

Blind obedience to the state – a special kind of stupid

The first thing I want to do is give you the definition of “program:” A plan of action to accomplish a specified end. A schedule of activities, procedures, etc. to be followed, a radio or television performance or production, a list of items, pieces, performers, etc. in a musical theatrical or other entertainment, a planned coordinated group of activities procedures often for a specific purpose, drug rehabilitation program for instance, a sequence of instructions enabling a computer to perform a task...

All the world's a stage, and all men and women merely players. They had their exits and their entrances. And one man in his time plays many parts... William Shakespeare (1564-1616) We saw an amputee in a wheelchair at the Boston Bombing and later at another bombing. There have been numerous videos of the Boston Bombing but they seem to disappear so I hope the following one stays up.

My Texas Truth seeker who finds many of my YouTubes is a nurse said if that had been real, the man in the wheel chair would have been dead within minutes. If you cut your femoral arteries, you bleed out in less than 4 minutes and if someone was injured that badly, they would NEVER be put in a wheelchair! She said his face had great color and so did his arms and she read later he was an amputee actor who usually plays a part in battlefield drills for the military. We have been so brainwashed we believe all the tilted baloney the east coast biased newspapers tell us and other smaller publications pick up with the lies. The problem, however, with all these “false flags” is that when a real crisis comes along and we are warned to respond, they'll probably find us sound asleep. However, there is a way we can separate the truth from the fiction. Just type HOAX and the name of the story on google or

other such source, and then decide whether the story is fact or fiction. It's a fun game!

FOUNDING FATHERS WARNED US

Our Founding Fathers gave us the First Amendment and "free speech" for honest reporting to limit government and the Second Amendment to make sure we keep the First. They recognized that humanity is depraved and in need of a Savior and our elected officials would become corrupt if they wandered away from the Constitution and Bill of Rights which has happened. And if anyone doesn't think we are depraved, they must not be watching the presidential election this year exposing the past for both candidates who should be thankful God is in the redemption business. I see no hope for Hillary but I would like to believe Trump will find a personal relationship with the Lord and use it to turn our whole country back to God after his election. The only "free speech" today is coming from the often paid street protesters, the current one being Black Lives Matter financed by George Soros.

THE USURPERS AMONG US

Disregarding President Washington's admonishment not to become entangled in the business of other nations we have gone full speed ahead assassinating leaders of other nations who refuse to go along with this United Nations one world government scheme. When George W. Bush was elected, he needed a 9-11 "crisis" as an excuse to invade Iraq again all "programmed" in advance. President Barack Obama then pulled our military out of this "false flag" operation which gave aid to ISIS. And then we hear the new World Order Skull and Bones Republican Bushes and many other neocons will all be voting for Hillary.

Later we discover Bill and Hillary Clinton were financing Hezbollah terrorist attacks and selling uranium to Russian's Putin while Iraq after being invaded is supplying oil to China. After the uranium buy Bill was given \$500,000 for a

speech in Russia. And now we learn the whole PNAC crowd of neocon Republicans described in my earlier articles is voting for Hillary. And having been falsely accused for the 9-11 attack, it is Blow Back time and the Muslims are coming into the U.S.A. to kill as many here as they can in the "War on Terrorism." Oh well, nothing new at all; standard operating procedure for the last 100+ years.

With Hurricane Matthew on our minds as I type this draft, the computers the weather people use to predict such can be "programmed" to give the results the Climate Change fanatics want. All we have to do is quit using all that carbon stuff in our cars and hurricanes wouldn't happen. Now, that suggests once they whip all of us automobile owners into shape, get us on bicycles, redistribute our wealth, etc. they'll stop using some behind the scenes that can cause hurricanes in the first place. Then we have earthquakes, volcano eruptions. The pundits began arriving in Florida to report on the expected damage and the roads were bumper to bumper of people trying to get out of Florida.

On October 6th the hurricane was arriving and by the evening of October 7th, the hurricane was still in Florida and the pundits were reporting about a possible 10 foot storm surge and the next minute a news reporter was on the beach explaining a few waves. My contact in Florida said "It hasn't even stirred a wind in my neck of the woods here in the panhandle." And then he said, "The other day, I saw a You Tube video explaining how it was so obvious the government was doing some sort of HAARP manipulation, just like they did at Sandy."

HIGH FREQUENCY ACTIVE RESEARCH PROGRAM (HAARP)

HAARP is a weather-modification "program" run by the military located in Alaska. It uses Nikola Tesla's patents from around the 1900s to diver the jet stream, so that one section of the country can be flooded while another has severe drought. This

is more mind control or better referred to as "information flicker effect" being worked on us by the fanatical Global Warming crowd.

