

Cell Phones and Social Media: Black Death for Young Minds

You see adults and teens staring down at their cell phones at every conceivable location in the world. You may see them tapping on their cell phones at bus stops, in the park, while riding their bicycles, while skiing, in the weight room, at the pool, on the beach, while attending a lecture, in church, in classrooms...virtually everywhere in America and around the world.

Not As Smart As We Think We Are

I have no doubt that God's Word gives us all the information we need to know, and nothing is hidden from us that we, as Christ followers, must understand. But the Bible is also filled with information that is not YET for us all to understand. This is especially true when it comes to Bible prophecy.

God's Knowledge and Love for You Surpasses AI

The Devil's Advocate, a fictional novel written by Taylor

Caldwell in 1951, described a near-futuristic dystopian society called The Democracy of America, which encompassed the former United States, Canada, and Mexico a few decades after World War II. A military dictatorship with communist and fascist characteristics ruled the country. States and provinces were replaced by districts or sections under a military commander.

God Gives Duties, Not Rights!

This God-revealed insight has been given to me gradually so my feeble mind could accept, understand, process and teach it to others. It is going to anger some and cause others to repent as I did, because of our ignorance of God's Word! It has taken me several years to grasp the precepts taught in God's Word, that have been gradually displaced by man's, perhaps, noble but misguided thoughts and ideals (Proverbs 14:12).

Mazzaroth Musings with Current Events

It's an archaic Hebrew word only mentioned that one time in Scripture, but it's the word the ancient Hebrews used for the twelve main constellations commonly called the Zodiac. Some translations vary the word Mazzaroth by saying "constellations" or "sequence of seasons", but many get it right and don't try to change the word.

Let Us Move on From Jeffrey Epstein

Let us assume Jeffrey Epstein was working for the Israeli secret service and the CIA. Then let us throw into the mix the Russian KGB. Now what? These endless questions shed nothing on our current and precarious situation. We are in serious trouble. Spies and traitors have been among us for decades.

We are Doomed if Trump Refuses to Terminate Criminal Enterprise in Government

I estimate that half of the Federal Government's Programs, Functions and Departments are Unconstitutional, making them Null and Void and a Criminal Enterprise. This is so because they are not authorized by the Enumerated Powers in the Constitution, and are rife with theft and corruption.

Newsom Funds UN's "Multi-

Family” C-40 City Housing in Fire Ravaged LA

Now, Newsom is announcing funding for multi-family residential structures in LA. A UNAgenda “C40” city is the goal, I believe. Newsom and his band of merry crooks want to show the 2028 Olympics what a world-class C40 city looks like. He has zero desire to help the people as he flaps his jaws about expediting things.

California Continues to Devastate Its Economy for a Net-Zero Dream World

Not only does California’s la-la land have a minuscule impact on worldwide emissions, but its growing dependence on refineries in China to meet the enormous demand for transportation fuels to support the state’s public and military airports is becoming a national security risk to the entire United States of America.

The Paranormal is Demonic

The chaos that we are currently dealing with in our nation is not political but Spiritual. Only a return to BIBLICAL

Christianity can cure our cultural issues. We will not vote our way out of the mess we find ourselves in. According to an internet search there are currently 45,000 denominations of Christianity in the world today. DENOMINATE means to divide.

A Look Back and Forward: National Borders & the Value of America as a City On a Hill

After four years of Biden's catastrophic open borders policy, the predictions below have mostly come true. Only President Trump's election stopped their progress. It's time to look at what happened and articulate once again to our liberal friends, family, and fellow citizens why open borders are disastrous. With many thousands of hostile actors having entered our country, our national security still hangs in the balance.

Head Trauma in America: Chronic Trauma Encephalopathy

In this life, there is nothing more important than your health. Money, fame, status mean nothing if you lack good health. You need to eat right to keep slim, such as the

Mediterranean Diet, exercise one hour daily, maintain your spiritual balance whether church or meditation, and keep learning. As President Thomas Jefferson said

Trump's Secret Weapon Against Socialism

To begin with, let us figure out whether Mamdani is truly an American and lied on his naturalization application and whether he should be deported. We cannot afford another Obama, who ran for office with a phony Social Security number, even on a local basis, because Mamdani is backed by the same forces aligned with the "Bolshevik Bernie" brand of "democratic socialism."

What You Have to Compromise in Order to Be Part of The Club

If ever the church needed to hear that afresh, it's today. We live in a time where the agenda of the church is focused on everything but the truth. Why? It's because truth inevitably divides, truth causes controversy, and truth creates uproars and tumults.

