

Net-Zero Emission Ideologies Will be Destructive to Future Generations

The vast resources of underground coal, crude oil, and natural gas are all useless unless refined or processed into the fuels and products that support the lives of 8 billion people. Refineries, coal gasification, and coal liquefaction plants—though emission generators—remain indispensable to modern civilization.

Late Fourth Turnings and Political Violence

These people own and control dominant media. They control big city governments, sometimes with financial backing from leftist billionaires like George Soros. Their softness on crime got an innocent Ukrainian woman, Iryna Zarutsky, 23, killed by a guy with a rap sheet as long as your arm who had no business outside a padded cell. That was in leftist-controlled Charlotte.

Teaching Kids Violence and

Perversion

Rather clean up the campuses in his state and their desire to label opponents of homosexuality as Nazis, Governor Spencer Cox, a member of the Church of Jesus Christ of Latter-day Saints, made history by becoming the first Utah governor to recognize LGBTQ+ Pride Month after he was elected in 2020. He issued an identical declaration the following year but then stopped the practice.

We All Need A Little Help; Some of Us Need a Lot of Help

Yes, I give to Nature Conservancy (www.tnc.org) to preserve millions of acres of land and habitat for future generations to enjoy. I've been a member for 40 years. Investing in land and animal habitat is investing in your children's future. We need to protect our planet home. It's the only one we've got.

Socialism is Unconstitutional in the USA

In order to change the US Government into any totalitarian form, the Declaration of Independence, U.S. Constitution, Bill of Rights and all fifty State Constitutions must be destroyed forever. The Charters of Freedom must be

overthrown. The same is true of any effort to institute Sharia Law in the USA.

Beauty and Beastly Modern Art

But, don't forget! Lest we pass blame upon the British, we here in America have our own Philistines as can be seen by another such work in New York City's Time Square! At least both "artists" have the same understanding of the physical state of the black woman albeit, London's "lady" is much better dressed and appears to be smiling!

Instead Of Running From The Corruption, We Should ...

I write this in the face of how many are leaving their perspective states because things are getting more corrupt. Really? You love your country so much that when you have an opportunity to run from the fight in disobedience to God, you take it? If that is the case, I am then here to tell you that you do not deserve the freedoms that you have.

Court: Media Has Right to Lie to You

Independent media has gained more public trust over the past two decades which makes us dangerous. Slowly but we're winning for truth. Unfortunately, some of what I read is not accurate; I believe some of the so-called "conservative" web sites are actually fakes who deliberately post nonsense or provable lies to lead concerned Americans astray. Mark my words: AI will be a big contributor down the road.

We Must Stop Wars that Have No Declaration of War

President George Washington in his 1796 Farewell speech warned us against forming permanent alliances and engaging in foreign entanglements that could pull us into Europe's conflicts. He further stated that we have NO DIRECT INTEREST in Europe's wars. This advice would have kept us out of World War One and Two, and the last 80 years of Wars for Profit.

Federal Police Powers

Donald Trump's recent executive order declaring a crime emergency in Washington, D.C. has created quite an uproar, both for and against. While there have been many claims on

both sides, what I haven't heard, except for my radio program, is a real constitutional analysis of his actions. With his recent post about sending National Guard troops to Chicago, I think it's time we do that type of analysis.

Happy Constitution Day: To Those Who Know What That Is

Midterm elections are a short 14 months away, and we owe it to ourselves, our families and our nation to KNOW how those we sent to Washington DC are doing in their efforts to save our Constitutional Republic. Many are failing. If yours is one of those, let them know YOU know, and that you will be leading the charge to replace them as soon as possible.

Time for Pam Bondi and Kash Patel to Act

President Trump has voiced his frustration with Attorney General Pam Bondi. FBI Director Kash Patel should be added to the list of disappointments.

I'm Sad to the Core of My Being at What Happened to Charlie Kirk

While I see boiling aspects of "Clashing of Civilizations" bubbling up all over America, i.e., Antifa, Black Lives Matter, Muslim Brotherhood, C.A.I.R., MS-13, Sinaloa Cartel, Crips, Bloods and more. Some 33,000 people are members of some really bloody gangs in America. They distribute drugs, kill people for fun, rape for more fun, and defy our laws.

True Peace Through Forgiveness

While the efforts of the IIP to promote peace in the Balkans are commendable, they fall short of bringing about the kind of lasting peace that only Jesus Christ can bring. All who trust in Him receive forgiveness and true peace and reconciliation with God and with each other.

Are You Addicted to Anger?

The name for this viselike grip on your soul should be "post-hypnotic stress disorder." Unfortunately, it is called by the less apt name post-traumatic stress disorder. Misnaming this

conditioning as a psychological aberration hides the original hypnotic nature of original, and ongoing, sin.

