

# Barr Needs To Take Christopher Wray To The Woodshed

I think I speak for many when I say Trump's cabinet picks since he was sworn into office has been one major disappointment and disaster after another. No doubt Trump is a neophyte when it comes to politics but he's learned much along the way.

I don't know him and never will. But one thing I do know having been in the trenches full time for the past 30 years: His so-called trusted advisers have been feeding him to the wolves. Instead of draining the swamp, his advisers have simply filled it back up with more of the same.

Tillerson, Mattis, Kirstjen Nielsen, Betsy DeVos, wife of Mitch McConnell, Transportation Secretary, Elaine Chow (Both of them crooks; see links at bottom of column); the list goes on. Not one of them should ever have been given jobs by Trump.

Instead of steady at the helm, it's been nothing but unnecessary chaos, turmoil and Twitter grudge matches.

Having said that, when William Barr was nominated to replace turncoat, do-nothing Jeff Session as Attorney General, us old-timers got worried all over again. It's been decades, but people like me do NOT forget when our government defends murderers on their payroll and cover ups like TWA Flight 800, KAL 007, OKC, Waco and 9/11.

FBI sniper Lon Horiuchi put a bullet right through Vicki Weaver's brain while she was holding her infant daughter at what has become known as Ruby Ridge. NO QUESTION about that fact. She was standing in a doorway holding a baby and represented NO threat. Horiuchi did not have to pull the trigger.

None of it had to happen and I guarantee you in gold writing that 95% of adult aged Americans in this country have no clue about what really happened, the outcome of Randy Weaver's trial or anything else.

But, William Barr knows.

[William Barr's Connection to Ruby Ridge, Defending FBI Snipers](#)  
– That isn't a long article but one that should be read.

"After an Idaho jury found Weaver not guilty on almost all charges, federal judge Edward Lodge slammed the Justice Department and FBI for concealing evidence and showing "[a callous disregard for the rights of the defendants and the interests of justice.](#)" A Justice Department internal [investigation compiled a 542-page report](#) detailing federal misconduct and coverups in the case and suggested criminal charges against FBI officials involved in Ruby Ridge.

["Barr told the New York Times in 1993](#) that he was not directly involved in the Ruby Ridge operation. Two years later, the

[Washington Post revealed](#) that “top officials of the Bush Justice Department had at least 20 [phone] contacts concerning Ruby Ridge in the 24 hours before Vicki Weaver was shot,” including two calls involving Barr.”

“The Justice Department paid \$3 million to settle a wrongful death lawsuit from the Weaver family. But when Boundary County, Idaho filed criminal charges against Horiuchi, Barr sprang to action seeking immunity for FBI snipers.”

Now, I’ll grant you in rare circumstances it may be absolutely necessary for an FBI sniper or even a city sniper on a SWAT team to have to use a sniper to save lives. But not in this case. Lon Horiuchi is a murderer. He was charged with involuntary manslaughter at the state level which was then moved to the federal level. Wiki: “The decision to dismiss the charges was reversed by an [en banc](#) panel of the Ninth Circuit, which held that enough uncertainty about the facts of the case existed for Horiuchi to stand trial on state manslaughter charges.”

**BULL.** I’m not going to go through all that came out but it was murder. Weaver’s 14-year old son was also killed as well as another federal agent. **None of it had to happen but for the cowboys in the FBI who thought they were Gods – just like Waco.**

Barr received heaps of praise from all over the place when he was confirmed. Just like James Comey and Robert Mueller. Time will tell because it’s now up to him to see justice done and ALL the dirty actors who birthed the phony Russia hoax are brought to justice.

A manufactured hoax to stop Trump from winning the election and still to this date (Mueller’s surprise presser last week) doing everything possible to remove Trump from office end up in a federal prison **before the statute of limitations runs on their crimes.**

Barr told the American people in an interview he's at the end of his career. Does that mean he took the job of AG to do something historic to bring truth, integrity and justice back to the FBI and DOJ? Is he going to do what milk-toast, Jeff Sessions, never did and that is go for the jugular no matter who it is?

It's all there for him to see. The evidence that's been uncovered and is still coming to light. Here is more:

[HUGE: Evidence and Actions Indicate Mueller Gang Is Illegally Withholding Brady Material from General Flynn and His Attorneys!](#) – June 2, 2019. Judge Sullivan is not to be trusted; there's no way in Hell Barr doesn't know what's going on.