Due Process Amendments

As I stated earlier, half of the amendments in the Bill of Rights are dedicated to protecting your rights through due process. Maybe these amendments should be the “sexy” ones. These amendments focus on our legal rights that are designed to make sure the wheels of government don’t run over us.

Tariffs Could Be a Terrible Price to Pay for “Getting Even”

Effort was also misplaced into looking for opportunities in other firms, networking with other professionals in the same field, relocating to other areas around the country where the grass was thought to be greener, so to speak, all with a view on inching up the ladder of success using whatever avenues that present themselves for upward mobility.

Gov. DeSantis Vetoes \$150k

Grant Helping Our Vets

Frankly, this whole thing is NOT a good look for a Governor who is all about appearances. Did DeSantis think no one would notice when he vetoed a relatively small \$150k grant to help our veterans deal with some of life's challenges?? Or was he just "playing politics" and getting back at some back-room foe?

NO Amnesty for Illegal Aliens

Now, granted, we have to remember there was a time of mandatory draft to serve in some branch of our military. Thousands of farmers and ranchers were pulled off their land and sent off to fight in undeclared wars like the VietNam "era". It was a time when **LEGAL** seasonal workers crossed the border and at the end of planting/harvesting time, went back to their home country.

AG Secretary Rollins is Still Working for the Kochs, NOT Trump

Secretary Rollins must be made to understand that there will be no mass amnesty for those who broke the law and invaded our country. Neither will waves of government-approved cheap

foreign labor flowing over the border for agricultural purposes be legalized and given amnesty.

Our Erratic, Crazy and Incomprehensible Politicians

We're seeing our own elected officials turning against our laws. If this kind of "elected lawlessness" continues, we could see America reduced to a "Bananas Republic" with no cohesion, patriotism, no single language, no cohesive culture, no dominant religion and now no sense of responsibility to our Constitution. If that Communist Muslim Mamdani wins the mayorship of New York City, that's one more step in losing our country to mass immigration.

Individual Choice VS Government Tyranny: The Debate Goes ON

In the Fall of 2006, I received a most unexpected invitation to travel to Cambridge University in Great Britain and take part in a debate before a 200-year-old debating society called the Cambridge Union. The issue we were to debate – "This House believes that the United Nations is a dead loss!" There was an issue I could easily get behind.

This Is Your Brain On Drugs – Any Questions?

And, a majority of the people I see now, especially younger people, are covered in tattoos. Many have their noses pierced, their faces and tongues pierced, and the style of clothing for young women today confuses me. It's as if they either want to show as much skin as possible, even in cold weather, or they dress like vagabonds, having obtained their wardrobe from a Goodwill dumpster.

The Economic Imperative for Nuclear Power

All countries need to pursue reliable, efficient, environmentally friendly electricity sources capable of generating and distributing dispatchable electricity to their industry and citizens. Nuclear generated electricity is undeniably the most reliable, cleanest and most sustainable way to do this.

The 1913 Coup Was the Beginning of the End of Freedoms and Constitutional Republic

The PSRRC started digging our grave with four consecutive tools in the Coup of 1913. These started with the ratification's of the 16th and 17th Amendments, authorizing income taxes and direct voting for Senators. The newly-formed IRS then authorized Tax-Free Foundations. The Congress passed another unconstitutional law in 1913 authorizing the privately owned Federal Reserve Bank as the last nail in the coffin.

Blessed Are the Peacemakers Who Prepare for War

Peace is breaking out all over, except in Europe, where Vladimir Putin is continuing to wage war on Ukraine, and Europe is bracing for more Russian aggression. President Trump's hope for a Nobel Peace Prize is being dashed by Putin's desire to make the American president look like a fool for trusting his commitment to "peace."

Cowering Over the Cash Cow of Remittances to Mexico and Beyond

We must also keep in mind that a dollar buys much more in Mexico than it does in the US. The median price of a 3-bedroom home in the US is \$320,000, whereas in Mexico such a home would go for \$100,000 or less. This is yet another reason illegals rush across the border as even when they are working for 30% less in wages, they still triple the buying power or more of their money in their home country when they wire those dollars back home.

Tremendously Entertaining and Emotionally Uplifting

The purpose of this writing is to emphasize what I have found to be as the title states. I do not know just the mechanism of YouTube as far as how people make videos and are paid for their efforts. So far I have only uploaded two you tube videos. The most recent called Boat Load Of Dogs. The first was done several years ago when I was attempting to save the life of a dear friend that had been caught up in the system.

Internal Enemies in the Crosshairs

Evidence of this treasonous conspiracy now made public opens the door to proceed to prosecutions of the same evidence and individuals exposed in the FBI Director Kash Patel documentary, *Government Gangsters*. The evidence also proves that the fake dossier by Christopher Steele was commissioned and paid for by the Hillary Clinton Campaign.