The Left Uses Violence to Get Their Way

Still, Pastors won't give wise, Godly counsel to troubled, confused people. They won't speak on any of these matters, and I know many who will vilify me for bringing these truths to light. Imagine if they had even an ounce of courage, to preach the whole counsel of God, regardless of the opinions of men. How different our society would be today.

Can't Sit Still Pop a Pill, Part 1

Our society today is geared towards the quick fix. With the barrage of drug commercials there is a pill for every symptom. If you can't sit still pop a pill. Big Pharma's partnership with government agencies including public education is responsible for the drastic increase of children being put on dangerous drugs.

FBI Protects Gays but Not Conservatives

When Satan replied to Jesus, "My name is Legion, for we are many," who would have guessed that the demons would become modern-day "comedians" who laugh about murder and death. But I do not blame these despicable people for what happened to Charlie Kirk. The blame lies with the gay assassin and those around him who knew about the death threats and failed to act to protect him, led by the FBI.

Courtship 2.0

Many young people today have given up on marriage and are even questioning if they want to have children. To many, marriage and family life seems to be broken. Is there a way to restore hope and viability to the concept of marriage?

Transition to Renewables is a Globalist Suicide Pact For the Rest of Us

Even though about 80% of the global population of 8 billion people are living on less than \$10 per day, the world's 825 operational oil refineries are processing more than 100

million barrels a day of crude oil to support the thousands of products and transportation fuels demanded by humanity on this planet.

Trading our Rights for Internet Access

This is why decisions of the Supreme Court are not law, much less the supreme law of the land. They are not law because only Congress can make law. Furthermore, the court is not an elected branch of government. Also, they are not the supreme law because that would mean the United States is not a republic, but an oligarchy ruled by nine justices in black robes.

Peoples' Grand Jury Oversight: Return Citizens Rights To The Legal System

They are bringing these issues out in the open through the courts; issues, which should have been addressed under the law, but which the "powers that be" choose to ignore or bury. I know the issues in both Florida and the Commonwealth of Virginia., and how frustrated those citizens have become with treatment from autocratic, blind or even criminal officials.

Why Potheads and Gays Hated Charlie Kirk

It turns out Charlie Kirk's killer was gay, rather than transgender, but he was in "love" with a transgender, a boy turning into a girl. This is the sickness that characterizes the phenomenon known as "Cultural Marxism," which infects both major political parties.

America at Odds with Itself: Clashes Within Our Civilization

What blows this journalist's mind stems from the fact that our entire country, and our leaders--all live in denial of the future. Not only are we destroying our cultural base, our language, our basic religion, our water availability, our energy, and our resources--we're obliterating our quality of life.

Using & Coaching The Illegals to Be Used As A Political Battering Ram

If ever the people needed a lesson in how Communists work, this is the one. Communists love to use the law against the law, so they can overthrow THE LAW. They then become the (Authoritarian – often seen in authoritarian regimes that use legal means to dismantle democratic processes or assault the rule of law) law.

Vengeance vs Justice

Many years ago, a reader once reached out and said to me, “you claim to be a Christian man, but do not seem to be like Jesus in some of your writing.” I answered, which Jesus do you want me to be like? The Jesus that fed the hungry and healed the sick, or the Jesus that turned over the tax collectors tables in the temple? I will do my best to be both!

Satan Busy Harvesting Souls

Unless and until one understands exactly how communists go about recruiting by duping uninformed Americans, they will continue to gain ground in their quest to destroy this republic and enslave all of us under an iron fist. The goal

for world communist domination and how it is being implemented is right in the face of Americans if they would just get out of denial and take a good look at their party's platform.

UK Operation – Raise the Colours

The British flag is perhaps a symbol I have taken for granted. You see, it has always been there in the background like some sort of stoic tree which you walk past on a daily basis, but pay little attention to. Although you will see it flying from public buildings, royal households, decorating London gift shops; and sometimes adorning fashionwear, it is not displayed as much as you would see in America.

A Day of Reckoning

Charlie Kirk was taken out by the Left because he was a wholesome role model who spearheaded a very successful movement of the young toward a sane, moral, traditional values-centered life.

Tennessee & the Return to Common Sense: Historical Education is in Fact Safety

Tennessee legislators woke up to a stark reality. Education correctly approached is a safety measure. The way our society is going, we are going to need some way to protect ourselves and our families. Not owning a gun does not show that you are being sensible, it shows that you are not facing reality, along with Cultural Marxists who well know why the Second Amendment exists, and fear the implications.

Free Speech in America: Must Not Be Gunned Down

The reason our Founding Fathers placed the First Amendment to our Constitution at the top of the list illustrates the importance of the exchange of ideas, both for something or against something, as the hallmark of ALL our lives.

