

Why Are We Devolving America's Western Culture? Can We Save Ourselves?

The biggest lesson I learned: you can't mix incompatible cultures because they always end in conflict. You can't maintain competing languages in the same country. Why do you think Pakistan and India separated? Answer: totally incompatible religions, cultures and languages!

Don't Fall for the Flat Tax Scheme

"For forty years the tax and spend Democrats ruled Washington, DC, looting the people's treasury for social programs that are clearly outside their authority under the Constitution. LBJ's great society jump started this insanity and sadly, my parent's generation bought into their chains of dependency and have passed this mess to my generation. Their addiction was fed by Congress and the state legislatures for votes.

Devolving California Into A

Third World Nightmare

At the same time, I witnessed the decline from “extraordinary” to what it has become today: a growing third world trash heap of something around four to five million illegal third world refugees who have created an entirely “different” California. Added to that, an estimated 250,000 homeless Americans as well as illegal refugees.

March 31: Cesar Chavez Day: Honoring an American Hero

The story has been told now in many articles, books, documentaries, and a relatively recent movie of how Cesar Chavez, while working as an organizer in Los Angeles, became convinced a union for farmworkers had to be created if working conditions were to be improved. He quit his job. He and Helen loaded up their old station wagon with the kids and a mimeograph machine, and headed to Delano.

The Heart and the Way we Think

Jesus would establish His Kingdom with those who are born from above and endued with power from on high who would expand His Kingdom by making disciples of Christ. The coming of the

Kingdom of God would be whatever area of society and culture that are invaded by His disciples doing His will on earth as it is done in heaven would cause that part of society and culture to be conformed to God's will – the rule of God.

Darwin, Freud and Marx: Pitiful Little Triune gods of Militant Paganism

The French Revolution 1789/1800 resulted from the deliberate abandonment of Jesus and the Christian foundation of the rule of law, so that the most violent person could rise to power. This resulted in the infamous Terror, a couple of years where everyone representing the former government and the rule of law had their heads cut off.

Revival & Reverence, Returning To God

But according to this study, American churches have lost 82% of their attendees since 1970. Of course, they've tried many things to retain their congregations, but today, the vast majority of people are just not going to church anymore. Those that are, are often disappointed in their church or with their pastor...for numerous reasons.

Is Liberalism Dead (In All Forms)?, Part 4

Classical liberalism and homo economicus may have been “out” in most of academia, but they didn’t disappear. Their defenders – in economics, business, or their small corner of the intellectual world – doubled down. Sadly, they did so without considering factors, none of them political-economic in nature, that got secularized classical liberalism into trouble. Instead, they invented neoliberalism, elevated utility-maximization and monetization to the status of divine principles, and told us There Is No Alternative.

Signalgate Update

Democrat President Andrew Jackson addressed this quite well in *Worcester v. Georgia*, 31 U.S. (6 Pet.) 515 (1832) when he reportedly responded to then Chief Justice Marshall, “John Marshall has made his decision, now let him enforce it.”

Income Tax is the Root of All

Evil, Making a Constitutional Republic Impossible

I am writing on this subject again in greater detail, because we can never prosper in freedom while we are governed by the existing Criminal Enterprise, using income taxes against us. God bless President Trump for doing more than any other president to drain the swamp.

America Hating Rogue Black Robed Activist Judges Think They Outrank the President

Activist judges aren't the guardians of justice; they are usurpers in robes, intoxicated by their authority. They have transformed courts into super-legislatures, bypassing both presidents and voters. The Right cannot remain passive while these petty tyrants dismantle our republic.

March 29: National Welcome Home Vietnam Veterans Day

While more than nine million Americans served when the country called them to defend the nation of South Vietnam from aggression by Communist North Vietnam led by Ho Chi Minh,

anti-war demonstrations involved many thousands who condemned not only the war, but those who were sent to fight it.

