

The Left Tries Dark Money Solutions For Their Dying Party

The NY Times says that Democrat donors and strategists have been meeting in luxury hotels to figure out how to win back working class voters. Let me repeat that... They are throwing big money at the little guy who has none, thanks to their policies and practices. And they are confused as to why this might not work?

NewsNation's Chris Cuomo: Illegal Immigration Is An Artificial Issue

After watching Biden's illegal alien invasion of our country for the past four years and all the pain and destruction he caused, I about fell out of my chair. How could someone with an IQ over 100 make such an absurd, obscene and horrifically stupid and callous statement?

The Amount of Money Wasted on

Net-Zero Green Policies is Staggering!

It's scary that our "Green" and "Net Zero" policymakers are setting "energy" policies that are mandating subsidies, directions, and tax breaks, when they have no comprehension of the subject of ENERGY.

Find Your True Self and Evil Looses It's Power

Living by the grace of the Lord you may be hated by the authorities for leading the people out of their hands, and as they hate you, so will they, like the apostle Paul, see the false righteousness of their own zeal.

The Only Path to Crush Iran's Brutal Regime

This campaign will not be bloodless. The Iranian people, already burdened by the regime's corruption and incompetence, will bear the brunt of these measures. Food shortages, skyrocketing prices, and crumbling infrastructure will hit hard, especially outside the elite circles of Tehran's loyalists.

The “Backroom Hustlers” Around Trump

If I were Trump, I would fire most of those around me, and bring back Musk and/or his genius associates to take on the Deep State directly. I would take their advice over the “conservative establishment” any day. Such an approach has the added advantage of Musk being able to launch the “hustlers” into orbit.

A DEI May Have Caused People To DIE

Both CEMA and the St. Louis Fire Dept have the ability to trigger the emergency sirens, but the DEI hire at CEMA just called the St. Louis FD and asked them if they “had” the sirens; she did not say to activate them. Ms. Russell, although only a short distance away from her HQ, did NOT contact her own office or return to activate the emergency system herself, it is reported.

Satanism and the New World Order

There is no more empowering way to face the NW0 conspiracy – and all that it entails! – than to see it as a challenge that must be overcome, and in doing so, become a better and more powerful person able to face the future. There's probably not a single person alive who has not felt they lost part of their soul, drive, enthusiasm, or creativity due to past emotional trauma.

Give Back to Caesar What is Caesar's

Elon Musk is right about the Trump-backed "One Big Beautiful" bill being a fiscal disaster. If President Trump continues down this path of more federal spending, deficits, and debt, America is finished. The only way out is an alternative monetary system.

The Political Persecution of Oath Keepers Founder Stewart

Rhodes

I did an interview with Stewart Wednesday morning. It was great to reconnect. I had not spoken with him in years. Please take the time to listen. The Biden justice department destroyed the life of this Christian man...and the organization he founded.

Grading For Equity, Men Beating Women in Sports, And Other Lies

Out in California, the land of fruits and nuts, school boards that control the educational levers for 5,200,000 American kids—are ready to pass a new grading system: “Grading for Equity.” In that new system, everyone “earns” an “A” whether they perform the work or not.

Rogue Judges Will Not Stop Trump's America First Agenda

Congress is rising to the fight. Jordan's oversight, Mast's legislation, and the GOP's relentless push to curb judicial overreach are the opening salvos in a war to restore constitutional order. These rogue judges may think they're

untouchable, but they are not. The American people will strip them of their ill-gotten power through their elected representatives. Trump will not bend. His America First agenda will not break.

Salt of the Earth...

If you are to take an honest look in reference to the Word of God from both the past to the present state of any people or country, it is the history of men forgetting the Lord; and when they do, the decay begins.

TX Atty General Ken Paxton Kicked Off Of Statehouse Floor

"The Texas House has now spent more time debating Biden-style student loan repayment legislation... than debating eliminating property taxes," GOP priorities are being put on the backburn, said Harrison.

Memorial Day

Because Memorial Day is the last Monday in May, it has become the unofficial beginning of the summer season. Celebrated with cook-outs and other family get togethers, it seems fewer and fewer people are focused on the honoring of those who died to secure their rights and instead are enjoying their cook-outs and planning for summer vacations.

Mark Steyn: Here's to you!

Going back to Mark Steyn. Sean Hannity, Clay and Buck and some others have large audiences (do miss Dan Bongino's show), but I favor Mark's radio show; he has a very large listening audience. You can listen [here](#). His interviews on climate change are [here](#) and worth listening to. What a gentleman and someone to admire for his intelligence; a dedicated truth seeker with wit and grit.

