

Can We Arrest, Prosecute, and Jail Criminal Officials?

Andrew Wallace

March 25, 2023

It is now impossible to prosecute the criminal officials who usurped our Republic, because they rule us by the barrel of a gun—not by Law or the Constitution!—and control the system of “justice”.

There are only two possible ways to punish “officials” committing criminal acts. One is to remove all criminal officials from power by Constitutional Elections, and the second is to try them in Revolutionary Courts for their crimes. Both avenues have dubious potential.

Note to the corrupt FBI: I am advocating nothing; I am only stating facts available to everyone.

Ours is truly a sad state of affairs. About fifty percent of the people get their livelihood and medical care from the federal government and can't afford to jeopardize their 'benefits' by complaining about the corruption and fraud. This is how 'government' quells dissent.

The Communist Manifesto states that the government controls these people through the use of 'benefits'. These people, many of whom are “educated” (read “indoctrinated and brainwashed”), though many are not, all are ignorant and apathetic.

People must learn that if they don't stand up now, the government will soon collapse along with all their government

benefits, resulting in a Revolution. The only way to protect your benefits long-term is to return to a Constitutional Government ASAP!

Does anyone doubt that those who are denied benefits would soon revolt? What choice would the able-bodied have, other than to actually have to go to work, which is anathema to them? It is much easier to hurl bricks and burn buildings and demand to be given everything for free.

I must say again that there is no need for an income tax if you use tariffs to finance government as we did until 1913.

Without an income tax, states could perform their proper Constitutional functions, and the federal government could not murder millions and wage wars for profits for the Parasitic Super-Rich Ruling Class (PSRRC).

It has been hypothesized that the millions of illegal-alien invaders of military age could be recruited by the government to control and subdue Americans who would be rioting over loss of government "benefits".

When there is an economic collapse, invaders will be in serious contentious conflicts with our citizens over scarce resources.

The next question is how do you convince the ignorant half of the population to stand up and be counted before they lose everything and end up starving? I think it is next to impossible. But major economic events could change that.

Make no mistake, all indications are for a major Economic Collapse, not just a Recession but a "Full Blown Soup-Line Depression".

Our fiat currency has lost 98% of its value, commercial and residential real estate are declining in value, 25% percent of the workforce refuses to work (thanks to government handouts),

government and media have no credibility due to their lies and corruption, food is becoming too expensive due to inflation and shortages, air travel is becoming less safe, banks are failing, Illegal invaders are overwhelming our welfare and medical-care systems, all of which will deprive our citizens of these benefits for themselves.

The subject of this paper is the major concern of every patriot writer I know.

I have studied this problem for years, and consulted many experts who assure me that every possibility for correction has been attempted and failed. There is only one conclusion: it is impossible to get justice from the existing Ruling Class. We have the greatest Constitution in the history of the world but the government has been taken over by criminals, who deny us our rights from God and the Constitution, ruling us by the barrel of a gun. This is the simple truth.

And what always happens to a society deprived of basic justice?

The majority of our state and federal elected officials of both parties, bureaucrats, military flag officers, judges et al., are bribed or threatened into committing acts of treason by the Parasitic Super-Rich Ruling Class (PSRRC).

The result is a "Huge Corrupt Machine" with no relationship to the Constitution, that deprives us of our rights and sucks out our very life's blood for the benefit of the PSRRC and their Communist minions in 'woke' corporations and government agencies.

We are being ruled by the barrel of a gun and dictatorial executive orders that have no Constitutional authority whatsoever over people living in the states!

Only executive orders by King George ever had authority over our people and we know the result of that. History does

repeat. Again, Executive Orders today apply ONLY to governmental employees and the corporations created under their authority. Not to the People in the states.!

The primary results of the takeover of our government by the Parasitic Super-Rich Ruling Class (PSRRC) and their Communist minions has been impoverishment of the people, economic destruction of the country, transfer of wealth to the PSRRC, murder of millions and destruction of entire countries in un-winnable wars for profits for the PSRRC.

None of these false-flag wars for profit had anything to do with security of the United States. Our incompetent flag officers lost every one of these wars for the last 75 years.

I can't write a paper without reminding readers that the PSRRC has also added faux departments and agencies to the federal government, giving them 'authority' that is not authorized by the Enumerated Powers in the Constitution.

These fake and fraudulent departments with no legal authority are: Labor, Agriculture, Health and Human Services, Education, Energy, Transportation, and Housing and Urban Development.

I know this is hard for citizens to believe, but it is absolute Constitutional fact. Read Article 1 Section 8 for yourselves.

One thing is certain. It is a rare occasion when either the media or government reports the truth about anything. This is why many of our people are brainwashed, apathetic, ignorant and believe in the fairy tale of Communism.

God Bless Our Constitutional Republic.