Secular Christianity

By the way, for those of you in the back row, an Evanjellyfish is a Christian without a backbone. Most American churches are populated with them. They are the mutant children produced by the false prosperity gospel. You know...the name it and claim it crew with the big church and the media-star pastor.

The Ironies of Fooling Ourselves with Catastrophic Climate Destabilization

As you witnessed those 11 anarchists shooting up ICE officers in Texas, you're seeing Governor Newsom of California and Los Angeles Mayor Bass defying Federal Law. Both of them are too

stupid to address the fact that California races toward adding 20 million more people, net gain, by 2050. Again, as illegal numbers grow, law and order cannot be maintained.

Tariffs Can Save America from Socialism

Anybody with half a brain tied behind his back, as Rush Limbaugh used to say, knows that the United States is going bankrupt and is on the road to socialism. The victory of the “Democratic Socialist” in New York City, America’s largest city, proves the point. He is a liar and a fraud, having sold himself as half-black, but the biggest fraud is

President Trump’s Criticism of Smithsonian Exhibits

In March 2025, Trump issued an executive order directing the Smithsonian’s Board of Regents to remove content he felt was inappropriate. He cited exhibits in the National Museum of African American History and Culture and the Smithsonian American Art Museum as examples.

The Europeanizing of America – My Airport Experience

I also noticed that literally 98% of those working at the airport were of Muslim descent. They were the ones being used to check people in, to carry people's luggage, to push the elderly to their planes and/or service the food supply to the American people. Hmm.

A New America Just Started On Our National Birthday

So, too, at 5:47 p.m., July 4, 2025 our nation felt a new beginning. That was the moment Trump signed the "Big Beautiful Bill" into law. At that moment, I said a prayer of thanks and supplication. "Thank you, Lord. Please protect this man. He has brought us to a modicum of sanity, faster and further than anyone thought possible.

Democrat Violence on the Rise

Democrats in politics and the media have been committing treason, aiding and abetting foreign invaders and fomenting insurrection, sedition and violence from their Marxist voters for years now. Suddenly, they are pretending to be concerned over the hate and violence they have been inciting for years.

Can Sound Science, Reason, Common Sense Save the Earth and Humanity?

We are seeing common sense from people who have been injured or had property damaged by government and elected officials making rules and laws that are only good for the globalists and their lackeys – the politicians and non-governmental officials who do their dirty work.

Time for Trump to Address America's Cultural Collapse

In the same way the American people have rallied against men in women's sports, they are now mobilizing against the grotesque spectacle of men "marrying" other men, an obvious perversion of the natural law and God's plan for humanity. So-called homosexual marriage is a national perversion that can be reviewed and overturned by the U.S. Supreme Court.

Yesterday's Conspiracy Theory is Today's Truth

The dirty, filthy game of politics in Washington, DC has saturated the prostitute media on every platform from the propaganda machine (TV) radio shows to web sites on overload regarding President Trump's so-called One Big Beautiful Bill.

The Backdrop to America's Underbelly

A guy is reading the paper standing next to Mamdani, "There's an ad running inviting New York businesses to Pennsylvania if you get elected mayor." Mamdani replied, "Just because I support global extermination of the Jews, Marxism, and taxing white people—shouldn't be a big deal." The man with the paper said, "How could that fly in America?" Mamdani said, "I got the vote."

Urban Nullification of the Nation

A Marine buddy of mine coined the term "urban nullification" years ago, referring to the reality that there are no "blue states," just "blue cities" taken over by far left extremists

and destroyed in every case, like L.A., San Francisco, Chicago, Baltimore, Boston and Denver, just to name a few.

Trust in the Lord from Start to Finish

More than yourself or any man, Jesus Christ is utterly reliable and trustworthy. Let not your faith in Him falter, for His provision for you and salvation cannot fail. Trust in the Lord Jesus from start to finish, for He will bring you safely home when your race on earth is done.

The Omnipresence of the God of Love

In 2025, many people are experiencing severe stress about the state of the world and the acrimonious divisions between people. I find it extremely helpful to reflect on God's presence in every person's life. With that in mind, I offer this essay, excerpted from my book *The Living Compass of Kindness and Compassionate Love: Essays on Love, Beauty, and the Mystical Path*.

Fifth Grader Plots Murder In Surprise Arizona

Get off your couch and out the door, to help good things happen in your town. You don't even have to get involved in those scary politics. Help at the library. Read to a children's story hour – displacing a gender dysphoric with pink balloons stuffed under his sweater. Work with an after-school care group at your church OR set one up! There are so many things we all can do to help

American Dream is Impossible Until Root Causes of Treason are Eliminated

My primary problem with Public Service Law Firms is that all of their efforts are directed at the results, and not the root causes of criminality. If they continue this way, they will have employment thru eternity...and the public will have no sense of justice or redress of grievances.

