

New Years

I know, I sound like a broken record, but I believe reading the Constitution is something we should be doing at least once a year. In fact, if you read the Constitution 3, 4, or even 12 times a year, that would not be a bad thing. I agree with our first Chief Justice of the United States, John Jay. If you want to know when your rights are being violated, and be prepared to defend and assert them, then read and study the Constitution of the United States.

Prepared Beforehand

Fulfill the role God has for you in the world. The good that you do in Jesus Christ can, like Handel's music, be like a stone thrown into a pond, the ripple effect expanding outward and benefiting others even long after your time on earth has ended, and leading to eternal reward (1 Corinthians 3:5-15). Then, with the angels and all creation, we will give praise to God as in the final chorus of Messiah, based on Revelation 5:11-14

The Pope is Not Catholic

For traditional Catholics, this means more than just that the church has lost its way. It means the Vatican has entered into an alliance with the "Powers of Darkness," a growing group of people in America and around the world who have broken with

the Judeo-Christian tradition to instead endorse the notion of God as a mystical force inhabiting humans, the earth, or spiritual “masters.”

Foundations of Truth are Prerequisite to Understanding the Times and Seasons

I’m going to write about some things in the coming days that are easier to understand with some foundational truths. I pray they will be laid upon foundations of truth that can bear the weight. This is not to imply I have some superior knowledge; it’s just to elucidate wisdom and understanding are usually found within the foundations laid by truth. In the meantime, may you seek the Living God and His truth before all else.

Suzanne Harp and the Cultural War for America’s Future

Suzanne Harp, an America First candidate in Texas’ Third Congressional District, is one voice that emerges as a beacon of traditional values and unwavering patriotism – a voice urging self-education, vigilance, and a return to the foundational values that define America.

Should We Allow Islam to Destroy Civilization?

The title of this essay may seem outrageous to some, but I contend that thoughtful, freedom-loving individuals must consider this topic carefully, or indeed, a world of peace and freedom will not grow or be maintained. I've written this article for those who know very little about Islam and may not have given this topic any thought until now. For others, bear with me as I attempt to follow a logical path to what I believe is an inevitable conclusion.

Democrats Total Disconnect from Reality

WE are God's stewards responsible for what happens in this country. We all have a duty, the same as our forefathers. God will provide for our victory if we stand together to fight evil. If God was going to do it alone, he would not have needed Moses or Noah. Let's get busy!

We Can Beat the Woke!

Pull Our Children Out of Public Schools. That might do it right there. Wokies are so busy aborting their babies, and making their children sterile through “gender reassignment,” that the only hope for them is to use the schools—that we pay for!—to turn children against their families, against their country, and against God.

Looking Back on 2023: Painfully Looking Toward 2024

The year 2024 will prove pivotal, dangerous and devastating. If we allow a decrepit, senile, corrupt old man to continue what he has done for the past 36 months, America will not survive as an intact, single culture, single language, and/or single people ever again.

Donald Trump and Antifragility

When 2024 gets here in a few days, we enter probably the most dangerous period any of us have seen in our lives. Whatever happens with some of the scenarios I’ve sketched, the country and possibly the world are going to look very different a year from now than they do today. I don’t believe the ruling elites

want to assassinate Trump.

New Minnesota Flag: Your Country Is Being Handed Off To Foreigners

Daycare fraud, Marriage fraud, dismantling of the educational system, in putting theirs in the place of ours, giving them prayer in place of our Christian heritage in both the schools and the workplaces. They are even going so far as to give them a call to prayer citywide. Then, they are given representative roles in the halls of government only to have them attack us.

Will Trump's Attorney's Stop the Second Steal in Nov. 2024?

Only you and I can stop another steal. The most important thing is to get this information out to all of the above. And don't forget this about the 2024 election besides voting for president, house reps and senators: the U.S. Supreme Court. Clarence Thomas is 74. Alito is 72. They might wish to retire. With Mitt Romney retiring, it's critical Republicans take control of the senate.

In Remembrance of My Dear Louie

The pain of losing a pet is because of the depth of love we share with them. Louie left an indelible mark on my heart with his expressive eyes and boundless affection. While the ache of his absence lingers, so does the warmth of his memory.

Bonhoeffer's Theory of Stupidity

Reminds me of today's mindless following of the silly stupid mantras of "Global Warming" ... "Climate Change" ... along with the thought that we just plain must kill all the cows because they produce the world-ending menace of Cow fart methane.