Putin is Crazy Like a True Communist

Putin is like the communist who killed those two Israeli embassy employees on the streets of Washington, D.C. He wasn't crazy. He was in the grip of a foreign ideology that justifies murder. He shouted "Free Palestine" as he was taken away. These are the motivations of global Islam and international

communism. They will not rest until America is buried.

Unseen Money Is the Key To Our Disappearing Freedom

Stay tuned. There will be more zoom meetings to join; the next is scheduled for July 26, as it stands. I will give you updates, new things to do, share and think about every few days. Be there, or be content to live in the dark, with no AC, clean water and little food. That's coming if we don't. For now, read, learn and ENLIST those who want freedom.

My Father: A United States Marine

Most American kids today take their freedoms for granted. Most don't possess a clue as to the "Greatest Generation" that saved the world from Nazi aggression in World War II. Most bury themselves in their "Smart Phones" while our society moves at frenetic speed to a destination none of us really understand.

The United States Must Win the AI Arms Race

We are in the middle of an Artificial Intelligence (AI) arms race that we must win. So-called “Killer Apps” are being created. “Whoever leads in AI will rule the world,” declared President Vladimir Putin. He understands that his ally, China, is poised to do just that, and now the United States is making it possible.

Out Of The Abundance Of The Heart

As the world sinks deeper into darkness and depravity, chaos and confusion, some of those lost ones will soon be looking to US to find God. I believe the hunger and thirst for righteousness will increase in these last days, at least among SOME, and those of us who name the name of Christ need to be set apart, our lives shining examples of what COULD be for those who are lost and seeking. So let us represent our Savior and our Lord well.

Heading in the Wrong

Direction

It seems to me that most Americans are now realizing that America is heading in the wrong direction. While we may disagree on the reasons why we are heading in the wrong direction, the fact remains we are heading in the wrong direction. In this article today, I want to present four reasons why America is heading in the wrong direction.

Memorial Day 2025: Will Americans Still Die For Freedom?

Memorial Day—which will be officially observed on Monday, May 26, this year – is a day to remember what should be remembered every day: The service and sacrifice of the more than 1.3-million American veterans who have given their lives in war so that we, their posterity, might live as free Americans.

Land of Liars, Land of Slaves

The whole gist of the speech can be summarized is that America is open for business! America is not looking for War. America is not looking to spread Democracy. America is not looking to get involved with Arab culture. Your culture is your own. America is open for business and is looking for trade. Trade

is what will make all of us strong.

Amazon/Etsy Sell Assassination Gear

Two huge international online retailers, Etsy and Amazon, are allowing their merchants to sell Assassination-promoting gear.

Ken Paxton's Thunderous Charge to Oust John Cornyn

Texas stands at a crossroads, and the 2026 U.S. Senate race is shaping up to be a seismic clash that will shake the Lone Star State to its core. On one side we have Ken Paxton, Texas Attorney General, a relentless champion of conservative values and a loyal ally of President Donald Trump. On the other, John Cornyn, a fossilized relic of the Republican establishment, squatting in the Senate since 2002, delivering nothing but empty promises and betrayals to the people of Texas.

Stupid is As Stupid Does

Say what you want to about the depth of President Trump's PERSONAL Christianity...I am not here to debate that...but he has clearly opened the door and welcomed Christianity back into our government. No wonder the phonies in both parties are kicking against the pricks.

D.E.I. and Affirmative Action Biggest Cons In America

As an educator, I can vouch for the fact, that if you don't learn the basics of your grade level, it leaves a hole in your learning curve. Once you cannot read or write at your grade level, you build your educational foundation on a house of cards. I saw it firsthand in the 1980's when Detroit, Michigan's dropout/flunk-out rate reached 88 percent as reported by anchor Brian Williams.

Where Is The Church? The Same Place They Have Always Been

This last week, I was going through a news reel to see what was going on in the streets of America, and no surprise to me whatsoever, I heard a popular (Gatekeeper – keeping the people's eyes on himself as the standard and not Christ; 1

King 13:33) “people pleasing” preacher (who loves the approbation: approval and praise of men; John 12:43) asking the question to his congregants as to where the church is right now. Instantly, it made me righteously angry, and for good reason.

Meet the New Boss, Same as the Old Boss

My fear is that Trump, the businessman and deal maker, does not understand international communism or global Islam. You can't negotiate with terrorists and you can't deal with Communists and Muslims who want to kill you.

More and More States are Being Threatened With Carbon Capture Pipelines

But Pennsylvania has some critical hurdles to face before jumping into latest fad for reaching Net Zero – “a target of completely negating the amount of greenhouse gases produced by human activity, to be achieved by reducing emissions and implementing methods of absorbing carbon dioxide from the atmosphere. Global net emissions of carbon dioxide will need to fall to net zero by 2050.”

