

Cameras, Cameras and More Cameras – See Every Move You Make

Have you noticed cameras going up everywhere? These cameras aren't just crime-fighting tools, they're the foundation of an American surveillance state, paid for with your tax dollars and owned by private billionaires. Drive past one of those innocuous "Flock" solar-powered poles and it instantly photographs your license plate and logs the make, model, color, bumper stickers

I Hope Everyone Had A Happy Thanksgiving

Believe it or not, everything you just read with very few edits was written Nov 22, 2012. Sadly nothing has changed until now. But there is HOPE I see signs of people waking up. Are you one of them? The only ones who can save America is "We The People".

Democrats Put Tina Peters in

Colorado's Prison for Exposing 2020 Election Fraud

Today, Tina Peters was sent to solitary confinement in a windowless cell at the Colorado prison where she is being held, because she filed a simple grievance with prison authorities. The complaint addressed the fact that a prison employee, a teacher, had been remarking to other inmates that Tina was never going to be let out, that she would spend the rest of her days in prison.

California Governor Newsom Remains Oblivious That Electricity Came About AFTER Oil

Newsom is unaware that humanity exists in all weather extremes of the world, from the hot and dry Sahara Desert to the frigid northern hemispheres. The animal kingdom has adjusted to climate change over billions of years, and now humanity, without a replacement for raw crude oil, may need to use the tools provided by oil products and fuels to master the continuous climate change adjustment challenges.

I Am Sickened at What's Happening Across America

Remember this: if you import endless millions of Third World immigrants, you turn your country into a Third World Country. Look no further than all of Europe. They have "Crossed the Rubicon" of their inevitable self-destruction. At some point, you will be sickened at what has happened to your country, America.

Artificial Intelligence is Colonel Harvey's Indian Elixir

In an episode of the Andy Griffith show, a con man by the name of "Colonel Harvey" comes to the town of Mayberry to sell his "Indian elixir," designed for "health and vitality" and "guaranteed" to work. Andy's Aunt Bee tries and likes it and gets drunk. It turned out to be booze or hooch, 85 percent alcohol. It made her feel good until Sheriff Andy arrested Aunt Bee for drunkenness. Then the hangover commenced. That sums up the current state of Artificial Intelligence (AI).

Jets, Justice, and Jihad: Arm the Saudis, Crush the Brotherhood, Gut CAIR

And right on cue, Texas Governor Greg Abbott dropped the hammer on November 18, designating the Council on American-Islamic Relations (CAIR) and its puppet-master, the Muslim Brotherhood, as foreign terrorist organizations under state law. Banned from snapping up Texas land and ripe for shutdown lawsuits, CAIR's Saudi-fueled tentacles are finally getting the squeeze they deserve.

The Road That Leads To War – Nowhere

These controlled operatives of today, who are fueling a fire of a propaganda narrative in making way to a never-ending crisis mentality, which leads to more confusion, war and no resolve (Daniel 9:7), needs to be put to a stop.

Count Your Blessings

When the enemy of our souls has you discouraged and depressed – again, simply begin to count your blessings and name them, one by one. Thank the Lord for all He's given you, and then

with a grateful heart for the privilege of serving your King, pick yourself up, dust yourself off and get back to work.

Bondi (A Total Joke) Must Be Replaced

I have had enough of her personal media appearances that she uses to communicate. What is wrong with traditional DOJ communication methods such as press releases or joint statements with the POTUS? Maybe she thought her perfect manicures, false eyelashes et. al., wouldn't show properly. To me, they speak of all the hours she was NOT on the job and should have been.

The New “Gods” of Artificial Intelligence

The new “king” is not President Trump but Artificial Intelligence (AI) and its magical thinking, capable of solving all kinds of problems and leading us to a utopia. The secular knees are bowing to this global brain. In fact, an NBC Today Show story examined how people are using AI to communicate with God. The story carried the headline, “Text With Jesus: How Americans Are Finding Faith Via AI.”

Big Beautiful Bill: Tax Nightmare

As we get closer to the end of 2025, Americans are preparing for turkey day and Christmas. But, while not welcome news, many Americans are spooked by what's going on and spending for tens of millions is being targeted towards survival needs like food, rent/mortgage, gas to get to the job vs their monthly income.

Deep Gratitude: The Energy for Your Life

We Americans enjoy some of the most incredible freedoms on the face of the Earth. We can speak our minds. We can choose which church to attend. We may dress as we please. We may choose our friends. Most of us enjoyed a high school education where we learned to read, write, spell, biology, math, science, computers, art, sports, clubs and dozens of other activities.

Colorado Conversion Therapy Oral Arguments

Rather than protecting children from harm, this law prevents minors from getting the treatment that 90% of them need. The evidence that “conversion therapy” is harmful is questionable at best and medical malpractice at worst. I wonder what would have happened if Ms. Chiles’ legal team had studied the Constitution rather than constitutional law?