California's Net-Zero

Emissions Plan is a ‘National Security’ Risk for America

California’s “Green” and “Net Zero” policymakers that wish to “transition away from fossil fuels” have focused on reducing just the SUPPLY of in-state oil production and refining to reduce emissions but have offered no backup plan to maintain the supply chain of the products and fuels to support the 4th largest economy in the world.

Why I LOVE America: Freedom, Opportunity, Happiness

Let’s celebrate July 4th because every American lives in the most profoundly fortunate “essential country” in the world. America’s Constitution remains the hallmark for governance on this planet. Every citizen enjoys the freedom to chase his or her dreams, live their lives in peace, and succeed in hundreds of lines of work, play or choices.

Independence Day

Next year will be the 250th anniversary of the adoption of the Declaration of Independence. Over the next 365 days I expect to see plenty of opportunities to remember the date. I want to start by remembering the reason why we declared independence

in the first place.

What Independence?

I can and will celebrate the sacrifices that so many made for us in the past... but I struggle to celebrate our current generations on July 4th. Every July 4th for years now, I can't help but wonder if we even deserve the fruits of freedom, purchased for us by only a few, so long ago.

No Deals with Communists

His nemesis, Zohran Mamdani, the Democratic nominee for mayor of New York City, is an international Marxist and Islamist to boot. They are united in hatred of America. Yet here is President Trump making Vietnam into a trading partner for the United States, subject to a small tariff on their goods entering the U.S.

Birthrights? What a Mess!

Fox News is reporting, Trump to begin enforcing birthright citizenship order this morning. The only order from the Supreme Court on the matter is a slap-down of the lower courts that have been trying to unlawfully run the country from their

bench, without any such power or authority. The actual issue of what is or isn't a "birthright citizen" has yet to be ruled on by the high court.

Yeah...Let's Talk about "Proportionality."

I remembered that she always appeared distressed, not because of a cancer diagnosis or trouble with her two children or a problem in her marriage or with her job as private secretary to a malpractice lawyer, but because of one or another of the endless planet-killing problems that occupy the daily bad thoughts and nightly nightmares of liberals.

Solar Energy Expansion Is Robbing Floridians Of Money and Land

The utilities' target is to have 45% of Florida's energy produced by solar by 2045. The average monthly bill could rise from \$260/month (1,640 kWh at 16¢/kWh) in 2025 to approximately \$535/month by 2045, assuming consistent consumption. Will usage limits be imposed? Will "Smart Meters" just shut the users down when those are reached? It's all in the Globalist playbook.

The Criminal Calling For More Illegal Censorship

In conclusion: Friends, remember that our God-given rights are not taken away. If they go, it is because the people have forfeited them. If you are not willing that they be forfeited, then they must be fought for, and in this case, these criminals must be brought to justice while you still have time to do so!

Okay for Reagan, Clinton & Obama but Not Trump

Clinton's former Secretary of Labor, Robert Reich, USA Today, January 7, 1999: "The dirty little secret is that both houses of Congress are irrelevant." Reich cut to the chase when he said that "America's domestic policy is now being run by Alan Greenspan and the Federal Reserve and America's foreign policy is now being run by the International Monetary Fund [IMF]."

President Trump Right or

Wrong?

Just as President Trump was imposing a “ceasefire” on Israel and Iran, leaving the apocalyptic regime in Tehran in power, another Shia Muslim was taking the USA by storm by capturing the Democratic Party’s nomination for mayor of New York City. So-called “democratic socialist” Zohran Mamdani is a “Twelver,” officially an Athna-Asheri Muslim.

“Milquetoast Minions?!”

If you remember the Disney version of “Peter Pan”, you may well remember the Island’s name, Neverland. If you were raising children in the late 80s and throughout the 90s, you may recall the commercial from ToysRus. The line from the jingle was “I don’t want to grow up, I’m a ToysRus kid.” In many ways, we’ve seen our culture promote delayed childhood.

Big Brother is Watching You

Our world is fundamentally changing. It’s morphing into a monstrous system of surveillance, manipulation, and mental enslavement. We’ve already lost control over AI and the transformation has become something far more sinister, something that should terrify every thinking human being. We are standing on the edge of a technological abyss, humanity many not have a future, we would be irrelevant and disposable.

When Is A “He” A She & A “Her” A He?