How to Constitutionally Separate Communist Cities

Without Civil War

The FBI should arrest those who are financing the insurrectionists to commit Treason. If the FBI fails, disband it and replace with Militia of the Several States, as specified in Constitution. Their failure constitutes Treason in itself!

The Turning Point

Time Magazine's cover for Sept 11, 2025 is blood red with the word "ENOUGH" emblazoned in white, with the subtitle "The killing of Charlie Kirk and the Epidemic of American Political Violence" underneath. It hauntingly has the scene of Charlie Kirk sitting under the usual canopy his organization used for those rally's, students and attendee's choking around the front of Mr. Kirk.

Ballad of Charlie Kirk

Oh, Charlie, warrior, your spirit storms the sky, Through blood and tears, your truth will never die.
They stole your breath, but not your battle cry, Charlie Kirk, eternal in the sky.

The Assassination of Charlie Kirk: What Do We Do Now?

So today, I plead with those who cherish American freedom – do not back down! If anything is to die now let it be the tyrannical WOKE agenda of lies deceit, and theft. Stand up with a determination that those who have been elected by the people truly represent the people. They must feel your pressure to ensure our society remains the beacon of freedom

GEN Z is Hope

Charlie's organization brought more youth voters to the 2024 Make America Great Again campaign than any conservative campaign in the past 70 years. While the hearts and minds of GEN Y are almost impenetrable, Charlie had found a way to reach GEN Z. That's why he was a very real threat to the insane American left.

Blue In the Face

Recently, I received an email from someone who reads my commentaries on one of the many online platforms that republishes my messages from Wisconsin Christian News and our radio broadcasts. This is someone who contacts me frequently, always starting out telling me how they enjoyed my message and agreed with most of it, but then spends another fifteen

minutes telling me how I missed the mark.

Tie That Defines Us is the Belief In A Higher Power

The fundamental difference between Communists and Constitutionals (formerly, "D" and "R") is recognition of a Higher Power. It is written in our Bill of Rights. "We hold these truths to be self-evident, that all men are created equal , that they are endowed by their Creator with certain unalienable Rights."

Will the Next First Turning Be to Technocracy?

Our present Fourth Turning is probably in its final phase, with America's (and most other Western nations') political economy FUBAR and losing credibility day by day, its institutions hollowed out and increasingly dysfunctional, incompetent clowns like Pete Hegseth and Kristi Noem in charge of vast federal agencies

What Must be Done for America to Survive as a Constitutional Republic?

This return to Constitutionality also requires effective Federal law enforcement, for our government has evolved into mostly a Criminal Enterprise. Also, you must accept the reality that a majority of Congress is corrupt. But on the bright side, the unconstitutional departments, agencies, and programs can be terminated with the stroke of President Trump's pen.

Africa is Pioneering Nuclear Innovation As it Faces a Dire Electricity Crisis

The global nuclear renaissance is well underway—evidenced by companies like Oklo, which is now included in the Russell 2000 stocks list. The outlook is based on Oklo's long-term vision, particularly with the Trump Administration's increased focus on AI Revolution data center development powered by nuclear generated electricity.

You'll Own Nothing and Be Happy: Only If You've Been Educated in Today's Schools

I know it isn't easy stopping a train that has been moving in one direction for over 100 years and gaining speed constantly. But we can't afford to lose another minute. Especially with the coming violence they are stirring up. We must take back the high ground. We must become the mayors, senators, congressmen and women.

The FBI Failed to Protect Charlie Kirk

President Trump said during his first term that Antifa, a term referring to the latest incarnation of communists active on American soil, would be designated as a terrorist organization.

The Court's Decision on Florida FRA Case

The court ruled that, because a member of a county Republican Executive Committee was also a chapter President of his county's FRA chapter, in-house rules of the RPOF were

violated. The Court chose to call the FRA a “Political Party” not a club, and RPOF members cannot be members of another “party”.

Urgent Alert! A New Fight to Stop Carbon Capture Pipelines

This time the plan is to build a Carbon Capture Pipeline from western Pennsylvania, through Wheeling, West Virginia, and into Eastern Ohio. I’ll say this just once. Carbon Capture Pipelines, designed to bury CO₂ in the ground, are completely anti-science. Every living thing in nature needs CO₂ to survive and we are suffering from a shortage of CO₂.

Evergreen, Colorado: Another Killing Zone in America

Today, I walked up to Buchanan Recreation Center in Evergreen, Colorado to work out. It’s only five miles from my house. I have worked out there with Evergreen High School kids for the past 18 years. I’ve coached them in weight lifting and in swimming. They are all good kids. They even say, “Thank you.”