Do Not Be Distracted, Stay Focused

It is a common observation that regardless of what a dog is doing at the moment, when a squirrel enters the picture, the dog’s attention is diverted from what it is doing, and it chases after the squirrel.

DeSantis, Newsom and The RNC

If you’ve been reading my articles in NewsWithViews or my Substack, you know that I’ve covered the unconstitutional and anti-MAGA moves of the RPOF for the past year and more. They are doing everything possible to remove those who support America First, from the Republican Party of Florida.

The Jihadist Shadow Creeps Across the Lone Star State

Texans do not whisper warnings – we thunder them. We do not negotiate with conquest. We crush it. Deport radicals. Shut down jihadist mosques. Enforce assimilation or expulsion. Arm up, speak out, vote out the enablers. The Alamo spirit burns eternal: Remember Goliad, remember San Jacinto. Texas stands as freedom's last fortress against the global caliphate crusade.

Energy is Power!

I got up this morning to crisp air and I knew that summer was over. That means the thermostat changes from A/C to Heat. No problem, I thought. We have been conserving. I looked at my bills from last year and realized I am paying more for less!! How is that possible? Could it be because Florida has been replacing fossil fuels with solar power?

A Short Message to All Who

May not be W0KE But Aren't Awake Yet

The Canadian government has been working to kill 800 healthy ostriches for about a year now. The owners were fighting to keep them alive as they have been raising them for years and are a great benefit to science

The Republican Party Hates MAGA

Make no mistake about it the establishment Republican Party hates Donald Trump. The career politicians who have spent their entire careers in the smokey-back rooms cutting deals with their "friends across the aisle" resent that this wealthy businessman has ventured into the political arena where he jumped the shark on all of the career politicians who had carefully planned their journey

Forty-Two Million Americans on Food Stamps: Really?

During the 43-day democrat-led government shutdown that solved nothing, the most pressing news stemmed from the reports that 42,200,000 (millions) of Americans could not access their EBT

cards, food stamps, WIC, ADC, SNAP and other food assistants.

God is At Work but the FBI is Not

A one-night event titled “Hope for America” was held at Utah Valley University (UVU) on November 16, two months after Christian conservative patriot Charlie Kirk was assassinated there. But the sad fact is that, in the wake of the attempted assassinations of President Trump, there should have been a quick realization that Charlie Kirk’s life was in danger, too, but the “authorities,” including the FBI, failed to act.

Guess What? You’re Jewish!

Historian and writer Eric Buesing says that the Spanish Inquisition, which began in 1478, “forced Jews to adapt or perish. Many chose secrecy, becoming crypto-Jews who practiced their faith in hidden cellars, or adopted Christian rituals publicly while whispering Hebrew prayers in private.”

The True Source of Civilization's Future is Energy Wisdom

Energy wisdom—not energy denial—is the foundation of sustainable civilization. Three industry leaders share their individual thoughts on the state of energy, and then collectively join forces for a powerful conclusion.

Confused Weak Republicans vs Determined Mean Hateful Democrats

To truly understand the threats we are facing across the nation and how to combat them, first we must understand the who, what, when, where, and why behind the policies that are creating the national divide. What are the Democrats pushing into place, and what are Republicans doing to combat it?

Family Ties, Alibaba, Senator John Cornyn and a Potential

Conflict of Interest

In Texas, where distrust of China runs deep and where Attorney General Ken Paxton has made confronting Chinese influence a signature issue, the Alibaba contract lands like a gift-wrapped primary weapon. Paxton, who has already opened investigations into multiple China-based platforms under the very law Alibaba is paying to influence, can now draw a straight line from the senator's family to the adversary he claims to oppose.

Decision on Mexico's Gun Suit

Again, no case in history supports that theory. Indeed, if Mexico is right, then every law enforcement organization in America has missed the largest criminal conspiracy in history operating right under their nose, and Budweiser is liable for every accident caused by underage drinkers since it knows that teenagers will buy beer, drive drunk, and crash.

Socialism (AKA Communism) Has Come Out Of the Closet

The average lifespan of a nation? – 250 years. For America, that's just a few months away now. Americans need to wake up, start paying attention, educate others and identify and dismantle these threats to our once-cherished freedom. And it

must begin with God's people doing more than just reciting 2nd Chronicles 7:14. And, we'd better start immediately, because the curses of Deuteronomy 28 are upon us.

Comrade Mamdani is New York City's Savior

In the mold of the "Kingdom of the Kims," a National Geographic special program on communist North Korea, a new program starring New York City Mayor-elect Zohran Mamdani is about to air nationwide. He is to American socialism what Kim Il Sung is to North Korea. He is a God. The difference is that Mamdani is a Muslim

How Much More Can Congress Keep Ripping Off Americans?

After 43 days of the government shutdown, my U.S. Senator John Hickenlooper was asked on national TV if the shutdown was worth it? He said, "Yes, I believe it was worth it." What an absolute moronic statement to make after the democrats damaged millions of peoples' lives!

