Today, we're a materialistic society based on more than 6,000 products and transportation fuels based on hydrocarbons. We need the products not fossil fuels, BUT we have no back up plan to replace the hydrocarbons that are supporting the supply chain of all those products and transportation fuels that were the basis for the world population growing from 1 to 8 billion in less than 200 years.

## **Credo 2026: Perspective**

I find thus myself “bracketing” a lot of what comes my way: not believing, not disbelieving, not judging, unless and until more evidence comes my way or if I can seek out more information – always assuming it’s something I want to spend my precious time on.

## **Banksters and the Trump-Haters in the Business World**

Since I recognize that Trump Derangement Syndrome occupies the heads of most of those in the “mainstream media,” I

occasionally tune in to the business-oriented media for “news.” Big mistake. Some of the most notorious Trump-haters in the media hold positions in the so-called “business” media, especially the Wall Street Journal and Bloomberg.

## **Trump’s Incredible Successes**

Tanya Gaw of the Canadian group Action4Canada says, “The United States has every reason to view Canada as a growing security liability. Every major enemy of the US is operating within our borders. The question is will Trump feel compelled to ‘Maduro’ Carney and Justin Trudeau? Considering this is the ‘undeclared worst war of all time’ it wouldn’t be unreasonable to do so.”

## **Work is Not Working Out so, Let’s Work on Changing the Nature of Work**

If we want healthy minds, we must fix the environment to permit that situation; that is, the environment in which a health mind can exist. And, finally, we must stop pretending that the system is fine. Once we do that, we then must do whatever is necessary not only to live but to thrive. This is best accomplished by doing what you love to do.

## **Radical Feminism Has Destroyed America**

Males used to be masculine...Clint Eastwood types...and women feminine...Doris Day, Marilyn Monroe..that view launched PLAYBOY Magazine. But now it is all about POWER. Women are fighting to be men and men are afraid of women. It is the ROLE they desire

to emulate...not the sex. Feminism is all about POWER!! Transgender....what a term from hell.

## **Beware of the American Marxist Left, They Speak With A Forked Tongue**

It is imperative that we, as a nation, live within our means, just like families do. In like manner that families should cut back on everything they can, in order to live within their means, the Federal Government needs to do the same. It must reduce the size of government and eliminate hundreds of bureaucracies that are redundant or completely useless as President Trump has done.

## **Muslim Flags Going Up Quietly Around The Country**

Friends, I want to make clear that you all understand that what is happening to your country as you read this: It is not happening by chance. This is a coordinated effort between both the state and federal government (Judas' in the halls of government; Luke 22:48) in selling you off to your enemies (Deuteronomy 28:63, 68). This is an United Nations agenda being exposed for what it means to advocate, which is a global government agenda.

## **Time to Boot “Pay For Play” Bondi**

Financial disclosures revealed that Pam Bondi provided legal services to Pfizer, Inc. while in private practice, specifically while working as “Of Counsel” to the law firm Panza, Maurer & Maynard. Surely, this should have raised questions about recusal and DOJ impartiality. Did that have anything to do with Trump’s DOJ affirming and embracing Biden’s DOJ intervention on Pfizer’s behalf?

# **The Prince Of the Power Of the Air**

We're in the ultimate age of deception. Satan and his demons are going to and fro' on the earth, prowling around like a roaring lion, seeking whom he may devour. The spiritual battle is real and the "ruler of this world," the god of this age" is the father of lies. So be aware, and beware of the "prince of the power of the air, the spirit that now worketh in the children of disobedience."

## **Breaking the Death Grip on Iran**

By increasing the pressure on their physical and digital infrastructure, the international community forces a choice upon the rank-and-file: continue defending a crumbling fortress or abandon the barracks. Recent U.S. sanctions against top security chiefs have signaled that the era of impunity is over, but as the death toll rises, the demand for more direct interference grows.

# **The Problem with Political Independence**

This indicates that in federal elections at least, 47% tend to vote democrat and 42% tend to vote republican, including “independents” that trend to one or the other. It also indicates neither party is able to really win elections with 50% or more of the vote, and also that people are not as “independent” as they claim.