I Only Support A War That Defends the United States

It is impossible to tell an injured veteran or a grieving family that their loss was based on a scam by government and the Military Industrial Complex of the Parasitic Super Rich Ruling Class (PSRRC). The truth is that these veterans did serve the United States honorably but the government sold their services to the highest bidder much like mercenaries with a great deal of subterfuge, propaganda and payoffs.

Stop Islamic Terrorism in New York City

As we approach another anniversary of the 9/11 terrorist attacks on New York City, the threat of radical Islam has returned in a big way to America's financial capital and largest city. Zohran Kwame Mamdani is a young Marxist Shia Muslim linked to the Islamic zealots running Iran who has won the Democratic Party nomination for mayor of New York City.

The Governor, Attorney General & the Senator Are

Under Investigation

It is now national news concerning the transgender responsible for killing two kids at a Catholic School, and somehow, these same criminals who are under investigation and are responsible for coaching these kids in their crimes (Deuteronomy 22:5), are now calling for gun control. Good little un-American Communists they are.

Access to Porn

As a society, we've decided that certain things like alcohol, tobacco, and pornography are not safe for minors. When I buy wine at the grocery store, I have to show my ID to verify my age. Take a look at my picture on the website and you'll see I am well over the age where I can purchase alcohol, but I'm still asked to verify my age. That's because my rights end when it infringes on the rights of another.

An "In-Debth" Analysis of the National Debt

The interest costs on the debt are expanding faster than the increases in defense spending and were \$1.1 trillion in 2024. The budget threat here is that money being spent on interest payments will no longer be available for other priorities such as defense, national security, infrastructure, or assistance

to the elderly and veterans.

Illinois Governor is a Slimy Piece of Work

Never in my long life have I ever seen so many selected elected officials side with criminals – in this case illegal aliens (the proper legal description, not the marketing ploy migrants, immigrants or undocumented) as we've seen the past few years. President Trump, our brave ICE and BP risk their lives everyday to get the human trash off U.S. soil as they have no right to be here regardless of what some high paid lawyers who hate our constitutional republic bellow.

The Medical “Professionals” and Their Cover-Ups

But most of the Senators at last week's hearing didn't want to hear the truth because they are paid by Big Pharma. The pathetic Senator Bernie Sanders admitted taking the money but cushioned the impact by saying he accepted money from employees of Big Pharma rather than their corporate political action committees.

America Growing at Odds with Itself: Something's Not Being Said

You noticed that Vice President Kamala Harris, picked for her gender and skin color only, would not expose him, but in fact told of us that he was running circles around his staff. When in fact, he avoided his staff. And Karine Jean Pierre, his press secretary, told us lie after lie after lie. After being ousted, she wrote a book about her lies. Maybe 10 people bought the book.

A Fitting Psychiatric Diagnosis

In fact, writer Zoe Tillman documents that just since President Trump's second term began this year, 74 Lawsuits Have Already Been Filed. But records show that he has been largely successful in fighting this rabid lawfare onslaught by dozens of partisan leftwing judges, to the everlasting handwringing and hysteria of the Get Trump cabal.

The Lesson Of Chicago

I have to say that I really don't care if Trump sends the

National Guard to Chicago. Frankly, I'd prefer he didn't. The Left/Communists have wasted/stolen enough of our money. Would the act of a caring POTUS dawn on enough Chicagoans to ensure that they wake up and help their city regain sanity? Only then would it be worth doing.

Deliverance in the Nick of Time

Trust in the Lord Jesus for your yesterday and forever, for no matter where you have been or what you have done, He graciously grants forgiveness, reconciliation with God, and entrance into His eternal, heavenly kingdom. But also trust in Him today when you face serious, even dangerous, challenges in your life, for He still brings deliverance in the nick of time.

Should the State Be In Charge of Humanity's Children?

I believe that this is really a civilizational issue about children. Are parents going to be the ones raising their children, or is the state? Should the state be in charge of humanity's children? I believe it should not.

Failures of the Renewables Transition Era are Insults to Taxpayers

Natural gas and crude oil are commonly needed fossil fuels to manufacture insulation, wires, and computers used in all methods of generating electricity. This is because components of natural gas and oil are essential feedstocks for creating plastics, which are used for insulation and many computer parts.

The Growing Hopelessness of America's Youth

Your city council members, county supervisors, and state legislators must learn that those private non-governmental organizations (NGOs) who now surround them and pressing passage of this terrible legislation are the ENEMY OF FREEDOM! Elected representatives at all levels of government have got to be challenged – who do they represent?

When “Health Policy” Means Disease and Death

For those who doubt that Satan is at work in the world today, in this and other cases, consider that Satan proclaimed, “My name is Legion, for we are many,” in answer to Jesus’ question, “What is your name?” Christ then purged the demons, sending them into a herd of pigs, and they rushed down a steep bank into the lake and died in the water.