Ousting the Cockroaches In Between Elections

The selections elections earlier this month was just more of the same as I've seen and written about since 1993. Elections have consequences as they say but are real American voters left with no options to throw out the garbage? Do we have to suffer another two years to the mid-term elections; some elected offices are four years?

FPL's "Unconscionable Rate Hikes"

So, if you want to talk to your Tallahassee representative, and are sick of their ignoring the purging of MAGA patriots, you can remind them of how much you object to the massive power base-rate increases that they are approving on your behalf. Maybe those rich New Yorkers who are fleeing their new Islamo-Communist Mayor will be able to afford those power bills, but much of Florida cannot.

Terrorists' Bill of Rights

Faithful Muslims believe that sovereignty belongs to Allah. They believe the only important "constitution" is the Quran, and before allegiance to a nation comes fidelity to Allah.

Islam of all sects demands obedience to Islamic law, not the laws of men or political institutions. A Muslim will never abide by an oath of office when Islamic principles are at stake.

Who's Afraid of the Big Bad Mamdani Wolf? Not me!

I stopped counting the massive numbers of articles—both before and after the election of November 4, 2025—that predicted the complete devolution/collapse/implosion of New York City, a huge exodus of both Jews and Christians, as well as businesses and the Wall Street financial district to friendlier climes in what was anticipated to be the full-fledged conversion of the Big Apple from capitalism to communism

The Pandemic Playbook: A 20-Year Trail of Wash, Rinse Repeat

I swore I'd never touch this exhausted trope again – the endless drumbeat of “next pandemic” fearmongering beaten to death by every keyboard warrior from here to the dark web. Create the threat in a lab, hype the threat, fund the fix, watch it fade... until the next one. Yet here I am, dragged

back in by a blistering internal HHS memo unearthed by Jon Fleetwood: \$37.5 million of your tax dollars quietly rerouted to armor-plate 75 hospitals into “Level 2 Special Pathogen Treatment Centers,”

The Different Worlds of Wealthy Nations and Developing Countries

There is a tight correlation between poverty and “deprivation” of the entire range of basic products and services that are taken for granted by wealthier citizens. A personal car is the iconic energy-dependent product that is highly correlated with freedom of mobility and independence, as well as improved personal and national economic outcomes.

Religious Freedom Has Been Restored in America

Neither preachers nor the pundits seem to have noticed – or noted – the good news. However, in the November 2025 issue of the newsletter Eagle Forum Report, Anne Schlafly, daughter of the late conservative icon, Phyllis Schlafly provides all the details on this return to judicial sanity.

Coal and Sanity Rushing Back Through Sound Science

The Department of Energy is doing something smart for a change. They just announced that they want to restore coal plants across the nation “for up to \$100 million in federal funding.” That sounds good to me – real energy, and maybe some will come from where I live – in Coalfield. The people here could use it.

Mamdani and Ilhan Omar: Citizenship Fraud Must Lead to Deportation

If we Americans who love our country, love our communities, love Capitalism because it has generated the most fantastic society on Earth ever to exist—give ourselves over to such Islamic terrorists as Omar and Mamdani...we will repeat what happened to Europe: total destruction of our culture, our way of life, our governance, and our freedoms. That’s what Mamdani and Omar represent.

Third-Party Laws

Most of us believe that our state legislatures are making our state laws. But what if that is only partially true? What if a third-party was making the laws for your state? Would you be OK with that? Would you be concerned to find out that two private entities are making the laws your state uses regarding commerce?

The Softening Down Of The Prophets

Now, before we get into the genuine prophets, their actions, and characteristics, let me first highlight some things that I have observed since my conversion concerning the monuments (softened down images) that have been created of the men of God from the past.

RPOF Under DeSantis Has Been Purging Trump Republicans from the Party

America First conservatives spoke up in a public session, held outside of the Hilton in Orlando, Friday, 11/7, where the Republican Party of Florida was holding its quarterly meeting.

This I see a master stroke to expose the Anti-American perps in the State Party, who have been taking out MAGA patriots, as they planned their next moves.

A Mission In Your Own Backyard

I know many who support missionaries in foreign countries, overseas. I also know many who support the good work being done by ministries that stand up for the preborn, and work to turn people's hardened hearts from accepting abortion as "a woman's choice" to becoming staunchly pro-life. And others who plead with women outside abortion centers, begging them to not kill their babies.

Zohran Mamdani's Victory Signals the Islamic Siege on America

The hour is late, but the fight is ours. America didn't birth freedom to watch it be beheaded by ballot-box barbarians. From the heartland to the harbors, rally now – or watch your mayors trade gavels for Qurans, and your flag for the black banner of conquest. The takeover starts in NYC; it ends with us. Rise, roar, reclaim!

The Fall of Western Man

It happened in Greece and Rome and today it is happening here. Alas, except for the yet to occur social anarchy, the cycle is again complete, which means it's time for the Aryans to seek or create another land of freedom, as pure and ideal as humanly possible if that is even feasible in a world that no longer has the ability to hide any such new birth.

