

The Whole Truth And The Real Hazard Facing The People Of Oregon

We can tell Oregonians who will listen about the long term effects of these bills[3], the corruption going on behind the scenes to pass laws that make millions of dollars for special interests. We could advocate for Petitions being circulated to recall Kate Brown as the Governor. But is that really a good idea? Does that approach get to or even address the real problem which no one in the media wants to talk about?

The Disgraceful Condition Of American Education, Part3

Our children are being bombarded by ideologies that violate most of America's moral beliefs and Christian values. If you look closely, you'll see that it is the left, liberals, Democrat Socialists that are doing this. They want to run this country. They believe that their ideas are best. Look at California.

Men Without Chests

Many today choose the path of seeing through things forever.

Hence the capacity of the “gay” movement to continuously add letters to their movement name. Their false appeal to compassion combined with our penchant for seeing through things forever has brought us to drag queen story hour and the Barbara Bush Gender Clinic.

A Licentious Nation Of Pretend Christians

Let me tell you what happens at one of these events. First there’s the parade itself. IN the parade, you will see many so-called “Christian churches” with floats adorned in rainbow colors, near-naked men dancing and gyrating on top of the floats, sometimes simulating sodomite sex, while others walk alongside, holding signs APOLOGIZING for the way “Christians” have treated sodomites.

Democratic Debate Number Two

This so-called presidential debate was a tool for spitting verbal bullets at President Donald Trump. Indeed, one of the candidates asked what the greatest threat to the United States was and another candidate quickly answered, Donald Trump, as the audience roared in approval.

The USMCA In A Nutshell

The USMCA is being sold to the people as a marvelous replacement for NAFTA, but is instead an even greater betrayal of our country. This treaty is about diminishing America's sovereignty, independence and liberty. The end result will be the very loss of our nation.

Is It Constitutional Or American To Eliminate Gender Distinctions?

Please join me and pray for those who are victims of this tragic delusion and by love let's seek to preserve the reality that men and women are loved, cared for, and equal in the sight of God and our Constitution.

Oregon Run By Democrats Is Not A Constitutional Republic

Our Oregon Taxpayer Association sent us a Petition to repeal the \$2.6 Billion Business Sales Tax for us to gather signatures. My husband, at age 87 took it to the bowling alley and even before everyone got on the lanes to bowl, he had the form all completed and they were asking for more.

Anti-Trump Collusion By FBI And News Media Uncovered In Strzok-Page Records

In a March 21, 2017, email from Strzok to Page, Strzok accuses an FBI colleague of “constant sneaky but unprovable underhandedness,” because she called “Charlie” in the FBI Office in NY for information on something rather than waiting on Strzok to respond, saying she didn’t know “if your answer meant you’d be back tonight.”

Democrat Debate Wednesday

They talked so much, constantly interrupting the moderators as well as each other, that had this debate taken place outdoors during the day time, they all would have sustained sunburned tongues.

Officials Ignore Islamist Threat At Our Peril

The United States is in the middle of a “cultural jihad.” In fact, global Islamist jihad is at war with all of Western

civilization. Many Americans wonder why their elected officials completely ignore this fact and don't talk or do anything about it. A quick answer: They fear being called racist! Even though Islam is not a race.

It Is Once Again Time For Truth Justice And The American Way

When I was growing up in Cleveland, I used to watch reruns of an old Superman television series that was produced during the 1950s. That old program exemplified a pro American attitude that was still prevalent among most Americans of every race. Government schools had not yet poisoned the minds of the majority of Americans against our republic.

Cycles And Stages Of Civilization

In the articles linked to above, I took note of Sir John Bagot Glubb's theory of the lifecycles of civilizations. Glubb's ideas, as a few readers pointed out, are not perfect. In retrospect, he plays fast and loose with the lifespans of empires, some of which lasted much longer than the 200-plus years he allows.

How States Can Man-Up And Stop Abortion

But I suggest, dear Reader, that we must purge our thinking of the assumption that we can't have a moral and constitutional government unless Five Judges on the Supreme Court say we can have it. Since it is clear that federal courts have no constitutional authority over abortion, why do we go along with the pretense that they do?

Reparations For All

Is it fair to be punished for something that you didn't do? Like, for instance, own slaves. Or to be punished for something that someone else did, that you couldn't possibly have prevented?

Operation Wetback: President Eisenhower's Answer to Illegal Immigrants – Deport

Within America, it is clear that when it comes to the issue of illegal immigration, the laws are simply not being enforced, which encourages and breeds crime, and at the end of the day, anarchy and the loss of your country

Are There Any Mavericks Left In America?

This was a time in North America where impossible things were accomplished by men of vision, cooperative governments and willing investors who saw the opportunities for opening up entire continents to growing populations.

The Endless Third World Invasion Of The United States

Tucker Carlson recently had a six-minute segment exposing the Koch brothers. They consider controlling the border as racist, the notion of "America first" as fascist, and that drugs should be legalized, but what he didn't tell you was that these Libertarians are devout pro-aborts, and heavily fund organizations promoting a new Constitutional Convention.

Can America Survive Our Guilt Complex Wholesale Hatred And Hopeless Division?

Do the reading I suggested at the beginning and you'll come away understanding the United States of America is just a side story in the long history of the world. Barely a blip on the celestial radar. Biblically, there is no United States of America. You won't find it in Genesis or the Revelation or on any pages in between.

Reparations: Democrats Scam And Insult Blacks Again

If Democrats and wealthy black celebs really cared about their people rather than furthering a leftist socialist political agenda, they would call for blacks to take full responsibility for their lives. They would encourage a return to biblical morality. They would encourage traditional marriage, bringing fathers back into households.