Dear President Trump

Please stop playing games with the treasonous corrupt people in our country, whether they are members of congress, activists on the courts, employees in the Intel “deep state,” foreign invaders, drug-runner, cartels, pedophiles, criminal sanctuary governors and mayors, or stupid college kids marching in our streets on behalf of our known enemies, or socialism and communism.

Come, Let Us Reason Together

Good news: Hope is soundly embedded in Ishmael’s name meaning “God hears.” To borrow a phrase from Lamentations 3:29, “Let them lie face down in the dust, for there may be hope at last.” “Arab” means “to lie in wait.” In a sense, Ishmael lies in wait for God’s love that bears, believes, hopes & endures

all things.

Christianity is a Contact Sport

Simple question. When was the last time YOUR CHURCH took a PUBLIC stand for Christ outside the four walls? Has your “pastor” taken your church to a school board meeting? City council meeting? A homosex grooming session at the local library? Do your local mayor, city council, school board, or County Commissioners even know your church exists? Do they care?

America Growing at Odds with Itself—Corrupt or Incompetent Politicians

Over the Labor Day weekend, in Chicago, 58 people shot 58 other people. Eight died. In that same city over July 4th, “The exact number of people shot and killed in Chicago over the 2025 Fourth of July weekend was 55 with six dead. Reports for the 2024 holiday weekend state that at least 12 people were killed and 55 were wounded in Chicago.

The Devil Is in the Details

President Trump is making many valid changes. A major one is doing away with politically deceptive Department of Education (which Reagan wanted to do), thus returning our children's learning back to the states and counties – where it belongs. The President has also eliminated the Evolution centric UNESCO education.

Political Correctness is the Incubator of Islamism

Yet, the Islamic problem is very real and deadly. Neither the pronouncements of the experts nor the tranquilizing pills of the mind can make it go away. It is here and shows every sign of imposing itself on us. Let us look at some of the facts.

Medicaid v. Planned Parenthood

Congress created Medicaid in 1965 to subsidize state healthcare system for people unable to afford healthcare. South Carolina has a law that prohibits public funds being

used for abortion. For this reason, South Carolina disqualified Planned Parenthood from participating in the state's Medicaid system. It should be no surprise that Planned Parenthood South Atlantic sued. The Supreme Court's decision though, that may surprise you.

Trump's Objectives are Great, but He Needs to Return to Constitutional Government

The reason is simple. If he doesn't follow the Constitutional format, there never will be enough money. In our present Economic situation, that spells disaster. Under the Constitution, the Federal Government was to be financed with Tariffs and excise taxes. But that changed after the Coup of 1913, which was the kiss of death to our Constitutional government.

Is the FBI Awarding Its Agents for Past Misdeeds?

At the Ruby Ridge standoff in 1992, a federal agent and Randy Weaver's son, Samuel, were killed during a confrontation with US Marshals. Later, during the resulting FBI siege, an FBI sharpshooter shot and killed Weaver's wife, Vicki Weaver, while she was holding her baby. The Weaver family dog was

also killed by marshals during the initial encounter.

Instead of “Trans Rights” – “Trans Community,” How About Return to Reality?

That disastrous decade introduced political correctness and along with it, “gender” fluidity, amidst an “all lifestyles are equal” ideology. Thus transgenderism was slowly not just mainstreamed but treated with the respect seen in mainstream media accounts of these shootings which don’t provide a birth name; you have to dig to find it.

Satan’s Spawn in Minneapolis

The paper, “The Occult Revival in Russia Today and Its Impact on Literature,” describes how “post-Soviet Russia” has embraced New Age and occult ideas, even what the author, German academic Birgit Menzel, calls “dark” or “evil forces.”

Contaminating Our Country Since Its Founding

After leaving the Communist Party, Manning Johnson became a government informant and witness, testifying in 18-20 cases. In 1958, he published his book detailing the Communist Party's tactics for infiltrating the African-American community and inciting racial division in the United States, paving the way for a Communist takeover in America.

None Is So Blind As He Who Will Not See

Perhaps a few words from the past will shake some of the dust out of people's brain cavities long enough to think about the words below. And for those who think communism and fascism are dead, I'm sorry to inform you that they are alive and well, they're just being sold under a different name with "new and improved" packaging.

America, A Country Growing at Odds with Itself

So why travel America again and again? Answer: I love America. I love our country. I love our landscape that enjoys the

tropics, the Arctic, the West, East and South. You can live anywhere you like. You've got endless choices as to education, jobs, region to live, and climate. I honor every person who contributes to America's well-being. Why do I love America so much?

It's Only Words...but...

Jews number only 16 million in a world population of eight billion. Just limiting the adjectives "smart" and "brilliant" to words – as opposed to science, technology, biotechnology, medicine, et al. – consider how many Jews have won the Nobel Prize in literature, the astounding number of Jews in the fields of advertising and public relations, the music industry, newspapers and publishers, TV, film and videos, and more.