Oregon's Wildfire Mapping Has Everything to Do With Property Rights

When Global warming became unprovable, the name was replaced with Climate Change but the plan remained the same –to deconstruct the world. In 2022, the Rockefeller Foundation announced that it would make the fight against climate change central to all of its work. At the same time, Governor Kate Brown took significant executive action to address the climate crisis, and Oregon adopted a revised Climate Protection Program in November 2024.

Standards, Critical Thinking, Reason and Common Sense

In Sam Jone's new book, *Five Steps to Kill a Nation*, he forcefully argues that a republic cannot stand without a citizenry of moral and virtuous people guiding the cultural mores and checking the public servants when they stray from the principles upon which these United States were formed. These citizens must have a common and objective ethical standard on which to base their shared lives and prosperity.

For God's Sake, Tell Folks the Truth!

I suppose it is dangerous to write about this topic...seeing how the idea of “judging” is no longer kosher in American Christianity. In fact, “Judge not”, a partial statement taken out of context by many American Christians, is the modern command of those practicing modern soft American Evangelical Christianity.

Heterosexual Discrimination

Ibriam Kendi is often quoted as saying “The only remedy to past discrimination is present discrimination.” Is that true? Above the main entrance to the Supreme Court is a promise chiseled into the marble façade: “equal justice under law”. How can we have equal justice under law if one side is always discriminating against another?

The Only REAL Surprise From the Assassination Papers

One thing we know for certain: The Deep State has NOT changed

its deadly plans. They still want us to shut up and sit down. They still want us to “own nothing and be happy”. Our Constitutional government gets in their way, and they will do anything and everything to win.

All Eyes On The Illegals! Media Diverts Attention From Treasonous Governors & Mayors Who Allured Them In

Today, Americans are being driven to their television sets by spin doctors to watch the illegals that have invaded their land. What is being highlighted by the networks are the crimes being committed: murdering American police officers, rape, drug and child trafficking, carjackings, targeting malls in cities throughout the country, and the list of crimes goes on (Deuteronomy 4:6).

Democrats Unelected Dictators

This is about much more than Donald Trump. Most of the so-called “resisters” have no clue what they are resisting or why. They have no clue that the only people they can enslave are themselves, not their perceived political opponents. Most would not be in our streets today if they were not being organized, financed and mobilized by the same people who

stacked the federal courts to undermine the Constitution.

Nuclear Generated Electricity Saves an Electricity-Starved World

All of us should be environmentalists at heart. Our daily purchases and actions should contribute to the preservation of clean air and water on the planet. Yet, we also care about our quality of life and our peaceful existence on this planet. So, we make compromises. One such compromise would be to ensure that any replacement for electricity production would be better than what we abandoned.

Big Pharma Wins, Dr. Dave Weldon Withdrawn From CDC Confirmation

According to Statnews.com, "Seventy-two senators and 302 members of the House of Representatives cashed a check from the pharmaceutical industry ahead of the 2020 election representing more than two-thirds of Congress, according to a new STAT analysis of records for the full election cycle.

The Skinny on Skinnier Food Packages

If shortages were to develop in home appliances, for example, people could adjust to the situation, but that is usually not the case with food. If the long prognosticated economic disaster should actually occur, food riots could break out, and famine could occur for the first time in the living memory of most residents of the First World. So the downsizing of the size of Gatorade bottles could mean much more than meets the eye.

What Does IQ Have To Do With America's Future?

What is the most important factor for a First World country to maintain its freedoms, its excellence and its success? Answer: a solidly educated citizenry that "wants" to learn and grow. It needs youth to excel in schools in the STEM subjects. An intelligent and educated citizenry remains the ONLY way to maintain a First World country.

Congress: End Judicial Warfare. Federal Judges are not gods

It's not 'March Madness' in sports, it's "judicial madness" that has hit this country like a Cat 5 hurricane. It's the same old playbook shoved down our throats the first time Donald Trump was lawfully and fairly elected president. The shadow government "got him" in 2020 through in-your-face election fraud and cheating.