Fake “American” Voters & Election Fraud

Vivek Ramaswamy Is a Fraud—and Always Has Been: “While Ramaswamy vocally opposes ESG principles, Roivant’s major institutional investors—including Morgan Stanley, Viking Global, and BlackRock, the very firms he criticizes by name—are among its largest stakeholders, owning over 500 million shares. Ramaswamy himself holds more than 80 million shares, making him an essential partner of these major ESG funds.

We Need to Halt All Legal Immigration into America, NOW!

What can you do? Call or write your two senators. Call or write your radio station or newspaper. Write 60 Minutes, NPR, and PBS to demand they address America's future as to human overpopulation. Speak up at your school board. Even if we only added 50 million people by 2050, it's unsustainable. We're already in "overshoot" as to energy, water, and resources.

Hidden Danger: Islam's Two Faces That Lead to Violence and Conquest

America, hear this: Islam's two faces aren't a myth. They're a machine built for takeover. The kind words fade; the sword verses replace the peaceful verses. We've watched it devour Christians in Africa and girls in the UK. Now, with New York's new Muslim mayor defying a tough president, the violence creeps closer.

Radically Changed

George Wallace (1919-1998) was an American politician who was the longest-serving governor of Alabama, having served four terms from 1963 to 1987. Wallace is remembered in his early tenure as governor for his staunch support of “Jim Crow” policies and segregation.

Islamo Communists In Our Government

George Soros is behind the Democrat Socialists of America (and all those anti-American judges), the organization which has brought us Omar, AOC, Tlaib, Sarsour, Momdani and many others. He ALSO donates to CAIR, the Council on American Islamic Relations, founded in 1994, under the CLINTON presidency. Many Americans assume it was founded under the Muslim, Obama.

Products, Fuel, and Electricity Are the Real Climate Challenges For the Future

We must remember, for the present and future, that all 8 billion living on this planet represent a materialistic

society, and that electricity CANNOT exist without the products made from fossil fuels, and that so-called “renewables” CANNOT make any products or fuels.

Another Fake “Red Wave” From the Fox News Crew

Curtis Sliwa was correct when he said early in the campaign that “this is the weakest Democratic field we’ve ever seen. They’re either too far left, too corrupt, or too disconnected from the real struggles of working people. I am the only candidate not bought and paid for. I am the only candidate with a platform that puts working people first.”

Mamdani’s Rage-Filled Speech Spells Doom for New York

Muslims in power? A recipe for ruin, from Sharia whispers to socialist screams. You ignored me, elected the enemy within. Now, as I tire in the twilight of my crusade, I beg: Wake up! Rally the remnants! Trump stands as bulwark; fortify him. Reclaim the ramparts before the red tide drowns us all.

The Average American is Still Gullible, God Help Us

As many of you know I host a daily podcast. I have been doing it every morning at 7 am EST for over seven years. My audience isn't large by today's standards, but IS thought provoking. Especially if you are interested in learning the TRUTH.

Socialist Democrats: Tearing Down America's Foundation

Please note that Muslims in Dearborn, Michigan chanted, "Death to America" during the Hamas slaughter of Jews on October 7, 2023. Note that you won't see an American flag anywhere in that Muslim community. But you will see the Jihad black flag, and 95 percent of those immigrants enjoy free housing and EBT food cards.

NYC: The Morning After the Fall

We can no longer afford to allow our tax dollars to be used to destroy us. The Federal Government must function within the Law of the Land, or the people are under no legal, moral or ethical obligation to continue funding it, to our own demise.

The Unitary Executive

There have been a lot of questions lately about the powers of the President. Can a President fire a member of an independent agency? Does the President have to spend money appropriated by Congress? Is it legal for the President to send the National Guard to our cities? Most of these questions can be answered by understanding a single constitutional point: The unitary executive.

Are You Perfect? 99 Out Of 100 Say That They Are Not!

Though there is not one person in 100 who will claim to be perfect, there's not one of those people who understands the seriousness of not being perfect because the standard by which we will be judged ultimately is not a curve, but it will be the standard of God's perfection, who is the risen One, Jesus Christ our Lord.

The Healing of the World

Humanity is living in a broken state that has affected every aspect of life. Although some may work to solve the problems

of the world solely through political and external means, is it not true that all actions start in the mind, the heart, and the soul of an individual? It is in the internal world of human beings where we must look for the healing of the world.

Green Delusionists Attending COP30 Are Clueless of Their Renewable Idealism

This misunderstanding, treating electricity as interchangeable with materials, is the central flaw of the green movement. Electricity is a utility, not a substance. It drives processes but cannot itself make things. Even basic metals like iron and copper require carbon as a reducing agent during smelting. Without carbon, humanity would lose the very means of transforming minerals into usable materials.