Ilhan Omar: A Dangerous Anti-American Muslim Seeking To Undermine President Trump And The U.S.

Ilhan Omar is all for taking in refugees, while at the same time doing her best to make Trump look like he is evil and cares nothing for refugees and immigrants – I want to point out here that Donald Trump's own wife Melania is an immigrant

Why I Feel Sorry for Alexandria Ocasio-Cortez

Alexandria Ocasio-Cortez aka AOC came on the scene after the general election last year like a lightning bolt. A 28-year old bartender who miraculously beat a repeat incumbent: "Ocasio-Cortez, a community organizer and education advocate, is endorsed by the Democratic Socialists of America and ran to Crowley's left." Of course, she was endorsed by them as AOC is a member of the DSA – something I warned about in 1996 and 2005.

Warning: Mr. President, Do Not Be Hasty To Implement Choice

Common Core would be a yoke around the Title I child's neck and Senator Cruz wanted to give those Title I yoked children to private, religious, and homeschools. He also redefined a homeschool as a private school to force homeschools into this portability agenda. His bill never saw daylight.

Justifying Islamophobia

All phobias are, by definition, irrational fears. I'm not an Islamophobe, because my "fear" of Islam is completely rational. Avoiding a poisonous snake is a rational fear. Not a phobia. The emotion of fear, when utilized rationally, is of immense value. The key point is that the person, as well as the society, must base their assessment on facts.

The Creative Dynamo In You

The creative dynamo thrives in you by your receptivity. As a writer, I look for new ideas daily. Above my computer on the corkboard for the past 40 years, a small card reads: "The Idea Fairy may strike at any time—so be alert and write her idea down, so she will feel appreciated and come back often."

Fake Intel Reports On Trump-Russia Collusion Evidence Of Deep State Corruption

Unfortunately, the reports by Fox News' Catherine Herridge, NewsWithViews and other news and commentary publications aren't the whole story of deception and fraud by intelligence officials and news editors. The complaints go far beyond alleged altering of reports. Some of the complaints have to do with accusations that some senior intelligence leaders at CENTCOM created an unprofessional and hostile work environment.

The Disgraceful Condition Of American Education, Part 2

Today we have daycare centers in middle schools because schools are now handing out condoms in elementary schools! They teach that morality is relative to your situation instead of it being a set-in concrete principle. They no longer teach absolute right and wrong, but then neither does the church! Public schools are nothing more than a governmental indoctrination center for the global agenda, the New World Order.

Be Angry And Sin Not

Anger is not an evil emotion. Paul admits in the verse quoted at the start of this column that folks get angry. He warns Christians not to sin when they get angry, and to not let the sun go down on their anger. We do it all the time. Normal people get angry at injustice and unrighteousness.

Rooftop Snipers Protect LGBTD Grooming Children

With virtually the entire police department at the library protecting aberrational conduct practitioners, what about crimes that actually took place during that time? Oh we get it...you were needed someplace else. Somehow the priority system seems to have some flaws.

5G: Bigger Hot Button Than I Thought

**Please note: If you are not aware of the dangers of 5G and what the term "5G" means, please read my last [NewsWithViews.com](https://www.newswithviews.com) article before reading this one, or you may*

not understand the terminology in this article.

I was surprised by the amount of response to my article on June 2, 2019 about the life-threatening dangers of 5G. Since then, a lot has happened.

At the time the article was published, the Brussels, Belgium, announcement rejecting 5G had just been made. Thus, it didn't get much coverage.

Celine Fremault, the Minister of the Government of the Brussels-Capital Region with responsibility for Housing, Quality of Life, Environment and Energy said:

"I cannot welcome such technology if the radiation standards, which must protect the citizen, are not respected, 5G or not. The people of Brussels are not guinea pigs whose health I can sell at a profit. We cannot leave anything to doubt."

How nice it would be if our politicians didn't view us as guinea pigs when it comes to 5G.

Belgium's Ms. Fremault is not the only government official in the world who has stated concerns about the potential negative impact of 5G on community health. Within two weeks of my article, the (Great) State of Louisiana passed House Resolution 145 with its legislature voting 103 in favor of passage and zero opposing the measure.

Louisiana's House Resolution 145 tells you why all citizens of this country should be concerned about federal and state governments rushing to implement a technology on which no tests for human safety have been done. It says this:

"RESOLUTION

To urge and request the Department of Environmental Quality in conjunction with the Louisiana Department of Health to study the environmental and health effects of evolving fifth generation cellular network technology (5G) and

report its findings to the House Committee on Natural Resources and Environment and the House Committee on Health and Welfare no later than sixty days prior to the convening of the 2020 Regular Session of the Legislature.

WHEREAS, 5G technology is intended to greatly increase device capability and connectivity but also may pose risks to the environment due to increased radio-frequency radiation exposure; and

WHEREAS, a study is necessary to examine the advantages and risks associated with 5G technology, with a focus on the environmental impact and potential related effects; and

WHEREAS, peer-reviewed studies on this topic show the potential for wide-range effects; and

WHEREAS, 5G technology requires small cellular towers to be placed a short distance apart, closer than existing towers, at telephone pole height, and will operate in conjunction with the 3G and 4G technology infrastructure; and

WHEREAS, the insurance industry may have placed exclusions in policies to exempt damage caused by this technology; and

WHEREAS, certain manufacturers provide warnings to consumers regarding the reception of devices using this technology; and

WHEREAS, input is needed from the technological and other communities as well as persons involved with developing 5G technology.”