Comey: A Follow-Up

Comey was nominated by Obama in his second term, which was the four years when Obama moved to put much of his anti-Americanism into play. He didn't care; he didn't have to make journalists tinkle down their leg at the sight of "America's first black President". Obama had our nation where he wanted them; eating out of his Muslim hand. And the country was hardly aware.

Why the Seventeenth Amendment MUST Be Abolished

The U.S. House of Representatives was to be the legislative body for the people. Each district within the states of the Union would elect an individual to Congress (Art. I, Sec. II) who would represent them under Art. 1, Sec. 8 of the U.S. Constitution. The framers were adamant that the states remain sovereign entities and have equal representation in Congress.

"Read My Lips" How to Snooker

Oregonians in Accepting More Taxes

The political elites imagine, “this is what the people wanted!” Yet, there are very few people who are in favor of having their taxes raised. They can only be convinced to vote for tax increasing bonds and ballot measures through incessant ad campaigns and political strategies that push the narrative that “the sky is falling or will fall” if we don’t fund this or that proposal. Think of the mindless global warming scare tactics.

Painting Our American Civilization Into A Corner

This commentary may give you a sneak preview into the future of America’s civilization. It’s based on the facts that we know, and the coming facts that our children will endure or perish from, because we didn’t take action to change the course of history. Everything I write about stems from my lifetime of world travel across the planet.

Arrest the Judges and Fire

the Lawyers

What is more, the highly respected analyst Gordon Chang says Trump's dramatic reduction of tariffs on China represents a "win" for the communist giant. That win for China was engineered by Treasury Secretary Scott Bessent, a former financial manager for the George Soros hedge fund.

Hope Provided Through Unusual Means

If you have received this message of hope, the gospel, do not keep it to yourself. Remember the love and grace the Lord bestowed on you when He sent people and circumstances into your life to share it. For example, if you eat at a restaurant or have repairs done in your home, be gracious and give a good tip with a gospel tract to the server or repairman.

Nothing In the World Like A Mother's Love

If you're blessed enough today to still have your Mom with you in this world, go give her a hug and let her know how much she means to you. I can no longer do that, but my kids remember their grandma's sweet, loving embrace – that same love that my wife is now passing on to our children's children. Pray for

your Mom, thank God for her. There truly is nothing in the world like a mother's love.

The Systematic Killing of America, Part 3

The shadow government is alive and well in America and has been since the early 1900s. "The Council on Foreign Relations (CFR) established six years after the Federal Reserve was created, worked to promote an internationalist agenda on behalf of the international banking elite.

Understanding REAL ID

The major concern I have personally regarding REAL IDs is that national database. Will Congress one day try to force the states to only issue REAL ID driver's licenses? While unconstitutional, illegal, and void, it would not surprise me one little bit. And if you're hoping the courts would prevent such unconstitutional legislation, recent history shows that would be unlikely.

Newsom Relinquishing Control of California to China to Meet Energy Needs?

While the economy DEMAND continues to increase for products and fuels, Newsom continues to destroy the SUPPLY of oil and refining to meet those DEMANDS – China coming to the rescue!

Is This What We Voted For?

The Muslim Brotherhood, which effectively controls Qatar's Al-Jazeera television network, gave rise to terrorist organizations such as Hamas, the officially designated Foreign Terrorist Organization (FTO) that launched the October 7, 2023 attacks on Israel. However, the Muslim Brotherhood is not an officially designated FTO, even under Trump.

“86 47” – A James Comey Post

The White House says it will be taken seriously. Proper punishment for this kind of overt threat on someone's life is atop my daily prayer list. I pray that this IS taken seriously. I have to wonder how involved is this Trump-hater extraordinaire in the other attempts on our President's life.

Honestly Assessing Trump (Day 114)

I continue to support Trump. But as Trump allows the unconstitutional Judicial Branch to act as if they were elected to run the country, and the most dangerous criminals in the USA go unpunished, I do not expect the USA to ever be great again. Do you?

Trump's First 100 Days: A Gold Standard for the History Books

While we know the Radical Left and "One World Government" globalist elites will never give up and that vigilance must be our watchword, the MAGA Millions have surely earned a victory lap!

If No Longer 'One Nation

Under God'; We Will Become a Nation Gone Under

The one thing that matters: stand up for America in your home, with your kids, with your school, with your college, with your school board, with your city, with your state and with America. Uncle Sam and Aunt Samantha deserve your best; because when you do your best, America will remain in good hands down through time. God bless America.

Prism of America's Education: The Carousel of Hell

I have never been so disgusted with a group of people as I am with this Do Nothing Useful congress. President Trump is getting knocked around daily, and congress does absolutely nothing. Do they not realize that 2 years is a very short time till the next election??