Truth Is Our Outreach To the Lost

We also feature hard-hitting commentaries from some of the best writers in the nation. Every page is filled with truthful news and vital information, from a biblical perspective. And yes, we also feature in-depth Bible studies. The information in our pages is current, relevant and addresses topics that all of us are impacted by in our

daily lives.

Zohran Mamdani: Communist, Muslim, Ugandan, Disaster for America

How can we save ourselves? We must ban Sharia Law in America. We must ban any more immigration by Muslims into America. We should deport any of them that join terror groups that intend to destroy America. There are 52 Muslim countries in the world...send them back to those countries so they will feel at home.

The Killing Fields of New York

With a conservative Republican in the New York City mayor's race by the name of Curtis Sliwa, the so-called "Republicans" at the New York Post have endorsed the corrupt former Democrat governor Andrew Cuomo, whose "experience" consists of sexually harassing women and killing old people in nursing homes.

Declassified Docs Expose Treasonous Plot to Steal Trump's Mandate

This is our Rubicon, warriors. The Obama coup wasn't a glitch; it was the Deep State's blueprint for every subversion since: 2020's steal, January 6's frame-up, and the endless lawfare against Trump. But Gabbard's blitz has cracked the fortress. Prosecutions will cascade like an avalanche, starting with Comey and Brennan for their perjury parade.

Why We Must Reject Digital ID, Digital Currency and Digital Banking

If you think you are in trouble now, just wait until your money is swapped for some virtual currency in a virtual banking system you can't control, or escape. REJECT a digital ID, digital currency and digital banking, or we will all wake up one morning soon, owning nothing!

Political Economy as if

People Mattered, Part 3

Several crises are underway or being fomented as I write: efforts to round up illegal immigrants that are spilling onto U.S. citizens who happen to speak Spanish; mass shootings; the threat of war with Venezuela and the likely blowback that would lead to.

Veterans Day 2025—Will We “Keep Faith” To Our Veterans?

Veterans Day was originally “Armistice Day,” honoring WWI veterans. Congress later amended it to “Veterans Day” to honor all veterans. Veterans Day observances traditionally commence at the 11th hour of the 11th day of the 11th month of the year, the anniversary of the date and time of the signing of the Armistice ending combat in World War I on November 11, 1918.

Stop Blaming the Unvaccinated

Big Pharma and their complicit media mouthpieces, along with rigged “fact-checker” hit pieces, keep parroting the lie that shedding is baseless conspiracy nonsense from “theorists.” A quick internet search rigged by their algorithms funnels you straight to a wall of debunking propaganda, burying the real evidence under layers of censorship and gaslighting.

It's American Made

"President Donald Trump's executive order limiting birthright citizenship is back before the Supreme Court. Unlike the last time that challenges to the policy reached the justices – when they focused on a procedural issue – the Justice Department is now asking the court to side squarely with the president's interpretation of the 14th Amendment."

...And They Worshiped the Image of the Beast...

Mr. Mamdani declares himself to be a Democrat Socialist...and what the unwashed masses with their pink and purple hair, lip piercings and moon boots around this country don't understand, is that there is no such thing. It's nothing more than smoke and mirrors. It's a very dangerous delusion, but we'll get to that in a moment.

How to Return to the American Dream and Our Constitutional

Republic

As an Economist, I can pretty much guarantee Unlimited Prosperity at an unheard-of level with the American Dream in full blossom for everyone willing to work, if the recommendations in this paper are followed. However if key elements are not followed, I can foresee a Civil War with the Communists and the Evil Ones in the Deep State aka Parasitic Super-Rich Ruling Class aka Wealthy Families and their Minions in government.

Homeless Americans in the World's Richest Country

Does any of it make any sense? How do our leaders "get away with it?" How can California's governor pretend that he's going to be a presidential candidate when he's shown himself a miserable failure on multiple levels? Does that mean that those in high power positions can't or won't solve immediate problems?

Trump's Fundamental Transformation of America

The term RINO stands for Republican in Name Only and is supposed to refer to liberal Republicans who act more like

Democrats. Now it applies to “conservative” Republicans who want to abandon Republican Curtis Sliwa in the New York City Mayor’s race, in favor of voting for Democrat Andrew Cuomo over Democrat Zohran Mamdani.

Arms Rights Roundup and Ruminations

For too long, politicians in both parties have simply ignored one of the premiere foundational liberties enjoyed by the American citizenry, second only to those freedoms expressed in the First Amendment, speech, religion, press, assembly and petition – as if it were an optional extra or a remnant that could be discarded at will.

How Illegal Agendas Are Being Pushed Upon The People By The Government

The 55 corporations cited by ITEP would have paid a collective total of \$8.5 billion. Instead, they received \$3.5 billion in tax rebates, collectively draining \$12 billion from the U.S. government, according to the institute. The figures don’t include corporations that paid only some but not all of these taxes.

Death by “Democracy”

The Constitution is not a document that regulates the people, the states, or the freedom and liberty of the nation. This document regulates government power and authority. The American people have to wise up sooner or later, but clearly, they need to experience more pain first!

