling it “Mount Blushmore.”

Lords of Misrule

Our government is coming to resemble a year-round Roman festival of Saturnalia—a holiday in which everything was turned upside-down—for fun. Slaves giving orders to masters, everybody making whoopee in the streets: it was the way they let off steam. Ours is just corruption.

Corrupting America

There's no end to this. Have you noticed we're now expected to say "they" for "he" or "she," even though it's absurdly bad English? Libs the world over are diving head-first onto that bandwagon, and they'll give you what-for if you don't join them.

Non-Presidents' Day

When you recover from this exercise, then try to imagine all three getting in, one after the other. Talk about a fundamental transformation! The Union of Soviet Socialist Republics collapsed; make was for the USSA, United Soviet States of America.

What—No Consequences?

Why wasn't Garland impeached for this? Why wasn't he fired? Is it just because the FBI has become nothing but a bunch of henchmen doing the Democrats' dirty work for them? One hand washes the other?

Have the Bad Guys Won?

And then along comes the Grammy Awards, this week, and racks up 12.4 million viewers. Joy Reid exults: “The culture wars are over, and the Left won!”. Yessireebob, “total defeat” for conservatism. For America. What a rebound from last year’s Grammy debacle, a lousy 8.8 million views.

‘Who You Are’ Trumps ‘What You Can Do’

Because “Diversity and Inclusion” is now The Most Important Thing, Finland’s national figure skating tournament recently trotted out a 59-year-old man who says he’s a woman and let him compete for the women’s championship. And because stupid stuff doesn’t work, this guy took a prat fall in the first 45 seconds of his show.

Governed by Idiots

How did we wind up in Stupid World? And more to the point, how do we get out of it? When they’re not physically assaulting us, they’re assaulting our wallets. How many stores have had to close because prosecutors won’t prosecute rampant

shoplifting?

When Will ‘Woke’ Come Crashing Down?

There’s always some tyrant, some cabal, who wants to rule the world: it’s a dynamic of history. Some get farther than others, but none has ever reached the finish line. Every form of crime and cruelty has been enlisted for that purpose. It’s no different now. The technology changes, new crimes are invented, but the dynamic is the same.

Are We ‘Terrorists’?

Democrats do the darnedest things with words. You think you know what a word means, because you’ve used it all your life; but then they use it, and its meaning either changes drastically or simply disappears, leaving the word with no meaning at all.

Some Snippets of Nooze

That \$1.7 trillion deluxe fun-pack includes a provision to equip all new cars with a “kill switch” so that unspecified

“authorities” can remotely shut off your car whenever they feel the urge for it. This is supposed to happen sometime within the next five years.

A Satirist's Sighs

Once upon a time in ancient Wales, kings and chieftains were very careful in their dealings with bards, for fear they might be made the subject of a satire. It was believed that a sharp satire, driven by real passion and following all the formal rules of bardic satire... would come true! And you'd wind up blind, or...

Yes, It's World War III

We have not yet learned how to defend ourselves against an enemy that hides in the shadows, lies to us with skill and daring, drapes itself in robes of “science” and “democracy,” has no problem with calling evil good and good, evil, corrupts and bamboozles us at every turn, and thinks itself a god walking on the earth.

The Far Left Death Cult

Now, six years later, she wants (and needs) a chair lift for her home. But when she asked the government for help with that project, she was told, “Hey, sorry, but we can’t do that for you! Tell you what, though—how about assisted suicide? It’s a great deal!”

‘Old’ Does Not Mean ‘Obsolete’

Once upon a time Herodotus said the Persians made their country great by teaching their children to shoot straight and tell the truth. What more can we do, than that? But those are not lessons that are taught in public schools or colleges, or fostered by airhead celebrities, or encouraged by political hacks who put themselves first and the country and its people last.

Why Is Retirement So Hard?

We are thankful to the Lord our God for His love, for each other, for our memories, for our food, for our great country and its tradition of liberty and the multitude of blessings showered on it. We are thankful for the work He gives us to do, and pray it may be fruitful in His service.

Teachers Caught Making Dirty Movies In Their Classroom

Yo, Congress! We have teachers making dirty movies in their classroom, and the FBI intimidating parents, and \$5-a-gallon gasoline—and you had freakin’ well better do something about it! Don’t let our House of Representatives be just a house of cards.

Now What?

Just 24 hours before I sat down to write this, the Internet was buzzing with predictions and prognostications, all of them foretelling a Great Red Wave, a red tsunami, that would sweep the Evil Party out of office and save the country from their insane and wicked policies.

You Have a Right to Be Wrong

“Misinformation” is a lively buzzword, these days. Our so-called government is trying to stamp it out. For our own good, of course. Otherwise we might actually listen to someone who is spreading “misinformation” about our beloved COVID-19 vaccines, Climate Change, or that pure-as-the-driven snow

election that we had in 2020.