Good Time For Truth

Moses spent 40 years in the wilderness getting prepared to be used by God. In the fullness of time, God commissioned Moses to deliver the Hebrew children from Pharaoh in Egypt. Moses asked, "Whom shall I say sent me?" God answered, "Tell them I AM sent you." (Ex 3:13-14) Why did God call Himself I AM? Perhaps I AM was an invitation to get to know God more than it meant to describe His identity.

Don't Let Your Weak Flesh Stop You

Worship of, and reverence for God is something all Christ-

followers have in their hearts, something we certainly want to make a priority, but often times, life just gets in the way, unless we are intentional about our spiritual commitment. The spirit is willing, but the flesh is weak, and today, both the spirit and flesh easily grow weary.

Progressive Marxism, Tammany Hall, Saul Alinsky, and DEI – The Creation of True Systemic Racism

The Marxist Democrat Party has nothing to lose at this point. Their favorability rating is the lowest it has been in over thirty years. Americans are disgusted and fed-up with racial, identity, diversity, and gender politics. The Founding Fathers intent for America must be realized once again. Continuing to assert tribal rights to quotas or reparations based on previous wrongs is itself racist.

**Eighty Years of
Unconstitutional Wars**

Required Income Tax & Corrupt Congress

A majority of Congress is complicit, corrupt, well-bribed and swimming in the blood of millions of dead innocents and 105,000 of our military. No group in history is more contemptible than a majority of the blood-sucking Congress that have no ethics, morals, honor or redeeming qualities whatsoever.

The Deep State Wears Black Robes

They say “elections have consequences,” except when President Trump tries to implement conservative policies. The federal courts are full of Obama and Biden judges and the Supreme Court is led by a “Republican,” John Roberts, who teamed up with a Trump nominee, Amy Coney Barrett, and both sided with the three liberals to dictate continued foreign aid boondoggle spending to the tune of \$2 billion.

Free Speech vs Abortion

Yes, the Supreme Court has failed to “provide clarity” in regard to their previous decision, but the fault is not all theirs. After all, the judges in the District and Circuit

courts took oaths to support and defend the Constitution of the United States, not the opinions of other judges. If either of those courts in this case had bothered to look beyond precedent, they may have seen the Fourteenth Amendment violation.

Supreme Court Rules Utah Doesn't Have a Right to Its Own Land

For well over 80 years our government has used methods that are not compatible with free state operations – and it has accelerated over the last 10 years, weakening the states abilities to deal with the 10th Amendment.

Keith Self is the Texas Titan Who Smacked Down the Woke Mob

Self's stance isn't about hate; it's about standing firm. In a Congress where too many yield to political correctness demands, he's a rare figure who chooses to face criticism rather than pretend to be polite. The woke mob can shout as much as they want—Self's not budging, and neither are the millions who see through the emperor's new clothes. He's a Texas titan

Ruled by the Unelected Bureaucrats

After losing all power in the Executive and Legislative branches of government and achieving the lowest approval ratings for the party in history, currently at only 27%, they have turned to the usurpation of Executive Branch authority via the only unelected branch of government, the courts.

Is The Democrat Party The Enemy Within?

The Democrat party is not simply irrelevant. Rather, it is America's greatest adversary, driven by globalist priorities and divisive policies – a decaying shell scheming to undermine the nation that Donald Trump revived. From the Rio Grande to the Rust Belt, patriots see the truth: This is a radical mob set on tearing apart our borders, our jobs, and our freedoms.

Trump's Fight Against

Corruption Must Come Home to Florida

While our President is in Washington DC literally risking his life to remove the corruption from our federal government, HIS party in HIS home state is seemingly as corrupt as anything he is finding in the nation. They are a danger to every Floridian.

The Dichotomies of Insanities Gripping the United States

How do you get your mind, emotions and arms around the insanities gripping America? Every day in the news, you hear or read about peoples' madness occurring in our cities that baffles your mind, cripples your sense of ethics and destroys your understanding of common sense.

Inside the Bloodthirsty Anti-Trump Resistance

It was at a recent local anti-Trump "resistance" rally that I took actual photographs of lunatics carrying posters and signs threatening the assassination of President Trump and a "guillotine" for Elon Musk. "Assassination is the highest form

of public service” one sign said.