Robots: Think It's Great Technology?

If you haven't watched the A+ movie, Stanley Kubrick's film “2001: A Space Odyssey”, 1968, which centers on Hal, an artificial Intelligence computer, do take the time to watch as it will blow your mind because it is today. This is a short clip of the hero trying to shut down Hal after Hal goes off the rails. (4:56)

Acknowledging ‘Male Loneliness’

Loneliness has been linked to a wide range of negative health outcomes, including increased depression, heart disease and

even early death. In researching this, I learned that one out of four men in the US feel lonely or isolated either all of most of the time, and that same 25% of men reported having no close friends at all.

Mamdani's Plan for Total Power

Republicans say a Mamdani victory will backfire on the Democrats because he cannot deliver on the free goods and services he is promising. But that is not the plan. As someone who monitors the activities of the socialist/communist Democrats in New York City and covers their conferences, I understand they do not expect Mamdani to succeed but to fail.

The Crashing Failure of the Feminist Movement

In 1960, the Food and Drug Administration (FDA) approved the most world-changing medication in history, developed by Dr. John Rock, a Harvard professor and obstetrician-gynecologist with five children—along with Drs. Gregory Pincus, C.M. Phang, and Selzo Garcia. Their creation was the birth-control pill, aka The Pill! For the first time in world history, women had control over their reproduction.

You Can't Make This Stuff UP!

Fact: 19 Muslims from Saudi Arabia in those planes caused the Twin Towers, Pennsylvania crash, and thousands of deaths. Yes, many suspect they had help inside the USA, but, in the end, Muslims cheered 9/11 in every Muslim country. Now, we've got Mamdani who supports honor killings, female genital mutilation, women as half the value of a man, Burka's on women, no free speech, and everything in the Quran.

Political Economy as if People Mattered! Part 2

Falling birthrates are not limited to the U.S., of course. European nations see it. So does Japan and so has China (trying to recover from its horrific one-child policy). There is something about "advanced" civilizations that seems fundamentally destructive of loving relations between the sexes, their willingness to have children and build of families with long-term stability, and of children's and adolescents' own mental health.

Halloween in America, an Excellent Example of Liberty, Christmas, Not so Much

The US Constitution was incomplete until the Bill of Rights was added. The founding fathers were very concerned that the US Constitution on its own stand was enough government-centered that it could be commandeered for a tyranny or dictatorship. They did not rest until the Bill of Rights was added

Mansplaining, Government Style

Has your city or town had recent meetings on the topic of future plans for growth? The plans I am referring to always seem to include lots of glossy pictures of how “super” rack/stack/pack housing and hub style communities of the future can look. Within these plans, you’ll also find ‘slick willy’ type consultants who have been hired by your town or county government to come and ‘splain’ to town/county leaders as well as the taxpayers.

Did You Listen To the Democrats? Oh How They LIE

Did you listen to the Democrats? Oh how they LIE! Do you understand what their main goal is? Certainly, it's not to benefit the American people or save US Taxpayers any money. Listen to their talking points. All of them are saying the same thing: "Healthcare for All." Their focus is on the illegals, their carefully protected new Democrat voters. They don't care about Americans. They just need to maintain power.

China's Planned Cyber Security Attack

That sounds great but I do not believe this is enough. It looks to me like the Chinese have the edge in information warfare and will use their superiority in this field to launch a major new attack on America if Trump does not buckle to Xi's demands.

Following Allah Or Worshiping Christ? Damnation or

Salvation?

It is not evil for Christians to recognize their enemy (political and religious) and be prepared. The more of us who truly understand this, the more prepared we will be for defending our future as a free Republic. Our government cannot do it for us, and I think we may well have a rough road ahead. We must fight the good fight.

How Can We Be “Numero Uno” With These Numbing Numbers?

We have now suddenly awakened to the dangers of illegal immigration, but continue to soft pedal legal immigration, which constitutes a clear and present danger. It is a long term threat that can terminate our existence as anything resembling what this nation was meant to be at the start, that is, a White Christian nation.

Political Economy as if People Mattered, Part 1

Needless to say, nowhere – not even in nominally Christian civilizations such as those of historical Europe – has such ethos fully taken hold. Not really. Christian institutions, no less than secular ones, have been run by sinful men and

sometimes sinful women. We have the factions and divisions we have because of this, including the capacity to dehumanize those deemed expendable for whatever reason.

Obama's Progeny Scares New York Media

It is amusing to watch the "journalists" based in New York freaking out over a possible victory by Zohran Mamdani in the mayor's race. The hosts of CNBC on Wall Street and those in the anchor chairs on the Fox channels are desperately trying to get the conservative Republican in the race, Curtis Sliwa, to drop out.