The language of the House Resolution 145 then closes with appropriate legal language and signatures. If your legislature isn't concerned about your health and is not discussing this important topic, perhaps you should send them a [copy of the Louisiana legislation](#).

If the line about insurance companies excluding damage caused

by technology does not convince you of the danger, you have a lot to learn about what the statement "Follow the money" means.

In my last [News With Views](#) 5G article, I pointed out the lesser health problems scientists have linked to 4G electromagnetic fields (EMFs):

According to the [EUROPAEM EMF Guideline 2016](#) for the prevention, diagnosis and treatment of EMF-related health problems and illnesses, there are less serious but bothersome illnesses caused by human exposure to Electromagnetic Fields (EMFs). *These ailments are the result of 4G, not 5G technology* (which is not broadly in use yet). Since 5G technology creates much stronger EMFs than does 4G, it is apparent why governments that are concerned about the health of their citizens are not readily accepting 5G. Here is what scientists say 4G has caused:

- Fatigue/weakness
- Sleep disturbance/insomnia,
- Headaches/migraines
- Brain fog/difficulty concentrating
- Depression or anxiety
- Memory loss
- Visual disruptions/light sensitivity
- Skin problems
- Heart palpitations
- Dizziness

I added more serious 4G problems like cancer, leukemia, reproductive problems, dangers to pregnant women, and many others. [My article](#) can also be found at a blog I created to make extensive 5G information available to the public. If you prefer video to reading, this [is a great but short video](#) I

posted to the blog.

If you do not get in touch with your legislators and tell them you will not tolerate being used as a guinea pig, expect them to take the big bucks from lobbyists who represent high tech and cell phone companies and go merrily on their political way – unfortunately they may find out about the dangers when a family member gets critically ill five years from now.

The emails I received from my last 5G article were interesting. Almost all were positive and thanked me for the information. The only negatives fell in two categories: 1) a correction; and, 2) high tech geniuses who view 5G as the Holy Grail and who emphatically state that it is designed to work safely

Here are the statistics provided to me by a fact-checked article about the amount of microwatts allowed to maintain public safety by governments around the world.

USA/Canada = 1000 microwatts /cm² (same as ICNIRP 1998)

Auckland (New Zealand) = 50 microwatts /cm²

Italy, Russia, Poland, Luxembourg, Paris (France), Hungary, Bulgaria, China, Switzerland – 2.4 to 10 microwatts /cm²

Salzburg (Austria) = 0.0001 microwatts /cm²

One reader whose husband is an electrical engineer suggested the listing for Salzburg looked ridiculously low to him. It is very low but came from a credible research source. She stated an Austrian official told her:

“Austria has imposed the WHO/ICNIRP limits for the protection of the general public from radio frequency EMF without any deviation from the recommendations by the WHO, ICNIRP and EU Council.

Any claims that there are stricter limits than ICNIRP in Austria are false.

This says that the Austrian limits are the same as the US, a factor of 10 million higher than the author claims.

When I mentioned that the values were for Salzburg, not Austria, he responded:

Not so; Austria's levels are determined solely by the federal govt. Salzburg did request a lower level, but the request was denied. Furthermore the report is incorrect by a factor of 1000 regarding the Salzburg request. Very poor scholarship."

I have been unable to confirm this... have been unable to contact anyone in Austria. It is relatively meaningless – other than statistics should be correct and I appreciate her efforts in trying to find the exact Salzburg microwatt limits. To me, he sounds like a typically arrogant European bureaucrat. If Austria wants to be as irresponsible to its people as Canada and the U.S.A., they're entitled.

The comments from high tech geniuses were more difficult but in their own way made clear to me why there is so much confusion and disagreement between the "high tech experts" and the medical communities about how EMFs are supposed to behave versus how they actually interact with the electromagnetic fields our Creator gave human bodies. Quite simply, high tech experts have done no safety tests to find out how the two interact. The scientific community seems pretty sure EMFs created by technology are incompatible with the human EMFs in our bodies and are making changes to our DNA. That it is having negative results and causing disease. Techies come at the problem from a totally different perspective than scientists involving human health do.

What I know for absolute certain is this:

1. We are being told lies about 4G and 5G and the dangers they bring to human life... to all animal life, to vegetation, to climate, and to weather.

One man, Ron from Grants Pass, Oregon, contacted me. He repairs the huge electric advertising billboards along our highways. He informed me that radiation is being used in those signs and that before he is allowed to do repair work on them, the signs must be turned off for the workers safety. This makes perfect sense because they are putting 5G into street lights in our neighborhoods without telling us.

2. The Federal Communications Commission is about as independent of high tech companies as the Federal Drug Administration is from pharmaceutical companies.

This is important because the FCC is a perfect example of bureaucrats making laws via regulation – agencies of the government are not elected by the people, do not represent the people, but are making the regulations that make it impossible for your elected city officials to determine on your behalf whether or not a tower located close to an elementary school is safe. FCC regulations tell cities and towns that they may not refuse to build a tower just because it poses dangerous health problems... ten times greater for children than adults.

One reader, Kathie, sent two really good links which I will be posting to the blog. The first link states: [**"This is the consensus of 29 authors from ten countries, ten holding medical degrees \(MDs\), 21 PhDs, and three MsC, MA or MPHs. Among the authors are three former presidents of the**](#)

Bioelectromagnetics Society, and five full members of BEMS. One distinguished author is the Chair of the Russian National Committee on Non-Ionizing Radiation. Another is a Senior Advisor to the European Environmental Agency.”

The second link is about [“Kill Zones USA.”](#)

3. I know that very few of you will send a copy of the Louisiana Resolution to your state legislators. Better to stay uninvolved, right? Diseases caused by EMFs are the new tobacco. Because disease doesn't show up immediately in most cases, you'll feel safer as each year passes... until it finally gets you and then it's too late.