This should be devastating for all the rotten players and again, think Barr doesn't know about it now?

Now we come to Christopher Wray who became the new Director of the FBI on August 2, 2017.

[FBI Director Wray: A Deep State Operative with Ties to Comey](#)

"On Sept. 11, 2003, on being confirmed by the Senate as Assistant Attorney General in charge of the Criminal Division of the Justice Department, Wray worked under Deputy Attorney General James Comey.

"While heading the Criminal Division, Wray oversaw the Enron Task Force, investigating among other issues the criminal malfeasance of auditor Arthur Anderson.

"Sidney Powell, a former U.S. attorney whose 2014 book *Licensed to Lie: Exposing Corruption in the Department of Justice* is a shocking exposé of prosecutorial impropriety that she maintains still runs rampant today among Department of

Justice prosecutors, warns that the Enron case was tarnished by a history of Department of Justice prosecutorial misconduct.”

[I highly recommend her book](#) although it will make you angry. THIS has to stop and the buck now stops at William Barr's desk.

The FBI has been refusing for decades to provide documents and evidence on so many 'events' I can't list them all but these are cover-ups of the most heinous kind along with the ones I listed at the top of this column: Extortion 17, Benghazi, the murder of LaVoy Finicum (Do read links at bottom) and Russiagate. So has the Department of Justice. Watchdog groups like Judicial Watch and Freedom Watch have to sue over and over and over.

Requests from members of Congress are ignored while the FBI and DOJ play run out the clock and even then, continue to hide evidence. You want to talk about obstruction of justice? Look no further than the cabal in the manufactured Russiagate hoax.

Has Wray done anything to bring any of the dirty players to justice? Of course, any decision for indictment has to come from the Department of Justice but **all Wray's done since he's been Director is the same sickening game played by his predecessor, dirty cop, James Comey.**

Wray is long enough into his position to have started cleaning house and make recommendations for grand juries. Oh, no, his people are still doing the same thing: Dragging their feet producing documents to Congress, hiding them and forcing, as I said above, organizations looking for the truth to have to spend tons of money on FOIA lawsuits.

The question is: **What is William Barr going to do about it?** The U.S. Inspector General submitted a criminal referral against dirty player, Andrew McCabe back in April 2018. What is Barr waiting for?

[DOJ watchdog sends criminal referral for McCabe to federal prosecutor](#)

All these people are still walking around free as a bird while decent honorable men like Dr. Jerome Corsi and Gen. Michael Flynn have had their lives ruined and financially bankrupted along with so many others dragged into this criminal

enterprise.

[Comey admits decision to send FBI agents to interview Flynn was not standard](#)

What is Barr going to do to clean his own house? He can start by sitting Christopher Wray down and telling him in no uncertain terms that his people are to cease and desist with the cover-ups. That requests by Congress will be met on time and full disclosure under FOIA laws will be met on time.

He needs to do the same with his own people. U.S. Attorney's, department heads, the FOIA divisions. It has to stop and stop it will or heads will roll. The FBI and DOJ are not supposed to be political partisans. We do not work for the Clinton's, the Obama's or anyone else regardless of their last name. No one is above the law and the American people are FED UP with the double standard because of who the guilty are and how 'powerful' they are in political circles.

Barr must understand the American people – those who do understand this monstrous betrayal of our laws and what it's done to this country – *are* FED UP with the lies. We are FED UP with the guilty going free and we are FED UP with the top law enforcement agency in this country ignoring the laws they are bound to as well as the U.S. Constitution.

If you want to give Barr your polite but heartfelt say on all this, **a snail mail letter** (like maybe 50,000 landing on his desk) **will** go a long way. Silence from We the People is unacceptable. Make your voice heard so Barr knows how angry we are and want him as top dog to clean up the mess and restore integrity to the Department of Justice.

He who shouts the loudest gets heard. The American people have to go ballistic on this or it will never end. The ears you want to reach is William Barr.

William Barr

United States Attorney General

U.S. Department of Justice  
950 Pennsylvania Avenue, NW

Once again: I do not have a Facebook page nor have I ever had one or been on Facebook. Someone put one up and is impersonating me. My attorney sent Facebook a letter to take it down but so far no response.