The Mad Director

You cannot overcome your environmental subjectivity, from which your fears and inferiorities rise, until you let yourself realize the root cause: making THINGS too important in order to feed your ego a sense of security and importance.

Give ‘Em The “Dickens”

Tiny Tim was granted control of Scrooge’s estate. He invested the money in a toy company and soon built a vast financial empire by hiring a marketing firm. Together they were able to turn Christmas into a huge commercial buying season for toys. Tiny Tim hung a huge sign over his factory so that all could see. There, written in gold letters, was the name of his corporation, “HUMBUG ENTERPRISES.”

A Christmas Gift: You Can Do That

Have you ever faced a situation that caused you to question yourself? Did you confront a teacher that you disliked or a fellow student who badgered you? Have you dwelt with co-workers that made you tear your hair out?

A Politician Wins on the Pro-Life Issue

At a time when Christians celebrate the birth of Christ, the baby in the manger, a new survey finds that 24 percent of

Democrats would base their vote on abortion. That is, pro-abortion. Only 14 percent of Republicans would vote pro-life. That means pro-abortion is winning. Except in Argentina.

The “Christmas Thing”

Most folks know, I own a wholesale commercial bakery and I’m very busy this time of year. In September I start baking Christmas cookies to be shipped all over the country the Monday after Thanksgiving. It is the part of my business that I enjoy the most. I love creating the cookies, buying the boxes, ribbons, and ornaments for packing, and sending them to all the folks that look forward to them every year.

Bearing One Another’s Burdens

This world is a dark, often lonely place. People need the Lord desperately, and I pray those who don’t yet know Him will find Him while there’s still time...but people also need one another, and as Christ’s own children, if we don’t minister to our own brothers and sisters and help lift the weight of the burdens they’re bearing off their shoulders, even just a little bit, even just for a time, then who is going to?

The Most Precious Gift in the World Is for You, Too

No matter your station in life, whether you are rich or poor, high class or low class, regardless of your ethnicity, nationality, or language, no matter your past history, the gift of forgiveness, reconciliation with God, and eternal life is for you, too, in Christ Jesus.

A Christmas Wish

As we celebrate Christmas, followed shortly by New Years, let us consider the present all of us are leaving to future generations. Will our children, and our children's children, live in a country better than the one we live in now? That depends on what we do today, tomorrow, and for the rest of our tomorrows, as we try to secure such a nation for them.

Oregon's High-Minded Muddle

These guys can't define a woman and don't know the difference between a heifer and a bull-calf. They have totally screwed up our education and criminal justice systems, increased homelessness, poverty, and drug abuse, and put the economy into the ditch. So, why not give them control of our thoughts, speech and language too?

Canceling Culture with Foul Tax Laws

It isn't Halloween or April Fool's Day, but you'd better be scared. The Supreme Court of the United States is hearing oral arguments on a case that reads like a trip to Dante's hell. But if this case takes a wrong turn, we all will join Dante Alighieri there.

The Harder Road Away from "World Order"

It isn't Halloween or April Fool's Day, but you'd better be scared. The Supreme Court of the United States is hearing oral arguments on a case that reads like a trip to Dante's hell. But if this case takes a wrong turn, we all will join Dante Alighieri there.

How to Write Like a Propagandist

Bloomberg is back with another ridiculous opinion piece masquerading as a news story, as a "journalist" with an

“Evening Briefing” disguised as a “news” dispatch is telling his audience that Trump echoes Hitler and is a would-be dictator. This is what passes for “journalism” these days.

Sandra Day O’Connor’s Disgraceful Legacy

Fox News calls her a “moderate conservative.” That is a lie. The truth must be told, even though Washington’s elites have gathered to honor her. Her funeral service is taking place at Washington National Cathedral, and pro-abortion President Joe Biden is delivering a eulogy.

No Borders? No Country

Italy and the UK are beginning to talk seriously about limiting immigration—especially illegal immigration from Muslim countries—and France and Germany had better follow suit if they know what’s good for them. Can’t have all these jihad johnnies on the loose.

Let's Make Americans Moral Again

That generation conquered Hitler, Stalin, Hirohito, and Mussolini and from the deep wounds of a foreign war, America forged the greatest economic explosion the world had ever seen immortalized by "Baseball, hot dogs, apple pie, and Chevrolet." For a brief time, America was that "shining city set on a hill" illuminating the known world with the "blessing of liberty to ourselves and our posterity..." Until American men went soft.