This past weekend, “Gay Pride” LGBTQ parades flourished in large cities across America. Approximately 5.5 percent of Americans identify as homosexuals, bisexuals, lesbians, queers, transgenders and other forms of sexual expressions and/or perversions. That equates to around 14 million people who live a lifestyle outside the norms of average American society.

When the FBI Knocks

Personally, while I find the actions of the FBI both negligent and reprehensible, the actions of the District and Circuit courts are irresponsible, culpable, and impeachable. Those judges took an oath to support the Constitution, an oath they denigrated with their vile abuse of power.

Graveyards Filled With Tombstones, Waiting For Names

And all those who’ve profited from the deaths of millions

overseas all these years will come to understand just what they have done. That's what I predict is coming to America, but don't live your lives in fear of what might happen. Instead, fear the Lord and seek His wisdom and be about your Father's business. While there's still time.

Call To Action Florida! Help Spotlight Dark Money In The State

Citizens of Florida are organizing to put a halt to millions of dollars of donations dropped into the "PAC monster" with no accountability or sourcing. A PAC is, of course, a Political Action Committee, and whether you hear "PC" or PAC", they are one and the same.

FBI Must Arrest, and Convict Traitors Funding the Insurrection or be Disbanded

Our country barely exists because the FBI was never an honest law enforcement organization. It has been corrupt since its inception more than 100 years ago (part of the Coup of 1913). I first came in contact with the FBI about 70 years ago as a State Trooper, when they took credit for many of our arrests.

Nullifying the USA

Of course, the court was going to eventually rule this way, if for no other reason but to protect their own power and the top court in the country. This ruling confirms what I have been saying all along, these lower court O'Biden judges have no such authority and Trump has no legal, moral or ethical obligation to abide by any of the politically motivated efforts to usurp the Presidents authority from the bench!

New York Becomes London

In case you have not been paying attention, London has fallen. The massive influx of illegal Muslims to the city under socialist leaders in England has resulted in a complete Islamic takeover of England's greatest city, London.

The Prophecy of Elam (Iran)

The prophecy of Jeremiah 49:34-39 declares that Elam, modern-day Iran, will not make peace and will be devastated in future attacks led by the U.S. and Israel.

Call To Action Florida! Help To Shine The Light on Fake Republicans

Brevard County, Florida, has taken the lead. They were one of at least seven counties that received Fake Voter Guides in the 2024 primary elections in the state.. The others include Hillsborough, Lake, Manatee, St. Johns, St. Lucie, and Sarasota. These “guides”, pictured above, were blatant lies and were neither endorsed by Trump, nor did those candidates listed support America First policies.

Dingbats In Congress: We Need IQ Tests For Our Elected Officials

If you disagree with this commentary, please give me some ideas on how we can make America better. How can we escape dingbats like AOC, Maxine Waters, Rashida Tlaib, Hank Johnson, Jasmine Crockett and many more? Would you not agree that we need academic standards and IQ tests passed by our national leaders. Or, do you want dumb people managing our national affairs?

Trump-Haters Now Love Trump

When the Trump-hating The Atlantic magazine runs a piece praising Trump, you know something is very strange and seriously wrong. Eliot A. Cohen's article on the Iran war, "Trump Got This One Right," is fascinating for many reasons that ought to concern constitutional conservatives. One danger is that President Trump will continue to want to please those who hate him.

The Compassion & Mercy Of The State On Full Display

In spite of the Lawgiver, the said representatives, in both federal and state governments, have rendered God's Law null in void by undermining it and then establishing what He clearly condemns in its place.

Trump Administration Advocates for Nuclear Power

Perhaps it is time to weigh the benefits against the risks. If we do, nuclear power comes out way ahead of other electricity

production methods. This Executive Order is at least a step in this direction. We need to ensure it is enforced and strengthened to allow for an improvement in quality of life at a cost of pennies per kWh of electricity for everyone in the world.

My Response to Cliff Kincaid's Article: "A Trump War in Iran Means the End of MAGA?"

In Cliff's manic rush to judgment on Trump and his supporters, and even me, his friend, Cliff made so many obvious critical errors in his pieces. He privately sent me his first piece and at first glance, I let him know he made errors right out of the gate...from saying "Israel can never have nukes" when he meant to say Iran, to quoting President Hamilton in 1793, who was never President...and Washington was President in 1793. It only got worse after that.

A Trump War in Iran Means the End of MAGA?

Lex Greene writes, "For the record, Congress has not 'declared a war' since WWII. Yet every President since, has ordered

American troops into harm's way without any declaration from Congress." Let's examine this claim and see whether it is true and relevant in this case.

