

By Definition: We Live In Bewildering Times

By Frosty Wooldridge

March 13, 2023

Are you confused about life in 2023 America? Are you confused about the meaning of a boy or a girl? Are you stymied as to why we have borders to protect our country, but our president has invited the largest invasion of criminals over those borders for the past 26 months? Does it concern you that drugs such as fentanyl have killed 100,000 of our youth annually for the past two years...as our leaders in Congress continue to help drug dealers import those poisons over our borders?

Did you see 1,000 illegal migrants “bum-rush” our border at El Paso, Texas yesterday. They are part of over 3,000,000 who will break into our country in 2023—at the invitation of President Joe Dementia Biden. Who is paying for this? Does that make any sense to you?

Does it make sense to you that our cities feature hundreds of thousands of homeless people in the richest nation on this planet? Does it make sense to you that Silicon Valley Bank collapsed last week because its board of directors and president cheated the system into bankruptcy? Are you confused as to the Secretary of Health and Human Services is a man who wears a dress, is obese, grows long hair and carries a five o'clock shadow even after “she” shaves?

Is it strange that our children are being indoctrinated into being “transgender” changelings at the tender age of 6, 7, 8,

9 and/or 10? Is it not strange to you that preteens are being castrated or having their breasts removed before they even know what their lives are all about?

Does it make sense for a 6'4" William "Lia" Thomas to wear a woman's bathing suit and swim in women's races in the NCAA? Does any of this nonsense make sense when that same "dude" who identifies as a "woman" takes the trophy? Does it make sense while he stood on the podium with a straight face? Does it make any sense to nominate "him" for "Female Athlete of the Year" by the NCAA?

Am I losing my mind because I think all of this national insanity is flat-out being waged by "woke" crazy people or some kind of "woke virus" that makes people totally nuts in the head and unable to deal with reality?

Why is it that the majority people in this country are guilty of just about every crime ever committed in the last two centuries, but lost in the shuffle remains the fact that every person in America enjoys the highest standard of living EVER in the history of the world. All guaranteed by the U.S. Constitution!

Does it make any sense that this new acronym of EID... "Equity, Inclusion, Diversity" means that we should lower academic standards to put somebody into the cockpit of a 747...or bestow an M.D. degree on someone who will perform a heart transplant...or send someone on a moon landing or place them into an air traffic control tower by the virtue of the color of their skin?

Does anyone reading this column want to fly on an airplane with two such pilots? Or received a heart transplant? Or work with someone in an air traffic control tower that's about to crash a couple of planes?

So, why are we doing this horse-sh*t to ourselves? Who is forcing us to move from excellence, achievement, academic

prowess, freedom of speech and meritocracy...to honoring stupidity, ignorance, illiteracy and high school dropouts?

During my youth, I grew up on a farm much of the time. I learned hard work, chores...milking cows, feeding chickens, shearing sheep, plowing, planting, cultivating, cutting hay, baling hay, stacking it in the barn, making maple syrup, repairing machinery...and learning common sense.

In the 1960's, women fought for more rights, equal pay and more say in politics. Title IX arrived to give women athletic energy and competition. Additionally, dignity! It made sense!

But last week, First Lady Jill Biden, with a straight face, at the "International Women's Day Celebration" presented a trophy at the White House to a really big "man" pretending to be a "woman." He even kissed her on the cheek along with kissing Secretary of Defense Anthony Blinken. Almost hilariously, Blinken winced when the "guy" grabbed him in a wrestling hold and smacked him with a "female" kiss on Blinken's cheek.

Have you noticed that Joe Biden wants to prevent climate change, but in fact, accelerated it by adding 10 million immigrants and their offspring in the past 26 months to America's shores? Every one of those 10 million people will burn energy for food, warmth, and transport...along with the energy needed to grow, harvest and truck all that food to feed them. Is that nuts or what? How can we maintain this Faustian Bargain? Answer: we can't.

How can we as a nation continue down this inane, insane, and totally ridiculous path? How can this president and 535 Congressional Critters be THAT stupid, that useless, and that out of touch with reality? There are a few good apples: Josh Hawley, Tom Cotton, Jim Jordan, Tim Scott, Lauren Boepert, and a few more. But too few to save our country!

Who in America understands that we are galloping over a water, energy, resource, quality of life, standard of living,

sociological, racial and tribal cliff?

This video graphically and dramatically illustrates America's immigration-population crisis as well as the world's. I wrote it and narrated it. Tim Walters of Cleveland, Ohio directed and produced. Please forward it to all your friends, networks and beyond. Place it on FB, Twitter, LinkedIn, Parler and more. Just click the link below to see the video.

[Immigration, Overpopulation, Resources, Civilization](#) by Frosty Wooldridge

Share these videos all over America:

In a five minute astoundingly simple yet brilliant video, "[Immigration, Poverty, and Gum Balls](#)", Roy Beck, director of www.numbersusa.ORG, graphically illustrates the impact of overpopulation. Take five minutes to see for yourself:

"[Immigration by the numbers-off the chart](#)" by Roy Beck This 10-minute demonstration shows Americans the results of unending mass immigration on the quality of life and sustainability for future generations: in a few words, "Mind boggling!" www.NumbersUSA.org