Self-Deporting Illegals: Solution Has Been Ignored

Since 1993

It sickens and disgusts me to see those who claim to be Americans have become crazed supporters and doing everything in their power to protect and keep ILLEGAL aliens from being deported. ILLEGAL means just that and the INVASION which took place, as planned, during the illegitimate Biden administration can only be fixed with a permanent solution by the GOP in Congress who need to find their spine.

The Culture Is The Church's Report Card

The prince of preachers, Charles Spurgeon, said, "A church that does not exist to reclaim heathenism, to fight evil, to destroy air, to put down falsehood, a church that does not exist to take the side of the poor, to denounce injustice, and to hold up righteousness, is a church that has no right to be."

To Allow Opt Outs or Not to Allow Opt Outs, That is the Question

The question of if and when parents should be allowed to opt their children out of certain activities and curriculum in

public schools has been raging for quite a while. With our society's rapidly changing standards, the need for parents to oversee and control the upbringing of their children has become even more important.

Qatari Funding of “Choices Program” in American Schools

This is the first time an American president has visited Doha in 20 years. We know Qatar plays all sides. They host the largest US air base in the region while maintaining open relationships with enemies of Israel and the West, the Taliban, Hamas, Houthis and Iran. They are not mediators unless they have direct stakes in the outcomes.

The Good, The Bad, and The Ugly, of Electric Vehicles

Electric vehicles are being mandated in California, but Governor Newsom is oblivious to the fact that it's just another product that cannot exist without oil, as all the thousands of parts and components of EV's, from tires, insulation, and computers, are made from the oil derivatives manufactured out of crude oil.

Follow-up To America's Decline: Telling It Like It Is

If an average American citizen can see what's happening, why can't 535 members of Congress "see" it, and stop it? Again, we need a total "shut down" of all immigration into America. We must demand only "English" be our national language. If guys like Kahlil or Garcia don't like our country or wave the Hamas flag...deport them.

Prescription For Chaos

Early in life we were emotionally shocked and traumatized. And with that first fall away from our original state of being, fault took root and grew into the multi-layered ugliness that we see ourselves composed of, when we first (if ever) begin seeking for what went wrong.

What A Friend We Have In

Jesus

Also in the Old Testament, we have the Psalms, the Song of Solomon, and Ecclesiastes, all song-related books. In the New Testament, we read of Jesus and His disciples singing in Matthew 26, the apostles singing in Acts 16, the angels of heaven singing when Jesus was born, recorded in Luke 2, and more song lyrics in Revelation 5, 7 and 15.

Americans: Addicted, Addled, and Adrift

Big pharma spends \$15 billion per year on TV advertising, and they do it because it works. Americans, as if they had nothing better to do, watch more television than any other people in the world, and the lion's share of the commercials on those TVs are from pharmaceutical companies.

“We have a Pope,” and He’s Another Open Border Leftist

He won’t be caught singing Lee Greenwood’s “God Bless the U.S.A.” This “American” pope is not proud to be an American. This pope has been attacking President Trump and Vice President Vance for weeks on the social media platform X and seems guilt-ridden over America’s success.

Open letter to VA Secretary Doug Collins

I have read your statements pledging to benefit Veteran's Care. Much of what you have done is beneficial and I am sure is in good faith. But, you can't continue the terror felt by most employees forever. It is demoralizing.

Citizens Can Stop the C02 Pipeline Steamroller

The Carbon Capture Pipeline is a scam that has nothing to do with protecting the environment. It is simply a weapon to take valuable farmland as evil forces work to impose their global agenda on us. The key weapon for stopping the threat is to fight for protection of property rights. Local elected officials must make the determination – who do they represent? – private corporations and non-elected Boards, or the people who elected them?

DOGE Is Doing the Clean-Up

the Leftists Created and Can't Stand

DOGE has also found that California, New York, and Massachusetts, three deep-blue states – surprise, surprise! – were responsible for over half of the fraudulent unemployment claims in the United States since 2020, again involving massive mountains of money.

It's Time to Put Earth Day to Bed and Get on Taking Care of God's Creations

Earth Day popped up its dizzy head again this year. I was silly thinking that, because the whole Earth Day/Climate Change/Global Warming fraud had been exposed so well over the past decade or so, that we would celebrate farmers, ranchers, coal workers, homesteaders, and all the rest of those working to keep God's green earth truly green and thriving.

Kash Patel the Relentless Force Is a Man on a Mission

So let the satirists spin their tales. They're merely echoing what patriots already feel: the system is broken, and Kash

Patel is the man to fix it. The Dunning-Kruger Times may have fired a fictional shot, but Patel's real battle is a revolution of truth. He's not hunting Pelosi's aides with a dragnet; he's hunting the lies that have poisoned this nation. The swamp is trembling, and they should be.

