

Children To Become “Critical Agents Of Change” With Agenda 2030

James Warburg, testifying at a hearing on revisions of the United Nations Charter, stated that we would have world government whether we liked it or not. He also stated that the only question was whether it would be by consent or by conquest and Goal 4, of Agenda 2030 demands the indoctrination of all children worldwide, with kids described in the agreement as “critical agents of change” who will rely on the Sustainable Development goals to “channel their infinite capacities for activism into the creation of a better world.” And in the 1980 EARTHKEEPING book, the author urges Christians to support Bread for the World and New Agers are to request their people to become “agents of change” and to become “active agents in changing local, national, educational and ecclesiastical structures.”

Do these statements make you feel all warm and fuzzy after we saw young women (snowflakes) weeping when their heroine, New World Order Hillary Clinton with alleged Parkinson’s disease got beat for President? Rush Limbaugh just reported that Supreme Court Justice Ruth “Buzzi” Ginsburg had fallen and cracked some ribs and young folks under 30 are offering their own ribs on social media and whatever organs she might need.

And Oregon elected transgender Democrat Kate Brown as governor again who made sure she gave her victory speech in front of a dozen or so clapping young children which she commented being the future leaders.

EARTH PATRIOTISM

Yes, indeed, children worldwide must be so thoroughly indoctrinated that they will not just submit to the UN

ideology known as “sustainable development,” but actually go out and “promote” it. “By 2030, there will be the assurance that all learners acquire the knowledge and skills needed to promote sustainable development, including, among others, through education for sustainable development and sustainable lifestyles.” Goal 4: adding that children must also be indoctrinated into “global citizenship” and the UN’s perverse view of “human rights” that is totally at odds with the

God-given rights recognized by America’s Founders. In the book AND THE TRUTH SHALL SET YOU FREE, the UNESCO Association Schools project was “dedicated to preparing children and young people to live in a global society and to develop their attitudes of “Earth Patriotism” that are vital in an increasingly interdependent world.

A MENTALLY DERANGED WORLD

Earth Day 2019 is an event observed annually on April 22. It is a day held to demonstrate and promote environmental awareness and calls for the protection of our planet and celebrated in more than 193 countries each year. The Psychiatric Industry once noted in its diagnostic manual that homosexuality was a mental disorder until its lobby got it removed so likewise could these New Age folks with friends in unconstitutional government agencies who destroyed Oregon’s timber industry be diagnosed with something similar? Oregon’s once vibrant timber towns are now ghost towns with a tavern and a grocery store waiting for vacationers to visit.

In August 2018 it was noted wolves had returned to Northeastern Washington and were killing sheep and non-lethal measures had not been successful so ranchers wanted to shoot them, but some environmental group challenged a kill order before any action had been taken and filed a lawsuit. It has

stirred up quite a controversy. One cattleman said they were getting threatening phone calls. Recently you saw on the news where many Congress people were being threatened for some reason with harassing phone calls and mysterious packages delivered to their homes by more mentally deranged folks . Here's another reason to subscribe to NEW AMERICAN. The Nov. 5, 2018 magazine has an article: MOMMY, DON'T KILL ME and in addition to describing the sickening procedures, testimonies of women's regrets, I wonder how many folks that don't want the wolves killed are pro-choice. [[Link](#)]. The Nov. 5th NEW AMERICAN has a movie review about Kermit Gosnell who did late-term abortions in theaters now.

NOTHING MUCH CHANGES

An article I wrote on Nov. 7, 2004 the day of that election illustrates nothing much had changed from today. [[Link](#)]. However, we elected Donald Trump in 2016 and thus far, he has been driving a wedge through the Deep State/United Nations plans which tells voters they had better stay involved in their party and not only vote, but become precinct committee people unless they want their children to become little "communist change agents." It's already happening in our schools but it's not too late.

SUSTAINABLE DEVELOPMENT THE DEATH OF WESTERN CULTURE

What the heck is Sustainable Development you may ask? With the help of Alex Newman in the August 20, 2018 NEW AMERICAN magazine, I shall endeavor to acquaint you with this very dangerous socialist/communism agenda. [[Link](#)]

In fact, the magazine's headline topic was entitled DEEP STATE IN ACTION and this is what we've seen in action since the election of President Trump-chaos. Another article explains how the Deep State globalists are using mass migration to de-Christianize the West. Once again, I would recommend readers subscribe to this excellent magazine. The 8/20/2018 magazine

may be ordered by phoning 800-727-TRUE costing \$3.95 plus postage. One year subscription- 24 issues – \$49.00 and would include Constitutional voting records of elected officials.