Among Pilots, Heart Failure Up 1000%

Regardless of the facts and findings as to who is responsible for these criminal acts being committed against innocent people, Big Pharma, with the help of the corrupt within the halls of government, continues to push forward with its wicked agenda (Jeremiah 11:9). Where is the justice?

Washington's Farewell Address, Part 2

There's a reason why power is distributed in this country, not

just within the federal government, but between the state and federal governments as well. Liberty, the ability to live your life as you see fit, is protected by such separation. So when we see the Executive Branch being delegated and assuming powers not their own, your liberty is in danger.

To the Ends of the Earth: Lost White Migrations and Civilizations, Part 5

The inhabitants apparently were engaged in a lucrative and worldwide trade involving objects obtained from or sent to various places. Syrian glass beads, Arabian and Roman coins, Chinese pottery, and Persian ceramics were found at the site. Such trade would require a fleet of seaworthy vessels capable of traversing long distances.

Get Rid of the “Black Vote”

It's time to turn the tables on the race baiters trying to divide We the People. Professional politicians of both parties always trying to out do the 'other side' with fake promises of this that or the other for the “black vote” when they could care less about black Americans.

DeSantis is DeSperate, Seasons Blessings Not Coming His Way

I KNOW that neither Santa nor God will forgive Governor DeSantis for his treatment of the J6 families in his state, until he comes clean and asks forgiveness. Nor, for the head-fake legislation on medical “freedom: and election “integrity”. Lots of us never will. Speaking of election integrity, MUCH more on Florida voting machines is coming next.

American Democide 2024

Why was J6 declared an “insurrection” when even the FBI investigation concluded that there was no evidence of any such thing? Why have the Nazi global elites labeled every red-blooded American a “threat to democracy” and every Christian a “right-wing extremist?” Why has the O’Biden Administration illegally flooded our country with more than 8-million military age males...

Everything Is Connected

They must cripple the west and any freedom the people have. They can not have America as an example for other countries to want. They must get all government agencies using the same lies. Computer models not facts are use to prove their lies. Globalists are always on the attack. They never stop. The attack now is the American economy.

The Constant Battle Against Constant Lies

I got sick and tired of monitoring and exposing the lies in the media. But sometimes they are so egregious that we still have to take note, especially when they are gushing from a supposed respected outlet like Bloomberg.

This Immigration Invasion Will Not End Well: No Discernible National Identity

How would you like to throw a Christmas party in your 3,000 square foot home, but instead of your 10 friends coming over, another 100 strangers show up at your door...and without knocking, barge into your home not only for the party, but for

the rest of your life? Not only that, they demand that you feed them, while providing them beds and bathrooms for their own use.

The Systematic Killing of America, Part 6 of 6

The Pharisees loved their religious system more than they loved Jesus when He came to them. Therefore, the words Jesus spoke could have no place in their hearts; their religious structures had their hearts. If they loved God and if Jesus had their hearts, they would have received the whole counsel of God's Word and could have been led out of darkness.

Thank God for Jesus

Yes, I'm sad for the children of today, growing up without Jesus, or growing up with a "fake Jesus" as taught to them by so-called "progressive churches." We've lost our reverence for God, our awe for His Son and we've become so intimidated by a spirit of political correctness that we've trashed not only our own history and heritage but even our once-deeply-held Christian faith.

Only the Prince of Peace Can Bring True and Lasting Freedom

Britain was able to manipulate the religious, social, and economic divisions and rivalries of the diverse peoples of India to gain first economic dominance over them, then political and judicial control. Over time, many Indians came to understand this and resented their foreign rulers. Their people and the country's valuable resources were being exploited for the profit of Britain, not the welfare of the people of India.

Cancel Culture: Do you like Your Home? Do You Want to Keep It?

It isn't Halloween or April Fool's Day, but you'd better be scared. The Supreme Court of the United States is hearing oral arguments on a case that reads like a trip to Dante's hell. But if this case takes a wrong turn, we all will join Dante Alighieri there.

China's Total War Against America

On the heels of the passing of Henry Kissinger, who was praised by politicians of both major political parties, the House Select Committee on the Chinese Communist Party has concluded in a report that Kissinger's pro-China policy was a complete failure.

Israel Was a Barren Wasteland Before the Jews Came in the 1880s

I was horrified that every article in the paper was written by those defending Hamas and their slaughter of Israelis. Of course, also denouncing Israel's entering Gaza to kill the Hamas terrorists, and demanding that all Jews be driven out of "Palestine." Even the graphic cartoons were the utmost vile hatred.

