

Can Trump Save His Campaign?

By Cliff Kincaid

September 14, 2024

On the eve of the presidential debate, I received an email from Trump supporter Laura Loomer declaring that getting Christians out to vote for Trump in November is the key to victory. If this is the case, then why is Trump trying to appeal to Democratic Party voters on issues like abortion and drug legalization? Loomer's email doesn't make sense. Or else Trump's campaign strategy doesn't make sense.

One way or another, something is seriously wrong, from the point of view of a potential Trump victory. Whatever the case, Trump's challenge on Tuesday night was to directly address conservatives and Christians and reassure them that he is on their side.

If he instead continues moving to the left, he may self-destruct, forcing many conservatives and Christians to sit at home on November 5.

His performance could make or break him.

Here is what Loomer said:

The United West gave me some verifiable information about evangelical Christians who are already registered Republicans but did NOT vote in 2020 in six key swing states. I thought that out of all voters who didn't vote in 2020, the Christian vote would be the quintessential definition of low hanging fruit since Christians are under attack in our country.

We all know the 2020 race was decided (or shall we say stolen) in those six states, but I never realized how critically important the Christian vote was for the 2024 election in those exact same battle ground states.

Loomer declared that “research” suggests and explains that Donald Trump will either win or lose in November based upon whether evangelicals who did NOT vote in 2020, actually come out to vote in November. She posted a [video](#) with her research.

She declared, “You need to watch this video to see this game-changing information that will help get President Trump [@realDonaldTrump](#) get elected in November!”

Loomer explained that she is a Jewish woman who has worked for many years, very closely with like-minded, evangelical Christians. She added, “My Christian friends have supported me throughout the years, worked to get Trump elected, and always stood firmly against the rise of Jihad in America.”

Trump’s decision to endorse drug legalization on a state-by-state basis is very concerning, as it is a movement originally started by billionaire George Soros, a major Democratic Party fat cat. Why would Trump move into the Soros camp on an issue that once separated the two major political parties, with the Democrats in favor of legalization and the Republicans opposed?

My group America’s Survival had published five separate in-depth reports on Soros over the last two decades. On October 27, 2011, we held a news conference at the National Press Club entitled “The Soros Files” and we launched a website to shed light on the activities of the hedge fund billionaire.

But our videos based on the conference were censored by Google’s YouTube. That’s why we are now on Rumble, with [a series of videos](#) explaining the stakes in this year’s election.

In this context, it's important to keep in mind that billionaire longtime Soros associate Scott Bessent, former Soros Fund Management chief investment officer (1991-2000), is now being talked about as America's next Treasury Secretary under a President Trump. He started his own hedge-fund firm, with a \$2 billion investment from Soros Fund Management. In 2013, he gave \$25,000 to Ready for Hillary, a pro-Clinton super-PAC and [hosted](#) a gay and lesbian fund-raiser for Al Gore at his Hamptons home.

To understand George Soros, the biggest fat cat of all time, America's largest political donor, we must understand the power of financial hedge funds and the concept of the "open society" of Soros's mentor, philosopher Karl Popper. Popper was a communist in his youth whose writings were later adopted as a basis for "democratic socialism" and the notion that government can and manipulate the transformation of society on a gradual basis. Popper thought this approach would make Marxism's emphasis on the alleged inevitable historical process and violent revolution unnecessary.

An "open society" means tolerating and even approving evil and immoral activities, undermining traditional American values in the process. It is a "capitalist" version of communist Antonio Gramsci's strategy of a communist takeover by infiltration.

With Scott Bessent's arrival in the Trump camp, Soros has both political parties under his influence.

Trump must take a final stand, in favor or against the evil Soros "vision" for America. His decision will seal his fate.
