

Independence Day and the Protection of Posterity

Independence Day. It is on this day that we celebrate the bold declaration whereby Americans before us, relying on their belief that their right to life, liberty and property were gifts of God, resolved before him to sacrifice their lives and fortunes for the benefit of their loved ones and for generations to come.

Martin Guitars and Gender

Dear friends at Martin Guitar, While I usually don't take the time to answer online surveys, my admiration and loyalty to Martin Guitar prompted me to pause to answer the one you recently sent me by email.

The Supreme Court of Peroutka Family Poker

When I was a little kid, I asked my dad to teach me the rules of poker so I could join in the family card games he would play with my big sisters after the supper dishes were cleared away. So, Dad taught me what...

Senility or Sabotage

When you consider all this together with lawless vaccine mandates, lockdowns, reckless spending, endangerment of the military and the abandonment of Americans behind enemy lines, at some point, don't you have to question his allegiance?

Lawlessness Lawlessness

Breeds

Using fear, fake statistics, and the cover story of a health emergency, they have criminally and treasonously aided and abetted our country's enemies. Their subversion, inversion, and perversion of American law is so base, so vulgar, and so massive that, should the...

They Are Willing To Kill You

To be clear, while there may be a virus, there is no dangerous pandemic that justifies the destruction of our lives, our livelihoods, our liberties, our economy, our health care system, our military and our constitutional system of government.

Ignorance of the Law is Slavery

With this in mind, can you name the five freedoms that are protected by the First Amendment to the U.S. Constitution? Have you ever read the Maryland Declaration of Rights, which is the supreme law of the state? Were you expecting these documents to enforce themselves?

Sheriff Chris Brown

It's time for our politicians and other public servants to stand up and remember that their first responsibility is to protect people's rights, not to run their lives."

What Else Do You Need To See?

Only days after presiding over the worst military disaster in American history, Joe Biden told us that his "patience is running thin" with those who have not agreed to be lab rats in the most massive human experiment in the history of mankind.

A Question of Allegiance

On the one hand, Joe Biden is congratulating himself for an “extraordinary success,” despite the fact that his policies resulted in the death of 13 American soldiers, the abandonment of Americans behind enemy lines, and the loss of 85 billion dollars in military equipment.

You Are Not Alone

Totalitarian regimes historically achieve and maintain control over a population targeted for enslavement by means of menticide, which is accomplished more quickly and effectively when the subjects are isolated from one another.

Just Get The Damn Vaccination

Last week, Larry Hogan announced that he will require employees in 48 different Maryland state facilities to be injected with an experimental gene therapy. If they refuse, they will be subject to strict mask requirements and frequent invasive testing.

Door to Door Tyranny

If you have already voluntarily submitted your body to the human experiment that Joe Biden is peddling as a vaccine, I pray and sincerely hope that it goes well for you. I am at a loss to understand why you traded a known 99% recovery rate for all the unknowns of an experimental procedure, but that is your choice.

The Most Lethal Weapon

In the course of my years on this earth, I have been blessed with a loving and caring family, as well as many friends whose opinions and judgment I rely upon. But I must admit that the events of this past year have placed...

Public Announcements

Disservice

Whatever the COVID-19 virus is, or was, its morbidity rate is so low that the actions taken by governors to destroy the economy, destroy the election process, destroy the constitution, destroy the healthcare system, and destroy the rule of law, were totally unnecessary even if they had been

lawful.

Hard to Convince, But Easy to Fool!

There is no pandemic. There is no reason to social distance. There is no need to wear a mask and there is no law that says you must. There is no catastrophic emergency.

The Whole “Pandemic” Is a Lie

The World Health Organization has recently confirmed that the Covid-19 PCR test is a flawed procedure. This means that all the estimates of “Positive Cases”, which you have been hearing about incessantly for more than a year, are totally meaningless.

Why the Carrot and Stick?

They are so desperate about getting you to be a guinea pig, they are offering bribes, ranging from lottery tickets to free hunting licenses, to get you to submit to a human experiment that they call a “vaccine”.