**Another Civil War? No,
Probably Just Domestic**

Squabbles

To have a civil war, you need warriors will to die for a cause. We are too spoiled, distracted and lethargic for that level of commitment. Most people couldn't handle losing their wireless connection for half an hour. Even the red and blue states are split between urban and rural factions.

The American Dream Becomes the American Nightmare

The GOP has only \$9 million to spend while the DNC has over \$20 million. Instead of spending the GOP money on a strong get out the vote effort helping the grass roots, Ronna, the RINO, Romney is spending the little money against MAGA and Trump, and for debates that no one watches for candidates that no one wants.

Teaching Children to Lie

Recently a 10th-grade student in Washington failed a quiz... by telling the truth. It was a "world history" quiz (please feel free to honk if you understand how this has anything to do with world history), true/false, in which the student didn't come up with the answers that the "teacher" wanted.

Diversity Versus Racism Equals Equity?

It's all pretty much how Mother Nature created the human race. There is no equity no matter how much inclusion or social engineering. You're seeing that play out in Ukraine, Israel-Gaza, Sweden, France, Great Britain and every country forced into endless immigration of disparate/incompatible racial groups.

In the Undeclared War of 2024, Liberals and Conservatives Must Create an Alliance to Defend American Freedoms

In the last three years since Joe Biden was sworn in as President, large numbers of liberals have come to realize that the fanatical members of the hard-left are not their friends, and more specifically, are not the friends of liberty. These liberals have found unexpected common ground with conservatives and yes—even Trump supporters.

How The Political Game Is Played: It Doesn't Get Any Easier To Understand Than This

This system of deception is predicated upon divide and conquer (Mark 3:25). It is in hopes that the people will actually follow along and believe both of these stooges in taking them for face value when pitting them against each other as arch enemies.

'Snow Is Black' Syndrome Taught In Our Schools

A new mindset is developed. Moral absolutes are replaced with a flexible mindset. All of the past Industrial Age of academic knowledge-based content would be tossed into the air to let fall in disorder and chaos. $2 + 2 = 5$. Equity and democracy would create the level playing field. There would be no one smarter, more beautiful, more wealthy, or more anything.

Washington's Address, Part 1

Farewell

Not once, but twice, George Washington was called on to be President of the new country under the new Constitution, and twice he agreed. With the expectation that he would be called again a third time, Mr. Washington wished only to retire to Mount Vernon. After seeking advice from those in his confidence, he made it clear that he intended to return to the retirement he had previously enjoyed.

It's Now Our Patrick Henry Time in History

But, how do we do this? There are literally thousands of groups and organizations fighting for our very existence as a constitutional republic. Really hard-working dedicated Americans. I know because I've been in the trenches full time for 31 years and I do a hell of a lot of research. Unfortunately, too many get infiltrated by RINO's pretending to be for American values, real freedom and liberty while stablign us in the back.

Tucker Carlson's Cure for Stress and Key to Happiness

Obviously, Tucker Carlson is polarizing. This is because he's hated by the ruling elites, their servile employees and disciples up and down corporate media and among left-indoctrinated populations (young, urban, "diverse," "educated," etc.) – but loved by an audience that craves often unpleasant but always truthful information, presented in a manner that is positive, upbeat, and sometimes even funny.

United States of America Being Colonized by the World's Refugees

Final questions: how stupid and senile is this president and how stupid is the U.S. Congress and how stupid are the American people to sit by and watch their country devolve into a third world country? Answer: really, really, totally, completely and utterly STUPID!

The Systematic Killing of

America Part 5 of 6

Jesus really will send you out as lambs among wolves. You will be hated, reviled, persecuted, and you will be handed over to authorities and put in prison or worse. If you can't take that, then you will probably end up in hell. With Jesus, you are all in or not in at all. Again, we have been lied to.

Kissinger's "China Card" for the New World Order

As House Republicans prepare to impeach China Joe, it's important that Kazianis and other Nixon supporters and Republicans take Kissinger's betrayal of Free China on Taiwan more seriously. That occurred when Kissinger began the process of normalizing relations with the Communist dictatorship on the mainland.

The Light of Life Gives Hope in a Dark World

The Christmas season is one of the most enjoyable times of the year. There is generally a lighter mood in the air, and people tend to be a little nicer and more charitable to each other. It is a time for family and friends to take time off from the routine hustle and bustle of life to come together in love,

joy, fellowship, gift-giving, and great food.