The UN Agenda 2030, often dubbed the Sustainable Development Goals (SDGs) or the Post-2015 Agenda, is one of the international agreements being used to impose a global government on humanity. Believing God has failed, the deal adopted in September of 2015, formally entitled “Transforming Our World: the 2030 Agenda for Sustainable Development,” calls for radical, centrally directed changes in the lives of every person on the planet. [[Link](#)].

There are 17 “Goals” in all, with 169 “targets,” that, taken together, would replace liberty, self-government, free markets, and nationhood with totalitarian technocratic rule at the global level. Reading the document, that much becomes clear:

Mass murdering communist and Islamist dictators expressed fervent approval of the plan. Indeed, the regime controlling mainland China, which has murdered more of its own citizens than any other government in history, boasted publicly of its “crucial role” in developing Agenda 2030. Former NATO chief Javier Solana, a socialist, touted the plan as the next “Great Leap Forward.”

Then-UN Secretary-General Ban Ki-moon also made clear the significance, calling the agreement the global “Declaration of *Interdependence*,” even as he was busy touting the UN as the “Parliament of Humanity.” (Emphasis added). Speaking at the opening ceremony of the UN confab that adopted the scheme, Ban called Agenda 2030 a “universal, integrated and transformative vision for a better world.” “We need action from everyone, everywhere, “ he continued. “We must use the goals to transform the world...Institutions will have to become fit for a grand new purpose.”

The text of the agreement makes clear the nature of the scheme. "This Agenda is a plan of action for people, planet and prosperity," reads the preamble. "All countries and all stakeholders, acting in collaborative partnership, will implement this plan. The preamble also claims the UN goals will "free the human race from the tyranny of poverty," though nearly 80 years of UN anti-poverty efforts have done little to reduce poverty, says Newman.

USING FEAR TO SCARE OUR CHILDREN

The scheme also claims it will "heal" the planet, or "Mother Earth" as the UN agreement refers to it. Not-so-subtly purporting to usurp the role of God, the UN even claimed that the "Future of humanity and of our planet lies in our hands." Here we go again, they use the fear factor. In May 2016, CBS reported a little 6 year old from Vernon, Washington went viral as he laments over how we are destroying the environment . This is an Agenda of unprecedented scope and significance," boasts the document. "Never before has world leaders pledged common action and endeavor across such a broad and universal policy agenda."

GLOBAL TOTALITARIAN ROAD MAP

The specifics are even more troubling. In fact, Newman says Agenda 2030 is essentially a road map to global totalitarian rule over humanity.

The UN Agenda 2030 mandates national and international wealth redistribution too. Goal 10 commits to "reduce inequality *within and among* countries. " (Emphasis added) That will "only be possible if wealth is shared and income inequality is addressed." Also part of the plan is to "ensure that all men and women, in particular the poor and the vulnerable, have equal rights to economic resources," This is, of course, the language used by communists and socialists for more than a century, and now it is enshrined into what globalists dub

“international law.” But even wealth redistribution is just the socialist start; the governments agreed to take control over the means of production: “We commit to making fundamental changes in the way that our societies produce and consume goods and services. “ Government-controlled “universal health coverage” and “vaccines for all” are also mandated.

FEDS STILL IMPLEMENTING AGENDA 2030

While many conservatives believed the election of Donald Trump meant the excesses of the Obama years were over, vast swaths of the federal bureaucracy are still implementing Agenda 2030 and the rest of the UN’s globalist agenda. [[Link](#)] In 2011 and again in 2016, the Obama administration’s Environmental Protection Agency (EPA) quietly signed a deal with the United Nations Environment Program (UNEP), vowing to cooperate on everything from climate-change “education” to imposing UN agenda 2030. The EPA-UNEP agreement, which went almost entirely unnoticed until now, bypassed normal constitutional and legislative procedures and facilitates what one leading critic described as the “globalization” of the U.S. government. And so even while President Donald Trump has announced that America would withdraw from the UN Paris Agreement on “global warming” and other UN schemes, federal bureaucrats hiding in the unconstitutional agencies are still dutifully working to implement them all.

