

Can California Run By Democrats Be Saved?

A dumb blonde on CNN defended Mexican agitators flying Mexican flags during the LA riots by saying it was not illegal to fly a flag. She missed the point. California became Democrat after Republican Ronald Reagan was governor because of the influx of Mexicans into the state. That is why they fly Mexican flags. This is THEIR state now, but it is only one of many still to be reclaimed from the United States and made into the new Mexican country of Aztlan.

At the same time, California under Governor Newsom became a Chinese colony.

I think the two are related.

The National Guard and a few hundred Marines go only so far. The Trump Administration needs a plan that must move beyond

mass deportations.

The movie "Reagan" shows the conservative governor and future two-term Republican president confronting unrest on college campuses such as Berkeley. The communist presence, however, extended far beyond the campuses. *California Dynasty of Communism*, a [book](#) by Karl Prussion, a former FBI informant in the Communist Party, has a history of what happened to the "Golden State."

He wrote, "To all communists in the United States, California is the pilot area. The Golden State has been chosen to be the model Soviet state."

In the performances of officials on all levels, from Mayor Karen Bass to Governor Gavin Newsom, the results of communism in California were exposed for all to see in the fires that devastated the region and now the riots. These are deliberate policies.

Under Newsom, California has been a major recipient of Chinese foreign direct investment. Bethany Allen-Ebrahimian, the China reporter for Axios, assembled the facts and figures about Chinese aid-and-trade with the United States, confirming that California is "hooked" on China. Of the top 10 states with the highest net trade with China. California is number one by far.

The Los Angeles mayor is a well-known Marxist, having traveled to Cuba with the Weather Underground-sponsored Venceremos Brigades. Her "friend and mentor," Oneil Marion Cannon, was a top member of the Communist Party USA for decades.

The role of communists in California and therefore the national Democratic Party has been a national story and this is why, back in 2019, I had predicted California [Senator Kamala Harris](#) would be the Democratic presidential candidate in 2020. What I didn't foresee was that she would be the vice-presidential candidate and then replace Biden at the top of the ticket in 2024.

The Bass mentor, Oneil Cannon, was [described](#) by the communist paper as a member of the Communist Party USA “who became the education director in the Southern California District, and a member of the Party’s Southern California and National Central Committees.” The paper continued, “Oneil Cannon counted among his friends many leaders and later elected officials of the African-American community. Paul Robeson was one of his valued friends; he would see him whenever he came to Los Angeles.”

Regarding his role in California, it said he “was committed to electing Black and Latino representatives at all levels of government” and helped to elect Augustus “Gus” Hawkins, Tom Bradley, Ed Roybal, Diane Watson, Maxine Waters, and Karen Bass.

The Mexicans were imported to help make this possible.

Paul Robeson was a black communist actor and singer who was a member of the Moscow-funded Communist Party, had professed love for Soviet mass murderer Joseph Stalin, and supported the Hitler-Stalin Pact that paved the way for World War II.

There was a time when Karen Bass was being considered a vice-presidential candidate on Joe Biden’s ticket. In the end, of course, Kamala got the job.

Short of a permanent military occupation, I don’t see how the state can be saved. It is owned lock, stock, and barrel by the Communist Party of China.

But China is not alone. Russia’s destabilization operations in the Middle East flooded Germany and other European countries with illegal aliens. It’s a communist tactic referred to as the “weaponization” of refugees and designed in this case to destabilize the United States.

The popular reality TV show “Border Wars,” on the National Geographic Channel, captures the determined efforts of U.S. Customs and Border Protection, ICE, DEA, the U.S. Coast Guard,

and local law enforcement to keep our nation safe. They fight terrorism and apprehend drug smugglers. They also intercept people entering the United States illegally. These illegal aliens have become a weapon of war, just like in the Middle East.

Of course, some Republicans and big Republican donors, such as the Koch Brothers, favor more immigrants as well – as a means by which Big Business obtains cheap labor.

They are already here, to the tune of tens of millions.

Tragically, the Trump has released [a dramatic video](#) about the problem but has no coherent long-term solution.

One source of the problem is Mexico, a Narco-state, and another is China. Domestically, the problem is communism, a proliferation of communist groups and individuals that are already named in this article.

The puppet master is, of course, [George Soros](#), who should be deported. Will the Administration take that step?

There are many grounds to do so. His native Hungary would be happy to take him and put him on trial.

Do it, Mr. President. Do it, Mr. Tom Homan. Act now.