Texas Comptroller Glenn Hegar Refuses to Pay Attorney General Ken Paxton His Back Pay

We are talking about fairness and consistency in the treatment of elected officials. The question we should be asking is – Should an elected official face additional barriers in claiming rightful compensation, and is there room for a more compassionate approach in the face of legal intricacies?

Will America be Destroyed From the Inside?

If We the People wish to remain free, it's up to us to FORCE the government to stop aiding the collectivists. I don't mean denying their rights, but stop aiding and abetting those who are trying to destroy this country. Stop federal funding of education. Stop subsidizing the collectivist agenda. Not by writing letters or signing petitions, but by making the politicians more afraid of disappointing the American people than their donors and political parties.

Should Traitors in Congress Be Charged With Treason and All Manner of Crimes?

A majority of Congress is charged with Treason for giving aid and comfort to enemy invaders by allowing open borders, failing to deport them, and paying to support invaders at the expense of Americans. All of which is unconstitutional. Article III, Section 3, Clause 1: Treason against the United States, shall consist only in levying War against them, or in adhering to their Enemies, giving them Aid and Comfort.

Top Montana Republican Leaders Support Democrats' Climate Fraud

Our Children's Trust of Oregon began in Montana because it's easy for power people to control Montana's elected officials. For all I know, this Republican betrayal of truth and freedom may go all the way to Bill Gates. As of now, the set climate precedent is a YES answer to the question.

Arms Rights Roundup

A new hornet's nest has been established in the White House that's all abuzz with a beehive of activity. It's the new so-called Office of Gun Violence Prevention, established as part of the Department of Justice in September, 2023. This particular action makes "preventing gun violence" into a "permanent national priority."

Rethinking Economic Analysis and Strategy

The latest data on the Consumer Price Index (CPI) reveals contrasting trends, raising questions about the effectiveness of recent Federal Reserve actions and the potential impact on everyday Americans. As of October 2023, the annual CPI rose 3.2%, primarily due to the "fortuitous plunge" in energy prices. However, a deeper dive into the numbers exposes an inflation rate curtailed by falling energy costs.

Kingdom Christianity

Make no mistake about it, much of Christianity has been hijacked by slick salesmen who masquerade as "ministers," selling a product designed to appeal to the masses. These marketing techniques have worked wonderfully for the few and has given us a new genre' of Christianity...the millionaire

pastor.

The Valley of the Dry Bones

How many times has this fallen world tried to wipe out God's people Israel? The Assyrians, Babylonians, and Romans uprooted them from their homeland and scattered them over the world: the image of sowing seeds comes immediately to mind. The Jews returned to their homeland—after yet another attempt to exterminate them, this time by Nazi Germany— and established a new state of Israel in 1947. Today they fight to keep it.

Pearl Harbor Attack Dec. 7, 1941: Survivor S. J. Hemker Remembered

Although S.J. Hemker may no longer be with us physically, he can be and should be with us spiritually—the spirit of patriotic love of country and service in its defense that he exemplified, as did and do so many others of the WWII Greatest Generation. Neither his life nor his words should be forgotten, if, as he warns, we Americans are to remain free.

Destroying America's National Identity: There Will Be No Peaceful Solution

As millions of illegal aliens pour over the border from God only knows where, and averaging 10,000 daily, can you imagine what our national identity will become? With this invasion nightmare accelerating, do you see any elected representatives in Congress doing a single stinking thing to stop it. Yes, a few speak up like Josh Hawley (R-MO), Tom Cotton (R-AR), Marsha Blackburn (R-TN), but no one else lifts a finger.

Guess Who's Still Running the Country

The policies of the Obama and Biden administrations have been frequently compared due to their shared history. As Vice President under Obama and now President through a stolen election, Joe Biden's policies often seem to mirror his predecessor.

Has the American Spirit and

Work Ethic Evaporated?

Today, however, in the US, everything seems broken, listless, malfunctioning and the product of decay. The entrepreneurial spirit still resides in the Asians who seem to have taken over that particular ethic. Many Americans though animated by anomie, if you will, are lazy, irrational, socially touchy, and tend to gripe about their lot in life, though sadly not without a lot of justification.

World Health Organization (WHO) Declares Truth as “Disinformation”?

The World Health Organization (WHO) has urged governments to declare a “global disinformation emergency” and begin locking up people who spread non-mainstream opinions online.

Israel in the Crosshairs: Part 2, More Forgotten History

There was a watershed moment in 2005 when Israel under Prime Minister Sharon unilaterally gave the Gaza strip to the Palestinians, even forcibly removing Jewish settlers who'd

lived there for decades and didn't want to relocate. The Israelis left them a thriving export business deriving from state-of-the-art greenhouses that supplied fruit and flowers to Europe.