The so-called Memorandum of Understanding (MOU), that was sent to THE NEW AMERICAN magazine by a high-level source within the environmental movement, claims that the “UNEP and the EPA share common goals and objectives” and that the EPA and the UN will “consolidate, further develop and intensify” the “cooperation” and “effectiveness” of the two in achieving “their common goals and objectives.” Under the plan, the EPA purports to have the power to cooperate with other governments and international organizations “to protect the environment globally.” And among the goals outlined in the document, the joint EPA-UNEP scheme provides the “framework” via which the

UN and the EPA can cooperate in the “implementation of the 2030 Agenda for Sustainable Development, including the Sustainable Development Goals, and through which they may intensify such cooperation.”

Under the agreement, the EPA and the UNEP agree to cooperate on a broad range of initiatives. Among the areas where the two vow to work together with governments around the world is the implementation of UN environmental agreements, including the changing and enforcing of laws and regulations to meet UN demands. The scheme also calls for working together on “education,” including on “climate change.”

OUR GREEN ECONOMY, THE ESSENCE OF COMMUNISM

The agreement purports to commit the EPA and the U.S. taxpayers who fund it to help the UNEP and other governments in “Transitioning to a Green Economy.” That specific clause calls on the EPA and the UN to promote UN programs such as the “10-year Framework of Programs,” a Marxist-style global scheme that aims to use government to make production and consumption “sustainable” as mandated under Agenda 2030. The entire “sustainable development” agenda is totalitarian to the core, calling for government control of consumption and production, the very essence of communism.

It was not immediately clear how the EPA under the Trump administration was dealing with the MOU. But according to the terms of the scheme and an official in the agency, it will remain in force for five years from the date it was signed, with the option to extend it at any point prior to its expiration. The agency did not offer much in the way of answers, only saying it was still active while referring questions on substance to other bureaucracies. A plethora of agencies means no one is held accountable. [[Link](#)] [Property-Rights are in jeopardy when these agencies meet behind closed doors](#). This is the standard operating procedure used by the UN and its globalist agents to avoid our Constitution. For them

our founding document is just a trouble-some nuisance. Even as President Trump walks away from the Paris Climate Accord, with this MOU in place the EPA has still agreed to its basic implementation.

ENTER PRESIDENT DONALD J. TRUMP

The Newman article then goes on to explain about Agenda 21 before Agenda 2030, the Paris Agreement (Goal 13). Everything was going according to plan until Donald Trump, who on the campaign trail publicly described the man-made global-warming hypothesis as a “hoax,” was elected President. One of his promises was to quit sending money to the UN and about six months into his presidency, he announced publicly that the U.S. government would be withdrawing from the Paris Agreement after the allegedly required four years of waiting time had passed. His base was excited, and celebrations broke out among conservatives.

But the threat is far from over. For one, the U.S. government is still technically involved. Second, the federal government continues to fund many of the globalist organizations and foreign governments that are busy implementing the Paris Agreement, ranging from the UN and the World Bank to Third World regimes around the world.

And finally, more than a few state and local governments all Democrat controlled have vowed to continue implementing the illegal schemes with or without the feds such as Portland, Oregon. Former Vice President Al Gore confirmed on 9/12/1998 at the dedication of Portland’s Light Rail, “a lot of ideas are started and tested here in Portland.” On 8/9/2018, Portland is back in the headlines again with their E-SCOOTER REVOLUTION AND ELECTRIC CARS. Their goal is 1800 scooters which began arriving a month ago so grab your helmet. A 10/4/2018 story was about a Portland woman who had serious injury and ended up in a wheel chair – 25 injuries had been reported thus far and the numbers are growing.

At least a dozen states and many more cities have vowed to implement the Paris Agreement. In the case of California, authorities have even defied the U.S. government by signing that state's own "climate" deal with the communist regime ruling China. And let us not forget the Bolshevik, New York City Mayor Bill DeBlasio who announced on May 1 that it would become the first American city to "submit" a review of its "progress" on implementing Agenda 2030 directly to the UN.

AMERICANS MUST WAKE UP FROM THEIR SLUMBER

If Americans hope to avoid the horrors of totalitarian global governance, it will require organized action at all levels. Ensuring that these policies do not take root at the local level is key. Simply voting is no longer enough. Christians are aware the Bible refers to a One World Government and we know it could be tomorrow but it's not going to be fun so pastors encourage your members to lift their lazy butts off the pews and get involved. [[Link](#)] At the national level, Americans must pressure Congress and the White House to begin dismantling the whole "sustainability" apparatus within the federal government and stop surrendering our national sovereignty to a UN world government. Phone Pres. Trump (202-456-1111) and your representatives (202-225-3121) and senators (202-224-3121) to support H.R. 193, the American Sovereignty Restoration Act.