# **The Devil’s Playbook: White Race Must Be Erased and Their History Denigrated**

In consideration of the above matter: first and foremost, all the accomplishments of the white race must be erased and their history denigrated so as to induce white guilt at every opportunity. Meanwhile, the comparatively paltry accomplishments of the other races in the history of America – and, aside from the Asian Races – in the rest of the world as well (see the black race) must be lauded and applauded and made to be seen as the reason for the triumph of the West.

## **Can Corrupt Public Officials be Arrested?**

Everyone seems to be acting as though these laws don't exist, or that they don't apply to every public official who took an Oath of Office. But they do exist and they do apply and unless we are going to make certain they are properly enforced, they aren't worth the paper they were written on...

## **Energy wisdom is lacking among public officials**

The global population has surged from 1 to over 8 billion in less than 200 years, not from fossil fuels, but FROM the products and transportation fuels MADE FROM fossil fuels. This

growth has been directly attributable to the dramatic increase in the number of products and transportation fuels made from fossil fuels, many of which are essential to health, safety, transportation mobility, agriculture, and national defense.

## **King's Controversial Legacy of Black Communism**

An outfit in conservative Tennessee called the Highlander Center has issued a statement, "No ICE, No War," opposing deportation of illegal aliens and denouncing U.S. military action against Venezuela. Let’s stop sacrificing our lives to evil.

# **Truth Never Changes**

We live in an age of moral relativism, where anything goes and the so-called “truth” is always changing, as our carnal, lustful hearts grow ever darker. Today, there can be just as many “truths” as unrepentant sinners believe there are “ways to God.” But the fact is, truth never changes. And neither does God or His Word.

## **Ilhan Omar’s Marital Deception and Financial Fraud**

Omar’s current husband, Tim Mynett, is a defendant in a January 2026 lawsuit alleging he defrauded investors of \$300,000 through a wine business. This lawsuit highlights a double standard: while Omar frequently uses her faith to secure political support, her household actively profits from the sale of alcohol – a practice strictly forbidden (haram) in the very faith she champions.

## **Hollywood and the Bolshevik Revolution**

As an American and a Jewish American, one would think he has a duty to tell the truth about Mamdani’s Bolshevik revolution, not meet secretly with the architect of the “fundamental

## **Thirst For Power**

The principles and techniques of scientific brainwashing closely parallel the manipulations that take place in many families. # New Phase

When people are accustomed to living a certain cherished way of life, dramatic alteration of that life due to impending events can be very difficult to accept. ## Attacking World Electricity Poverty

## Minneapolis: Federal Duty and the High Cost of Obstruction

The death of Renee Nicole Good is a tragedy, but it is one that was entirely preventable through simple compliance with law enforcement. When a citizen chooses to block a federal operation and then accelerates a vehicle toward an officer,

they have initiated a sequence of events where the outcome is dictated by the officer's right to self-preservation.

## **Deport the Liars in the Foreign Media**

Something similar has happened with the death of the “queer” anti-ICE activist who rammed an ICE agent with her car and got shot and killed in the process. Everybody can see what happened. She refused to get out of the car and tried to drive it into the officer, who shot in self-defense as he tried to move out of the way. She was given orders to stop and get out of the car and ignored them. She stopped only when shot at.

## **Is President Trump Abandoning the Unborn for a Political Deal?**

# **The Queer Role in Domestic Terrorism**

As a long-time media critic, who began my career with Accuracy in Media, I am always disturbed by what President Trump calls the “fake news.” I have seen it over the course of decades. But they keep lying, especially when an incident like that in Minneapolis gives them the opportunity to stoke more violence by exploiting the death of a queer woman.

# **The Global Left's Romance With Violence and Tyranny**

The global left is not a political movement; it is a parasitic organism that feeds on the foundations of sovereign nations. ## Wish List for 2026 America

What about our country? Will you participate in making it better or watch from the sidelines as events grow more tenuous? What is your “wish list” for making America better, more productive, and more viable as a civilization? Can we stop endless violence and killings in our large cities?