Call Me a Patriotic American Because I Love America

This is why I am an American Patriot. We either stand up for freedom, equality, integrity of thought, choices and freedom of religion—or we let ourselves devolve into the insanity of Islam. God bless our U.S. Constitution. God bless Donald Trump. God bless those men and women who carried out the raid on Iran. God bless every loyal American. God bless America.

Iran's Blood-Soaked Mullahs are Unworthy of the Iranian Name

They claim to be Iranians, but their loyalty lies not with the nation, not with its people, but with a warped ideology that glorifies submission over sovereignty. Their supreme leader, Ali Khamenei, and his clerics wield power not as stewards of Iran's glory but as enforcers of a foreign creed.

Looking Up Instead of Around

Do not be lulled into complacency with the cares of this life and be surprised by a sudden crisis before you turn to the Lord. Trust in the Lord Jesus today and have the blessed, bedrock hope that encourages us to look up to Him instead of around at earthly things that distract, are subject to change, and cannot deliver (Colossians 3:1-4).

Fear Sells

Don't get me wrong, there's a lot of bad stuff going on. A lot of bad things happening in the world. And that "great and terrible Day of the Lord" certainly could come at any moment. But after a lifetime of watching fearful and abominable things come upon the earth and then disappear, only to be replaced by the next big "apocalyptic" event, I'm tired of it.

"The Service" of the Citizen Soldier

A thousand years of Barbarism passed before the light of a New Republic flickered into being on a new continent across the sea. Once again, the citizen soldiers of a New Rome began to

assemble in their town squares in time of peril, and, as centuries before, they stood ready to stand between their loved homes and the war's desolation.

The Mullahs Ruling Iran Are Not Iranians

I have repeatedly said that the mullahs ruling Iran are not Iranians. They truly despise Iran and its glorious past. Genetically, they are mostly Arabs. They even hate its name. There were never any questions about the Islamists denigrating Iran and exalting Muhammad.

Congressional Republicans Found To Be More Liberal Than Their Constituents

It might surprise you, but Sen. Mike Lee, UT, was the only Critter who earned a perfect score. Biggs, AZ; Roy, TX; Crane, AZ; Rosendale, MT; Perry, PA; Good, VA; Brecheen, OK; Norman, SC; and Paul, KY, rounded out the top ten. All of these surprise me a bit, but I am not familiar with their districts, which may explain a lot.

Constant Lies About America's Middle East Mess

Don't you find it interesting that the Israeli attack on Iran closely followed President Trump's trip to Saudi Arabia? That's when he told the Saudi rulers the same thing: "Iran will never have a nuclear weapon." The Saudis fear Iran more than the Israelis because the Saudis are Sunni and the Iranians are Shiite. They hate each other more than they hate Israel. But global Islam hates America.

Israel – Iran & Presidential Powers

The intentional political divisions in the USA are no accident or coincidence, and this is at the root of the current debate over what powers the duly elected President has or doesn't have. No matter what Trump decides on any issue today, half of the country will support it, the other half will try to destroy him for it.

Most Americans Demand Term Limits To Delete the Corrupt Rot in Congress

We will receive term limits by voting into office elected officials who campaigned for such passage. We can also write our senators and House members in such large numbers that we make it a national calling. It's got to come from the ground level American citizens in order to become a popular mandate. If you want term limits, you've got to speak up, write up, and stand up.

I, For One, Will NOT Stand Down On WHAT Is Called The “Pride” Agenda

Friends, the rainbow that the Lord gave was not a sign given as a celebration for the abominable, but it was a reminder of His righteous judgments upon the heads of the guilty! I, for one, will NOT stand down on what offends my God, nor His children (Luke 17:2).

Is Trump a King, or Not?

You don't have to be Tucker Carlson to be critical of the Trump Administration's involvement in the war between Israel and Iran. There is no treaty between the United States and Israel to come to the defense of the Jewish state. Equally significant, there has been no U.S. declaration of war on Iran. Hence, American involvement is unconstitutional.

Owning Your Own Land

The underlying concern I have is the ever growing belief that governments have the right to tell people how to live their lives. While the desire to use government to get one's own way is nothing new, in this country it seems more and more people are willing to use the power of government not only to protect their own legal rights, but to also infringe on the legal rights of others.

Now MAGA's Are Turning On Trump?

Publicly calling out our President is the same as joining ranks with the Left, at this moment in time. Tucker Carlson and Senate leader John Thune (R – SD) are two who have engaged in this treachery in the last week. Great guys, I'm sure. **HOWEVER . . .**

How About Separate Stand-Alone Constitutional Bills Instead of a Huge Debt Bomb?

This is his second and final time as president and I believe President Trump has changed quite a bit – for the good. During the illegitimate Biden administration, Trump wasn't sunning at the beach eating ice cream cones. I believe he finally found out just how rotten and corrupt the U.S. CON-gress (a lot of RINO's) is right along with agencies like the FBI, CIA and many more.