The Strong Delusion of AI

There's no bottom to the depths of depravity to which mankind will go when they choose to live apart from God. We now mock the "Intelligent Design" of God's creation, yet find ourselves worshiping at the altar of Artificial Intelligence, choosing to believe the lie, while intentionally denying the truth. Truly, many now have been given over to depraved minds and strong delusion. God help us.

FP&L Rejects Citizen Requests for Lower Rate Adjustments

Therefore, Floridians are likely to suffer large rate increases over the next years, and be forced to pay for useless solar farms as the utility turns to its Green Scam agenda. Solar farm spread also means less open land for recreation, wildlife and agriculture, of course.

Prosperity Requires Real Money, Not Fiat, CBDC, Crypto, nor the Federal Reserve

Money is the lifeblood of an Economy, and those who control money control the country, regardless of who is elected. The Federal Reserve Bank is privately-owned and responsible for ups and downs in the Economy. If gold and silver was used rather than fiat dollars, things would be more stable without inflation.

Americans' Quality of Life Jeopardized Due to Reduction of Refineries

In recent decades, no new refineries have been built in America. Building these projects is not only expensive but also fraught with environmental and political opposition, particularly with rising concerns over climate change and the transition to greener energy. These projects can experience delays due to various factors, including financing, logistics, and regulatory hurdles.

The Fulfillment of the Prophecy of Elam (Iran) – Jeremiah 49:34-39

On March 14, 2024, Christian prophet Brandon Biggs prophesied and posted on social media that Donald Trump would receive an assassination attempt on his life, but the bullet would miss his head and it would strike his ear. He also saw Trump going on to win the presidency.

Palestinians: Victims of Islamic Delusion

Despite suffering huge losses at the hands of their enemies, the Jewish people remained resilient and outlived their tormentors. The pogroms in Russia, the ghettoization in much of Europe, and even genocidal Nazism failed to wipe out the Jews. But as this book demonstrates, the return and rebirth of the Jews to and in the Promised Land in 1948 did not mark the end of their ordeal.

It's Criminal for Congress to Spend Peoples Money on Unlawful Foreign Aid

Foreign Aid is unconstitutional and Criminal because there is no Enumerated Power authorizing it in the Supreme Law of the Land, our Constitution. Foreign Aid promotes and supports Wars, Bribes, Kickbacks, Revolutions, and generates worldwide hatred of America.

No Motor, No Fun

We reached Miner's Castle at the western end of the park. The view from the cliffs is one of Michigan's finest natural -

attractions. The castle is actually a rock formation created by wind, water and waves. Anyone looking out over Lake Superior can't help but feel a sense of peace from down deep in his or her spirit.

Republican Woman Injured Trying To Enter Lake County Meeting

Autumn Jacunski, a Lake County GOP Precinct Committee member, had her hand purposefully slammed in a door by Vice Chair Mike Trainor, as he tried to prevent her from entering a meeting last week in Leesburg. Ms. Jacunski hand was injured enough to force seeking medical treatment at an emergency room of a local hospital.

To Elect an America-Hating Communist to Office Is To Betray America

Again, they flee their war-torn nations, poverty, government abuse, etc., and then, while running for office here in America, they mean to establish the same un-American system of government from which they claimed that they needed asylum.

Ignorant, Foolish Democrat Herds Believe They Are Above the Law

Attorney General Ken Paxton Continues to Urge the Supreme Court of Texas to Declare Rogue Democrats' Seats Vacant for Abandoning Office, August 21, 2025: Attorney General Ken Paxton filed his merits brief before the Supreme Court of Texas, presenting the legal grounds for declaring vacant the seats of the Democrat legislators who abandoned their duties and fled the state to break quorum.

Wisconsin Definition

Religious

I guess we can take the win, but personally, I want more. I want a court, a judiciary, an entire legal system, that follows the law and doesn't make it up for themselves as they see fit. That's why I cannot be satisfied with this court's decision.

Bobble-Heads. Lies

Lies, Lies and more Lies! The Democrat Party is unraveling boldly, without shame, right before our very eyes. Lying is now a behavior totally acceptable and expected as the norm throughout our government and businesses. So, when did the acceptance of lying become acceptable?

Texas Democrats Slink Back: Time to Lock Them Up and Throw Away the Key

The Texas Democrats who bolted from their duties like cowards in the night have finally crawled back to Austin, tails between their legs, ending a pathetic two-week tantrum over rightful Republican redistricting. These so-called lawmakers fled the state on August 3, 2025, to sabotage the GOP's ironclad plan to carve out five new congressional seats – seats that belong to the people of Texas, not to whining liberals desperate to cling to power.