You might want to read the [Urgency legislation](#) passed by an affluent community north of San Francisco, Mill Valley. It explains the difficulties caused by the FCC regarding tower installation and how the city can maintain co-location control of what else gets placed on the tower. One of the biggest problems with new towers being installed is the FCC's regulations which require tower owners to say "yes" to those who request to use the tower to place their technology on it, too. You end up with military, police, radio stations, and,

yes, 5G, being added to your tower when you didn't intend it – and don't want it.

You now have in your hands copies of state (Louisiana) and city (Mill Valley) legislation that can help you convince your local legislators to stop sitting on their hands, and do their jobs: Serve the public interest.

The rest is up to you.

The Asexual Revolution And The Wrap-Up Of Earth

If you're older than thirty, you'd have to have been living under a rock to not see the drastic changes in society and cultural norms for sexuality, marriage and the family. They have changed dramatically here in America, and relatively quickly.

Founding Fathers Would Abhor #MenForChoice Fathers Day

Perversion

We must not allow Father's Day, the month of June, or the families in America to become co-opted by this evil, dark and bitter anti-life agenda. Fathers, we have a duty to make sure this happens.

Seven Reasons Why Trump Could Lose In 2020

Trump's great service in the first two and a half years has been the turning on of the U.S. economic engine. Trump's economic successes are possibly his greatest strength. His America First economic policies to bring back long-forgotten industries, the increase of wages and the stock market boom will go a long way in efforts to attract more Midwestern voters that have traditionally been pro-labor Democrats.

Forget The Bomb: Beware Of Islamofascism

The danger of the bomb in the hands of the Mullahs has not disappeared, in spite of what the mainstream media and the Useful Idiots claim by misrepresenting the NIE report. The NIE guesses that the Mullahs seem to have ceased the construction of the warhead in 2003.

It Is Time To Save American Jobs And Say Goodbye To Illegal Border Crossers

As much as I admire the president's overall zeal to protect our borders and stop illegal border crossings, I am concerned about his wrongheaded desire to increase legal immigration. Currently 1.5 million people legally immigrate to our shimmering shores annually. In my opinion, that number is too high.

Oregon Governor Kate Brown Threatens To Call State Police On The Republican Legislators

Two Oregon patriot's spoke out the warnings but no one listened which has brought us today to the Republican walkout by the Oregon legislators and leaving the state thereby keeping the Democrats from a quorum and Oregon Governor Kate Brown threatening to call the State Police to bring them back to the legislature.

Venezuela's True Problem. Part III

Venezuela, a country sitting atop the world's largest known oil reserves that just a few decades ago was incredibly prosperous, thriving, and Latin America's richest nation, is now plagued with chaos, starvation, and an oppressive police state. An economist calls it "the single largest economic collapse outside of war in at least 45 years."

General Flynn Hires Firebrand Attorney Sidney Powell

General Flynn has hired a brilliant powerhouse attorney who knows and understands the corruption in DC. Sidney Powell served in the Department of Justice (DOJ) for ten years in both Texas and Virginia and for the past twenty years has devoted her private practice to federal appeals where she was lead counsel in more than 500 appellate cases.

Is Anyone Else Homo-Nauseous?

What is wrong with the Church? Can't they see what is

happening to America? Can't they see what is happening to our children? Can't they see that the rug is being pulled out from under them?

Communism Can't Happen In America, Or Can It?

Socialists have learned that they don't need guns or a revolution just the right words and policies in order to create a non violent revolution. This revolution which has been going on for about 100 years is now out in the forefront. These communists are legally using our own rules and laws and yes even the constitution.

196,000 Illegals Just Released Into American Cities With All The Freebies

In the last week, about 2,500 border crossers and illegal aliens of the 5,500 released were dropped off in El Paso, Texas. Another 1,100 were released by DHS in San Antonio, Texas and another 1,100 were left in 1,100 Phoenix, Arizona. Since December 2018, El Paso has been forced to absorb nearly 70,000 of these nationals, while San Antonio has had to take 73,100.

There Is No Law But Democrat- Deep State Law

Our corporations and unions are another enemy that has merged with the government against the people. Our government, instead of serving us, gives corporations and unions pretty much of a free hand while pitting us against each other. Government has lost its connection to the Constitution and exceeds its authority more and more each day.

We Must Reject LGBTQ Craziness Becoming America's Accepted Norm

Turning around in Walmart, I saw a large exhibit of Listerine mouthwash. The exhibit was covered in rainbows stating that it was in celebration of LGBTQ (and other alphabets that I can't remember) pride. The wording on the exhibit preached to us about love, respect and anti-bigotry.

Church Silent When POW/MIA Flag At County Vietnam Veterans Memorial Was Replaced With LGBTQ Flag

What prompted me to the computer this morning to put this piece together was the taking down of the POW/MIA flag at the Montgomery County Vietnam Veterans Memorial in Rockville, Maryland and replacing it with the LGBTQ homosexual flag. Apparently the month of June is considered pride month.

New York State Pays Out Over \$60,000 For Registered Sex Offenders

Please, give me a break; hypertension and other conditions can be treated by other medications. Who in their right mind is going to give an ED drug to a registered and possibly dangerous sex offender? Are the people making these decisions crazy, or just brain dead?

AG Barr: Indict And Prosecute These Governors And Mayors

That AG Barr must make very clear to individuals like Christopher Wray, Director of the FBI (another horrendous mistake by President Trump for even nominating Wray) that cover-ups, blatant stone-walling, and refusing to turn over documents to members of Congress will not be tolerated.