The Sissification of Christianity

Americans love watching brave men. We live vicariously through them as we witness the controlled violence before us. Our nation dedicates an entire weekend to Super Bowl Sunday. Churches gather men together to watch the gladiators compete. All men and women love bravery. It is the most noble of character traits.

Why Are We Devolving America's Western Culture? Can We Save Ourselves?

The biggest lesson I learned: you can't mix incompatible cultures because they always end in conflict. You can't maintain competing languages in the same country. Why do you think Pakistan and India separated? Answer: totally incompatible religions, cultures and languages!

Are You Religious Enough?

It seems quite obvious that the State of Wisconsin's desire to have as many employees in their unemployment insurance system as possible is driving them to narrow the religious purpose exemption. They are so focused on the ministerial aspects of religious purpose, they ignored all the other possibilities.

Trump Should Fire His Lawyers

A blonde air head on the business channel CNBC asked the CEO of the toymaker Mattel "Is Christmas at risk?" because of Trump's tariffs on China. President Trump must rise above this nonsense and take charge of American foreign policy, defending his tariffs and his massive deportation plans. He is the elected president.

Where Are Our Representatives Deriving Their Authority From If Not "We the People?"

First, I would remind every American that our rights come from God (Read the Declaration of Independence and the Minnesota

state preamble and look to Moses and the Ten Commandments above the Minnesota Supreme Court chambers) and not from the state's generosity.

The Creeping Shadow of Islamization is Spreading Across Texas

Texas must hold the line. The investigations must crush EPIC's ambitions. Residents must keep the pressure on, flooding public hearings and demanding accountability from leaders like Muns. Use the Second Amendment, and the spirit of the Alamo still burns bright in Texas. If EPIC City rises, it's a death knell for American sovereignty in Collin County.

Florida Has a Deadly Problem

Radioactivity at dangerous levels has spread through the air, soil and water in significant parts of the state. This comes from phosphate mining, of which uranium and radium are byproducts. The decay of these produces radon. Per the USDA.

Frugal Actions Save Lives

Lastly, call your City-council members, Commissioners, Representatives and Senators and share with them how proud you would feel if they were to exercise true, compassionate economy to save people, families and lives.

Trump Must Free the Slaves, Again

We are in a similar situation today as Lincoln was then, as federal judges constitute the new Confederacy, doing everything possible to defeat the central government, this time headed by President Donald J. Trump. We are in the midst of a life-and-death struggle to save the Republic from a foreign invasion engineered by the Biden administration.

Congressman's Frontal Lobotomy Was Successful

It was just a matter of time after President Trump legitimately won the election last November before some member of the Democrat/Communist Party USA in Congress files Articles of Impeachment. I knew it was coming. Anyone who followed the disgusting political lawfare war against Trump during his first term knew the cockroaches in Congress would try again if

Trump was re-elected.

How Do You Make Self-Worth & Self-Confidence Your Greatest Possessions?

Over the weekend, a major network reported on skyrocketing teenager suicides, lack of self-worth, and a general sense of malaise for millions of high school students across America.

Blood That Redeems

In a deserted New York City gradually being overtaken by nature, U.S. Army virologist Robert Neville has spent the last three years doing research to find a cure for the virus and searching for food and supplies. He is naturally immune from the disease, and he avoids being killed by the infected by coming out during the day and hiding from them in a heavily fortified house at night when they roam the streets.

The Systematic Killing of America, Part 7

By authorizing a central bank to control the country's money supply and the value of the dollar, Congress enabled government spending to skyrocket beyond all expectation. Politicians now could commit to projects that cost millions of dollars more than the existing revenue. The Federal Reserve in turn, could purchase the "excess" debt by printing more paper money, thereby inflating the economy.

Try It the God's Way

It's a spiritual battle we're in. Satan attacks children and families relentlessly, but to do that, he first must get a foot in the door by attacking husbands and wives in their marriages. One of his most effective tools is whispering in our ears that we "deserve better," that we are "entitled" to whatever we want, that we should come first. Jesus said the opposite.

Using Education to Attack Farmlands?

STEM was purposefully attached to Common Core in the hopes the SDGs (Sustainable Development Goals) would be further embedded

in our nations. For the USA, a report given to the former President was from the PCAST group. What's PCAST? It's an acronym for President's Council of Advisors for Science and Technology. Along with the Nation's Report Card, the PCAST Report was the second document he was handed.