It's all Downhill From Here, 'Cept What's Up

That's the way the snaking road treated me on Route 89 heading

into Jerome, Arizona. What made it even more maddening was the incessant up and down—all that morning. By the time I reached the cobbled streets of the town, I was tired. It was hot and sticky from not taking a shower the night before. I stopped at a small park.

Trump is Right, We Live in Democrat Controlled Hell Holes

A few examples: we must ask the government's permission now to collect rain water, plant a garden, go fishing, own a property, start a business, build a home or do any type of home improvement, own a dog, drive a car, get married, own a weapon, go hunting, hold a rally and even set up a lemonade stand.

The Greatness of Humility

It is commonly accepted that those with significant wealth and power are the ones who keep the world running. While they do have a lot of influence, the truth is that it is the vast number of common folks who clean offices, remove the garbage, and maintain the distribution of food, water, and energy who do far more to preserve civilization and our way of life.

It Takes a Bunker To Hide the Evidence

Citizens are not happy about this library, either. Several acres of a formerly lovely park in Chicago were plowed under to house this monstrosity. The \$850 million desecration of Jackson Park, on the city's south side destroys some of the outdoor space that is so scarce in South Side. Precious green space was destroyed.

Ding Dong the Witch is Dead

Don't send a preacher to do a warrior's job. You don't have to be a man of God to be God's man. Pray for President Trump's conversion. Stop expecting an unsaved man to do what our Cowardly Lion Pastor's won't.

Wind Turbines and Solar Panels ONLY Generate Electricity

Today, over 6,000 products derived from petroleum enrich our lives. They have reduced infant mortality, doubled global life

expectancy from around 40 to over 80 years, and made it possible to travel anywhere in the world by plane, train, ship, or car—drastically reducing weather-related deaths to nearly zero. These were all unimaginable in societies before 1800.

Instauration Magazine

Kenny Rogers was “instrumental” in recording the libber anthem, “We are the World.” Loretta Lynn, Crystal Gayle (“Don’t it make my Brown Eyes Blue”), The Oak Ridge Boys, and Lee Greenwood conducted a fund-raiser for the repulsive terrorist and South African presidential candidate Nelson Mandela in both 1988 and 1992.

High Speed Chase

Nonetheless, it had been a good day. Red flowering cacti filled the air with their sweet scent and pink streaks sliced the heavens into sections while lighting up billowing thunderheads that boiled toward the sunlight. Their tails faded into the eastern darkness. Saucer-like clouds skidded across the sky to the south of me.

Election Fraud: Mid-Term Elections

One of the shadow governments greatest achievements is election fraud and mail-in-ballots have become their sledgehammer. Of course, the toxic Motor Voter of 1993 aka the National Voter Registration Act, was the first stepping stone. Us old timers fought like warriors to stop it but those who hate America with their millions and billions with the help of the prostitute media defeated us.

Solar Energy Expansion Is Robbing Floridians Of Money and Land

It appears that Florida Power and Light is on that same “renewables” train along with other “social justice” warriors. Don’t forget their pledge in 2022: Net Zero by 2045. Did they close the hearings because they are afraid of the well-deserved blow-back about the costs and reliability of solar energy??? Is the Tallahassee cabal in concert with this, to hide the Globalist cloud overhanging the state?

State Sovereignty

Which came first, the states or the federal government? An even better question should be who created whom? Did the federal government create the states? No, the states created the federal government when they ratified the Constitution. So if the states are the “parents” of the federal government, why are they not sovereign over it?

Israel, Defender of the Free World

Unfortunately, the leaders of France, Canada, Germany, England and Australia aim to please their overwhelming population of Islamists. They are supporting the murderous intent of the enemies of civilization rather than standing by the one small country who is trying to save the free world.

Private Property Rights Are the Key to Freedom

Nearly an unlimited variety of government programs, schemes and tricks are employed to control land use and violate the concept of private property. There are international rules and treaties, federal regulations and programs, state projects, and local plans – many interconnected to one specific goal

designed to change our society, form of government, and way of life.

Stan the Nomadic Road Warrior

Through the years, I've picked up pedal partners during my travels around the world. They've pedaled through 50 states with me for a glimpse of one of the wealthiest societies on the planet. Sometimes, they discover different aspects to the United States of America than what they expected.

“Enlightened” Energy: Why Did Florida Power and Light (FPL) suspend Rate Hearings?

We know that power bills for ratepayers in Florida have escalated sharply in the last two years, and are scheduled for more of the same same in the next 4+ years. People are NOT happy, and have told FP&L AND Tallahassee just that.