America: Willful Blindness

In short: Mild Islam is not all that obtrusive, since it is like the early stages of pregnancy. Yet, pregnancy it is. And before long the full-term beast will make its appearance. If we don't want to deal with the beast, we need to prevent the pregnancy in the first place.

Invisible World Of Caring: Discover Your Destiny

Much of life in every civilization revolves around money, power and status. Some youngsters enjoy instant success from their parents while others begin in poverty. Everyone learns the ways of the world by the time they reach 18.

Conservatives Win Court Battle Against IRS For Discrimination By Obama And The Democrats

U.S. District Judge Michael Barrett ruled that the IRS, quite possibly the most feared agency in the federal government, was misused by the Obama administration to unfairly target citizens for holding peaceful political views.

Father's Day Includes Step Dads

Anyone can be a father. But not everyone can be a dad. Be sure to acknowledge those step dads fully, even a neighbor that became like a dad to you when you did not have one.

The Disgraceful Condition Of

American Education, Part 1

Our Founders believed that education, proper education was imperative to a prosperous nation. They put a high value on a good education. They believed that one of the most important aspects of education was to learn about their own nation.

Why Does God Punish Nature For Mankind's Spiritual Ignorance?

So obviously, nature (creation) suffers greatly for their greed and apathy. Mr. V.V., you may not believe this in Biblical terms, but there is a huge cancer in mans' souls, spirits and minds! It is called sin! Which simply is the disobedience to God's laws.

Blessed Are The Peacemakers

A paradox in Christianity is the exaltation of childlikeness juxtaposed with the call to be mature, responsible and valiant people. Somehow God works in the chemistry of family life. It happens over years of hard love, choosing God over all else. A small group of souls binds together into a family.

Sunday's Tony Awards – From Boffo Opening To The Toilet

I was saddened by this Tony Awards Show as well as being deeply disappointed. Overall, the Broadway offerings are a turnoff. In my younger days I did do a stint on Broadway and appeared in several films along with countless road shows. I am glad I was in that business before it came down into the gutter like today.

Donald Trump, Tea Rooms and Treason

If President Trump was on his very best behaviour and in awe of the royal family, as reported by a very biased media, than Piers Morgan had been equally cordial, later publicly thanking him that he had agreed to the interview, and also pointing out the misdemeanour's of a previous president, namely President William Jefferson Clinton, whilst actually still in office. I had literally wanted to cheer when he bought up the obvious.

A Thirteen-Year-Old Is Threatened While Standing For Life In The Womb

In reaction to the middle schooler's oration regarding the protection of the pre-born, shouting progressively became louder until her voice was drowned out altogether. Despite looking understandably frightened, Addison Woosley wrapped up her speech confidently and walked alone back to her seat where the thirteen-year-old girl was berated and jeered at by adults in the crowd.

US Company Favors Hiring Immigrants Over Citizens; Trump DOJ Victorious In Fight For American Citizens

Overall, we believe DOJ components must establish effective management controls and sufficient oversight to fulfill their obligations to DHS, protect the public, and achieve their objectives of furthering investigation and prosecutions. Today's report makes 10 recommendations to assist the DOJ and its components in the oversight of sponsorship activities.

Do American Females Understand What Freedom Is Or Want It?

Since I began hearing and understanding American females, the subject they most often discussed has been their rights. When I began studying the United States Constitution it was easy to understand it was for all people. In our republic turned mob rule democracy, females and other special interest groups seemingly enjoy more liberties than real men could ever dream of.

We Just Can't Afford To Look The Other Way Anymore

Now, make no mistake, persecution is the result of an obedient life lived for the glory of God. We are sheep among wolves, but not ordinary defenseless sheep. We are to be shrewd sheep that understand the ways of the world and how we are to combat evil.

Betsy DeVos's Education

Choice And The “Free Lunch” Trap

March 11, U.S. Secretary of Education Betsy DeVos announced at the Council for American Private Education (CAPE) State Directors Annual Meeting that the Department will no longer enforce a restriction barring religious organizations from serving as contract providers of equitable services solely due to their religious affiliation.

Stop This Wicked Transgenderism

Our culture has gone “transgender”-mad. Not that there’s any such thing as “transgender.” There are only profoundly disturbed people, and liars who encourage them, who say they’re “transgender.” I have to put quotes around it because it isn’t real. Nowhere does “transgender” fly so high as in our public schools.

Growing Drive To Destroy The Beef Industry

However, the beef industry cannot recover on its own. There must be outrage from the consumers who are facing higher

prices, possible inferior meat, and the danger of disease because of this sustainable tyranny. If you want the right to your own food choices instead of the dictatorship of radical Greens, then get mad. Demand that "Country of Origin" labels be put on all beef products so you know where your food comes from.

The Constitution Means What The Constitution Says

I recommend every family in Oregon should have on their library shelves the CURRENT Blue Book filled with history about Oregon plus names of all elected officials and their background and the Bill of Rights. In my current Blue Book there is an Article VII (amended), the Judicial Branch and Article VII (original) which has caused the problems in Oregon since November 8, 1910. The Judicial Branch.

Is The President Attempting To De-Criminalize Sodomy?

In 2010, former Minneapolis Park Police Captain William Jacobs was charged with sexually abusing a 15-year-old boy from 2007-2009. Prosecutors added child pornography charges to the mix after police found 40,000 pornographic images on hard drives and DVDs in his home. Seventeen more witnesses came forward to testify that Jacobs abused them between 1962 and

1980.