America at Odds with Itself: Mixing Cultures Never Works

The fact that New Yorkers are about to vote that Ugandan refugee Mamdani into the mayorship of New York City should frighten the heck out of all of us. It means a lot of dumb people get to vote. Worse, Mamdani lacks even a single qualification to run America's largest city. But he is a Muslim, which shows you that their religion continues to invade the West, and destroy Western countries and their cultures.

Qatari Infiltrate the “Woke Right” Target U.S. Conservatives

Lightning cracks across America’s political skyline as Qatar’s sophisticated lobbying machine deploys over \$250 million since 2016 to burrow into conservative media and influencers, aiming to fracture GOP unity on foreign policy and erode support for Israel’s security.

The Internal WAR for America

For years now, as the political LEFT was busy painting itself into a left-extremist corner and the final demise of the Democrat Party kicked into high-gear, I warned that when they were finally out of power to con the American people any longer, out of room to run, out of ideas for how to keep their train on the track, they were going to go “scorched earth” in cities all across the country.

“No Kings!”

There really ARE NO KINGS, and this public display of

stupidity has brought that to the attention of the world, yet again. PS, the crowds were, by most counts, a whole lot smaller than organizers has predicted. Orlando, it all its glory, did have to close roads. Hopefully, to prevent “86’-ing” anyone.

It’s No Better To Be ‘Safe’ Than Sorry’

No “politics.” No “religion.” That’s the new proper etiquette we have now here in America. It’s been going on for decades, but today, it’s at a whole new level. Whether you’re out with a group of colleagues from work or even attending a family meal or gathering, the “polite” rule is, “No politics, no religion” allowed for discussion.

AI – Intelligence or Destruction?

Artificial intelligence or AI as it’s called, right along with robots some say is the greatest thing since night baseball. It’s controversial AND there is big, big money involved. Forget us humans. The global warming scam rebranded climate change cult is, finally, starting to lose its clout as millions in America and other countries have found out the hard way about that hoax hatched way back in 1928.

“An Inconvenient Study” is a Must Watch Documentary for all Parents

Since 1986, pharmaceutical companies have been granted legal immunity from lawsuits related to vaccine injuries, reducing their incentive to invest in thorough vaccine safety research. No childhood vaccine has been subjected to a double-blind, placebo-controlled study using a saline placebo, the gold standard for independent, unbiased research.

America at Odds with Itself: Greater the Numbers Greater the Consequences

Every swimming pool in America features a sign, “Limited to X number of Swimmers.” Every airplane states, “Total capacity is 80 flyers.” Not one single ticket will be sold beyond seating capacity. Every eating establishment states, “Capacity is 50 diners.” Every movie theater sits “X number of seats” and will not sell a single ticket beyond seating capacity. Which brings the question

Who Influences You?

The many conflicting voices that we hear in the world and on our devices clamoring for our attention and seeking to influence us can cause us to miss out on the hope, peace, deliverance, and rest found only in Jesus Christ.

Global Elites Are Building Data Centers Across the World to Enslave the Unaware

The global elite who are building Data Centers across the world are doing exactly what they said we believers in farming, ranching, hunting, fishing – i.e., being humans would do – destroying the flora, fauna, air, and soil of Mother Earth. We enriched them; they are destroying this beautiful country faster than anyone would have thought possible.

Either You're Serious, Or You're Not

There are many troubled people, troubled marriages, dysfunctional families, broken homes, wayward children, grandparents in anguish because their grandchildren are growing up estranged from them and in Godless, secular homes.

Friends, the only answer to all these things is humble repentance and turning once again – or for some, for the very first time – to God our Father and Creator, and Jesus His Son.

Trump's DOJ Hammers a Deep State Traitor

Lightning incinerates the swamp as President Trump's DOJ unleashes a relentless thunderbolt on John Bolton, the war-mongering neocon whose August 22, 2025 FBI raid exposes his treachery in a blaze of classified leaks and anti-Trump betrayal.

Donald J. Trump: Mastering the Art of the Impossible

Here's my prediction: Since Hamas, being true to form, has already violated the Peace Plan, Trump will give Israel the green light to temporarily evacuate civilians and wipe out Hamas, lock, stock and tunnel. Then, Israel will rebuild and resettle Gaza, which they never should have left as they did in 2005.

Halloween: Rebranding “Delicious Autumn”

Regretfully, the beauty, smiles and bliss of “delicious autumn” are popularly supplanted with grave stones, coffins, skeletons, ghosts, demons, witches, black cats, vampires, massive spider webs and jeering Jack-o-lanterns. All attend October 31st when Halloween’s ghoulish emblems find place in neighborhoods, schools, businesses and, yes, even Christian churches.

Big Pharma Unites With Big Farma

Big Pharma’s reach extends far beyond human medicine, infiltrating the cattle, chicken, pork, fish, and even fruit and vegetable industries. My findings will shock you. They might drive you to raise your own livestock and grow your own produce, though that’s no simple task. Those with the means and land—complete with a pond—are breeding their own tilapia, raising animals, and cultivating their own food.