The Media and the Subtle Art of Manipulation

In a world drowning in information, I always find myself at the crossroads of truth and deceit, only hoping to get a front-row seat to a sinister ballet orchestrated by the unseen puppeteers of the deep state. This should not be labeled as the stuff of conspiracy theories.

Me and Now

On July 6, I had horrific car crash when a small truck hit my car. There has been a lot of pain and suffering and medical expenses since then, with me going to a wound and pain clinic. As a single person, I often went to a cafeteria for lunch or dinner, with many people knowing me there and what happens to me. However...

War-Monger Nimarata Nikki Haley: Globalist's Darling

Back in 2004, Haley ran for Congress as a Republican while voting for many Democrats in previous primaries. Haley supported flying the Confederate Flag on the statehouse grounds but decided after the Charleston church shooting it was a good thing to erase history just like the mobs who've toppled or removed historical statues since Black Lies Matter began their destructive rampages over three years ago

Illegal Aliens Invasion Far Exceeding U.S. Birthrates

What are the majority of American citizens facing? Answer: we're headed into the same violent quagmire as Israel, UK, Germany, France, Spain, Sweden, Norway, Finland, Denmark, Canada, New Zealand and Australia. Read: War on the West by Douglas Murray. When we allow barbaric/uneducated people from barbaric cultures infiltrate our country, we will see our country torn apart at the seams.

The Marshall Plan

The establishment makes The Marshall Plan appear as proof of America's magnanimity towards prostrate allies and a defeated

enemy. But, in fact, the plan was only meant as a sop to a resource-sapped and “zapped” vassal state as well as America’s much weakened allies.

Setting the Agenda for Freedom’s Comeback

If Donald Trump can find a way to assure honest ballot counting and is elected, more shock waves will rush through the entire world. The Great Reset will be splintered. Break the back of the global power elite and other nations will respond. More freedom leaders will be elected. You can feel it in the air. The whole world is watching and waiting. Now is the time.

Widespread Shoplifting in America

The New York Police Department reported that 327 individuals were responsible for over a third of the retail thefts in 2022. These individuals were arrested a total of 6,000 times! What does this mean? They are arrested after the crime and then let off so they can return to their merry ways again!

Good Is Worth Fighting For

But Jesus, the conquering King who defeated the grave, will overturn their empire of destruction. He will douse their fires and give the Living Water (John 4:10, 7:37-39; Revelation 21:5-6) that extinguishes perdition's flames to all who trust in Him. Jesus will turn their contrived famine into abundance because He is the Bread of Life (John 6:35).

Mounting Mischief From Electric Vehicles

In past newsletters we have already panned electric vehicles ("EVs") and demonstrated that the devil is in the details of the "side effects" that are shoved aside as side issues like the side shows of old. In their utilization, as in the case of drugs, these affects keep adding up.

No Longer Capable of Freedom?

No, a vast majority of Americans are no longer capable of freedom, therefore, the hour glass on freedom will soon expire. It's one problem to be ill-informed. It's a whole different problem to be unteachable or unreachable. As I told my kids while they were growing up... smart people learn from their mistakes.

Can We Return to “The American Dream” and a Constitutional Republic Without a Revolution?

Our only impediments to unlimited prosperity and justice in America are the ignorant, apathetic and indolent who believe in a free lunch without work, and a government usurped by the corrupt, murderous and incompetent for money and power. Costs of corruption, mass murder and Marxist indolence are exorbitant. Returning to the Constitutional Republic will restore our rights and more than double our prosperity.

Javier Milei: Making Argentina Great Again?

Milei has a reputation for eccentricity. Massa doubtless thought this would hurt him with voters. He was wrong. Argentinians clearly had had enough of a regime that had run the country of 46.6 million into the ground, with rising unemployment, 40% of the population now beneath the poverty line, and the inflation rate a whopping 140%!

Truth Under Attack

Today, many in the federal government walk around believing they are wrapped in robes of power, some because of their own arrogance and others because “experts” have told them so. Most of the American people seem to go along with the lie, not because they can see the power robes, but because of the lies they have been told.

Will Someone Investigate the NSA?

The movie Oppenheimer is now for sale via various streaming channels at a cost of \$19.99 on Prime Video, a complete waste of money. I am offering for free my 24-page analysis of how this film whitewashes a prominent member of a communist spy ring that stole our atom bomb secrets.