Crushing Regulations Spell Doom For The Rural Landowner

We learned recently that we blind-sided the commission with our allegations against the land use administrator and their land use code. As a result the rancher was able to obtain his permits. He was very grateful. This is just one of tens of thousands of stories of the rural landowner being besieged by draconian regulations, city, county, state and federal.

Democrats Trashing Trump Are Trashing We The People

([True Conservative Pundit](#)) It's simply amazing to this writer at times (only for a minute or so) how low the Democrats will sink into the filth and mire to enforce [the Democratic playbook](#). Actually, it rather disgusts and sickens me, as well it should any *right* thinking human being, and I do *not* mean Republicans.

What is the Democratic playbook you ask? These days it is pretty simple actually:

- Impeach Trump
- Defeat Trump in 2020
- Oppose anything Trump does – even if it is for the good

of this country

- Mire the Congress and the country down in endless investigations of Trump and company – while lying and smiling for the camera
- Preserve the right to murder babies (infanticide) at all costs
- Keep the Southern Border open and porous.
- Support socialism/communism
- Transform the U.S. into a third-world country ([Venezuela](#))

It was the [Democrats who attempted to derail a Republican campaign using false information](#) with the power of the U.S. government behind it. It was and is the Democrats and their Republican RINO allies who have pushed for the election of Donald Trump to be over-turned. It is the Democrats who are seeking to unseat a duly elected president through spurious means including calling for the use of the 25th amendment, and impeachment – for which they have NO legitimate grounds.

There is also a growing movement, again by the Politicrats to subvert the election process. This idea – electing the president via the popular vote only, is gaining steam with many states. I have written a couple of articles on why this is a very bad idea. Do you think everyone's voice should be heard in the presidential election? That WILL change if the Politicrats have their way. The goal here is to guarantee that there will [never again be a Republican president](#), while suggesting that [utilizing the popular vote only, will make elections more fair – in fact, it will accomplish the exact opposite](#).

Many will say that this cannot happen (ditching the Electoral College), many have told me I am wrong. Those who think this

cannot happen are not paying attention. This is a serious threat, and it CAN happen. So it's unconstitutional, big deal. Has this stopped the Politicrats thus far? NO, it has not. Why does anyone at this point think that the Politicrats will follow the Constitution and the rule of law when they have repeatedly demonstrated their willingness to disregard the Constitution and the law at will?

Even as new evidence continues to come out as to the [real perpetrators of crimes](#), the Politicrats are *still* seeking to find non-existent evidence that Trump and/or his staff committed a crime(s) in order to win the 2016 election.

Adam Schiff is still living in fantasyland and dreaming of a Trump conviction for wrongdoing. This despite the fact that Mueller did not find any evidence of a crime or collusion. Apparently he was not looking hard enough.

From [Real Clear Politics](#):

"REP. ADAM SCHIFF: Well, this has been a concern I've had for quite some time. It appeared to me that Mueller was not following the money."

So, Adam shifty-Schiff would have us all believe that Mueller, the Democrat's fair-haired boy just ignored evidence that would have brought charges against Trump? The very thing Mueller worked so hard to achieve for over 2 years, and he just looked the other way? Also, Rosenstein who signed off on at least one illegal FISA application did not allow Mueller (within the supposed scope of the investigation) to pursue this alleged *evidence*? Does anyone actually believe this? One has to wonder if Schiff is just this desperate, or if he actually *is* stupid enough to believe his own rhetoric.

The Politicrats (Democrats and RINOs) have [no agenda](#) that in any way brings fact-based solutions to the table in order to solve any problems America has.

The Politicrats would rather kiss the camera, spend money like a drunken sailor, and line their own pockets while enjoying all the perks of power courtesy of We the People's dime.

The Politicrats are like two-year-old children with a new toy, they can't wait to take it out and play with it at every opportunity – namely the Get Trump toy.

If anyone dares to throw facts in their faces, all these anti-America fools can do is to blather on spouting untrue nonsense carefully prepared to almost sound intelligent while really saying nothing at all. On top of that, the America hating mainstream media backs every comment, and every move of these American-in-name-only backstabbers.

Where was the appropriate outrage when lying Obama covered up Benghazi? Where is the outrage now that the evidence seems to point to (strongly) Obama's involvement in the plan to prevent Trump from ever being president? Where was the outrage at Hillary using an unsecure server to send and discuss classified material that wound up in enemy hands? Where was the outrage when FBI protocol was set-aside during the Hillary *interviews* concerning her unsecure email server? The free pass given to Hillary by James Comey? Where was the outrage when the U.S. government abused its power in an attempt to railroad Donald J. Trump?

That's right, I forgot – the Left hates Trump and anyone like him, so that makes all of this ok.

Before The Income Tax, Our Nation Was Supported By Tariffs

If we subsidize our farmers and those who lose during this battle, a battle that we continue to fight over a period of five years or more, manufacturing would again start up in America, first with small businesses, and then it would spread. Our nation would again be one of productivity, surplus, and financial growth for her citizens.

America's Last Stand

The 2020 election is not about Trump or the chosen Democrat. It is about America. It is all about controlling the world. America is in the way with its foolish idea that people

can rule themselves.

President Trump: Bold Immigration Plan For The 21st Century

America has not seriously reformed its legal admissions system in more than 50 years, since Lyndon Baines Johnson was less than two years into his tenure as President. As a result, the developed world today from Canada to Australia is outpacing the U.S. with modern immigration systems that attract the best talent and offer the most opportunity of anywhere on Earth.

Islam In America

While the Islamic fire appears contained, Muslim organizations across the United States are busy and work “stealthily” to change and alter America from within in what is called “Soft Jihad,” or “Cultural Jihad.’ Soft Jihad is in place where the sword of jihad is not advisable, where Muslims are not powerful enough to unsheathe their sword.