Do Or Die (Let's Do!)

And New York's Democrat gubernatorial candidate, Kathy Hochul (incumbent), in a televised debate this week, responding to the Republican candidate's concern for their state's soaring crime rate: "I don't know why that's important to you". Yes, she really said that. On TV.

When Lawlessness Is Law

The Leicestershire Police Dept. got a thumping from the Home Secretary recently for putting out a social media message urging "transsexuals" to report "deadnaming" as a hate crime. "Deadnaming" is a made-up word for declining to address or speak of trannies using the names they had before "gender reassignment."

Stirring Up Racial Strife

What are the public schools, totally captive to the teachers' unions, doing besides indoctrinating children to hate and fear each other, their country, or even their own families? They're not going to stop doing it. The only way we can stop them is

to pull our children out of the unions' schools and give them a Christian education, preferably at home.

Yes, They Want to Break Up the Family

Virginia has a new state government that's trying to rein in the craziness. The pro-trans mob, who've had things all their own way in recent years, naturally resist these measures. A group has emerged that devotes itself to breaking up families if the parents don't want their children diving head-first into aberrant sexual behavior.

The Kind of Imbeciles Who Rule the World

Spain's Minister of Equality (good night, nurse!) raised a few eyebrows recently when she declared that "children have the right to know that they can love and have sexual relations with anyone they want". This ought to give you an idea of the kind of people who are governing the world's nations, these days.

Governed by People Who Hate Us

Who to blame? Well, of course the Democrat Party itself, big-time. And public schools and colleges and teachers' unions. Hollywood. Our Free & Independent In-the-Bag-for Democrats nooze media. They've all worked very hard to drag us to this point.

Walking Away from Liberty

The Biden regime has launched a purge of President Donald Trump's associates and political supporters. It's not just former government officials now at risk. This week Mike Lindell, CEO of My Pillow, attempting to buy a meal at Hardee's, suddenly found himself surrounded and blocked by three carloads of armed FBI goons.

Symbols of Idiocy

Now that's a symbol, isn't it? We don't generate enough electricity to run our electric cars. But that's no problem—you just get out and push them. And if you never recharge your electric car, you'll never have to rely on that boo-hiss fossil fuel that has to be used to provide the electricity.

Welcome to StupidWorld

What is StupidWorld? It's the theme park to beat all theme parks, the global celebration of "stupid." And here you were, thinking that "stupid" is stupid! But no—"stupid" is smart!

It's Getting Confusing

While "teachers" are feeding children roasted crickets in the classroom, we have two alleged law professors in the New York Times calling for the abolition of the U.S. Constitution. And if that weren't enough, suddenly we have these weird polls claiming a great "surge" for SloJo Biden and his handlers and a big win for Democrats in the midterms.

Teachers' Unions... vs. America

After a two-week teachers' strike some months ago, the Minneapolis School District and the city's teachers' union have signed and just ratified a new contract... which is outstanding for its blatantly racist provisions.

Caution! – ‘Educators’ at Work

An “academic dean” in the Boston Public School system has pleaded guilty to racketeering. One Shaun Harrison, 63 years old, shot a student. It turns out that Mr. Harrison belonged to the Latin Kings street gang and was using his position in the schools to recruit more members to the gang.

Remaking God’s Creation

Crayola Crayons decides to market their product, which is intended mostly for use by children, by hiring a “trans man” as its model. (No, I won’t show the photo; we’re already way too close to needing a barf bag.)

Crazier and Crazier

This is the work of “gender activists” calling themselves The Trans Doe Task Force. Every pack of nincompoops has to have a task force or the other ninnies won’t take them seriously.

Big Government, Small Liberty

Our Declaration of Independence, our country's founding document, states that we "are endowed by [our] Creator with certain inalienable rights." That means our rights are God-given and cannot and may not be sold or taken away from us. Not even by the government.

Toward a World of Woke

How do you get the Climate Change legislation that you really want? I don't mean any half-baked toothless regulations for recycling your muesli cartons—no! I mean rock-hard, in-your-face, take-no-prisoners Climate Change laws. With jail time for anyone who dares to object.

Losers Weepers

Going back some decades, Democrats have frequently used the courts to ramrod new policies that had no chance of winning popular support. They smirked at our protests and kept right on doing it.

Governed by Ninnies

But! Will we have enough homeschooled young people to carry this country on their shoulders when they grow up, rather than let it fall into the fumbling, feckless paws of characters like Kamala Harris? What? You don't think she's that awful?

'I Wanna Be in the Deep State When I Grow Up!'

"Why? Are you kiddin'? When you're in the Deep State, you can do anything you want to anybody and not get into any trouble for it! No one can touch you—most of the time they don't even know who you are. You can spy on anyone you like; and if the president doesn't like it, so what?