Homogenization and the Dissolution of Identity

Homogenization of milk was introduced in America in the 1930s, and even earlier in France in 1899. Milk in its natural form has fat globules that rise to the top of the milk product, known as cream and from where we also get buttermilk and butter itself. The process of homogenization breaks down the fat globules into much smaller particles to prevent them from rising to the top and making cream, in essence making the milk of even and equal particles.

Another Refinery Closure in California Increases States Dependency on China

Over the last several decades, California's passion to transition away from fossil fuels has overregulated and overly burdened just the SUPPLY of oil production and refining but has not reduced the increasing materialistic DEMANDS of the

world for the more than 6,000 products and transportation fuels made from those fossil fuels.

Florida Politicians Are Destroying Lives and Freedoms

In addition to disenfranchising citizens and taking away their constitutional right to manage their own communities, Tallahassee is making some of its citizens sick, and worse – NOT just with their sleazy politics, but by standing on the side of dangerous and deadly business.

A Creeping Insidious Force is Threatening the Lone Star State

Texas, the unbreakable heart of American freedom, is under attack. A creeping, insidious force is burrowing into the Lone Star State, and it's not coming with guns or bombs; it's arriving with land deals, mosques, and a calculated plan to transform Texas into an Islamic stronghold. The evidence is undeniable

Trump, Russia, and the Threat of Total War

Like Trump, Reagan survived an assassination attempt. Reagan brought down the Soviet empire through a combination of military and monetary pressure, until Vladimir Putin assumed the Russian presidency and tried to bring it back, with his first invasion of Ukraine under President Obama and then a massive invasion under Biden. This is the world that President Trump inherits. With God's help, he will make the right decisions.

Why Do Democrats Want Trump, Thus America to Fail?

Governor Gavin Newsom of California, with \$76 billion in state debt, failing schools, destroyed medical systems, crime everywhere--spent \$25 million to "Trump-proof" his 4.0 million illegal aliens from deportation. In other words, Newsom's doing everything to help law-breakers continue to break the law.

Beginning of the End for the

Johnson Amendment (501-c-3)

The Johnson Amendment is the very definition of arbitrary and capricious. It was introduced by a United States Senator to protect his own re-election campaign. It was targeted not only at the non-profit organizations, some of whom were impacting Johnson's campaign, but at religious and other organizations.

Criminal and State Scoundrels Must Be Brought To Justice

If there is one drum that I have been pounding on since the first day of my ministry, it is justice upon the heads of the guilty (Isaiah 26:9). This article proves exactly just why that is. If there is a scoundrel amongst us in the halls of government, there are few that equal the reprobate wicked, and traitorous state of CIA-planted Minnesota Attorney General Keith Ellison (Luke 22:48).

Is the American Political System Broken Beyond Repair?

Trump's enemies spent the next four years trying to destroy him, using every legal/judicial tool they could command. They tried to keep him off the 2024 ballot as an "insurrectionist." They accused him of concealing payments to a porn star,

cheating by overvaluing his properties, making off with classified documents, and of being a sex abuser and rapist. Did I miss anything?

Is Trump the President or Not?

I, for one, am getting sick and tired of those weak-kneed “conservatives” who think somehow that the president must take orders from the Court. He takes order from our founding documents, the Constitution and Declaration of Independence. The response, if people disagree with him, is impeachment by the legislative branch.

New Transparent Government? What about KAL Flight 007?

It's taken 62 years to release the files who really killed President Kennedy? A 62-year cover-up. Yes, promises have been made to release everything that's been withheld, 63,400 pages which I haven't read. However, many who are combing through those pages say it's pretty much nothing we haven't known for decades.

Earth Day: Let's Take Stock of How Much Damage We're Doing To This Planet

It wasn't until 1983-84 when I took a bicycle trip around the world where I touched down on four continents. That adventurous journey to see overpopulation firsthand knocked me upside the head. China just about hit 1.0 billion along with India. I witnessed people stacked up on people beyond anyone's comprehension in Europe, Canada and America. Who could imagine expressways with 50 lanes in one direction, which is their reality in 2025?

The Systematic Killing of America, Part 1

I do not enjoy writing articles like this but my LORD has commissioned me and I shall obey Him. Christians had better awake from their religious coma and hear what God is saying to the church in America. This article was written with the help of a new book, the "Killing of Uncle Sam" by Pastor Rodney Howard- Browne and Paul l. Williams.

Marriage & Family – Doing Life Right

Proverbs 18 tells us that “he who finds a wife finds a good thing and obtains favor from the Lord.” Proverbs 31 reminds us that our wives are more precious than jewels. Guys, don’t take your wife for granted. Instead, go out of your way to intentionally serve her on a regular basis. Be a gentleman. Protect her, provide for her, make her life easier and give her the security of the assurance of your love.