Change Your Life With P.A.C.E.

In order to become a person who relishes daily living, you enjoy the choice to create a “Positive” mindset. You may feed the “animal” in your mind with your highest and best thoughts. You may be an introvert or an extrovert. By changing your thinking, you brighten and enliven every cell in your body. By changing your thoughts to positive energy, you create a positive outcome.

Extreme Danger: These Illegal Aliens Must Be Quarantined

The massive invasion at our Southern border continues while Democrats whine and pee all over themselves using the worn out “for the children” and racism to support the hordes coming across the border. Coming for your job and wallet.

Law, Plus Grace, Equals Salvation

One more important point in closing. It is impossible to come to Christ for salvation by and through His amazing grace, unless, and until, an individual brings forth fruits (sorrow,

attrition, mourning, and a contrite and broken heart for their sin, i.e. breaking of God's law) meet for repentance!

Our Authority Over The Enemy

Why does our culture and our world continue to spin deeper and deeper down the drain of sewage and depravity? Everywhere we look, good is called "evil" and evil is called "good." Everything is backwards from God's natural order. Everything is a demonic counterfeit of God's perfect plan and design.

A Constitutional Crisis, Part 4

The last but very important point is our Founders did not want a foreign entity to be able to hold the highest office in the land, the presidency. That's why they called for what is referred to as a Natural Born Citizen to be able to hold that office. The Constitution does not define exactly what a Natural Born Citizen is. So say it is someone born in America but that is not the proper definition.

Anti-Trump Traitors Rip Blindfold Off Lady Justice

What anti-American zealots in government and media are doing to president Trump is unprecedented and should scare the heck out of every American. They have created a parallel universe void of truth and reality. In the midst of Trump actually making America great again, millions of Americans believe Trump is a Russian agent, mentally ill and leading America to destruction.

Trump Badly Advised On Homosexual Agenda

President Trump is running for re-election, although the formal announcement won't come for a couple of weeks which may have a bearing on what has just taken place. Someone obviously convinced him that it would help him in 2020 to launch a global campaign for homosexuality, better known as Sodomy, and to launch it now during the month of June which is considered 'Pride Month'. Trump took the bait. Talk about getting bad advice!

The Sludge Sisters

Yet, the Jew haters plod ahead, as we can see by the new Sludge Sisters in the U.S. Congress—Rep. Ilhan Omar (D-MN) and Rep. Rashida Tlaib (D-MI)—and their sycophantic supporters, including the Speaker of the House Nancy Pelosi, who is so intimidated by these far-left racists that she has rewarded them with influential positions on House committees.

Killing With Kindness, The Spokane Library And The Michael Jackson Effect

Jackson suffered from severe insomnia so Dr. Murray administered the Propofol to help Jackson relax and sleep. Only Propofol is an extremely dangerous drug requiring careful monitoring of the patient after it is administered, something Murray did not do. Murray would serve two years in prison for criminal negligence over Jackson's death yet still maintained his innocence of any wrongdoing.

A New Growing Strain Of Anti-Semitism

Ilhan Abdullahi Omar of Minnesota, a Somalian by birth

and Rashida Harbi Tlaib of Michigan, of Palestinian descent are the first two Muslim women ever to serve in the US Congress. They have been given carte blanche to do and spew anything they wish without any retribution or repercussions.

Made For Hollywood On Oregon

Let's face it folks," there is a war being waged against the world's Christians and unfortunately American Christians have been lulled or shamed into silence while secular and progressive voices in media with the fake news and our own government have sought to keep us in the dark about the brutal, worldwide war being waged, in a growing and record number of countries," said Dede Laugesen, executive director of Save the Persecuted Christians

Watchman On The Wall

Tragically this list can go on and on and like the boiling frog in the kettle they've been slowly increasing the heat over decades and we are just about cooked. One thing about this boiling frog scenario, wouldn't you think that somewhere in this cooking process the poor thing would realize it's in serious trouble, right around the time the bubbling begins? I don't know about you but I'm feeling bubbles. Are you?

America: We've Become A Contradiction Wrapped In Absurdity

The real American way is simple. If I own a fast food chain, I stand with the food chain that stands by its beliefs. If I own a bakery, I stand with the baker that holds fast to his beliefs. Otherwise, I open the door to people who may want to eliminate my business because my worldview may be contrary to theirs. Maybe we should boycott the tyrannical fascists.

We Rained On Hillary's Parade

As I wrote back on May 23rd, we made a trip to Hillary Clinton's home in Chappaqua, New York. The reaction of folks to our plan ranged from being called foolish to dangerous. No one messes with the Clinton's and gets away with it, at least that is what several well meaning, cowards told us. How long are we Americans going to continue to live in fear?

Immortality For Dummies

This is, like, so simple! All you've got to do is slow the clock way down and reverse that universal law of thermodynamics that says that all systems naturally and inevitably grow more random with the passage of time, until

they break down. God addresses this by translating souls to a place where time is not an issue; but in this fallen world, it is. So you hire lots of Science and you cure aging! No sweat.

Condom Races By 10 And 11 Year Olds To “Aroused” Statue In Public Schools

And where is the Child Protection Agency (CPA) in all of this? Aren't they supposed to be protecting children? If so there is no evidence to support that. The only thing CPA will take children into custody for is if parents will not let them take part in LGBTQ events. Home Schoolers, parents, ORGANIZE and fight back. They are grooming our children for improper reasons. This must stop

How To Detect A Business That Is Serving Itself – A Business Soon To Be Out Of Business

Deceptive business owners can only take advantage of people for so long before people catch on. People are not stupid. If people do not feel like service is being done on their behalf

and that they are getting their money's worth and feel like they are being taken granted for, again, you can mark my words, that's it for your business.