Stop Enslaving Yourself

The tactics are different. Rather than an invading army, we are assaulted and manipulated by disinformation and propaganda. Our liberties have been abused by the very officials whose sworn duty is to protect them.

Washington Despises What Judge Roy Moore Stands For

This week Republican voters in Alabama chose Judge Roy Moore as their nominee for the United States Senate.

You might say that Washington just can't stand what Judge Moore stands for.

Judge Moore prevailed by more than ten percentage points despite the fact that both the President and the Vice President visited Alabama to campaign against him.

But what made this election more remarkable was the fact that a Political Action Committee with strong ties to Senate Majority Leader Mitch McConnell poured more than thirty million dollars into a negative radio and television campaign attempting to smear the integrity of Judge Roy Moore.

Last week Republican voters in Alabama chose Judge Roy Moore as their nominee for the United States Senate.

It didn't succeed.

But, in my view, it brought two truths into sharp relief.

First, it shows just how much the establishment despises what Judge Moore represents. Remember , this is considered a Republican seat so the expensive campaign was not designed to maintain a Republican majority in the Senate.

You see, Moore is a stalwart adherent to and defender of the the need to acknowledge and obey divine Authority and to follow the Constitution. And neither the Bible nor the Constitution are welcome in today's Washington.

Secondly, Moore 's victory reveals that the people of Alabama saw through the negative campaign onslaught of the past few weeks, kept calm and voted for a man who has demonstrated that he will stand on principle, obey his oath, and defend the Constitution even when to do so carries a severe personal price.

For someone such as myself, who has studied and taught about a biblical and constitutional approach to government for more than 20 years, this is an epoch event one that I pray will be studied and imitated at all levels of government.

Fake Racism And Real Racism

America – traditional, moral, Constitutional, Christian America – has always had, and still does have serious enemies. Because the foundation of American law and government rest on the acknowledgement of divine authority, the efforts of these enemies to destroy America has for decades focused on the separation of American culture from the principles on which it was founded.

For example, over the last sixty years, the Supreme Court's peddling of the phrase "separation of church and state" as phony First Amendment jurisprudence has been a major vehicle in this subversive agenda. Now, with the tearing down and removal of statues in the middle of the night, absent anything like a democratic process, we are witnessing a ratcheting up of this radical agenda to include the destruction, denial and the denigration of the connection of America to her own history and heritage. That is to say, the destruction of the American memory.

Now, these enemies of America are screaming about racism, but it rings quite hollow and, well...fake.

Supposedly these statues represent racism. But the ignorance of the protestors, journalists and politicians is stunning. Consider Robert E. Lee. Lee emancipated slaves that came into his family by inheritance while the General he surrendered to at Appomattox, Ulysses S. Grant, both purchased and inherited slaves that served his family during the war. Grant did not emancipate the slaves inherited. So, the Southern General freed slaves while the Northern General's family had slaves during the war. So, why aren't they tearing down all the statues of Ulysses S. Grant?

Again, this is fake racism. And to promote it is to detract from real racism in our midst. And what could be more racist

than a national program designed to eliminate black people?
What could be more racist than a black genocide?

Such a program not only exists in America but is funded by millions of taxpayer dollars. It is known as Planned Parenthood and its founder, Margaret Sanger made her racist vision and purpose quite clear. Sanger desired to rid the nation of those she deemed 'defective' and 'feeble-minded' by stopping the growth of their populations, particularly blacks and other minorities."

Sanger supported black eugenics, a racist attitude toward black and other minority babies; an elitist attitude toward those she regarded as "the feeble minded;" Sanger spoke at rallies of Ku Klux Klan women and developed the notorious "Negro Project" which sought to limit, if not eliminate, black births.

Despite these well-documented facts of history, her bust sits proudly in the Smithsonian's National Portrait Gallery as a hero of justice. The obvious incongruity is staggering!

Meanwhile, Sanger's brainchild, Planned Parenthood, continues to market its murderous services to minority populations by locating its abortion mills in minority neighborhoods.

There is real racism among us. We shouldn't allow charlatans to obscure it with fake racism. This is a tactic of America's enemies.
