

“Milquetoast Minions?!”

If you remember the Disney version of “Peter Pan”, you may well remember the Island’s name, Neverland. If you were raising children in the late 80s and throughout the 90s, you may recall the commercial from ToysRus. The line from the jingle was “I don’t want to grow up, I’m a ToysRus kid.” In many ways, we’ve seen our culture promote delayed childhood.

Using Education to Attack Farmlands?

STEM was purposefully attached to Common Core in the hopes the SDGs (Sustainable Development Goals) would be further embedded in our nations. For the USA, a report given to the former President was from the PCAST group. What’s PCAST? It’s an acronym for President’s Council of Advisors for Science and Technology. Along with the Nation’s Report Card, the PCAST Report was the second document he was handed.

“Voters Compromised?!”

We can also learn that neither party has completely removed We the People from the United Nations, which is clearly a socialist based entity. If you study history, you know that under a true socialist system, voting is completely a farce. Is this what we are destined for? Is this what our students

and children will be faced with?!

SDG Ground Zero?

It's been my goal to show you just how stealthily the United Nations has compromised one of our most sacred parts of our being: our faith and worship. To them, it's a mockery that must be homogenized into walking away from our faith and worship of God and express our faith and worship of their leadership as they supposedly have our best interests at heart.

SDG Trifecta? Education, Healthcare & Vaccinations

Lastly, consider this fact: The U.S. Dept of Health and Human Services took a definition from the WHO (vaccine hesitancy) which meant one thing and inserted it where the most damage could be done to our children (vaccine counseling)! Remember, this is being done to influence YOU into conformity to fit a narrative you may not support.

SDGs: Local Chokeholds

As many of you may know, I make it a point to speak up in my local government as much as I can. Currently, the town of Mooresville, NC is conducting a series of town meetings to invite citizens to weigh in on the latest comprehensive planning efforts. Now, if you've followed my blog for a while, you know that I've reported Mooresville is in the thick of becoming a UN (United Nations) hub.

The Meducation of Our Nation

What this system is actually accomplishing is a 'cradle to grave' wheel that encircles EVERY age person. It attacks our VABs (Values, Attitudes and Beliefs). It seeks to correct our God-given rights into government assigned rights. It violates, several times a day, our civil rights as well.

The SDGs in Your Town

Warriors, all around us we see not only what I've listed above, but the SDGs inserted into healthcare, technology and even more. Change agents are also being inserted into our towns and governments. Schools see the biggest presence of these intruders of our lives. Why? Because as we creep ever closer to 2030, the UN will increase its evil into our worlds UNLESS we stop it!

SDG 1 (Zero Poverty) Buying Out Flint, MI?

The UN pitch that's meant to be covered is "No one will be poor." What the UN really means is that EVERYONE will be in poverty! Economies across the globe are set for utter and complete failure with the cyber currency and blockchain existence tied to UBIs, GBIs, ESAs (Education Savings Accounts) and more!