Islam: America’s Historical Failure

Fellow Americans, it is time for us to confront the advancement of Islam in America. The destiny and survival of the free world are at stake. Avoiding this responsibility would be an unpardonable act by every enlightened individual and organization that values humanity.

Only Communists and Idiots Prefer Income Tax Rather Than

Tariffs

Again, as is my wont, I have covered only some of the key points, otherwise I would have to write a book for far fewer readers. I have noticed that few federal officials are aware of some of the points covered. My compensation for the time and risk of writing is for readers to voluntarily forward articles to federal officials who would appreciate it as much as the devil appreciates the cross.

What Is Our Future

The original system was meant to give states a direct role in federal governance, but it resulted in federal overreach by reducing states' ability to check the national government. Then, the Supreme Court expanded its role by asserting its power to declare acts of Congress unconstitutional.

Is Liberalism Dead (In All Forms)? – Part 5

It was the kind of economy that prevailed prior to the industrial revolution. If you go back enough centuries, huge tracts of arable land were owned by no one. They were settled and homesteaded. When feudalism came (12th century or thereabouts), its lords turned land into enclosures. Former homesteaders became serfs if they remained on land now owned

by someone much more powerful than them.

America at the Tipping Point

In short, we need to open our eyes and see how the scheme played out in Europe. Much of Europe is already past the stage of no return. This is not a game. This is real. This ideology will devour your entire family, both Republicans and Democrats, if not now, soon enough. Americans need to wake up now and stop Islam from growing to the point of no return.

Unleash Mass Deportation: Due Process for Citizens, Not Illegal Aliens

You need to speak up, write up, and stand up for your country. Cut, paste, and send this letter into your senators and House member. Thank you to Merlin for the bulk of this column. We either take action for preservation of our country...or consequences will visit us in greater tragedies, endless crime, homelessness, lack of American representation, schools trashed, growing loss of pride in America, and ultimately, an unsustainable civilization.

JFK File Released 62 Years Late – If This Does Not Define Cover-Up, What Does?

It does not get any plainer than the nose on your face when it comes to the fact that for over 62 years, your government, let me say that again, YOUR GOVERNMENT has been covering for the conspirators, themselves and those whom they have covenanted with, (Isaiah 28:18) who are guilty of murdering their president! Innocent people do not conceal the truth, they reveal it (Luke 12:22).

How and Why “Free Trade” Came to America

William J. Gill had it right – the real trade wars were being waged against America. Unfortunately, his legal case, which argued that NAFTA violated the Constitution of the United States, was dismissed. The governments of Canada and Mexico intervened on behalf of President Bill Clinton, who passed NAFTA and its implementation act with the assistance of Republican Newt Gingrich in the House of Representatives.

Military Used For 80 Years as CORPORATE MERCINARIES, Never for National Security

I will continue to write what I determine to be useful and lawful truth. If the FBI remains corrupt and comes after me, so be it. In the meantime please use my articles to inform your members of congress. Most members of congress will appreciate this information as much as the devil appreciates the Cross.

Retaining Your Wealth in a Worrisome World

At some point in the coming debacle, or “Great Unraveling”, we will reach the point when virtually the only “safe” investments will be precious metals and real estate. However, precious metals and real estate ownership will only be safe if they are located outside an endangered jurisdiction.

Deport the Judicial Oligarchs

With the Supreme Court ruling 7-2 against the Trump Administration on deportation of foreign terrorists and gang members on American soil, the so-called “Supreme Court,” with

two exceptions, has been exposed as the long arm of the Deep State. Deport the Seven. These are the real oligarchs.

New Government? Transparent Former Congressman: What About 9/11?

Last week my column covered our new “transparent government” and a former NSA long time (well over 30 years) employee; Technical Director considered a genius in his field who became a whistleblower: Bill Binney. If you missed it, take the time to at least watch the documentary embedded in my column, A Good American.

Why America Can't Fix Itself Or Correct What's Happening

This entire situation with the MS-13 illegal alien Kilmer Abrega Garcia stuns any rational, reasonable, and common sense American citizen. He violated our borders. He beat his wife numerous times. She took out restraining orders against him. He trafficked other illegals without a license. Two judges deemed him an MS-13 gang member. He is not a citizen. He has no rights to ‘due process’ under our Constitution. He belongs in prison in El Salvador.

An Audience of One

Special courts were established by 1934 to penalize anyone who refused to perform the Nazi salute. The penalties varied from fines or intimidation to incarceration in detention camps. Knowing this, Landmesser still refused to do the salute even with the peer pressure of everyone around him doing it and in the presence of Hitler himself.