Common Law v. Constitutional Law

The open call for all Americans to be “forever vigilant” in defense of our own Natural Rights, was intended to prevent the very real “constitutional crisis” we witness daily today. Until we have legitimate constitutional courts again, absent the use of British Common Law, we have no peaceful means to restore our Constitutional Republic.

Long-Awaited Sons Of Liberty 2nd Amendment Documentary Is Now Finished

Over the last 3-4 months, we have been working on a Second Amendment documentary with James Gillette that highlights constitutionally who we are and what our God-given rights entail (Hosea 4:6).

We all Have Choices to Make

Every executive order addresses reducing the budget is adding real growth through lowering energy costs. It drives the left crazy because they are finally being EXPOSED. As we are discovering, it takes an algorithm to find the corruption and money laundering. Elon is working with a group of extremely intelligent people and they have the algorithms.

Is Liberalism Dead? (In All Forms), Part 3

Modern art, modern literature, modern philosophy, modern music, all reflect to some extent a degree of dissatisfaction with industrial civilization and our anonymity within it. Some (especially the young) cast about for something more, had little trouble finding it, and this made the system as a whole vulnerable to infiltration by alien ideologies. That makes probing such ideologies essential to answering: is liberalism dead?

My Own Personal Trip Through the Devolution of Medicine

Our new Secretary of Health and Human Services will have his hands full trying to straighten out the disaster of America's

healthcare. The decline started in 1984 when Dr. Anthony Fauci was appointed as director of the National Institute of Allergy and Infectious Diseases. RFK Jr. only has four years to fix 40 years of destruction. Pray for him and pray he succeeds.

Democrat Lunatics & Maniacs Want Violence

Since Donald Trump was legally and honestly elected last November, brainwashed lunatics, insane maniacs in this country whether they be ignorant, empty headed female hosts on the propaganda box (TV both “mainstream and cable...The View top of the list), college students, and their America hating professors and the Democrat/Communist Party USA have been in meltdown the likes I’ve never seen in my adult life and I’ve been in the trenches full time for 31 years.

Discovering The Meaning Of Life: What Is It?

The one thing that our third president, Thomas Jefferson wrote, “Life, liberty and the pursuit of happiness”, continues to ring true in my mind for all of my lifetime. I am thankful for the luck and the privilege of being a citizen of the United States of America. That “luck” afforded me a life of personal choices and opportunities in whatever path I chose to

live this amazing journey that all Americans may choose.

Wholesale Treason on the Move

Most of the time, the people engaged in these activities lack even a basic understanding of the terms they toss around. They have been Pavlov trained to simply use these labels to silence the voices of anyone who holds a difference of opinion, no matter the subject matter. Usually, the people engaged in this activity themselves are guilty of the very things they accuse others of.

A New City Made for You

The Lord Jesus has made a new city for you. It does not have the foundation of a digital city or “smart city,” the false and shifting sand of “man-made climate change,” which leads to destruction. Its foundation is the Rock, Jesus Christ (Matthew 7:24-27). Have a place in it. Trust in Him today!

Don't Let Your Weak Flesh

Stop You

This is a once-in-a-lifetime opportunity, and that door of opportunity is open to you now...but now you must decide what you really want and need in your life. More of the same? Or something infinitely more deep and substantial? April 4 & 5 is coming up quickly. You owe it to yourself, your loved ones and God to commit to one weekend. Your spirit is willing. Don't let your weak flesh stop you.

A Good Time for the Truth

How about unity? Jesus prayed for unity in John 17. If you only gave the answer from the Word of God on any issue, there will be no division. Remember, we have no opinion or private interpretation in a kingdom with a Sovereign God. His Word is law and unchangeable. There would be no division about the rapture. The word rapture itself is not mentioned in the Bible.

Where Are Hillary-Trained Socialists Countrywide And Why Should We Care?