An Attitude of Gratitude

There are so many sad, depressed and lonely people in our world today. They're not just pessimistic about the future, they're frightened of the present and overwhelmed with deep depression that they live with every day. For some, it's the loneliness from the loss of a loved one or a fractured family. For others, its fear of their financial situation or future.

Optimal Health is a Few Months Away – Just Start Somewhere

Find a functional doctor, a naturopathic doctor, a chiropractor trained in kinesiology and nutrition, or a good friend who walks in health and can give you sound counsel. Find sound health experts (not medical industry actors) and learn. Stop what's killing you, figure out how your vehicle was assembled and what works for it. You can have optimal health in a matter of months, you just have to start somewhere.

Taxpayer-funded Smithsonian

Honors Pro-Russian Communist

We discovered that the longtime pro-Russian communist Angela Davis is currently being honored by the taxpayer-funded National Portrait Gallery of the Smithsonian Institution as a “luminary” whose “lifelong impassioned advocacy for those without a voice looms large.” The recipient of the Lenin Peace Prize, Davis was a Communist Party candidate for vice president of the United States when the CPUSA was funded by Moscow and provided cover for Soviet espionage activities.

Youth Sports and Character Development, Part I

At my first practice as Head Varsity Basketball Coach, I explain to the kids that it is a privilege, not a right to play on the basketball team, and that part of this privilege means they have to do the right thing on the court, in the classroom, and at home. As basketball players they are now leaders at the school and are expected to act that way. I explain that the type of leaders I expect are Servant Leaders.

Governor Newsom Has no

Solutions How to Run California's Economy Without Crude Oil

California Governor Newsom remains unaware that electricity came AFTER oil, as ALL electrical generation methods from hydro, coal, natural gas, nuclear, wind, and solar are ALL built with the products, components, and equipment that are made from the oil derivatives manufactured from crude oil. Without Crude Oil there can be no Electricity!

Arrested for Having Too Much Fun

Heat waves rippled off the summer pavement while the blazing sun baked the land. Trees lined the highway, with crows and sparrows flying in all directions, but nowhere in particular. One crow was having a difficult time as four sparrows darted in on him, pecking at his feathers. Each time they attacked, he dove away from them.

Florida's Commander In Chief

A Commander in Chief has full knowledge of whatever goes on in his government, or should. The fact that Trump 45 did NOT, was

because of the work of the Deep State, deeply buried in and around his administration. If DeSantis does not have knowledge of the goings on in Tallahassee, as he often insists, is he then acknowledging the active presence of Globalists in his own administration?

The American Dream, in Many Ways, Stands in Contrast to the Word of God!

If we reach what we call success here, then we have, in essence, created a world with no need of the Living God. For those that might not yet fully understand, it would be little to do with the Lord and a whole lot to do with the world.

A Twisted Case Leads to a Twisted Decision

So why did the attorneys for Braidwood Management take such an odd and twisted approach to the illegal actions of the task force? Probably because courts have so twisted and ignored the Constitution they simply make up new rules as they need them, and that this was the best approach they thought they had. To me, that is a truly bad state of affairs.

My Name is Corruption – My Master is Greed

Keeping with the Obama Administration's mission to conduct the most diverse outreach campaign in history, the director of the U.S. Census Bureau is touring Mexican border towns with high illegal immigrant populations to personally assure that those who fill out questionnaires this spring will not be deported.

Explaining the Geyser of Jew Hate

We live in a world of eight-billion people, the vast majority of whom have never seen or spoken to or met a Jew...a Jew whose numbers comprise a microscopic 16 million, only half of that number in Israel, another approximate seven million in America, and about another million throughout the world. This represents less than an almost-invisible micro-droplet in the Atlantic Ocean.

Unearthing A Glorious History

James Madison, the fourth President of the United States, is

considered the Father of our U.S. Constitution. Madison was the primary author of the First Amendment. He was President Thomas Jefferson's Secretary of State. Jefferson authored the Virginia Statute for Religious Freedom, and it was championed by Madison.

Walking Across America on His Hands

That summer of 1984, I pedaled through heavy traffic for the beginning of my coast to coast bicycle adventure. The Los Angeles smog choked me for 100 miles into the Mojave Desert. After crossing the Colorado River, I breathed easier when the brown cloud flowed south toward Phoenix. I pedaled into cleaner air in the mountains.

Texas Republicans Unleash Hellfire on Gutless Democrat Deserters

Texas is under siege, not by invaders, but by gutless Democrats who fled like rats from a sinking ship, abandoning their posts to sabotage a righteous redistricting mission. More than 50 Democrat lawmakers bolted the state

The Great Conservative Hope in Canada

Looking back in history, recall that American Founding Father Thomas Jefferson had wanted to invade Canada. In a letter dated August 4, 1812, he referred to the “acquisition of Canada” being “a mere matter of marching” that will result in “the final expulsion of England from the American continent.”