What Happened To America's Will To Be Free?

We wrote this article in response to the lack of response we received for our Citizen Grand Jury project to stop illegal immigration. We spent days and days putting this project together, creating the web page and drafting the documents. But alas we were forced to scrap it due to insufficient interest. If enough people had participated, it would have been effective. Essentially, we were greeted by a deafening silence.

Can You Read, Do You Read?

Part of my work here at the Institute on the Constitution involves making presentations across the country about matters of law and government and the Constitution. Sometimes, I'll ask the members of the audience to raise their hand if they have ever read a Supreme Court opinion.

Lighthizer's USMCA Is Not What You Think It Is Mr. President

Mr. President, I wish you had read the United States, Mexico Canada Agreement (USMCA) deal by Robert Lighthizer. Why? Because what are you going to say when all the chickens from the great betrayal of the USMCA trade deal come home to roost?

Roger Stone Is Innocent – Caught In The Path Of A Runaway Corrupt Special Prosecutor

Mueller and his band of pro-Democrat Prosecutors wanted to take down President Trump in the worst way. To get to President Trump, they were willing to mow down anyone who wouldn't cooperate with their agenda. Stone has been unwilling to turn on the President and he's currently paying a heavy price for it.

Venezuela's True Problem.

Part II

In 1941, U.S. President Franklin D. Roosevelt appointed Nelson Rockefeller as coordinator of the newly-created Office of Inter-American Affairs, thus saving him from the draft and giving him a free hand to mess in the politics and the economies of the countries South of the border. As expected, one of his main targets was Venezuela.

Robert Mueller, The FBI And Obama's Culture Of Corruption

Robert Mueller had joined Trump's National Golf Club in Virginia and seventeen years later, Mueller claimed the family was not making full use of the membership, and he wanted a portion of his \$15K back. The Club justifiably refused. Unbelievably, this is included in footnote 529 on page 80-81 of the Mueller report. No doubt Mueller had negative feelings for Donald Trump.

Islam: America's Historical Failure

Will America stand a chance to defeat Islam? A short answer

is, it all depends! Thus far, sounding the alarm for decades about the ever-increasing menace Islam poses to America has not worked. Honestly, I don't know what will work! Apathy, political correctness, and massive Islamic lobbying have successfully prevented the public from truly grasping the all-pervasive, invasive Islamic assault.

Immigration Agents Capturing Illegal Aliens Despite Democrats' Sanctuary Cities

The governments run by far-left Democrats believe they possess a winning argument for allowing undocumented foreigners – encouraged by politicians to flaunt U.S. laws – to enter this nation without permission or authorization as well as to partake of social programs such as free education, free healthcare, free housing, food stamps and other perks.

Barr Needs To Take Christopher Wray To The Woodshed

FBI sniper Lon Horiuchi put a bullet right through Vicki Weaver's brain while she was holding her infant daughter at what has become known as Ruby Ridge. NO QUESTION about that

fact. She was standing in a doorway holding a baby and represented NO threat. Horiuchi did not have to pull the trigger.

Bottled Lightning: Skin Your Knees On Eternity

Second, harness your youthful exuberance not only in your teen years, but choose to maintain your energies throughout your entire life. It's been said, "Life deals you high and low cards, but you play with the hand you're dealt. You can bluff your way through or you can play it straight. Either way, you win or lose on your chosen merits, talents, skills, education and actions.

'As In The Days Of Noah'

Here we had a modern, ultra-liberal lady pastor, (and very likely a practicing lesbian, based on other things we observed), surrounded by adoring members of her congregation, and she was instilling doubt in the minds of her flock – doubt that the Bible could be trusted, and more than that, she was actually holding Biblical Scripture up for open mockery and ridicule – along with anyone who would believe God's Word.

A Constitutional Crisis, Part 3

There seems to be no end to how far the Democrats will go and how many of our Constitutional rights they are willing to trample to get their way. Obama used the IRS to attack his political enemies. "The power to tax involves the power to destroy," the Supreme Court wrote in 1819, shortly after America began. Now in 2013, President Barack Obama is launching a frightening attack on free speech, using one of the most feared agencies in all the federal government: the Internal Revenue Service.

5G: A Plan To Depopulate Earth?

Do you use a cordless telephone? A cell phone? A Smart phone? A Smart television? Wi-Fi? A Wi-Fi router? A Smart meter? If so, for the sake of your own life and health, you need to read this article. Information about health dangers is being withheld from you.

The Case For Abortion Is

Answered In Job

The burden of those unwanted children born in a ghastly untimely manner would take its toll on other people. Other people would have to raise them. Other people would have to clean up someone else's mess. Other people would fail these children and create even more obstacles for these children to overcome or be obliterated over.

The Internet And Social Media Turned Me Into A Shallow Headline Reader

Finally, there's politics in the twilight zone. Never matter that we only have 12 years before the world goes up in flames. Put down your coffee because it's painful when hot coffee spews out of your nose. Joe Handsy Biden assures us that President Trump inherited the great Obama Biden economy. They tell me that old blue-collar Joe knows. And this is why they need to eliminate the Electoral College.

Did We Forget About Memorial Day Already?

We are reminded every year during Memorial Day to honor these

men and women, and I do. It is a holy act for any individual to lay down his life in sacrifice for his neighbor. It is what Christ Himself did for you and me. Our children should be taught to honor and have respect for those individuals who practice this sacrifice as a way of life.