Invitations To Liberals' Stupidity, Arrogance and Vacant Mindedness

While California burned, Newsom and Bass gave "excuse" speeches. While Border Patrol Head Tom Homan is doing his job to rid the country of criminal illegal aliens, Newsom and Bass do everything in their power to undermine America's laws, border and society. Except, even Californian citizens are sick of paying out billions in welfare, medicaid, prison housing, schools going into the gutter, homelessness, drugs and crime.

Israel's Fight is Iranian People's Fight

Israel's fight is Iran's fight. Netanyahu's vision is not just the destruction of a nuclear threat but the liberation of a people. The ayatollahs have brought Iran to its knees, but Israel has given it a sword. "Your light will defeat the darkness," Netanyahu told Iranians, and they are answering. The regime's days are numbered, its lies unraveling, its terror crumbling.

The Coup of 1913, Replaced Tariffs With Income Taxes

The Coup of 1913, which replaced tariffs with income taxes, allowed this treason to occur. The Federal Government was totally financed by tariffs and excise taxes until the Coup of 1913. Note, it is impossible to have a Constitutional Republic with Federal Income Taxes.

Noxious Weeds and Black Mold

Took Over

No, this movement is not natural and hasn't come about by chance. It's been nurtured from a tiny crack in the moral fabric of our nation. Those who should have known better and should have done better ignored it, and now we have an uncontrolled infestation, an overgrowth of noxious weeds, a black mold enveloping the hearts, minds and souls of our young people, and it's time we grow a backbone, stand up

Prism of America's Education: Can You Handle the Truth?

For the last 20 years I have reported on Agenda 21. As a result, when I ran for office I was put on the Southern Poverty Law Center list of domestic terrorists. I was yelled at, called names, and had people walk out of seminars that I conducted. But it didn't matter. The truth is the Truth, and once you see it you can't unsee it! The truth doesn't go away.

Universal Injunctions

Birthright citizenship has been a very hot topic for the last few years. When Donald Trump signed an executive order that quoted both the Constitution of the United States and federal law, claiming that would be the policy of the United States, that triggered multiple lawsuits. The Supreme Court heard oral

arguments in *United States v. CASA*, but rather than focusing on the birthright citizenship question, they were asked to resolve the question of nationwide, or universal injunctions.

The Uglier Side of Electric Vehicles

And now, as the early EV are aging, we need to deal with an even uglier side of Electric Vehicles –disposing of the toxic EV batteries from old or burned-out EV's, that are polluting the air we breathe and the grounds we walk on.

Enforce the Communist Control Act

The role of one communist group, the Party for Socialism and Liberation (PSL), is apparent for all Americans to see, as their banners and signs carry their names and are being mass produced and seen on television. Members of communist groups have been involved in firebombing Tesla dealerships and assassinating the two Israeli embassy staffers on the streets of Washington, D.C.

Muslim Leader Calls for Killing Americans And Their Leaders

I am not here to spread fear, only awareness. I hope you and yours are able to pause at the “caution” sign, and inculcate all that it means in this case. Yes, some Islamist's could try to do violence towards any of us. Yes, it is also far more likely that we can prevent or ameliorate some of this should it occur, by being observant and ready.

Insurrection, Sedition and

Chaos Erupting Across America

Finally, I am proud of America. I fly Old Glory outside my front door every day. I love this country because I've seen some really nasty countries around the world. We offer every American citizen the very best in opportunities no matter what their race, religion or color. Americans are the luckiest human beings on the planet.

Can California Run By Democrats Be Saved?

A dumb blonde on CNN defended Mexican agitators flying Mexican flags during the LA riots by saying it was not illegal to fly a flag. She missed the point. California became Democrat after Republican Ronald Reagan was governor because of the influx of Mexicans into the state. That is why they fly Mexican flags.

He Raised Me Up To Fix Was is Broken Not to Run Away

One of the things that I learned first and foremost in the life of Christ is that what I desired others to be for me (A Paul to a Timothy) is, in fact, what the Lord was and is training me up to be for others.

Mexico vs U.S. Gun Manufacturers

Cities and states have been trying to put gun manufacturers out of business for decades with frivolous lawsuits, blaming them for the criminal use of their products. This got to be such a problem that Congress passed the Protection of Lawful Commerce in Arms Act. Now Mexico has joined the fight, blaming Smith & Wesson for their drug cartel problems.

Potty Politics: The Movement

Needs Wiping...