The Los Angeles Times on November 19, 1972 published CFR's member Les Brown's A WORLD WITHOUT BORDERS, in which he declared that "effective supranational institutions capable of copying with technologies man has developed in fields ranging from nuclear weapons to weather modification invariably required that countries sacrifice a measure of sovereignty.

For those who don't know about the CFR, Hillary Clinton while speaking at one of their meetings in their new headquarters said the Council on Foreign Relations (CFR) is the "mother ship" in New York City and it's good to have an outpost of the CFR right here and down the street from the State Department. We get a lot of advice from the Council, so this will mean I won't have as far to go to be told what we should be doing and how we should think about the future."

The 9/5/2016 NEW AMERICAN reported as U.S. Senator for New York and Secretary of state, Hillary Rodham Clinton has reliably promoted the CFR "mother ship's" agenda: The U.N. International Criminal Court, the UN's Small Arms Treaty, the UN's Convention on the Rights of the Child, the UN's Law of the Sea Treaty, the UN's population control and sexual perversion agenda, the World Trade Organization, the Trans-Pacific Investment partnership, and much more. She has also pushed many of these same (and related) programs through the Bill and Hillary Clinton Foundation, while also enriching herself under the guise of philanthropy. Both Bill and daughter, Chelsea are CFR members. Hillary had chosen not to be an official CFR member to avoid unnecessary needless controversy.

The CFR was created as a means by which to infiltrate the media and political elite with New World Order lackeys. It was incorporated in 1921 and is currently comprised of only about

5,000 members. Yet CFR members are found in a staggering numbers among the political and media elite.

And in keeping with my headline about blind obedience, maybe we could talk one more time about the 9-11 event where explosives brought down the Twin Towers and the shorter building nearby. The planes we saw fly into the buildings were holograms so we never saw any airplane parts in the pile of rubble, at the Pentagon or in Shanksville, Penn, where the alleged United Airlines Flight 93 went down.

Since then a friend has sent me a 20 page Article entitled, "Everything that we have done since 9/11 is wrong – the worldview of Major Todd Pierce (retired) dated Aug. 29, 2016. Major Pierce became a defense lawyer at Guantanamo for two detainees. One prisoner told him if we would stop waging war on them, they'd stop fighting back which brings me to why we are now experiencing Blow Back. The interview was long and very detailed and difficult to explain so I hope you'll take the time to read it.

But I did pick up a couple important points that the Major shared. He said we are embarking in the Middle East on a totalitarian foreign policy that is a hallmark of fascism and the false claims about radical Islam show how little we understand about ourselves in the Middle East. He determined the mission of the U.S. has always been to plant us permanently there. He had learned there were high-ranking military officers actually lobbying to keep us in Saudi Arabia. They were having adulterous affairs, didn't have a financial interest in leaving because their mistresses were there. The U.S. was propping up the Saudi regime which was corrupt and keeping much of the wealth in the Saudi family and what we are doing in the Middle East is not advancing our national interests.

I found it interesting that on page 16 he brought up

PNAC/Project for a New American Century because I had harped long and hard in my last article about these bumptious scallywags who are behind the 'Never Trump' movement and they played a key role in shaping the foreign policy of the Bush Administrations, particularly in building support for the Iraq War.

And last but not least, he addressed how drones are used to target everybody in Iraq who opposes us. Obama has killed more people with drones than died on 9/11 said the washingtonblog.com on 1/6/2015 He tells how at a Code Pink event on drone warfare, guests were t speaking about relatives who'd been killed by drones. A Pakistani politician held a large event in one of the largest cities against drone warfare. A young man aged about 16 or 17 attended and on his way back home he was killed ay drone.

The customary way we think of a hostile act is someone carrying an AK-47, he said but just as he was in psyops, he said the propaganda is deemed to be a hostile act and propaganda is loosely interpreted. Is it possible our country may start using drones to attack our antiwar protesters who weaken our will, therefore are considered aiding the enemy? He talked to a group that monitors drone warfare in London and asked how many journalists had been killed. They said 9 or 10 at least. Again, putting things together, he believes it's wildly speculative to say we may have also targeted people who are most outspoken against military policy either as journalists or activists in the Islamic world, under the principle they're committing hostile acts against us.

It is as if the devils referred to in the Book of Revelation are working diligently setting the Middle East stage for a final, climatic chapter in which bloodshed and violence scar and scorch the earth and send untold numbers of hapless victims to the grave and into the zone of prophetic destiny.
