

Call To Action Florida! Help To Shine The Light on Fake Republicans

Kat Stansell

June 26, 2025

Citizens of Florida are organizing to put a halt to millions of dollars of donations dropped into the "PAC monster" with no accountability or sourcing. A PAC is, of course, a Political Action Committee, and whether you hear "PC" or "PAC", they are one and the same. They are a nearly endless source of money donated without records of benefactors and amounts, and utilized by politicians and their chosen organizations to fund Tallahassee's agenda.

Increasingly, Tallahassee's agenda is NOT that of its citizens. This is true of Fake Republicans, aka RINOS, around the country. Our Republic must have our help to stay free.

Brevard County, Florida, has taken the lead. They were one of at least seven counties that received Fake Voter Guides in the 2024 primary elections in the state.. The others include Hillsborough, Lake, Manatee, St. Johns, St. Lucie, and Sarasota. These "guides", pictured above, were blatant lies and were neither endorsed by Trump, nor did those candidates listed support America First policies. They caused great confusion among voters last August, and were responsible for the election of more than one candidate which dances to the song of the Totalitarians.

Alan Ross from Brevard, is the organizer of a website, UltraMAGAPatriots.com, the mission of which is to “restore our Republic where our government is responsible solely to “We the People” of the United States, and to stop the Global elites from the local, state and national levels. “We are conservative men and women of faith who love our families, our neighbors, and our Country.” These are the people who will save our nation; Donald Trump cannot do it all.

To take back our country every Patriot must volunteer and get into the fight at their local county level. We suggest that they read the Precinct Strategy (<https://www.precinctstrategy.com>) and then become involved with their local county Republican Executive Committee or Republican Party. We believe the Republican National Committee and its state Committees have failed us. So many of our elected county, state and federal officials have failed us. Our side, the Republican side is the biggest problem we face.

The first goal of the group is to get the public educated about what is happening. Second, the group hopes to attract a network of broadcasters, journalists, podcasters and social media influencers who will help to get the message out. This is only the beginning and this group needs itself duplicated all over America. Florida is just a good example, NOT the endgame.

Since DeSantis became Governor in 2018 (by a .04% margin), the use of these dark monies has skyrocketed. These are the dollars which fill the legislators’ campaign accounts and fund programs AGAINST the citizens. You know, like Fake Voter Guides, radioactive roadways, and disenfranchising America First citizens, to name but a few.

One of the biggest issues is future plans for Florida’s energy sources, which will cost the ratepayers in the state an additional tens of billions for less energy. Tallahassee has joined the Globalists in pushing for solar and all that it

entails, to the detriment of Clean, Abundant, Reliable and Affordable resources NOW IN USE, at billions less in costs.

The Republican Party of Florida has become, under Governor Little Guy, a nearly totalitarian institution. Newly elected members who are chosen by their constituents to clean up Tallahassee, are sidelined from committee assignments and meetings IF they make it through elections.

County officials, duly elected by their peers, are unconstitutionally removed from office. The RPOF is suing Republican organizations. For being Republican.

Forget the false claims by DeSantis that he has “made Florida RED AGAIN”. The shade of red coming from his administration is the one that is used to describe Communism.

What Floridians, of both parties must now do, is work in every county in the state, to expose sources and uses of these funds. This invitation is open to all who value their freedom, regardless of those old outdated party labels, “R” and “D”. The only other choice is to lose our Republic to Communism, and that is where Tallahassee is headed. Recently, June 16 – 18, DeSantis has been in France at the Florida Governor Ron DeSantis led an international trade and business development mission to France from June 16 to June 18, 2025. The purpose was to promote Florida as a global hub for aerospace, aviation, defense, and emerging technologies, and to expand trade and investment opportunities for businesses interested in Florida markets.

Two questions here::

First, who is paying for this and why? Why now? Did DeGov run to a Globalist “safer space” when war with Iran was threatening? Remember, he is VERY bad at spontaneous situations.

Second, What will all this industry you hope to attract, use

for power??

PLEASE, go to the website, Ultramagapatriots.com.

You will find excellent data, and be able to learn more of what you and your neighbors can do. Florida has a dangerous Governor and a lot of FAKE REPUBLICANS in office.

That same situation is replicated in a great number of states in the nation. Only the citizens can expose and stop them, before dark monies are controlling every decision which belong to the People, and we, the people no longer have the freedom to decide..