I think that the desperation of the sole US Rep from VT tells us the story of the demise of the anti-American party. Without their illegal immigrants, which they had to PAY, with OUR money, to come here, they have no working base. No one to do their bidding, believe their mandates, follow their tenets, clean their houses, ...

An America First National Bankruptcy

If you are like me, you get emails from outfits like “National Debt Relief,” promising help to pay down those credit card bills. If you watch many of the “conservative” opinion programs, you are constantly told that you must buy gold to avoid a national economic disaster. In fact, we need “National Debt Relief” on a national scale, to avoid the need to buy gold in the first place.

June Is The Month To Be Proud, Accomplishment Is What Grows Pride

I hereby submit that what we should celebrate is PRIDE OF

ACCOMPLISHMENT. Pride of having reached a milestone after real effort. Pride in a family member who has done good things. The world is chock full of things for which we can and should be proud. Pathetic folks dancing down the street with plastic breasts stuffed under tight sweaters, sporting garishly painted faces, is not one.

Mobs, amped up by professional agitators and implicit support from Democratic elected officials, have attacked federal law enforcement officers with deadly intent.

Consequences Of 25 Million Illegal Aliens In America

You must ask yourself: do you want a Mayor Bass or Newsom or Walz or Johnson to run your town? Do you want lawlessness to take over? Do you want another 25 million more illegal aliens? Do you want their gangs in your neighborhood? Do you want them

killing or raping your daughter? How do you think the parents of Laken Riley or Kate Steinle or Jocelyn Nungaray feel? How do those parents of those 270,000 drug deaths feel?

Are the Courts Now Officially Running the Trump Administration?

It was sad to see President Trump bow to the will of liberal judges and bring back a terrorist gang member from El Salvador so he can “enjoy” the benefits of the American justice system and become a cause célèbre for the communist left. Who knows how many thousands of dollars will now be spent to try to keep him in prison.

We Must Tell the Emperor the Truth

Telling the truth to the emperor, not acquiescing with the lie, shows respect and love toward those misled into this false way of life and may lead to their deliverance. It is being faithful to Jesus, who loves and accepts all those who repent of their rebellion against God and believe in Him, the way, the truth, and the life (John 3:16-21, 36, 14:6; 1 John 3:18).

What's Up With the Post Office?

But now, Amazon has developed their own delivery service. After being a big part of the reason our Postal Service is bankrupt, Amazon now has their own distribution and sorting facilities, their own trucks and delivery drivers, so they're using USPS much less than before and plan to phase it out completely.

Permitting for Profit

In poker there's a move called "Buying the pot." This is when one person makes a very large bet in an attempt to discourage others from continuing the hand. But what if we're not talking poker? What if we're talking permit fees for the use of your own land? That is exactly what George Sheetz sued the County of El Dorado California for.

Trump v. Musk

Might all of this has more to do with sinking the BBB and electing Casey DeSantis to replace Ron as Governor of Florida?? I am NOT a Donald's fan, but this might be worse...

There are several good men who may run for the Florida Governorship. Might the evidence of Musk Money back them down?

Deport Illegals or Social Security and Welfare will be Bankrupt

There is no doubt that ignorant and apathetic Democrats voted for the traitors and criminals currently in public office. These voters are really stupid Communists, and don't know it. Who else would vote for their own destruction? The illegal invaders are especially harmful to minorities, who traditionally and inexplicably vote Democratic.

What Lies Beneath

There is not a baby in the world born with hate in his or her heart. Hate is taught. Hate is learned. What we have been witnessing—really since Obama made his ignominious debut in our body politic—was that the hate that is learned has remarkable staying power. It transcends education and objective reality and cold hard facts. It is animating and energizing.

Another Brave Senator from Wisconsin

Decades ago, a Senator from Wisconsin tried to save America from a communist takeover. These days, a Senator from Wisconsin is trying to save America from financial bankruptcy.

D-Day: June 6, 1944—The Sea And Sands Ran Red With Blood

Those who fought at Normandy on D-Day to preserve freedom from defeat by Hitler's national socialist fascists paid a terrible sacrifice. The beaches at Normandy, with NAZI artillery and machine guns established in cross-fire patterns, were, indeed, "killing fields," prepared for slaughter. The sea and sands ran red with blood.

And the Pulpits Are Still Silent

A May 2005 survey of American pastors and ministers conducted by George Barna asked Christian leaders to identify what books were the most influential on their lives and ministries." Water and Weather Modification – Crisis

Americans, I would speculate more than the majority, have no clue just how dire the situation is either due to apathy, stupidity or they simply will not take the time to get informed or involved. Yes, I do remember what it was like to work full time taking care of my only child with zero support from her father who skipped to Canada when she was 2 years-old to avoid paying \$75.00 a month in child support.