On the day of Donald Trump's first inauguration in 2017, Hillary Clinton used some of her former staffers and started a

nationwide organization to train young socialists to run for positions in state politics, to take those “down ballot races”. To spread communism at the “ground level”. THAT is why we must care.

Terminate Income Tax and all Unconstitutional Expenditures!

As is my wont to increase readership and understanding, this article covers only a small part of the issues facing us, but they are the most important. Dangerous possibilities do exist from criminal invaders and Communist gangs, so don't forget to have emergency food, an AR 15 or 12 gauge and plenty of ammunition!

Democrats Showcase a Masterclass in Self-Destruction on Trump's Triumphant Night

Let's be honest: this party has been on life support for years, and the other night they pulled the plug on themselves. They had a chance to pretend at least to maintain some

dignity, to sit there and endure like adults while Trump outlined a vision that, whether or not you agree, clearly resonates with the country. Instead, they opted for chaos

Bogus Myths Created to Promote Renewables

Net Zero, only in the wealthy countries that can subsidize renewables, is ineffective in achieving its primary goal and can never stop the weather changing. The impact of Net Zero policies is devastating for the economy and high productivity, electricity, all the more than 6,000 products made from oil derivatives, and the aviation, gasoline, and diesel fuels for our intensive industries in particular.

Hang Onto Your Seats! The Curtain is Being Pulled Back Everywhere

Now, Trump and DOGE must get rid of this reinvented government and put us back to a Constitutional Republic. That is the only correction that will put America back where it belongs – with individual freedom and property rights. Unless they do, we do not stand a chance.

America Needs To Take a 10 Year Pause On All Immigration

Let's look at the realities throughout America's civilization. A 747 jet plane limits its passenger number to exactly 416. Not one more person will be allowed onto that plane. A restaurant shows a limit of 110 people because that's its maximum seating. A pool limits its swimmers to 80 to make sure its lifeguards can safely watch them.

The New America First Generation

They say necessity is the mother of invention, and in that light, desperation might be called the father of shifting political winds. While the extreme left democrat party spent the past 80-years trying to turn our constitutional republic into a pure socialist democracy, destroying everything in its path, a new generation of pro-America young people was emerging.

Either You Are Saved From Your Sins, Or You Are Still Living In Your Sins

For example, look at a man in an Alcoholics Anonymous meeting. He is taught to sit in a circle with a room filled with others dealing with the same issue, say his name, call himself an alcoholic, and at the same time, believes that he is in the right place to get healthy. Ridiculous. By the way, how many have ever heard that alcoholism is a disease?

Mr. President, Byron Donalds is a Dangerous Choice for Florida Governor

The grassroots leaders of Florida's 19th District, call Wilcoxson, "Byron's thug." Unfortunately, many people believe that Byron Donalds is a strong conservative, but the facts tell a different story. Before anyone backs Byron, they need to do their homework, and that includes President Donald Trump.

Jawdrop After Jawdrop

Donald Trump kept his cool and good humor when most of us would not have managed that, despite the all out war waged against him for the last decade, by those he faced from the podium. Yes, it has been a decade since he descended that famous escalator and they began to fire on him, but Trump has only gained in strength and valor. A little divine intervention has seen to that.

Trump's Triumphant Vision as America's Renewal Shines in Historic Address

This was more than just a speech; it was a thunderous declaration of American greatness and a fiery testament to Trump's undeniable leadership. With unwavering resolve, he proclaimed, "America is back," unveiling a bold and brilliant vision that ignited cheers from patriots nationwide.

Canada's Descent into Globalism and Communism

Perhaps it is time for America to act. Trump's proposal to make Canada the 51st state makes sense from the point of view

of exploiting its natural resources for the benefit of Americans, a strategy that would also benefit Canadian citizens and safeguard their country in the process.

Trying To Figure Out Transgenderism, Identity, Gender And Reality

As to transgenders, the fact remains: a DNA biological male can “identify” as a female all “he/she” wants, but his XY chromosomes will NEVER be changed into XX chromosomes. “His” or “her” mind may choose another gender, but his body will never switch genders no matter how many drugs he/she/it injects or consumes.