Yes Virginia, David Can Slay

Goliath

Recent activities by Ukraine against Russian refineries, and the incident at the Chevron Refinery in California, are exposing the vulnerability of major Goliath infrastructures being stationary targets for slaying by the David's in the world.

Charlie Kirk's Fatal Miscalculation

But tears for Charlie Kirk should not preclude systematic action by the federal government to eliminate the threat that still exists. It is time for President Trump to invoke the Insurrection Act and/or declare martial law to eliminate this threat once and for all.

Tim Walz's Billion-Dollar Theft Machine

This fraud empire dies screaming. Walz's reign of theft ends in handcuffs and disgrace, as Trump's America First thunderbolts reclaim Minnesota for the people. Patriots, arm yourselves with truth – share this blitz, demand audits, and vote to bury this beast. The heartland rises; the grifters fall. No quarter. No surrender. Victory is ours.

America at Odds with Itself: It's About the Numbers Folks

How could it get much worse? Well, it can, and it will. Each year, our U.S. Congress imports 1,000,000 legal immigrants that overwhelm our schools, our medical care facilities, our housing, our welfare systems, our transportation systems, and, well, just about every aspect of our society faces enormous consequences because of the sheer numbers being imported into our civilization.

Be Alert, America: Has The Battle For Our Country Come To Tennessee?

The complete destruction of Accurate Energy Systems (AES) in Hickman County, TN, last week may well have been intentional. I hate to even think that, but, given all the other insanity of late, it may not be as crazy as it sounds. I believe that, after the evidence is gathered, it may be proven that the explosion was not an just an industrial accident.

Rockefeller's Predicted (Sept 11, 2001) Now, They Are Predicting RFID Chip In Everyone's Body

The extorted Prime Minister from the UK, Keir Starmer, announced mandatory digital ID for the right to work (Our rights come from the Lord; Deuteronomy 24:6) in the UK, which is just another attempt to corral the people by force into taking their chip.

Israel Has Lost, Hamas Has Won

Meanwhile, here at home, the "ceasefire" demonstrations will continue to be focused on the destruction of Israel. "Long live the Intifada" is their cry, as their American allies, such as New York City Mayoral candidate Zohran Mamdani, work to achieve power in major American cities and their street soldiers operate without any monitoring or surveillance by Kash Patel's FBI.

The Perilous Erosion of Free Speech in Europe and Beyond

Trump's 2024 return inspired European populists – Orbán, Le Pen, Wilders – gathering under "Make Europe Great Again." Yet elites weaponize "Trumpian" as a slur to stifle debate on migration and speech. Vice President J.D. Vance warned at Munich: Europe's gravest threat is retreating from core values. If America imports censorship, the free world falters.

As the Tyrants Move to Handcuff Freedom, Grab the Keys

"President Trump will handle it." This falsehood comes from a very large lack of understanding of just how huge and out of control our government has become at every level. President Trump is one man. No matter how strong and dedicated he is, there is no way one man can focus on every threat or be aware of every issue

Tylenol and Autism: More to

the Story

As Caroline Rodgers said, there is an elephant in the room when it comes to the subject of autism, and that elephant is the worldwide blitzkrieg of ultrasound exams on pregnant women, exams that have bombarded the babies they're carrying with the brain-warping sound waves and heat that will continue to affect them every second of their autistic lives.

Constitutional Militia & the Out-of-Control Rioting

My column last week, ANTIFA Are Communists Who Claim to Oppose Fascism, focused on the in-your-face insurrection and attempt to overthrow our government (a constitutional republic, not a democracy) and the support given by 'blue' state Comrade governors, mayors and ignorant, foolish "community leaders who wouldn't know their arse from their elbow.

Trump's Disastrous Foreign Policy Failures?

He gave Putin the red carpet, when Russia deserves regime change, and he called Chinese Communist dictator Xi his friend, only to have the communist impose more export controls, sparking Trump's retaliatory strike of massive

tariffs.

It's Time to Stop Drug Traffickers from Killing Our Kids

You can bet that the entire world holds its breath as to the “cease fire” with Hamas and Israel. The Western world feels the heavy weight of endless wars going on in Gaza and Ukraine. So much death and suffering! So much destruction! So many lives wasted. So much needless pain suffered by so many mothers and fathers.

When Logic Can't Be Found, You Know the Government is Diligently Working

The following is from an introduction to SAVE OUR OSTRICHES, a non-commercial farm in the Kootenay mountains of British Columbia. (Keep in mind this is a non-commercial farm, they don't sell the birds for meat.) My big question here is why is the Canadian Food Inspection Agency involved more than tangentially?

From “Two Americas” to Technocracy?

Just watch and listen, and forget for a moment that it's Bernie Sanders, who self-identifies as a “democratic socialist.” Forget, for the moment, what you've been taught, or told, about “capitalism” versus “socialism,” and other “isms” floating about. Forget, for the moment, about “left” versus “right.” We're not talking abstract ideologies here.