The Day Will Be Both Great and Terrible

Following repentance comes a lifetime of sanctification. And understand that you were saved to serve. To minister. To witness. You need to be more eager to lay down your life for the sake of Christ, if that should be required of you, than you are to simply spend your time on earth in comfort, luxury and ease while you await your heavenly “reward.” Because you may not get the “reward” you’re expecting.

The Resurrection of Jesus and

the Victory of Eternal Love

Those gifts produced a faith and a love, renewed every Easter for the last two thousand years, that have transformed the world. In spite of the flaws of many individuals who struggled to live up to the transcendent love of God and Jesus, the victory of the eternal love of the resurrection has never been lost.

Cinco de Mayo – Know Your History

So don't be surprised with a nation recently over run with 15 million illegals from south of the border that we see an effort to make May 5th, an ostensibly anti U.S. Chicano Movement, turned from national party time into a federal holiday. Is it still okay to Remember the Alamo? At least we still have Columbus Day.

This is An Easy Way to Do Your Duty to Send Your Orders to Congress

It is usually difficult for the average person to find the time to collect the information required and format it to give

his or her orders to their elected representatives. I have attempted to do the work for you in a simple format that allows you to add or subtract items as you desire. See the suggestions below. Then all you do is mail or email to your elected members of Congress.

Automatic License Plate Readers

There will always be tension between our desires for privacy and safety. We're all for privacy, until we find that an invasion of said privacy could have stopped some terrible event. But are we willing to trade our privacy for safety? As Benjamin Franklin said: "They who would give up an essential liberty for temporary security, deserve neither liberty or security."

Islam's Dark Cloud Spreading Over Europe

As the continent faces these challenges, the international community must observe closely. The decline of democracy in Europe will not only change the global balance of power but also serve as a cautionary tale for nations worldwide. The time to act is now, before the ideals of liberty and self-governance are lost to history.

How To Destroy America: Long Drawn-Out Decline

Today, we see guys pretending to be girls. They're giving psychologists headaches trying to figure out what kind of mental illness to categorize them. We've got "gays" parading around like crazy people wearing absurd outfits and performing sickening acts of decadence. Morality, children, ethics and rational behavior be damned! Anyone want them in uniform defending our country?

Net Zero Policymakers Remain Oblivious That Electricity Came AFTER Oil!

Today, "Net Zero" policymakers setting "green" policies are oblivious to the reality that so-called "renewables", ONLY generate electricity but CANNOT make anything. In addition, everything that NEEDS Electricity, like iPhone and computers, are made with petrochemicals manufactured from crude oil, coal, or natural gas.

Was Your Favorite Preacher Crucified For You? Then Why The Division & Contention?

When you look at Godly men such as John Calvin (Calvinism-Presbyterians), John Wesley (Wesleyans), John Smyth (Baptists), Martin Luther (Lutherans), etc. do you think that within themselves that these men wanted a denomination that would take up their names? Absolutely not!

MoveOn...NO!

Americans have become accustomed to “going-along to get-along,” but there are some things that we just can’t move-on from without confronting the issue and fixing what was broken. In a nation focused on precedence rather than the rule of law, we cannot allow bad precedence to stand.

Trump Versus the Big Banksters

Antony Sutton’s 1974 book, Wall Street and the Bolshevik Revolution, documents a link between U.S. banking interests and the Bolshevik cause, the subsequent rise of Communist China, and the invasions of South Korea and South Vietnam,

resulting in 100 million dead. In addition, tens of thousands of American military personnel died attempting to stop the advance of international communism.

The Latest SCOTUS Gun Rights Infringement

I don't know which of the three branches of government does the most to infringe on your rights. Take, for example, the recent Supreme Court decision in the case *Bond v. Umstead*, where Mr. Umstead challenged the recent regulation from the Bureau of Alcohol, Tobacco, Firearms, and Explosives redefining weapons parts kits as firearms. It seems the Supreme Court has a hard time reading either the law or the Constitution.

New Government? What About Bill Binney?

A new dawn seemed to open up for America when Donald Trump was announced reelected by tens and tens of millions of Americans last November. Who knows the exact count because there were voting problems both human and likely machines. Not enough this time around to stop the overwhelming support for Trump. But, hey, let's try a couple of assassination attempts to get

rid of him!

If You Could Destroy America: How Would You Do It?

Over 20 years ago in 2003, Colorado Governor Richard D. Lamm gave a speech in Washington, DC on how to destroy America. He titled the speech, "The Eight Ways to Destroy America." I sat in the crowd, dumbfounded at his brilliant/sobering points on how to take down our country. At the end, no one applauded because they were pretty stunned

Is the World About to Destroy Itself?

The masses become more corrupt, perverse, confused. They are ever more robotized, subject to insidious forces that lead them. They worship shrewd, cunning leaders who parade them straight into the calamity just around the bend.