Good Help Is Hard To Find and DEI Insanity

Delving deeper into this company, I learned that they’re deeply committed to their DEI programs. Diversity, Equity and Inclusion...but clearly their workers don’t know and don’t care what they’re doing. My experience with DEI was frustrating. In other occupations it can be deadly. I wouldn’t want to fly an airline with a DEI-hire pilot. Or trust a surgery to a DEI-hire doctor.

A Good Time for Truth

Christianity is about an intimate relationship with a living person – Jesus Christ. We must get to know this Living Deity who knew us before we were formed in the womb (Isaiah 44:2) and who has inscribed us on the palms of His hands (Isaiah 49:16). “My people are fools; they do not know me...”

Solutions not Therapy Sessions

In 2021, Oregon’s Democrat majority passed Senate Bill 762, with a handful of bipartisan supporters, as a comprehensive wildfire management bill, also known as the Fire Maps bill. This bill was introduced to forestall future outcry that might erupt as details about negligence swirled in the news following the devastating Paradise, CA wildfire.

Coup in 1913- Income Taxes Replaced Tariffs, Destroying

the Constitution

The 1913 Coup resulted in the government being funded by income taxes rather than by tariffs/excise taxes, which had funded the government since the founding. At the same time we also got the unconstitutional Privately-Owned Federal Reserve Bank and Tax-Free Foundations, which were an essential part of the Coup to enslave us.

Nothing Liberal About Them

Over the years, the “liberal” party in the United States, the Democrat Party, has evolved from a pro-American, anti-war, pro-peace, blue collar taxpayer party, into a full-blown anti-American extreme left lunatic party that champions everything wrong in the world, and works around the clock to undermine and destroy our Constitutional Republican form of self-governance.

Gold: Its 6000-year Record And Uses

Help them all you can. Work to vote out every piece of anti-American scum in every county and state in 2026 and beyond. We need a margin in Congress of real Americans, instead of those working for their own bank accounts to the detriment of our freedom. Pay attention to what is happening in each state,

listen to what they say vs. what they have done.

Small Modular Reactors will Benefit Developing Economies

When we consider the needs of developing economies, we have no choice but to consider that access to electricity is a crucial cornerstone to alleviating poverty, promoting economic growth and improving living standards. It is an essential social and economic indicator. The link between electricity and GDP per capita is one of the strongest correlations in the social sciences.

How to Handle Disagreements Constructively

Years ago, when I was still in academia, a senior-level professor and I got into a disagreement via snail-mail (this was the early 1990s), later by email. He began the exchange with a private response to a letter-to-the-editor I'd gotten published. Back in the day, I sent out quite a few of those. I'd guesstimate that around three quarters of them were published.

Is There Not a Cause?

Freedom from religion, redistribution of wealth under the UN principle of sustainability, “science” by consensus (e.g., gender identity), deflected accountability (e.g., guns kill; people don’t), centralized power, sanctuary status, reverse discrimination, slippery cultural norms/ethics, earth servitude over stewardship, tyranny of technocracy, defund police movement, etc.—none of these components of progressivism deliver promised utopia.

Can America Maintain A Stable Government In The Coming Years?

Fact: Mixing one culture into another never works. Mixing multiple cultures into other cultures doesn’t work. Diversity doesn’t work. Mixing religions never works. Mixing tribes never works. Mixing “world views” fails on every level. Mixing languages in one country leads to linguistic chaos in that country.

Trump’s Oval Office Triumph

is a Masterclass in Leadership Over Zelensky

The scene unfolded with Trump at the helm, his commanding presence evident as he sat beside Vice President J.D. Vance, a loyal partner in this high-stakes exchange. Zelensky, invited to discuss terms to offset billions in U.S. aid through Ukrainian mineral resources, arrived with a demeanor that quickly grated on his host.

Make China, Mexico, and Canada Pay

Mexico is being targeted because the Mexican drug cartels, working with the collaboration of the government of Mexico, are trafficking fentanyl with the assistance of the Chinese Communist Party that supplies the chemicals. Trump has promised to go beyond tariffs to waging military attacks on the cartels.

Bradlee Labeled a Heretic for Preaching out Against

Perversion

I'm just getting back from the great state of Michigan after speaking at 6 events back-to-back in 6 days. I love being spent, no doubt (Luke 17:33). During my time there, I was sitting and speaking with one of my friends who had brought up a man that I have never met before nor had ever talked to before that had said that I was a heretic.

For Ukraine to Survive, Zelensky Must Go

By staying in office, Zelensky plays into the hands of the Russians. I am sure there must be an alternative, perhaps a patriotic General in the Armed Forces of Ukraine, who will step forward and lead a coup against Zelensky.

Traitors Who Met With Zelensky Prior to White House Meeting

These warmongers are the ones who have been giving away OUR TRILLIONS. If you see your state, you are responsible for participating in their removal from our Congress. They are all anti-American warhawks and will be responsible for WWII

should that occur.

Is Liberalism Dead (In All Forms)?, Part 2

We've sketched the background of liberalism, distinguishing two forms of classical liberalism (one Christian, the other secular), and noted the Stages of civilization (in Auguste Comte's sense) in which classical liberalism developed and began to flourish. There is a sense in which classical liberalism's Christian form originated as a Second Stage idea, then helped enable the shift to the Third Stage...

Paper Ballots are Not Enough

Election fraud has been around as long as elections have been around, long before anyone dreamed up electronic voting machines. 244-years into the grand experiment of freedom and self-governance in our Constitutional Republican form of government, the 2020 elections set a worldwide record in massive election fraud, on a level never before seen on earth.

Americans Coming Out of Darkness into Truth and Light

I highly recommend you take an hour and listen to this interview with Rob Natelson on the true meaning and application of “general welfare of the United States”.
Podcast: A Lesson on the General Welfare Clause: “Rob Natelson, recognized national expert on the framing and adoption of the United States Constitution, offers a lesson on the general Welfare clause of the United States Constitution.”

The Craziness Going On In Our World: How Do You Process It?

Why do you figure American taxpayers send billions to Israel to protect them from Muslim aggression, but U.S. AID has been sending millions to support Islamic terrorism in the Middle East? That nasty little bit of news was reported on numerous networks by DOGE. In other words, we American taxpayers are getting screwed by the unelected bureaucrats working for U.S. AID—every which way but loose!

A Hard Look at Today's

Evangelical Church

To the average church member – Evangelical, Pentecostal, Catholic or any other religious organization in America, church to them is somewhere you go on Sunday, hear a smooth sermonette and go back into the world to live your life your way. They are the reason this nation is going downward toward evil and not upward toward God.

Hard Work Is Good For You

Work is essential, not just for us to earn a living, but also for our own mental and spiritual wellbeing. The satisfaction of a job well done really can't compare to anything else. Our work, when we do it well, can bring us great happiness and joy – even the hardest of work. Through our work, we can transform useless things into useful ones. We can restore order out of chaos.

Trust in the Lord, Not in Mortal Man

Believe in the Lord Jesus Christ, who died on the cross for sinners and rose again from the dead, and who is coming back to establish His everlasting kingdom. Trust and adoration are due only to Him, and it is only from Him that true forgiveness, reconciliation with God, and eternal salvation

come.

Equal Protect of Self Defense

Most of us are aware of the Fourth Amendment's Unreasonable Search and Seizure Clause. While definitions of what is "reasonable" have been argued since the Bill of Rights was ratified, it is pretty much agreed that the Fourth Amendment's prohibition against unreasonable searches and seizures includes the use of unreasonable force during an encounter with law enforcement.

Obama, Not Trump, is the Real Russian Agent

It was Trump who rescued Ukraine from the policies of the Democratic Party that led to the 2022 Russian full-scale invasion and that explains why the Russians were out to destroy him. He is Ukraine's best and only hope at this juncture.
